(Continued on page 630.)

Edgemoor

We are now offering for sale blocks and lots in Edgemoor, the new suburb on the Chicago Central Ry. at 79th street. Edgemoor is one-half mile square and includes 160 acres of the beautiful ridge property in the South-West part of the city with an East frontage on Western Ave. and a North frontage on 79th street. The Chicago Central, the Northern Pacific's new suburban road, runs directly through the center of the property with a depot at 81st street. On this road will be inaugurated by June 1st, the most complete train service as to elaborateness of equipment and quick running time given on any suburban road in the city. The scheduled time from Edgemoor to the Grand Central depot will be 22 minutes. The South 80 acres of Edgemoor is being improved in a high class manner. The contracts for the side-walk and curb and gutter work have been let to The North Western Asphalt Co. The walk is built of granite and cement and is six feet wide. The combined curb and gutter is also built of granite and cement, the gutter being eighteen inches wide. Edgemoor is the only residence district in Chicago, outside of the boulevard frontages, where the curb and gutter combined has been put in. The contract for the macadam work has been let to Eggleston, Mallette & Brownell and calls for a high grade of work. A double row of trees of the Catalpa variety, are being planted, one row on the park-way which is 12 feet wide. A special form of warranty deed is used in conveying the property which provides for a 20-foot building line and a $3,000 building restriction. Contracts for four houses to cost $5,000 each have already been let and they will be completed and occupied by June 15th. Every effort will be made to make Edgemoor a high class residence district. Lots will be for sale for the next 60 days at prices 25 per cent less than the same grade of property can be purchased anywhere else in Chicago. We are prepared to offer special inducements to individual investors and syndicates who will take a five-acre block interest in the property. Liberal commissions made to brokers and agents.

HAZLEWOOD & WRIGHT,

1316 CHAMBER OF COMMERCE BUILDING.

A RARE OPPORTUNITY.

20 ACRES JOINING EDISON PARK.

A fine tract, on two section lines, with streets opened and sidewalks laid to it. It is 50 feet above the lake, with beautiful surroundings. Distance only 35 minutes' ride—34 trains daily. There is a profit of 200 per cent in it, at least, to subdivide or syndicate it. Don't fail to investigate it. ONLY $500 PER ACRE.

SEND FOR LIST OF ACRES.

A GREAT
Overflow in Harvey,
Not of Water,
As Harvey is from 22 to 28 feet above datum, but
Of Workmen.

Who have come to Harvey to work in some of the new factories just completed.

There are over 600 houses in Harvey, but every one is occupied. A great number of these workmen are boarding and storing their household goods until houses can be built.

Can you not buy a lot and build a house at Harvey, thus helping yourself, as you can get from 20 to 25 per cent. income, and helping those who are waiting and willing to rent and buy.

We extend a cordial invitation for all to visit Harvey, thus making a personal investigation. It will cost nothing, but may prove of great benefit to you. Call at the office of

The Harvey Land Ass'n,
819 to 825, The Rookery.
Corner La Salle and Adams Streets, Chicago, Ill,

Cottage Grove av 4026, Fred W Friedberg, 4 story flats. $12,000.

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

CHICAGO, MILWAUKEE & St PAUL R'Y., CO.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

20 MILES OF MACADAMIZED STREETS AND STONE SIDEWALKS.

Extensive Improvements are under way, and within Sixty days Ten miles of streets will be macadamized. Special inducements are offered to parties who wish to organize Clubs or Syndicates for the purpose of purchasing a block or selecting a number of choice business lots.

The Best Savings Bank is Real Estate Judiciously Purchased.

Lots within the business center of Chicago could be purchased within a comparatively short time for a few hundred dollars, and were within the reach of all who desired to invest. The wise people who invested a small amount of money in Chicago property are now rich. The lots they purchased for a few hundred dollars are selling now for thousands of dollars per foot. Chicago's wonderful and natural growth has been the cause, and Chicago has only begun to grow.

Buy a Lot at Chicago Heights,

Pay for it and let it alone for a few years. The investment will make you independent. 500 houses can be sold as soon as erected. Contractors and builders will make the greatest mistake of their lives if they fail to take advantage of the splendid opportunities offered them at Chicago Heights.

Eight Large Factories in Full Operation.

Negotiations pending with a large number of factories which have an established business of long standing as well as a national reputation at home and abroad.

Free Factory Sites, and a Liberal Cash Bonus

Will be given to Factory establishments of good standing.

The Largest Factory in America

Heroy & Warrener, of New York, the largest Plate Glass people in America, have located at Chicago Heights, and their extensive factory covering Eight Acres is in course of construction.

Superb Transportation Facilities.

Chicago Heights is located seven miles south of the city limits, on the Chicago & Eastern Illinois Railroad, Michigan Central Railroad, Elgin, Joliet & Eastern Railroad, Chicago's great belt line, which makes connection with every railroad entering the World's Fair City, making this point a great railroad center, thus affording transportation facilities unequalled by any manufacturing center. In addition to this, Chicago freight rates prevail to and from all points, thus making it possible for manufacturers to enjoy the same commercial advantages as though they were located in the very center of the city.

Pure Spring Water and Pure Air.

The land is high and admirably adapted to the uses to which it is to be put. It lies 120 feet above the level of Lake Michigan, is beautifully undulating, and partly wooded, while a never-failing stream furnishes an abundant supply of pure water, which, with the pure air afforded by the high altitude, makes this one of the most healthful and charming places about the city. In addition to these advantages it possesses good churches and schools.

Stability of the Enterprise.

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

DIRECTORS:

C. H. WACKER. **E. S. DREYER.** **JAMES E. McELROY.** **GEORGE BURRY.** **FRANCIS LACKNER.**

STOCKHOLDERS:

E. S. DREYER, of E. S. Dreyer & Co., Bankers, cor. Washington and Dearborn sts.
ADOLPH LOEB, Banker, 120 La Salle st.
WASMANSDORF & HEINEMAN, Bankers, 145 Randolph st.
JOHN BUEHLER, Banker, La Salle and Randoph sts.
C. H. WACKER, of Wacker & Birk, Brewers.
JOSEPH THEURER, of The P. Schoenhofen Brewering Co.
LEIGHT & BARTHOLOMAE, Brewers.
RUDOLPH BRAND, President of the United States Brewing Co.
H. GRUSENDORF, Lumber Dealer.
GEO. W. KELLNER, Schmidt Brewing Co.
GEO. W. WEISS, President American Brewing Co,
JOHN CUDAHY, Packer.
MICHEAL CUDAHY, Packer.
JOSEPH AUSTRIAN, of Leopold & Austrian, Transportation Co.
D V. PURINGTON, Brick Manufacturer.
FRED'K REITZ Lumber Dealer.
JAMES E. McELROY, Real Estate, Chamber of Commerce Building.
RUDOLPH E. RHODE, Wholesale Druggist.
C. D. OTIS, Capitalist.
FRANCIS LACKNER, of Lackner & Butz, Attorneys.
GEORGE BURRY, Attorney.
WILLIAM VOCKE, Attorney.
PETERSON BROTHERS & CO., Grain and Commissi Merchants.
A. T. OTTO, Capitalist.
D B. LYMAM, Capitalist.
THOMAS B. MARSTON, Capitalist.

You will kindly observe that this Association comprises a body of the most successful, wealthy and influential citizens of Chicago. The great experience of these gentlemen in their several walks of life, whether professional, commercial or financial, is readily at the disposal of the Association. The numerous founders of the Association are one and all eager to promote its welfare and to protect and shield it by their watchfulness and experience.

Finance and Trade.

A review of the past week is not without encouragement, despite the general dullness caused by bad weather and impassible roads. Reports from the States of Arkansas, Illinois, Iowa, Louisiana, Maryland, Minnesota, Missouri, Ohio and Kansas, show that much damage has been done by floods and storms. Crop statistics continue unfavorable. In some localities farmers are said to be thoroughly discouraged. The events of the next few weeks are looked forward to as likely to determine the crop future of the year. There is much solicitude at all the great financial centres as well as among the farmers themselves over the prospects of a partial failure of crops. Still, conservative judges are of the opinion that with fair weather from now on the present gloomy predictions will not be verified. Old-timers remember that in previous years planting has been delayed even later than this with no serious results. Then there is a vast difference between a cold dry spring and a cold wet spring. The present is decidedly of the latter variety and may turn out for the best after all. In many sections which have hitherto suffered greatly from drouth the present heavy rains will be welcome. A good, long season of warm sunshine is hopefully looked for and it would work wonders in the development of crops in territory which now appears to be utterly submerged.

The week has witnessed a boom in the Chicago stock market, especially in street railway securities. In this stock all past records have been broken. Heavy buying orders have been the rule with few efforts to sell. West Chicago street railroad has reached 146½ and North Chicago 196, the highest points yet reached by these stocks. Observers are of the opinion that something is brewing in these properties that is responsible for their rapid advance in price. The story on the street is that the capital stock is to be increased from $5,000,000 to $10,000,000, the new $5,000,000 to be offered to the present stockholders at par and the money thus secured to be used in equipping all the horse-car lines with electricity. Officers of the company deny that any such issue of stock is at present proposed, but prominent members of the exchange assert their belief in the story in spite of the denial.

The discouraging storm reports have had little appreciable effect on the Chicago stock market, but have exerted a strong bear influence on the New York exchange. The prominent stocks in Wall street have sold off from ¼ to 1 per cent under the influence of the telegraphic dispatches from the flooded districts. Reading has held its own Richmond Terminal has suffered. Friends of the latter are confidently expecting an upward movement in event of the success of the efforts to reorganize the Richmond Terminal on the new plan which includes the absorption of the Georgia Central. New York operators, however, profess to be alarmed at the state of affairs reported from the storm districts of the west and are looking forward gloomily to a drop in securities all along the line.

Chicago bank clearings have shown a slight falling-off as compared with last week. The demand for money remains about the same but if anything a firmer tone is noticeable. This is partially accounted for by the increased activity on the stock exchange The ruling rates are 5 per cent on commercial paper and 4 per cent on all loans.

The annual report of the Director of the Mint is interesting as showing the net loss of gold to this country by the gold shipments to Europe since February, 1891. During six months beginning February, 1891, and ending in the latter part of July of that year, gold was exported from New York to the amount of $70,283,494. Since the commencement of the present calendar year the gold exports have amounted to $6,630,000, making a total movement of $76,813,494. The return movement has aggregated $36,173,357. Therefore the net loss of gold to the United States through the Port of New York alone from February 13, 1891, to April 1, 1892 amounted to $40,640,137.31.

Under the influence of adverse crop reports corn advanced to 55 cents on Thursday, a gain of nearly 3 cents for the day. Reports of winter wheat, continue to be on the whole favorable. Despite reassuring reports from the northwest wheat advanced, and would doubtlessly have lifted further but for the lack of more energetic response from the other side. This present rise in prices will in part compensate farmers for the deferred hopes as to the future.

The activity in the local securities has had an effect in keeping down the large balances of the Chicago banks, which remain, however, still at a high figure. Mercantile demand for accommodation continues high, though good paper can be discounted with considerable freedom anywhere from 4 to 5 per cent. In New York city, the last returns of the associated bank deposits show a decrease of $1,087,000, but the aggregate still exceeds $530,000,000. On the other side of the Atlantic much the same conditions obtain, showing how perfectly internationalized financiers have become. The official rate of the Bank of England is maintained at 2 per cent, and bullion has increased £631,000 or $3,736,000, bank reserves to liabilities at same time increasing from 42.92 percent to 43.52 percent.

On Wall street, speculation has been restricted and the disposition has favored selling. The prospects of earnings for railroads, on the next year's crops, have mostly brought about this result, as also some recent returns showing a falling-off in both gross and net earnings. This was the case with Erie, and Rock Island suffered owing to its withdrawal from the passenger pool. Other properties have been affected by the failure of various reorganization schemes in which they are interested, and upon the success of which much of the recent general advance was established.

Little is now being heard about the celebrated Hatch bill which so ruffled the spirits of certain operators recently. Even some of the alliance leaders see its folly. As illustrating the opinion of foreigners on the utility of trades in "futures" and "options," it may be recalled that Russia is now considering the advisability of introducing the system of deals in "futures." A committee of the German legislature has, after full consideration, just reported, that on the whole, trading in "options" was beneficial to the country, and so ought not to be interfered with.

It certainly looks as if nothing much will be heard about bimetallism at the forthcoming silver conference. The JOURNAL last week anticipated as much. The London Statist which speaks for important financial interests, stigmatizes the whole affair as a folly. Great Britain, it points out, discussed the subject fully eighty years ago, and events since then have justified its wisdom in selecting a single metal standard. From what precedes, it will be seen that the powerful financial organ named regards the projected conference with anything but respectful sentiment, and doomed to failure. This opinion is every day becoming more general. Still, the conference will work good if it only leads up to a better understanding of the matter.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of sixty-seven leading cities for the week ending May 12, 1892, as compared with those of the corresponding week of last year, with percentages of increase and decrease.

CITY.	WEEK ENDING MAY 12, 1892.	WEEK ENDING MAY 13, 1891.	PER-CENTAGES.

Totals, Can	$20,783,474	$11,974,532	

†Not included in totals.

Only eleven of the cities reported show percentages of decrease this week. Last week we pointed out to the readers of the JOURNAL that of the fifty-eight cities twenty-five showed decreases and the remainder increases. The change in the relative percentages this week is a marked improvement. The net result is revealed by the total, which shows a gain of 4.9 including New York and 8.0 percent excluding that city. Last week New York, Boston and Chicago showed decreases; this week these cities all show increases, which largely accounts for the increase in the total result.

Among the remarkable gains this week is that of Minneapolis, 44.6 percent. St. Paul also shows a gain of 20.7. These are typical western cities and illustrate the remarkable growth of the country tributary to them. Omaha gains 49.9, Columbus, 22.6, St. Joseph, 24.3; Salt Lake City, 29.5; DesMoines 28.2; and Lincoln, Neb., 17.8. These all illustrate the rapid increase of business throughout the west. It will be noticed that hardly a single western city shows a decrease, the losses being confined almost entirely to the south and east and one or two of the cities in the farwestern group.

A study of the returns from the farwestern group this week discloses a peculiar combination of figures. The most remarkable increase shown by the table is that of Seattle, 98.7. This is nearly a doubling of the amount reported a year ago. At the same time Tacoma, its neighbor, returns a loss of 12.8. San Francisco loses 10.4. Portland, Or., on the other hand, gains 12.7, and Los Angeles gains 24.6 percent. These general and heavy gains throughout a portion of the Farwestern group do not harmonize with the losses of San Francisco and Tacoma. For months the reports from the Pacific Coast have been of a discouraging character. Steady decreases have been the rule. This week, then, may be regarded as an exception which is full of encouragement and promise of a large volume of business for the far west.

The south also shows improvement. True, many of the southern cities show decreases but not so great as those which have been reported regularly for several months. In many portions of the south the movement of merchandise has been retarded and al-

most entirely checked by floods and the prospects of still further inundations. In spite of this, the indications are that business is improving at southern financial centers. It is confidently hoped that the present era of depression in the south is about at an end.

A comparison by groups of states shows the following.

	WEEK ENDING MAY 12, 1892.	WEEK ENDING MAY 12, 1891.	PERCENT AGE.
New Engl'd States.	$114,733,167	$105,834 953	Inc 8.5
Middle "	816,652,729	810,603.567	" 0.7
Southern "	33,319,375	36,317,181	Dec 8.3
Western "	44,343,290	38,383,380	Inc 15.8
Northwestern "	137,477,177	121,490,745	" 13.2
Southwestern "	39,157,141	38,985,026	" Nom
Far Western "	23,714,792	29,484,025	Dec 20.5
Totals,.....	$ 1,209,397,671	$1,181,098,877	

Five of the groups show increases and only two decreases. This is surely a hopeful sign. For a long time the decreases have exceeded the increases but this week we see a new order of things. As usual, the increases in the western and northwestern group head the list. Even the southwestern group shows a slight increase. The southern and farwestern have not yet reached the hopeful stage of increases but may be expected to do so soon if recent favorable progress is continued.

THE LOCAL STOCK MARKET.

There is some talk of the Chicago Stock Exchange moving to La Salle street in the vicinity of the Board of Trade for the double purpose of securing more commodious quarters and being in closer relations with that body. Business on the Exchange was well distributed over the entire list during the week and the general tendency was upward.

The street cable roads were eagerly inquired after, the crowd still figuring upon the probable phenomenal earnings for the forthcoming year. As an indication of the business of the week, North Side cable was advanced, Thursday, to above 195, with 200 not improbable. Last Saturday, this property was selling at 190, a gain of five full points. The advance in West Side cable was even more notable. On Thursday, 145⅜ was reached. This is the highest point the property has reached. When it is recalled that West Side was, last Saturday, to be had at 137¼ in any quantity, some idea can be formed as to how traders have kept the market humming. Slow moving City railway could not but benefit by such association, and, following its usual gentle pace, advanced with dignified gait to 350.

The interest displayed in Chicago South Side and Rapid Transit has been another special feature of the week. This property has been carried up by its supporters to 110, an unexpected figure.

Most of the industrials have been on the up-turn. The exception has been Calumet and Chicago Canal and Dock. The recent deluge has placed much of the land under water, and real estate does not appear specially attractive when it has to be paddled over to find the landmarks. Hence the neglect.

American Strawboard has recovered from its late lethargy. The early distribution of the quarterly dividend, 2 per cent, has proved an irresistible attraction to the big-dividend seeker. Judged from this standpoint, anything like 90 does not look excessive.

Packing and Provision is strong, 53 being paid for a block of 200 shares, at the close Thursday.

Brewing and Malting has not invited much inquiry, but the common stock has been selling around 33.

Street's Stable Car line just a turn firmer, but not in special request.

Arc Light and Power appears to have got over the dip, has been in favor at 95, and purchasers confident as to early future.

Money has been going into local bonds during the past week, and on some occasions the deals have been upon a generous scale. Gas Light and Coke 5's, at 91½. Alley L 5's, has moved at 97½.

Among the transactions of the week, the following may be particularized: Diamond Match, at 137; Western Stone, at 91; Central Union Telephone, at 56, and Atlas National Bank, at 121. Altogether, the week has been an exceedingly promising one for holders.

THE REAL ESTATE MARKET.

THE INVESTMENT TENDENCY CONTINUES TO SET STRONGLY IN THE DIRECTION OF ACRES—FEATURES OF THE WEEK'S BUSINESS.

Acre sales continue to be the feature of the real estate market. The week has seen a revival of interest at Stickney and some large deals in acres in that locality following close on those reported in this issue of the JOURNAL may be expected. Rain has greatly interfered with subdivision sales, building operations and business generally. But the march of improvement goes on and an active spirit of inquiry prevails. Outside property is far from being inactive. A number of important transfers of subdivision property appear for record this week. C. C. Collins has sold to Hobart C. Taylor 227 lots at Western Springs for $100,000. This property is having a decided boom despite the wet weather, owing to its high location and natural drainage. A complete system of sewerage and water supply is being added. Another sale of lots is that of the Grant Land association to J. M. Bishop, sixty-six lots in Grant Locomotive Works addition for $30,000. A. J. Snell sells to I. E. Adams the premises known as the Guthrie farm in the town of Maine for $22,600. The Anderson Pressed Brick company by their receiver sells to Arnold Kalman eighty acres improved at the southeast corner of 75th street and Austin avenue for $160,000. These trans actions are an indication of the prevailing tone of the market. Despite the fact that acre property has been partially submerged by the recent floods the ardor of investors seems in no degree diminished.

WOMEN IN THE REAL ESTATE BUSINESS.

A new feature in real estate transactions is the active interest taken by women of late in important enterprises. A syndicate of women has been formed to subdivide and sell property in the vicinity of Waukegan on a large scale. Already a large number of lots have been sold and some prominent subdivision owners are not pleased at the probable success of these new competitors, whom they consider interlopers. Another woman's enterprise is the building of a dormitory for women for the new Chicago University. It is stated on good authority that wealthy ladies have already subscribed large sums for this purpose and are ready to see the enterprise through to successful completion. The completion of the W. C. T. U. temple and the woman's movement in connection with the World's Fair, are largely responsible for this wave of enterprise on the part of the gentler sex. The effort to provide cheap dormitories for working-girls who may wish to visit the Fair and who might otherwise be deterred from doing so by the expense of hotel accommodations, is meeting with so much encouragement that its success is practically assured.

LATEST WORLD'S FAIR ENTERPRISES.

Activity in World's Fair property and building operations in preparation for the Fair continue undimished. New hotel enterprises are reported almost daily and it is surprising how quickly such schemes are capitalized and how readily the accommodations are disposed of to intending visitors or transportation companies. One of the most recent of these enterprises is the proposed Hotel Endeavor, which is intended to accommodate, especially those members of the Young People's Society of Christian Endeavor who may visit the city. It it also to be the national headquarters of the Association of Christian Endeavor and of the Golden Rule society. One party of 1,000 from New England and also a company of 500 from St. Louis have already engaged quarters at the hotel for 1893.

The corporation which will build the Hotel Endeavor is the Columbian Endeavor Association. T. B. Nisbett is President, Edward H. Fallows, Vice-President; Charles B. Holdridge, Secretary and General Manager and Mr. Wheelock Treasurer. The capital stock is $100,000. The site of the hotel will be within six blocks of the World's Fair grounds. The hotel will have a capacity of 2,000 a day. Preference will be given to members of the Young People's Society of Christian Endeavor and their friends. Members of the society can have rooms at $1 a day. A big restaurant will furnish meals to those who want them at the hotel. The Young People's Society of Christian Endeavor organ, the Golden Rule, will have headquarters at the hotel, as will the various branches of the United States Society and the various State societies. There will be a big assembly room with a seating capacity of 1,500 where services will be held daily. The hotel will be four stories high and its ground dimensions 200x170 feet. There will be verandas all around the outside and a court on the inside. The building will be lighted by electricity. The material used will be the same as that used in the World's Fair Buildings. M. E. Bell is the architect. The heaviest stockholders are Chicagoans. The Advisory Board is as follows: J. Shaw of St. Louis, J. W. Baer and F. E Clarke of Boston, W. H. McLain of St. Louis, H. T. McEwen of New York and Bishop Fallows. Part of the hotel will be ready for occupancy by Oct. 1, and the rest will be finished early in the spring of 1893.

ANOTHER MICHIGAN AVENUE HOSTELRY.

Michigan avenue is to have another big hotel. Capitalists do not seem to be at all deterred by the fear that hotel building on this avenue is being overdone. The new structure will be located at the northwest corner of Michigan avenue and Thirteenth street. This corner was sold Thursday by Brian F. Philpot to James M. Bishop for $300,000. The ground has a frontage of 100 feet on the avenue and 171 feet on Thirteenth street, and a portion is at present improved with a new four-story store and apartment house. The rear 77 feet is vacant, but a seven-story hotel to cost about $100,000 will be erected by the purchaser of the property. The entire structure will be used for hotel purposes. The building will be provided with freight and passenger elevators, electric light, steam heat and all the accessories of a modern hotel. The main entrance will be on Michigan avenue. The building now on the site cost $75,000, and was intended originally for an apartment house. It is so constructed, however, that it may readily be turned into a hotel. Mr. Bishop is a resident of Joliet, but is a large holder of Chicago real estate. He made the purchase for an investment. The sale establishes a front foot valuation of $2,250 after deducting the cost of the building just completed. It is significant of the value of property in this locality in view of the contemplated building of the Illinois Central depot and that of the Chicago Elevated Terminal road at Twelfth street.

A NINE STORY APARTMENT HOUSE.

The Vesta apartment house to be erect at the southwest corner of Lake avenue and Thirty-seventh street will have a frontage of 160 feet on Thirty-seventh street and eighty-three feet on Lake avenue. It will also have west frontage on Michigan terrace. The material will be brick and terra-cotta with hardwood finish. The building is to contain 310 rooms in suites of from two to seven rooms each. There will be spacious parlors, offices and restaurant on the ground floor, and the building will be used as a hotel during the World's Fair. The cost of building and ground will be $225,000 and the estimated gross income is $46,000 per annum. The company is capitalized at $225,000 and the officers are: H. H. Blake, president; J. J. Barnard, vice-president; W. D. Rowley, secretary, and H. H. Hitchcock, treasurer.

MORE APARTMENT HOUSES—THE STANDARD HOTEL ASSOCIATION.

It is said that N. C. Chapin of Niles, Mich., will build an eight-story apartment house on the ground fronting Cottage Grove avenue, Thirty-sixth st. and Ellis avenue. Mr. Chapin has been gradually acquiring property on that corner until he now owns a frontage of 132 feet on Cottage Grove avenue running through 274 feet along Thirty-sixth street to Ellis avenue. Preliminary plans providing for a steel apartment building faced with terra cotta have been drawn by Beers, Clay & Dutton. The main entrance will be from Cottage Grove avenue, but in addition there will be three entrances from Thirty sixth street and two Ellis avenue entrances. The building will be divided into three-room suites and will be furnished with every modern convenience and luxury.

T. Benton Leiter will erect a block of six four-story flat buildings to be used during World's Fair times as a hotel on his property 280x125 feet, on the corner of Sixty-fifth and Hope streets. The building will be 280x90 feet, and the total cost will be $168,000. C. L. Stiles is the architect.

ACTIVITY IN STICKNEY PROPERTY.

A number of recent sales of Stickney acres indicate a revival of interest in that territory, which of late has been somewhat dormant. News of important transfers is daily expected. In fact, since the announcement of the new deal by the small packers all eyes have been turned toward Stickney. Harmony prevails among the packers. The interests of all are common and the antagonism which has existed for a year or more has given way to co-operation. It is now definitely stated that the Stickney yards will not be used in opposition to the Union Stock yards but in connection with them. The railway clearing house and freight warehouse plans will not be interrupted. A special meeting of the Union Stock Yards company has been called in New York for next Tuesday, at which the agreement with the combined packers will be ratified. These packers by their combination have been able to get everything they demanded in their litigation, and will hereafter stand on an absolute equality with the "Big Three." It now really becomes the "Big Four."

Dunlap Smith & Co. have sold for John B. Brown to C. H Beardsley eighty acres in sec. 22, town of Lake on the line of the Belt railway, for $200,000. A twenty-acre tract three blocks south of the above property, at the southwest corner of Sixty-eighth street and Crawford avenue, has been sold by T. G. Dickinson & Co. for $35,000, or $1,750 an acre. The same firm has also contracted for the sale of ten acres at the northeast corner of Sixtieth and West Forty-second street at $2250 an acre.

AUCTION SALES AT THE REAL ESTATE EXCHANGE.

The first auction sales at the Real Estate Exchange were held Monday, May 16, at 11 o'clock a. m. Ten pieces of property were offered for sale and two of them were knocked down to the highest bidder. This is regarded as quite satisfactory for the first session. Hereafter regular sales will be held each Monday at 11 a. m. Property listed to be sold by auction will be advertised on the bulletin board of the exchange and otherwise. W. G. Garvey & Co., owners of the exclusive auction privilege, have had sign boards painted on a red and white ground to be put up in front of property offered for sale. A minimum price is put on property offered in this way and if the bidding equals or exceeds the figure set, the property is sold to the highest bidder, but otherwise it is withdrawn.

A regular trading session of the exchange is held at the exchange rooms daily at 12:15 p. m. The members are encouraged to meet and discuss business and offer properties for sale. Thus far this feature of the exchange has been a decided success.

RECAPITULATION OF THE MARKET.

Real estate men continue in the belief that if weather conditions could be adjusted approximately to the predictions made by Sergeant Frankenfield, a satisfactory general realty business could be done. A five inch rainfall within two weeks is rather too much of a good thing. In many sections of the suburbs graphic illustration has been given of at least part of the subdivider's stereotyped announcement "sewers and water in every street." But aside from the amount of the rainfall, its distribution is what makes it an unusual feature in the market. There seems to be a little awakening of interest in the Stickney district. Just why the intention of investors has been turned in this direction is not exactly clear. For over a year this territory has lain dormant and has been one of the questionable elements in the market. The change of management in the Chicago Union Transfer company is considered a good omen by real estate men and some improvement of Stickney interest is looked for in the recent agreement reached by the various packing companies. During the present week, a number of sales of Stickney lands have been reported. The transfer of eighty acres in Sec. 22 of the Town of Lake from John B. Brown to C. H. Beardsley was recorded at a consideration of $200,000. This tract of land is on the line of the Belt railway and is to be used for manufacturing purposes. A twenty acre tract three blocks south of the Brown land at the southeast corner of Sixty-eighth street and Crawford avenue has been sold for $1,750 an acre. A Vermont syndicate has also purchased a Crawford avenue tract. It consists of twenty acres at the south west corner of Fifty-seventh street and was bought for $2,500 an acre. Still another sale has been made of ten acres at the northeast corner of Sixtieth and West Forty-second streets.

Two of the more important operations of the week which are the more prominent inasmuch as large sales have not been numerous, were two exchanges. The eight story brick building at Nos. 418 and 420 Dearborn street has been sold by Richard Peck and others to an Ohio Syndicate at a consideration of $150 000. The building covers 50x64 feet between Polk and Harrison streets and extends through the short block from Dearborn street to Custom House place. The leasehold and building were secured last January from Gordon W. Allen. The lease runs for a fifty year term on an exceedingly low land valuation. In exchange are taken four blocks of land in Edison Park near the original subdivision which was recently purchased by Butler & McCabe. The Edison Park property is taken at a valuation of $75,000. Frank T. Terry of Milwaukee has purchased the three-story apartment house at the northwest corner of Langley avenue and Forty-eighth street from Duplicy Bros. for $46,500. In part payment, Mr. Terry transfers 110 feet at the northwest corner of Champlain avenue and Forty-eighth stree for $16,500 and 100 feet on Champlain avenue 100 feet south of Forty-eighth street for $11,000.

New projects for World's Fair hotels as a natural consequence of the approach of the World's Fair season are constantly coming up. The Standard Hotel Association was organized a short time ago with a capital stock of $100,000. It will lease a sufficient number of flat buildings to put at its disposal 1000 rooms during the World's Fai-

year. The Association is composed of prominent railroad men and general passenger agents. The first building leased by this Association is now in course of erection on Wabash avenue, south of Eighteenth street by C. D. Hauk. This building, six stories in height covering a lot 50x170 feet has been leased to E. A. Burden at an annual rental of $16,000, taxes and insurance. Mr. Burden's lease runs for twenty years. He asisgns his interest in the building for ten years to a hotel Association. Another lease of far greater importance has also been made. The Association has leased the Mecca flat building at the corner of Thirty-fourth and State streets. This building which is the most extensive of its kind in Chicago, covers the entire south end of the block bounded by Thirty-third, Thirty-fourth, State and Dearborn streets. It will be changed from a flat building into a hotel.

More attention is being paid at the present time to the improvement of boulevards and park systems than at any other time in the history of Chicago. The movement is more marked than that of twenty years ago when the extensive systems were laid out and interest was centered in boulevard improvements and in the development of fine residence property. Within two years $5,000,000 is to be spent in improving the West Side park system. Plans have been submitted to the Park Board providing for the entire expenditure and contracts are let for about one-half of the work. The boulevards will be extended and beautified to a great extent. From the canal and Western avenue on the south to Fullerton and Western avenues, the chain of boulevards will be completed with ornamental walks, lawns, trees and drive-ways. As soon as the Lincoln Park Board finally decides on the east and west route a connection will be made giving a chain extending around the city.

CLOSE OF THE STICKNEY DEAL.

On the 27th day of July, 1891, in the city of London, an agreement was made between the "big three" packers, the Union Stock Yards company and the Chicago Junction Railways. By this agreement the "big three" conveyed to the Union Stock Yards company the Central stock yards started by Nelson Morris near the Union stock yards for $25,000; also 1,000 acres of the Tolleston lands owned by the "big three." The packers agreed to remain at their present quarters for fifteen years. In exchange for this 1,000 acres and the agreement to remain at the old stock yards, the Union company assumed the principal and interest at 5 per cent on $2,000,000 of bonds issued by the Tolleston Stock Yards company, owned by the 'big three." The "big three" were also to receive before Oct. 1, 1891, $75,000 in cash or in shares of the stock of the Chicago Junction Railways and Union Stock Yards company. Other concessions were granted to the "big three" which gave them manifest advantages over the other packers. Accordingly, the small packers combined to secure the same advantages for themselves. The result of their efforts is the agreement arrived at this week with the Union Stock Yards company.

It is said that according to the terms of the new agreement the yards of the Union Stock Yards company will be transferred to the property of the Chicago National Stock Yards company at Stickney. The packing house of the "big three" and those of the other concerns doing business at the Union stock yards will remain where they are now. Cattle will be transferred to Bridgeport over the new road that is to be built by the Union Transfer railway company. In connection with this line a new belt line is to be built to give the Stickney yards the necessary railroad connection with the various lines entering the city.

The only change at the present stock yards will be the abandonment of the property now used for the storage of cattle. There will be no change in the yardage charges, but all the packers will be placed upon an even footing with the "big three" by the payment of a rebate equal to that received by those packers by the contract with the Chicago Junction Railways and Union Stock Yards company.

The movement among the smaller packers to secure yards at Stickney brought about the present arrangement with the Union company. When that company realized that the smaller packers proposed to use the same tactics employed by the "big three" to secure similar concessions, they sent an agent to negotiate for a settlement. The demands of the Stickney packers were placed before them and it was seen that about one-half the business of the old company was about to take wings. Accordingly, it was determined to avert this if possible.

By the new arrangement the Stock Yards company will gain about 600 acres for yardage purposes. At the old quarters there were only about 300 acres. What the old property will be used for has not been definitely determined upon, but a part will probably be used to enlarge the present quarters of the packers. The present deal involves the dismissal of the vexatious lawsuits brought by the Stickney packers in Chicago and New Jersey to declare invalid the agreement with the "big three." Indeed, it is asserted that it was the fear that the courts would decide against them that induced the officials of the Union Stock Yards company to surrender to the smaller packers. During the fifteen years that the contract with the "big three" is in existence the smaller packers will remain at the present yards. It is possible that the plants may be removed in time to Stickney, but as between Stickney and Tolleston the former would be chosen.

The concerns that will come in on an even footing with the "big three" and help absorb the profits of the Union Stock Yards company are the Anglo-American Provision company, the Allerton Packing company, the Chicago Packing and Provision company, the International Packing company, the W. H. Silberhorn, company, the T. E. Wells company, Libby, McNeill & Libby, John Cudahy, John C. Hately, Hately Bros., Jones & Stiles and Underwood & Co. Of these the Allerton Packing company, the International Packing company, the T. E. Wells company, John Cudahy, John C. Hately, Jones & Stiles and Hately Bros. were recently sold to an English corporation, the International Packing and Provision company with a capital stock of $6,500,000. The Anglo-American Provision company and the Chicago Packing and Provision company are also English corporations. The value of the real estate, machinery and fixtures of the smaller packers exceeds $5,000,000. The amount of their capital is over $20,000,000 and the annual sales average about $90,000,000.

THE WEST SIDE PARK SYSTEM.

The West Side Park Commissioners have succeeded in floating $1,000,000 worth of bonds authorized by the legislature for the improvement of the west side park system. They will now proceed to raise $4,000,000 by special assessments varying from $15 to $17 a foot on the property fronting the main boulevards, and will expend the entire $5,000,000 in improvements to the park and boulevard system during the next two years. Before the opening of the World's Fair, May 1, 1893, it is expected that the greater part of the appropriation will be spent and the boulevard will be ready for carriages.

The west side park system is destined to be the grandest achievement of the Chicago park builders. Notwithstanding the distance from Lake Michigan the advantages of a large lake frontage, which are lacking in the west side parks, are compensated for by great expanses of artifical lake surface and the natural superiority of soil for cultivation. The three great west side parks, Douglas, Garfield and Humboldt, present liberal areas for park purposes, and with their broad expanse of connecting boulevards will constitute when completed the grandest park system in the world. Those who originally laid out the west side park system had great faith in the future of Chicago. Yet the development of the west division shows that the most liberal allowance of areas for park purposes will fall short of the people's needs before many years. But when the improvements are completed all present needs will have been met, and the city will have to grow up to the park and boulevard improvements. The west side system will be the connecting link between the other two divisions and its acreage and boulevard mileage will rank it as the leading division for park development.

The magnitude of the boulevard improvements will surprise many of the residents as the work progresses. From the Canal and Western avenue on the south, where junction is had with the south park system, to Fullerton and Western avenues on the north the boulevard system will be completed with ornamental walks, lawns, trees and driveways. Most of the distance there will be double traffic ways, each twenty-one feet wide, and in the center flanked by the traffic-ways and lawns, will be a carriage-way fifty feet wide. For the distance between Douglas and Garfield parks this program will be varied by constructing double carriage-ways, as in Drexel boulevard in the south park system. At the northerly limit connection will finally be made with the north side system.

The three main west side parks are to have their unimproved portions improved. This will add an improved acreage that will about double the present capacity of the parks. At Garfield park eighty acres south of Madison street and forty acres north of Lake street are to be improved with regular park features. At Humboldt park there are about 100 acres to be cultivated and at Douglas park still more. In all the west division is to have about 375 acres added to the improved parks during the next two years. These improvements are but the foundation for future development. Ornamental work, statuary and architectural embellishments will come later on and will be paid for out of the general fund.

The minor parks and boulevards come in for a share in the general improvements. But these are already well advanced toward completion. Wicker, Union, Jefferson, Vernon and Campbell park need little more than embellishments. Jackson boulevard has been practically completed during the year. By July 1 next this boulevard will be ready throughout its entire length, its present western terminal opening into that part of Garfield park about to be improved. Work will continue on Washington boulevard as if there were no technical flaws in the board's title.

The general effect of these park improvements will be to advance values and to stimulate the improvement of private property. They will encourage the building of substantial residences. They will help to secure rapid transit especially to the northwest and southwest. More than ever the homes of the people will center in the vicinity of these breathing places. Instead of a straggling development north and south on the lake shore, Chicago will grow symmetrically and compactly.

LEGAL ASPECTS OF THE STREETER CASE.

Accounts have been published in the daily papers from time to time relative to the case of Captain Streeter, who was east ashore in his scow near the foot of Superior street, on the North side, in a storm about six years ago and who now claims the land formed around him by the accretion of the waves. At the time Streeter's bark was stranded the adjoining property owners thought little about the matter, supposing that the craft would be hauled off in a short time. Capt. Streeter, however, though surrounded by water, was quite content with his new location and proceeded to make himself comfortably at home. Time passed and the residents of the vicinity saw with grief that the doughty captain did not intend to leave them. Superior street, near the lake shore is a high-class residence district and the property owners did not relish the sight of the old scow which met their gaze every time they turned their eyes lakeward. Accordingly, N.K. Fairbank commenced proceedings against Streeter in a justice court to compel him to vacate the property. The decision of the justice was adverse to Streeter and he appealed to the county court. Here the decision of the lower court was reversed and Streeter came off with flying colors and settled down once more to await the action of the waves. But his enemies were undaunted and carried the case to the Appellate court. Here they were again defeated. The case was taken to the Supreme court for final adjudication, where it is now pending. There is little doubt but that the opinion of the Supreme court will be in favor of Captain Streeter. In fact, so confident is he of this, that he is already preparing to erect a $32,000 flat building on the premises.

The question now at issue before the Supreme court is as to the ownership of a certain strip of land; but incidently the contest affects the entire subject of the riparian rights of owners of land along the lake shore. The inside property owners claim that Captain Streeter is a tresspasser and that they practically own by riparian right all the land east of them under the lake to the centre of it. Captain Streeter's attorneys, on the other hand, argue that there are no riparian rights incident to the property abutting on the great lakes any more than there are such rights on the ocean. They contend that the ownership of the land under the lake is in the United States Government and that the property owners adjoining the lake received title in their deeds only to so much of the land as extended to the water's edge at the time the deeds were made. They say that if the lake were to recede half a mile the new land thus made would not belong to the abutting property-owners but to the United States Government and that it would be proper for the general government to survey and sell such land. Many legal opinions are adduced in support of this doctrine. A surprising array of legal talent has been marshalled on Captain Streeter's side. His attorneys, Messrs. Bangs & Bangs have been interested in the case for over two years. Mirford J. Thompson, John C. Black and Moses & Pam are also interested. The principal opponents of Captain Streeter are N. K. Fairbank and John V. Farwell. Their attorneys rely largely on the opinion of Judge Tuley in the case of the Catholic Bishop of Chicago v. the Lincoln Park Commissioners, which sustained the doctrine of riparian rights of lake shore property-owners. Judge Tuley practically decided that the Bishop was entitled to all the land adjoining his holding on the lake shore under the water to the centre of the lake, or to all the new land which might be made within those limits. It is hoped that this question will come before the Supreme court for final decision, as it would be of vital interest to a very large number of property owners along the lake shore.

Captain Streeter claims the ownership of a tract of of land 600 feet along the lake shore and 450 feet deep. Property in this vicinity is worth $300 a foot.

At this rate Capt. Streeter's holding would be worth $500,000. He has given an undivided half interest in the property to his lawyers for their services.

Captain Streeter's tenure is peculiar. He has no deed from the Government and his title is simply that of possession and occupancy. This is nine tenths of the law, the remaining tenth is ably supplied by the lawyers in the case. If the doctrine of riparian rights can be overthrown, the Captain will be monarch of all he surveys, subject only to interference from the general government. The policy of the government, however, is to encourage settlement and to protect vested rights. It is extremely unlikely, then, that the government will molest the squatter sovereign of Superior street.

DULUTH, Minn., May 17, 1892.

EDITOR REAL ESTATE AND BUILDING JOURNAL:—The wheat shipping record of Duluth elevators for the past three weeks leads anything in the line of grain handling that the world has ever seen. Sunday ¼ cent accrued in storage charges on all wheat held in Duluth elevators and shippers have therefore been very anxious to get out all they could before the 15th. Within three weeks from April 20, when the first cargoes of the season started for Buffalo, a total of 11,619,000 bushels were shipped. This beats the world's record for any entire month by three million bushels. During these three weeks ending May 14, every day of which many cargoes were forwarded, there were as high as 815,000 bushels shipped in a single day and the average was over 400,000 bushels daily. As many as ten vessels have been loaded in a day and as high as fourteen have left wheat-laden in twenty-four hours. The largest cargoes taken out have been two of 85,000 bushels each by the steel barge 118 and one of 84,000 bushels on the steamer Gilcher. Loads of over 80,000 bushels have not been at all uncommom. This has been done on a draft of about 13½ feet when nearly all the vessels could have loaded to 16 feet had the state of water in the Sault permitted, and thereby increased their loads from 15 to 25 per cent. Single elevators have also done remarkably well, the Lake Superior company's house D having in one day loaded out 324,000 bushels of wheat.

Notwithstanding this enormous outpour of wheat there still remains in the elevators under the control of the Duluth board of trade nearly 8,000,000 bushels. It is not expected that this wheat will go out as fast but it is hoped to clean out all elevators by July. The unusually early opening of navigation—April 20—allowed a far greater exportation of wheat than usual before May 15.

Duluth expects to beat her previous record in building this year. There are already under construction more buildings than ever before. Real estate trade has been fairly good and the transfers show a continued advance in prices in all good property.

E. C. HOLLIDAY.

CURRENT COMMENT.

The announcement that the stock yards difficulty has been settled at last will be received with a feeling of relief in all quarters. The uncertainty which has characterized the movements of the stock yards interests for some years past has had a decidedly bad effect on real estate values in several localities. For a time it was thought the "big three," Armour & Co., Nelson Morris & Co. and Swift & Co., would remove to Tolleston. Accordingly, prices in that locality received a boom. It was then announced that the small packers would remove to Stickney. Finally it was said that not a single spoke in the Stickney wheel was in good condition. Now we are informed that an agreement has been arrived at whereby the packing houses will remain at their present location for fifteen years but the yards for the receeipt and storage of cattle will be removed to Stickney. It is said that eventually the packing houses also may be established at Stickney but it is not thought probable that they will ever be removed to Tolleston.

The confirmation of these press statements will be followed by a normal settling down of real estate values in three localities—the present Union Stock Yards, Stickney and Tolleston. No doubt much uncertainty and consequent speculative tendency has attended operations at all these points, and it is to be hoped that this feverish condition is at an end.

***

This element of uncertainty in Chicago real estate transactions will always be present to a greater or less degree. There are investors who are attracted strongly by the speculative feature of the real estate market, but there are many others who are as forcibly repelled. The latter class should consider that the growth of the city is so rapid that there is hardly a possibility of loss in an investment in Chicago real estate, if carefully made. While it would be difficult to point out instances in which losses have been suffered it would be easy to enumerate scores of cases where fortunes have been made by the sudden upward turn of the real estate market or by the steady increase in values extending over a course of years. A recent example is property in the vicinity of Jackson Park. Two years ago values in that locality advanced sharply in anticipation of the location of the World's Fair. There were then no end of croakers who said that the prices paid were unjustified and that the same property would be resold at lower figures. The experience of two years does not justify this prediction. Prices in the vicinity of Jackson Park are firmer than ever before and are on the advance. The fact is the speculative tendency was not any stronger than the circumstances warranted. As in thousands of other cases, the persons who held aloof from investment were the real losers, and the sanguine ones were enabled to profit by their faith in the future of this property.

***

No doubt the element of chance enters largely into the good or bad fortunes of men in real estate as in other transactions. Six years ago a friendly storm drove ashore Captain Streeter's scow off the foot of Superior street on the North side. During all this time Captain Streeter has stuck to the scow and the waves have been washing up sand and gravel and debris until the hardy captain now claims several acres of accretions to the shore in a fashionable and valuable portion of the city. The value of the land thus presented to the mariner by Lake Michigan is said to be not less than $500,000. This is a decidedly comfortable fortune to be washed up to the door of an humble sailor. Truth is stranger than fiction, and fortune is notoriously fickle, but this instance of sheer good luck is about the most striking illustration of the favor of the fickle goddess we have ever heard of.

***

The element of uncertainty no longer enters into the business of trading in central property, but it amounts to a bugbear in speculation in acres and lots. The period of uncertainty has passed in older suburban towns, and dealers are no longer compelled to promise sewers, new railways and other needed improvements because the very fact that they have a thriving, prosperous town presupposes the existence of these improvements. It would be a difficult matter to estimate the amount of damage done to the real estate market by the extravagant statements and false promises of agents and owners. It costs comparatively nothing to project a railway on paper but a railway that will transport passengers involves time, litigation and a great deal of money in its construction and successful operation. The disappointment which follows in the wake of a false promoter is the one main cause of the lack of confidence so often complained of. False prophets in religious matters and false pretenders in business affairs are doing more to destroy the happiness and prosperity of the people than intemperance and a score of other evils our ministers declaim so much against.

***

It is obvious to any one with an experienced eye that speculation has not yet been eliminated from the real estate market. It crops out on the slightest intimation of any great move, or a rumor however improbable. During the week all sorts of stories have been in the newspapers concerning the movements of the packers. As a result of the rumor or intimation that the packers would abandon Stickney and ultimately go to Tolleston hundreds of lots have been sold there, many of which have been deeded and recorded. The unexpected turn in the affairs of the packers has caused a flurry in and about Stickney. The demand for property for actual use and occupancy is considerable in Cook county, but it needs speculation to make business good.

The JOURNAL has fully determined to not pay "the fiddler again while the other fellows do all the dancing." The real estate speculator who rents his office, contracts for and gets his advertising on time and continually beats both landlord and newspaper will be either compelled to put up or shut up. The dead beat business in Chicago does not seem to even conflict with the religious tendencies or practices of a great many people, but the JOURNAL will ask for its back pay before renewing old friendship. Speculation in Chicago will induce many a schemer to return to old pastures.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

H. P. Hatch reports the sale of ten lots on Chestnut avenue, in his North avenue and Hosmer avenue subdivision in Cragin to James J. McGinley for $5,000. The purchaser will build ten houses with all modern improvements to cost $30,000.

Harry Greenebaum has sold to Mrs. Mary M. Earl the northeast corner of Adams street and St. Louis avenue, 50 x180, for $7,550. Mrs. Earl has also bought the adjoining 75 feet for $9,000. A residence to cost about $15,000 will be erected on this property.

The demand for maps and flats of the Calumet region during the past week would seem to indicate that inquiry is brisk down there. Among the numerous callers at the office of the JOURNAL were two active dealers who were of the opinion that the high prices asked for land along the Calumet river and lakes would prevent a great many manufacturers from locating there. It costs too much to improve the land to warrant fancy prices. Besides there is practically an unlimited amount of river and lake frontage along the Big Calumet, the Little Calumet and Lake Calumet. Our visitors reported projected improvements at Wolf Lake and that Hammond bids fair to be a city of 40,000 inhabitants. The country round about the Calumet regions is evidently on the verge of a boom. Water would seem to be the attraction of the present time.

Vermont capitalists have purchased twenty acres at the southwest corner of Crawford avenue and 57th street for $50,000.

John W. Macfarlane has sold 114 acres on Stony Island avenue, between 87th and 91st streets, to H. A. Bors for $452,000, about $4,000 an acre. The property is opposite Calumet Heights and near the Nickel-Plate railway shops.

Waller & Probst have sold block 7 in their third additon to Oak Park to Mr. Reinhold Eichenberg for $16,000. This block contains 6⅔ acres and is close to the improved portion of River Forest, on the corner of Lathrop avenue and Augusta street. The price is at the rate of $2,400 per acre. The block is not fully as desirable as block 5 which was sold last week to George M. Lyons for $30,250, or at the rate of $3,000 per acre, but it is generally regarded as a good purchase. This and other transactions in and around Oak Park and River Forest prove very materially that the investing public is rapidly taking advantage of the prevailing low prices and considering the transportation facilities and building activity the present prices compared with localities of similar merits undoubtedly offer a great field for investment.

M. Walker & Co., have sold to Frank T. Terry of Milwaukee, for Duplicy Bros., the three story brown stone apartment house at the northwest corner of Langley avenue and 48th street for $46,500. Duplicy Bros. take from Mr. Terry 110 feet at the northwest corner of Chaplain avenue and 48th street for $16,500; 100 feet on Champlain avenue, west front, 100 feet south of 48th street for $11,000. The same firm report the sale of fifty feet on Drexel avenue near 53d street for G. C. Watts to C. E. Sagar, for $6,250 and the two-story residence, 4156 Berkley avenue for A. J. Tooler to Julia H. Hill for $5,500.

Kimbell and Cobb, Dolese and Shepard and other property owners on 63d street have petitioned the highway commissioners of Lyons to have the street extended through the town as far as the county line. It is understood that this is the beginning of an attempt to build an electric line on 63d street, from DuPage county to Jackson Park.

The South Side Electric company has secured from A. J. Cooper a renewal of the lease of their present holding on 20th street near State.

The West Side Park Commissioners at their last meeting instructed their attorney to contest the claim of the Northwestern railroad that the board has no title to West Washington street as a boulevard. It is claimed that the railroad has been attempting for some time to build a crossing over the boulevard and that the attempt to defeat the title of the board is simply a movement to secure such a crossing.

Wm. A. Merigold & Co. report a good demand for cheap lots considering the inclemency of the weather. They sold this week 4 lots at Clyde for $1,200; 50 feet on Rhine street near Leavitt street for $1,100; 25 feet on Leipzig street near Hamburg for $600; 25 feet with residence on West Forty-second street near Thirtieth street for $2,500; 75 feet on West Forty-first street near Twelfth street for $1,875; 50 feet on West Forty-second street near Thirteenth street, for $1,075; 50 feet on Forty first street near Thirtieth street for $700; 50 feet with residence on West Forty-first street near Thirtieth street for $2,450; 25 feet on Thirty-first street near Crawford avenue for $600; 75 feet on West Forty-second street near Thirtieth for $1,300; 25 feet on Fletcher street near Paulina for $750.

W. W. Hutchinson has sold for W. A. Havemeyer to H. K. Gillman lots 852 and 853, in the Third Division of Riverside, 200x224 feet, for $15,000. The property includes a fine house, which is to be improved by the purchaser, who is President of the Western Electric Supply company, at a cost of $10,000. Mr. Hutchinson has also sold lots 772 and 773, in the same division, to C. W. Carhart for Dr. Vantuyle for $7,500. The lot has a frontage of fifty feet and is improved.

Ninety-two lots were sold during the week at Chicago Heights, and contracts awarded for a 48-room hotel and 31 houses. Dolese & Shepard are now at work macadamizing 14th street and will begin to macadamize Centre avenue May 23rd. In addition to the contract awarded to Dolese & Shepard for macadamizing streets and building stone sidewalks at Chicago Heights amounting to $175,000, the company has awarded a contract to Wm. Helm & Co., large railway contractors, now at work for the Chicago, Milwaukee & St. Paul Rwy., for the construction of 27 miles of streets. In addition to this the Association has engaged a landscape designer who was employed for a large number of years by one of the royal families in Berlin. The plans of the parks, drives and lakes were originally designed by Greeley, Carlson & Co. who are well known in Chicago as being expert engineers and designers of park systems and driveways. The Association will expend about $500,000 this season in improvements.

LATE LEGAL DECISIONS.

An important decision has been rendered by the Circuit Court in reference to the power of park commissioners to remove obstructions in streets. The case was McCormick v. South Park Commissioners. Complainant applied to the city of Chicago and obtained a permit to make alterations upon his building. A piazza not shown in the plans was determined upon by Mr. McCormick after the permit was granted. The court held that a lot owner may erect such a building within his lot limits as he deems proper. The right of regulating the manner of his building by the city, arises from the necessity of providing against fires, and of requiring that the individual shall so use his own as not to injure his neighbor.

By the act of the Legislature, park commissioners were given power over certain streets, and by an ordinance power was given to them over Michigan avenue, to take, regulate and improve the same. The Legislature conferred no express power concerning the erection of buildings or as to removal of nuisances.

The piazza in question was securely built, sixteen feet above the sidewalk, was not a common law nuisance, and in no way interfered with the public use of the street, and the park commissioners had no power to remove the same.

The city has the power, by withholding the approval of any plans which show such contemplated extensions into the street, and by refusing a permit therefor to prevent any such constructions.

RIGHTS OF PROPERTY OWNERS IN STREETS.

In two cases reported by the New York Law Journal the rights of owners in streets are defined. In one case it was held that where a description in a deed bounds land by a street or road, the fee of which is in the grantor, the grantee, even though no portion of the fee of the road passes, acquires a private easement of light, air and right of access in such parts of the road as abut the land conveyed, which is distinct from the public easement and is not extinguished by the closing of the road as a public highway. The heir of a grantor in such a deed could not maintain ejectment as to abutting portions of the street after the closing of the latter as a public highway, because on account of the private easement of the grantees, the grantor's heir was not entitled to possession though seized of the fee.

In the other case between the same parties, it was held that the presumption is that a conveyance of land bounded by an existing street carries the fee to the center thereof. The center of the highway is regarded as the true boundary. This presumption may be rebutted by the language of the deed, if it shows affirmatively that the intention of the grantor was not to include the fee of any portion of the road abutting the premises described.

PURCHASER OF LAND SUPPOSED TO BE THE OWNER.

When a contract for the purchase of land and a deed therefor is executed to a party, it will be presumed that he purchased the property with his own money; and in order to rebut this presumption by parol testimony the proof should be so convincing as to leave no reasonable doubt.

Parol evidence to establish a resulting trust in land bought by one in his own name, must be full, clear and satisfactory, and should be received with great caution. This rule is especially applicable when it is admitted that the party claiming the equitable title has not paid any part of the purchase money, and where it is claimed that the alleged cestui que trust has borrowed the money to make the purchase, either in whole or in part, from the party taking the legal title, or has made an agreement with the latter for an advance of the purchase money.

Where the question is, whether the holder of the legal title has paid his own money for the purchase of the title for himself, or whether he has taken such title as security for a loan of money advanced to enable another person to make the purchase, so as thereby to create a resulting trust in the nature of a mortgage, the character of the transaction cannot be determined by evidence of declaration made by the holder of the legal title to outside parties in chance conversation, which the witness had no reason to recollect from interest, which may have been imperfectly heard, perverted or altogether fabricated—testimony therefore impossible to be contradicted.

WHAT PREMISES A LEASE CONVEYS.

When a lease of a building does not in terms convey any right to a passage way to building in the rear of that leased, nor any right to such buildings in the rear, the most that can be claimed is, that by construction, the lease conveys so much of the lot on which the building stands, as may be necessary to the complete enjoyment of the leased building for the purpose for which it is rented.

THE COMPLAINT IN A FORCIBLE DETAINER SUIT

In a forcible detainer suit the complaint is a mere pleading, not required to be sworn to, and is not required to be made or signed by the plaintiff in person. It may therefore be made by an agent or attorney.

WHERE SPECIFIC PERFORMANCE IS IMPOSSIBLE.

When a party, honestly believing that he is the owner of real estate, makes a contract for its sale and conveyance, and it turns out that the title is in another, and the vendor is guilty of no fraud or misconduct, so that he cannot perform on his part, or require payment by the vendee, a court of equity will not, at the suit of the latter, decree a specific performance.

POWER OF HUSBAND OVER HIS WIFE'S LAND.

On August 26, 1878, a husband and wife gave a trust deed on the wife's property to secure a debt of the husband of $240, due in one year, which was a second incumbrance. On August 9, 1879, the husband borrowed $1,450 from his brother for the purpose of redeeming the land, agreeing to bid off the property in his name. On Sept. 27, 1879, the husband had the property sold under the trust deed and struck off to his brother for $358. The brother, in 1883, borrowed $2,000 on the land for which he gave a deed of trust. In 1886 he paid this loan by a sale and conveyance of half of the land: Held, that the husband had no right to pledge his wife's land without her consent for the loan made by his brother through the trustee's sale, and that the brother was not entitled to a lien on the land for more than $358, the amount bid by him, and that a court of equity would require the brother to make a quit claim deed to the wife for the remaining half of the land.

NEW PLANS BY CHICAGO ARCHITECTS.

Architect F. B. Townsend has let contracts for the construction of a three story apartment building 111x70 feet, at the northeast corner of Laflin and Plum streets by Chapman Bros. It will be constructed of pressed brick and stone, the interior being finished in hardwood; cost $40,000. He has also designed for the same owners six two-story houses 18x50 to be erected on Stanley terrace, near Jackson boulevard. They will be of brick and stone and cost $5,000 each.

Architects Patton & Fisher have designed an additional story to the Armour flats located on Dearborn street and Armour avenue, between 33d and 34th streets. It will be constructed of pressed brick and terra-cotta, and will conform to the present structure. It will contain thirty apartments; cost, $90,000. The same architects have designed for W. F. Furbeck a two-story and attic residence to be erected at Oak Park. It will be of stone and frame, with hardwood interior, heated by hot water and lighted by electricity; cost $18,000. They have also planned a three story school building, 80x125, to be built at Muskegon, Michigan; cost $50,000.

Architect M. E. Bell has drawn plans for a three-story residence for J. F. Rice, to be erected at the corner of Woodlawn avenue and 56th street. The exterior will be pressed brick and stone, while the interior will be finished in hardwood and heated by steam; cost, $25,000. The same architect has drawn plans for the State Reformatory to be erected at Pontiac, Ill., and to cost $110,000.

Architect W. H. Drake has planned a four-story store and flat building, 49x80, to be erected at 2417 and 2419 Wabash avenue by H. F. Waite. It will be constructed of iron and Bedford stone and cost $20,000.

Architect D. H. Burnham is drawing plans for a two-story school building on Noyes street in Evanston. It will be constructed of light colored pressed brick with shingle roof. The interior will be finished in hardwood and heated by steam; cost $25,000.

Architect Henry Ives Cobb will furnish the plans for the Lewis Polytechnic Institute to be erected at the southwest corner of Van Buren and Morgan streets under the control of Hugh A. White, John M. Adsit and John A. Roche. The building will be five stories high, of stone, and will cost about $25,000. Construction will be commenced soon.

Architect Charles S. Frost has completed plans for a seven-story building, 50x150 feet, to be erected at the northwest corner of Van Buren and Franklin streets by Kuh, Nathan & Fisher. This is the heart of the wholesale district and a structure adapted to the requirements of that locality will be erected. The exterior will be of pressed brick and terra cotta, the interior being of mill construction and heated by steam, lighted by electricity and supplied with elevators; cost, $150,000. The same architect has also designed a two-story building, 65x70, to be built at the southwest corner of Kinzie and Kingsbury streets by the Chicago & Northwestern Railroad company, and to be occupied by the lighting plant. It will be of brick and stone and cost $25,000 to $30,000. Mr. Frost has designed a railway station for the same railroad to be erected at Council Bluffs, Iowa, at a cost of $25,000; one at Geneva, Ill., to cost $15,000: one at Morrison, Ill., to cost $15,000, and one each at Rogers Park and Oak Park, to cost $10,000.

The Union Stock Yards and Transfer company will build a two-story sale stable at Green and 41st streets, to cost $40,000. Also a two story shop at the same place, to cost $12,000.

George Seaverns will put up a three-story dwelling at 3833 Michigan avenue, to cost $12,000.

Plans have been drawn by the Phenix Bridge company for an observatory tower 350 feet high to be built near Lincoln Park by Charles H. Merrill. A tower eighty-seven and a half feet square and forty feet high will constitute the base of the tower. The foundations will be of granite and brick laid in cement. On the ground floor there will be a restaurant and on the second floor toilet and waiting rooms. The first landing will be 185 feet high and will be a floor 60x80 feet in size. The next landing will be 320 feet from the ground and will be large enough to accommodate 400 people at a time. A still higher landing will be at the top, 350 feet high, and will be reached by a winding stairway. The tower will be constructed of steel tubing and will be equipped with two rapid elevators.

Architects Flanders & Zimmerman are letting contracts for two two-story store and flat buildings for G. Brown, to be built on Rhodes avenue, near Thirty-fifth street, at a cost of $15,000.

Architect George W. Maher is letting contracts for three residences, to be built at Edgewater, for J. L. Cochran, to cost jointly $20,000.

Architects Wilson & Marble are taking figures for the erection of a four story apartment building to be built on the corner of Vincennes avenue and Forty-sixth street, for A. Delfosse, at a cost of $100,000. The fronts on both streets will be of pressed brick with stone trimmings; the corridors of mosaic with marble wainscoting, the building to be heated by steam and lighted by electricity. The same architects are also letting contracts for four residences for A. Mendel, to be built on the corner of Michigan avenue and Forty-fourth street, at a cost of $75,000. These buildings will be three-story stone fronts, with all modern improvements. They are also letting contracts for two residences on the corner of Grand boulevard and Forty-fourth street, for George C. Watts, which are to be stone fronts, two stories and basement, and cost $40,000.

Architect J. W. Ackerman is letting contracts for the natatorium and cafe which is to be erected by a syndicate on Midway plaisance. It will be 250 by 200 feet, frame, with staff covering, and will cost $85,000. He is also letting contracts for a store and flat building on the corner of Halsted and Forty fourth streets, for J. J. Walsh, to cost $22,000, and for two cottages to cost $5,000 each, one at Morgan Park, for Charles L. Gilbert, and one at Austin, for Charles Kelley.

Architects Heathcrington & Warner are planning a three-story addition to the building at the corner of Albany avenue and Van Buren street. It will cost $5,000. They are also letting contracts for a three-story and basement residence on the corner of Twenty-eighth and Union streets, for P. Brophy, to cost $5,000.

The Polish Society of the West Side will erect a four-story hall and store building on Ashland avenue, near 18th street, to cost about $75,000. The Society owns 100 feet west front, on Ashland avenue and the building to be erected will have ground dimensions of 80x125 feet. The first floor will be divided into four stores, the street frontage of the upper floors will be arranged in offices and the rear of the building will be occupied by an auditorium with a seating capacity of about 600. Work is to be begun at once. The construction of this building is attributable largely to the effect of the cross-town line now being laid on Ashland avenue.

Followers of the Greek church—the Russian orthodox faith—have decided to build an edifice in Chicago. The committee on building consists of P. de Thal, the Russian imperial consul to Chicago; N. Forster, Bishop Nikolay, Dimiti Petrovitch, William R. Ebel and Father Ambrosius.

OUTSIDE BUILDING NEWS.

ALABAMA.

Bessemer—The city contemplates erecting a $10,000 school building. The mayor can be addressed.

Huntsville—J R Stegall will receive proposals until June 7 for the erection of a city hall and market building. It is to be two stories 51x100 feet. H. D. Breeding prepared the plans.

Montgomery—W. G. Wharton has awarded contract for the erection of a 3-story brick store building 32x120 feet to Figh & Williams. The cost will be about $15,000. McIntyre Bros. have let contract for a 3-story brick store building 50x125 at $18,000.

ARKANSAS.

Batesville—James Rutherford will receive bids until May 30 for the erection of the 3-story brick and stone court house. The estimated cost is $15,000. Thomas Harding of Little Rock, is the architect.

DISTRICT OF COLUMBIA.

Washington—An edifice will be erected at Le Droit Park for the Church of the Incarceration. J. L. Weaver, of 412 Maple avenue, can give particulars.

Washington—W. J. Edbrooke, supervising architect, Treasury Department, will receive proposals until May 31 for all the labor and materials required for the trench and pit excavation and piling for the foundations of the United States postoffice building at Washington.

Washington—John Dalzell will erect a 3-story brick dwelling to cost $18,000.

GEORGIA.

Atlanta—The plans for the college to be located at Manchester provide for a 4-story brick and stone building 250x148 feet, to be heated by hot air and have water tower, gas engine, etc. The work will be done by day labor, and the estimated cost is between $60,000 and $65,000. F. L. Rousseau & Co., of Birmingham, Ala., are the architects.

Atlanta—A $25,000 orphanage is to be erected by the Independent Order of Odd Fellows at Manchester. D. B. Woodruff of Macon and George O. Berry of Columbia, are the committee on plans and specifications.

Bowman—J. J. Beck will receive proposals until May 31 for erecting a building for the Hebron Baptist high school. The estimated cost is $10,000.

Columbus—Contract for building the $35,000 jail has been awarded to the Diebold Safe and Lock Co.

Cuthbert—W. H. Parkins of Dickey will prepare plans for the erection of a $16,000 building for Andrew Female College. It will be built by day work.

LOUISIANA.

New Orleans—James J. Bill, contractor, has a permit to erect a brick building for the estate of Charles Schmidt to cost about $22,000.

New Orleans—The Southern Pacific Co. will build a freight depot. It will be a 4 story brick structure, about 37x125 feet, and have four elevators. The company has contracted for the erection of a steel shed 250x125 feet.

MARYLAND.

Baltimore—The World's Fair commission, Hoen building, will receive proposals for the erection of the State of Maryland building on the grounds of the World's Columbian Exposition at Chicago.

Crisfield—W. J. Palmer of Washington, D. C., has prepared plans for a 3-story brick and stone hall building, 50 by 90 feet, for the Independent Order of Odd Fellows.

TENNESSEE.

Memphis—The Commercial Association proposes to erect an office building about seven stories in height.

TEXAS.

Edna—A company will be chartered by D. E. Gnidry, M R. Klein, A. J. Lutz and others to build an opera-house.

Llano—J. A. and G. H. Wilson, of Sulphur Springs, have been awarded contract at $34,500 for erecting the 2 story brick and granite court house building previously noted. Larmour & Watson of Austin are the architects.

Velasco—J. D. Gunter & Co. have been awarded contract for the erection of an edifice for the Congregational church.

Velasco—Parry & Crawford have been awarded contract for a 3 story brick building, with iron and plate glass front, for the Real Estate Exchange.

Velasco—Martens & Silven have prepared plans for the building for the Velasco National Bank.

VIRGINIA.

Norfolk—The Lambert's Point Building Co. is chartered with Barton Myers president. The capital stock is $25,000.

Roanoke—The Board of Public works will receive proposals until May 30 for the building of an addition to the courthouse.

Salem—The Salem Improvement Co. will build a brick block 122x80 feet.

WEST VIRGINIA.

Huntington—R. Shore is said to contemplate the erection of an opera house.

Huntington—The erection of another school building is probable. The Board of Education can give information.

Huntington—Snyder Bros. will erect a four-story brick and stone building 45x140 feet, and the Y. M. C. A. a similar structure.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

Established 1853.

ARTHUR C. GEHR & CO.

Successors to

Saml. Gehr AND Son,

Real Estate Loans,

and

Investments.

From 1861 to 1892 at 114 Dearborn Street.

From 1892 to 1893 at Unity Bldg, 79 Dearborn street.

From 1893 to.....(After completion of new building) at 114 Dearborn street.

Our Specialty is Loans on Chicago Real Estate, but we give personal attention to any matter relating to Real Estate Investments.

COLUMBIA HEIGHTS.

This new manufacturing center is situated two miles south of Chicago Heights on the Chicago & Eastern Illinois Railroad, having the advantages also of the Elgin, Joliet & Eastern R. R., known as the Outer Belt Line.

The land lies 120 feet above Lake Michigan, having perfect drainage and being free from malaria and all unhealthful features incident to low lands.

MANUFACTURES:

Rice-Hinze Piano Company.
Steger & Company Pianos.,
Columbia Ornamental Terra Cotta Co.
Superior Lumber Company.

LOTS $200 AND UPWARDS.

$10.00 Down—Monthly Payment $5.00.

Free transportation week days and Sundays. Special train every Sunday at 1 p. m. For circulars, transportation or any information call at my office.

JAMES F. KEENEY, Owner.

Suite 1123 Chamber of Commerce.

Western Springs

The Queen Suburb of Chicago

26 MINUTES FROM UNION DEPOT!

ON THE CHICAGO, BURLINGTON & QUINCY R. R.

56 TRAINS DAILY.

WATER, from the CELEBRATED MINERAL SPRINGS will be conveyed to all portions of the village.

A system of Drainage has also been adopted by the Village Board of Trustees, both water and sewer systems have been developed by Engineer Benezette Williams, and will be completed as speedily as possible.

These improvments make this suburb in all particulars, the most desirable about Chicago, as a place for Homes with schools and churches.

The train service is complete.

Rapid transit is a fact.

This location is 96 feet above level of Lake Michigan. The ground high and rolling. The streets are shaded by trees of more than 20 years growth, In fact the entire village is a beautiful Park. Lots can now be secured at prices that insures purchasers large returns for their money in the Near Future. All desiring Homes for their families, should look this property over before purchasing elsewhere.

Call and go out with us any day, and we promise to surprise you with the advantages and beauty of this place.

C. C. COLLINS,

Telephone 2868.

Rooms 60-61, 175 Dearborn Street.

Edgemoor

We are now offering for sale blocks and lots in Edgemoor, the new suburb on the Chicago Central Ry. at 79th street. Edgemoor is one-half mile square and includes 160 acres of the beautiful ridge property in the South-West part of the city with an East frontage on Western Ave. and a North frontage on 79th street. The Chicago Central, the Northern Pacific's new suburban road, runs directly through the center of the property with a depot at 81st street. On this road will be inaugurated by June 1st, the most complete train service as to elaborateness of equipment and quick running time given on any suburban road in the city. The scheduled time from Edgemoor to the Grand Central depot will be 22 minutes. The South 80 acres of Edgemoor is being improved in a high class manner. The contracts for the side-walk and curb and gutter work have been let to The North Western Asphalt Co. The walk is built of granite and cement and is six feet wide. The combined curb and gutter is also built of granite and cement, the gutter being eighteen inches wide. Edgemoor is the only residence district in Chicago, outside of the boulevard frontages, where the curb and gutter combined has been put in. The contract for the macadam work has been let to Eggleston, Mallette & Brownell and calls for a high grade of work. A double row of trees of the Catalpa variety, are being planted, one row on the park-way which is 12 feet wide. A special form of warranty deed is used in conveying the property which provides for a 20-foot building line and a $3,000 building restriction. Contracts for four houses to cost $5,000 each have already been let and they will be completed and occupied by June 15th. Every effort will be made to make Edgemoor a high class residence district. Lots will be for sale for the next 60 days at prices 25 per cent less than the same grade of property can be purchased anywhere else in Chicago. We are prepared to offer special inducements to individual investors and syndicates who will take a five-acre block interest in the property. Liberal commissions made to brokers and agents.

HAZLEWOOD & WRIGHT,

1316 CHAMBER OF COMMERCE BUILDING.

A RARE OPPORTUNITY.

20 ACRES JOINING EDISON PARK.

A fine tract, on two section lines, with streets opened and sidewalks laid to it. It is 50 feet above the lake, with beautiful surroundings. Distance only 35 minutes' ride—34 trains daily. There is a profit of 200 per cent in it, at least, to subdivide or syndicate it. Don't fail to investigate it. ONLY $500 PER ACRE.

SEND FOR LIST OF ACRES.

Nelson Thomasson,

115 Dearborn Street, Chicago.

Deals Principally in his own Property.

MAKES A SPECIALTY OF

Acres, Stores and Boulevard Property

Anyone wanting to sell or buy Acres, Stores or Boulevard Property should write to him.

REFERS TO CHICAGO BANKS.

We are the People

Who are doing the Business.

Acres are said to be dull. In spite of this we have placed under contract several hundred thousand dollars' worth within the past few days. We offer the following:

North, 2,000 acres near Waukegan, on the Chicago & Northwestern Railroad. Station on the ground. Rapid transit will bring it within 50 minutes' ride of Chicago. Price per acre $125.

North Shore Acres, 60 acres on the Lake Shore, north of Kenilworth. Has 2,400 feet frontage on Sheridan Drive. Price per acre $2,500.

South, We have a large tract, never before offered for sale, which adjoins property recently subdivided and sold for $450 to $750 per lot. Price per acre $2,000. Policy of the Chicago Title & Trust Co. furnished for full amount.

West, A 50-acre tract belonging to Eastern clients is offered for immediate sale at a very attractive figure; Ogden avenue frontage. The Q and Illinois Central both have stations at the property. Price per acre, $2,000.

Riverside Acres, 20 acres on the river. Price per acre, $1,000.

DUNLAP SMITH & CO.

170 Dearborn St., N. W. Cor. of Monroe.

Why are Lots Selling at

HARVEY.

Faster than at any other Chicago Suburb?

Come and see. You will find it is

BECAUSE we have high land, 22 feet above the Lake.

BECAUSE it is beautifully located, with broad streets, trees, parks, sewers, paved streets, electric lights, electric cars.

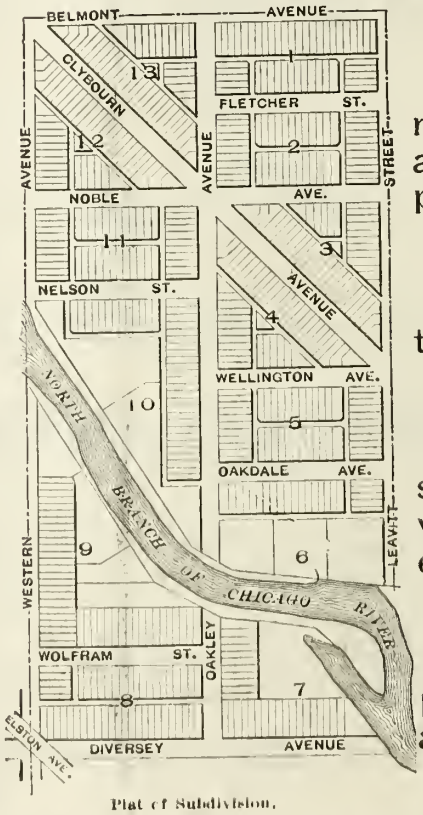
BECAUSE Harvey is a temperance town, and always will be.

BECAUSE we have more large manufactories than any other suburb, and because we sell lots cheaper, and you can build a home and pay for it out of the RENT you pay in Chicago.

PROVIDED you buy of the original founders of the town, and do not buy in any of the additions to Harvey.

Full Information and free transportation gladly furnished by

THE HARVEY LAND ASSOCIATION,



819 THE ROOKERY,

COR. LA SALLE AND ADAMS STREETS,

CHICAGO.

CLYBOURN AVENUE ADDITION.

To Lake View and Chicago,

Plat of Subdivision.

Including some of the most accessible dock and manufacturing property in the city.

Special Inducements to Manufacturers.

Residence lots in this subdivision for sale at very low prices, and on easy terms.

Branch office on the property, Cor. Clybourn and Belmont Avenues.

A. O. Bosworth,

805 Tacoma Building.

THE NORTH PART OF CICERO.

The territory shown on the map includes all of the north half of Cicero, extending from Fullerton avenue on the north to Twenty-second street on the south. It embraces also the portion of the city containing Humboldt, Garfield and Douglas parks. It shows the Grant Locomotive Works between Twelfth and W. Twenty-second streets, W. Forty-eighth street and Central avenue; also the towns of Cragin, Galeswood, Austin, Ridgeland, Oak Park, River Forest and Maywood.

The first feature of this territory which strikes the reader on looking at the map is its remarkably good railroad facilities. Hardly any point on the map is more than four blocks distant from a railroad. Many points are accessible to two or more lines leading into the heart of the city. It is this more than anything else that has caused this territory to grow in population so rapidly. Along the line of the Northwestern and the Wisconsin Central railroads there have sprung up a series of villages which have gradually merged into one, until the city is now continuous to and beyond the Des Plaines river.

In addition to the excellent steam railway facilities with which the north half of Cicero is supplied, there are equally good street railway accommodations. In the Cicero and Proviso Electric street railway the west siders have a transit system superior to any other in the city. This road was opened for travel in February 1891, since which time business has developed so rapidly along its lines that the equipment has been doubled, the power plant enlarged and other provisions made to accommodate the increased demand. At the time of opening, traeks were laid on Madison and Lake streets to Harlem avenue and since they have been extended on Madison street west to the Des Plaines river and on Des Plaines avenue from Madison street to Twelfth street, thus reaching important objective points. viz: Waldheim and Forest Home cemeteries on Des Plaines avenue and Altenheim and Concordia cemeteries on Madison street. The Madison street line also reaches the vicinity of Maywood and passes along the centre line of the village of River Forest and intersects the village of Harlem. The extensions of the system next to be made will be west on Madison street, from the Des Plaines river into Maywood; west on Twelfth street from W. Fortieth street to Broad View, a town on the Illinois Central's new line, the Chicago, Madison and Northern: and the property owners along the way are working actively to get matters in shape for the company to commence the building of these extensions. A line west on Sixteenth street, from W. Forty-eighth street to Harlem avenue, is also being considered and negotiations are also under way with the company in the interests of a line to extend north on Ridgeland avenue into Jefferson. It will be remembered, too, that the company's franchise includes a line on Chicago avenue from W. Fortieth street to Harlem avenue, which line, by the way, may be changed to Augusta street so as not to be so near the lake street line.

Of the future of this section of the city it is safe to predict great things. On the north is Cragin, with unequalled railroad facilities—a natural manufacturing centre. In the centre are Austin, Ridgeland, Oak Park, River Forest and Maywood, already a continuous city. South of these come the various additions which are fast filling up all the available territory as far south as the Grant Locomotive works and the Northern Pacific Car shops. These great industries, of which we shall speak later on, will double the population for blocks around them in every direction. They have already given a great impetus to the sale of property and the building interests in this vicinity.

The problem of securing an adequate water supply for this great district was at one time discouraging but has been at last solved by sinking artesian wells and pumping the water into the mains by powerful engines. The streets are all graded and will be macadamized, finely lighted and provided with water pipes. The authorities of Cicero have decided to light the whole township with electricity and will establish one electric light plant for the town in the north half and one for the south half of the territory.

APPLICATIONS FOR BUILDING PERMITS.

Forest av 3737, Fred W Lee, 1 story addition, $2,000.
Van Horn st 716, Joe Kotopis, 3 story flats, $2,400.
Thirty-fifth st 143-5, W L Begler, 1 story addition, $3 000.
Parnell av 3836, M J Thorn, 2 story flats, $2 700.

Greenwood av 5026, W O Goodman, 3 story residence, $40,000.
Union av 3122, Andrew Welsh, 3 story flats, $4,500.
Webster av 247-49, John H Birren, two 3 story flats, $7 000.
Fifth av 3000, Peter Falkhein, 3 story flats, $5.000.
Sheffield av 180, Charles Walter, 3 story flats, $2,500.
Seventy-third st 247-249, J McConnell, two 2 story flats, $7,000.
Newport av 1335, Fred Almanraider, 2 story flats, $3,000.
Melrose st 451, Leott Sullivan, 2 story dwelling, $800.
Racine av 654, John J Hanson, 2 story flats, $2,000.
Fifth av 3000, Peter Falkbein, 3 story flats, $5,000.
Francisco st S 16, Carl Elian, 2 story flats, $6 000.
Armitage av 684, Miss E Beebe, 2 story flats, $2,000.
Michigan av 35, 37 and 39, Richard Pennington, two 3 story addition, $6,000.
Van Buren st 126 134, John McShane, 7 story rear additon, $25,000.
Townsend st 92, John Lindholm, 4 story flats, $10,000.
Fifteenth st and Oakley av, C & N W R R Co, one shop, $2,300.

A GREAT

Overflow in Harvey,

Not of Water,

As Harvey is from 22 to 28 feet above datum, but

Of Workmen.

Who have come to Harvey to work in some of the new factories just completed.

There are over 600 houses in Harvey, but every one is occupied. A great number of these workmen are boarding and storing their household goods until houses can be built.

Can you not buy a lot and build a house at Harvey, thus helping yourself, as you can get from 20 to 25 per cent. income, and helping those who are waiting and willing to rent and buy.

We extend a cordial invitation for all to visit Harvey, thus making a personal investigation. It will cost nothing, but may prove of great benefit to you. Call at the office of

The Harvey Land Ass'n,

819 to 825, The Rookery.

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemoralive of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execule new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

Edgemoor

Is entitled to first rank among the high class residence suburbs of Chicago. It is one-half mile square, extending south from 79th to 83d St., having a half mile east frontage on Western avenue, and a half mile frontage on 79th street. The street improvements are of the highest grade, including walks of granite and cement six feet wide, combination curb and gutters, and firmly macadamized road bed. A twenty-foot building line has been established, and a $3,000 building restriction is made a part of the consideration in each deed. The transportation facilities are unsurpassed. The Chicago Central suburban line, with a depot in the center of Edgemoor, makes the run to the grand Central depot in 22 minutes, with frequent trains. Edgemoor is fifty feet above Lake level, the surface is slightly rolling and the surroundings are picturesque. Lots are for sale to desirable purchasers cheaper than in any other residence district in Chicago where improvements are of an equal grade. Residences built to order, and sold on terms to suit.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

20 MILES OF MACADAMIZED STREETS AND STONE SIDEWALKS.

Extensive Improvements are under way, and within Sixty days Ten miles of streets will be macadamized. Speeial inducements are offered to parties who wish to organize Clubs or Syndicates for the purpose of purchasing a block or seleeting a number of choice business lots.

The Best Savings Bank is Real Estate Judiciously Purchased.

Lots within the business center of Chieago could be purchased within a comparatively short time for a few hundred dollars, and were within the reaeh of all who desired to invest. The wise people who invested a small amount of money in Chieago property are now rieh. The lots they purchased for a few hundred dollars are selling now for thousands of dollars per foot. Chicago's wonderful and natural growth has been the cause, and Chicago has only begun to grow.

Buy a Lot at Chicago Heights,

Pay for it and let it alone for a few years. The investment will make you independent. 500 houses ean be sold as soon as erected. Contractors and builders will make the greatest mistake of their lives if they fail to take advantage of the splendid opportunities offered them at Chicago Heights.

Eight Large Factories in Full Operation.

Negotiations pending with a large number of faetories which have an established business of long standing as well as a national reputation at home and abroad.

Free Factory Sites, and a Liberal Cash Bonus

Will be given to Factory establishments of good standing.

The Largest Factory in America

Heroy & Warrener, of New York, the largest Plate Glass people in Ameriea, have loeated at Chicago Heights, and their extensive faetory eovering Eight Acres is in course of eonstruction.

Superb Transportation Facilities.

Chieago Heights is located seven miles south of the eity limits, on the Chicago & Eastern Illinois Railroad, Miehigan Central Railroad, Elgin, Joliet & Eastern Railroad, Chieago's great belt line, whieh makes connection with every railroad entering the World's Fair City, making this point a great railroad eenter, thus affording transportation facilities unequalled by any manufaeturing eenter. In addition to this, Chicago freight rates prevail to and from all points, thus making it possible for manufacturers to enjoy the same commereial advantages as though they were located in the very center of the city.

Pure Spring Water and Pure Air.

The land is high and admirably adapted to the uses to which it is to be put. It lies 120 feet above the level of Lake Michigan, is beautifully undulating, and partly wooded, while a never-failing stream furnishes an abundant supply of pure water, whieh, with the pure air afforded by the high altitude, makes this one of the most healthful and charming places about the city. In addition to these advantages it possesses good ehurehes and schools.

Stability of the Enterprise.

The following well-known gentlemen are among the promoters of Chicago Heights:

CHICAGO, SATURDAY, MAY. 28, 1892.

Finance and Trade.

The great abundance of money everywhere and the consequent low rate of interest continues to be the most prominent feature of the financial situation. In Chicago, time money is slow to move at 5 per cent and money on call can be had at the lowest rates ever known here. Recent stock settlements representing interest for 30 days range from ½ to ¾ of 1 per cent. In New York, call money has ranged at from 1 to 1½ per cent, with prime mercantile paper at 3 to 5 per cent. Money has begun to accumulate again in the New York banks. The statement for last week shows $4,723,600 increase of cash held by the banks, of which nearly $2,100,000 is in specie, and over $2,600,000 in legal tenders. The deposits increased $3,759,000, and are now larger than ever before reported, except on April 30 last, when they were $535,778,000, against $534,495,700 at the present time. The decrease in loans of $1,107,000 during the same week is the most unsatisfactory feature of the statement. It is a well-known fact that bankers are eager to make loans at low rates of interest and without over-scrutiny of securities The fact, then, that loans for the week were $45,000,000 less than the deposits, is a pretty good indication of a general falling-off of business.

The prevailing weather conditions and flood reports have been sufficient to account for any dullness the market may exhibit. Still, the situation is by no means discouraging. Floods, though serious in their consequences at the time, are soon over, and it is surprising how quickly a section devastated by flood recovers. The area of the lowlands overflowed was comparatively small, and farming in the uplands was so far advanced that if dry, warm weather prevails from now on there will be no reason to apprehend a deficiency in crops. In fact, the prevailing spirit is decidedly hopeful. The far west and the south have for a long time suffered from a sort of chronic inactivity, but there are signs of a revival of trade even in these sections. With anything like a fairly favorable weather report trade conditions would rapidly improve. Even now the movement in grain and provisions is not at all unsatisfactory.

Operations on the Chicago Board of Trade have been adversely influenced by threats of hostile legislation at Washington—particularly through the Hatch anti-option bill. The shelving of this bill by the house committee at Washington this week had a favorable influence on the market. The mere announcement that consideration of the measure had been postponed was sufficient to raise wheat 1½ cents a bushel. Brokers are hoping that the move means the permanent shelving of the Hatch bill. They say that it is evidently a shrewd method of disposing of the measure and that the bill is now so far down on the list that it will never be heard of again. Mr. Hatch himself, the author of the bill, is quoted as admitting that there is now no probability of the measure being reached this session. It is said that the protests of the various large exchanges throughout the country were chiefly influential in securing delay in the consideration of the anti-option bill, and brokers confidently predict that if the measure ever comes up again it will be defeated by the same influence.

The corn market is in a decidedly unsteady condition. Prices have ranged all the way from 63 to 67 cents during the week. The principal disturbing factor is the weather. Prices during the week rose or fell according as the sun shone or not. So important are the present weather conditions to the success of the corn crop that the most anxious students of the weather bulletins on the board are the operators in corn. In provisions there has been some activity in pork. A little excitement was caused Thursday by more than ordinarily heavy purchases by some of the leading packers. The result was a sharp advance on that day in all hog products.

It has been a bear week on the New York Stock Exchange. The flood news from the west has had its effect all along the line. Stocks have sold down despite the efforts of the bulls to dispel the fears of disaster in the flooded districts and partial failure of crops throughout the west. Foreign houses have been sellers, influenced by reports of renewed silver agitation and of legislation hostile to the Reading combination. It is surprising how quickly small influences affect the market. Experienced operators say that the present prices of stocks are much too low and that the securities sold recently will be bought back before long at higher prices. The flood scare will not be sufficient to keep prices at their present low ebb for any considerable length of time.

Some local stocks on the Chicago Exchange have shown a decided tendency to soar during the past week. The securities most active are the street railways. On Thursday City railway rose 13 points on sales of only 162 shares, and touched 376, the highest point it has ever yet reached. Last fall this stock sold at 268. This rapid rise has been a surprise even to the most sanguine holders of the stock, yet some of the stockholders are of the opinion that it will ere long reach 500 The fact is there is little of this stock for sale and any considerable demand for it puts the price up quickly. The rumor of a combination between the City Railway company and the Alley Elevated railroad is denied. Alley "L" 5 per cent bonds have reached 99, the highest figure touched by them so far. West Chicago street railway has risen to over 150. North Chicago street Railway is quiet but keeps at about its highest figure. It is claimed that there are some mysterious forces at work manipulating these stocks in the interest of a clique and that the average operator outside of this combination is standing from under, fearing a possible drop that may bring disaster to those not in the ring.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of sixty-seven leading cities for the week ending May 19, 1892, as compared with those of the corresponding week of last year, with percentages of increase and decrease.

CITY.	WEEK ENDING MAY 19, 1892.	WEEK ENDING MAY 21, 1891.	PER-CENTAGES.

†Not included in totals.

The table of bank clearings begins to present a more encouraging appearance. A glance at the column of percentages will show that a large majority of the cities return increases. Only a few show decreases. The total gives an increase of 8.4 percent with 5.8 per cent without New York. The losses, which have heretofore been confined principally to the far west and the south, are now scattered over the entire country. This would indicate that no particular section is suffering seriously but only that certain centres have encountered a dull week. It will be noticed that none of the larger cities show large declines. San Francisco and New Orleans each show a small percentage of loss. Indianapolis loses 15.4 percent; Duluth, 16 9; Nashville, 33.4; Tacoma, 18.6; New Bedford, 39.8. This completes the list of considerable losses. The gains more than compensate. The grand total as compared with the week previous, also, shows a gain.

The gain of 10.3 percent in New York's clearings does not accurately represent the relative amount of business transacted. During four days of the week the clearing house in connection with the New York Stock Exchange was in operation for the first time in the history of the exchange. The transactions settled by the stock clearing house were confined to only four stocks These transactions amounted to a total value of $33,200,000, the greater part of which under the old system of deliveries would have been the subject of checks, and would have appeared in the weekly aggregate exchanges of the New York banks. Under the stock clearing system they were settled by the exchange of checks between brokers for only $5,817,000. On the face of the returns, therefore, even the limited extent to which the new system has been operated results in a reduction of the bank clearances of some $27,382,000. It will be seen that the new plan will have an important effect on the total clearings reported from New York. Just how great that effect will be can be determined only by experiment.

The establishment of the stock clearing system on the stock exchange was reserved for the one hundredth anniversary of the exchange, which was celebrated May 17th. This innovation has been the subject of a long agitation and is probably the most radical innovation ever introduced into the business methods of the exchange. The previous system, however, is regarded as antiquated and expensive and the new method is in accordance with the system of the great exchanges of the European financial centres and the larger American cities. The initial test of the new system was confined to four stocks, St. Paul, Reading, Northern Pacific preferred and Louisville and Nashville, and a four-days' trial with these four stocks has been very successful. The success of the plan has proved highly satisfactory to all. Out of the 1,100 members about 380 have made arrangements for conforming to the plan, this number including nearly all the active houses of Wall street. Other stocks will be added from time to time, until the bulk of the transactions of the board are included in the plan. We shall from time to time note the effect of this new stock clearing house on the returns of bank clearings from New York city. It may be

reasonably expected that the totals will be very considerably reduced.

A comparison by groups of states shows the following.

	WEEK ENDING MAY 19, 1892.	WEEK ENDING MAY 21, 1891.	PERCENT AGE.

THE LOCAL STOCK MARKET.

This has been another remarkable week on the Chicago Stock Exchange, and many operators have made large profits. Ed Pardridge is credited with having sold a large block of West Side cable at an advance of 20 points. This stock was bought about four weeks ago.

The demand for West Side Street Railway has been persistent, and blocks of hundreds moved freely at advancing prices. There has been no reaction to speak of, and the top was reached on Thursday, toward the close, when 150 7-8 was paid. This is a fractional advance npon the fignre 150, foretold a few days ago by the prophets of Dearborn street. The advance was largely assisted by the official announcement that $4,040,000 of bonds 6s. and 5s., were to be retired during the next two months, and to be replaced by a fresh series of 4s.

North Chicago street railroad has not advanced like the sister property. It has however held its owu. The bnlk of the trading in this property has been for the account, which closed Thursday at 195 5-8.

City Railroad has advanced sharply, upon renewed assnrances that a deal was well under way which was to combine City railroad and the Alley Elevated railroad. Saturday last, this property sold at 355. On Wednesday of present week, it was 360, and at the close of the following day it stood at 374, having previonsly gone as high as 376. This is an extraordinary advance, over 20 points inside of a week. It said that Marshall Field and other heavy holders are not wholly favorable to the projected combination which is credited as emanating from certain well known New Yorkers.

Calnmet and Chicago Canal and Dock has been on the npturn, and has moved to 82 5-8. At the close on Thursday, over 1,300 shares chauged hands.

Street's Stable Car Line has not made any notable change, the tendency being downward closing at 36.

Brewing and Malting has snrprised its critics, who are neither few nor without influence. Last week this property was selling aronnd 33. Since then it has rapidly advanced in favor. Moving constantly npward, nnder a steady demand, it has touched 40, the close, Thursday, being at 39¾. The JOURNAL indicated this property as a purchase when it was a drug on the market only a few weeks ago, since when it has appreciated nearly 50 percent. It is thought that the war of prices is about at an end, and that stockholders will ere long see their beer selling at $6 per barrel.

Chicago Packing and Provision holds its friends and is acquiring more. It may be quoted as firm at, fractionally, above 53, for common stock. As indicative of the attention it is attracting, over $1,000 shares were dealt in during the morning session of Wednesday.

The bond market has not been particularly active, but prices have shown a disposition to advance, as might be expected from the abundance and cheapness of money. Gas Light and Coke 5s., at 91½. Consumers gas 5s., at 89¾. West Chicago railroad debenture 6s., 101½. Ditto 1st mortg 5s., at 101 5-8.

Diamond Match is in light request aronnd 138. American Strawboard is fairly brisk, showing a disposition to move upward and has sold as high as 92. Arc Light and Power has declined a point from last week, and now stands at 94.

Among the transactions of the week the following may be enumerated: Atlas National Bank, at 123. American Exchange Bank, at 140½; Union National Bank, at 160; Traders Insurance at 157½; Board of Trade 5s, 102; New York Biscuit, at 68¼; National Railway of Illinois, at 112; Chicago Edison, at 160; and Chicago Telephone, 221.

THE REAL ESTATE MARKET.

CLOSE OF AN IMPORTANT SALE OF DOWN-TOWN PROPERTY—ACRE ACTIVITY AT BARRINGTON—OTHER FEATURES OF THE WEEK'S BUSINESS.

A week in which announcement is made of a $625,000 down-town purchase, a sale of a 2,000-acre site for a manufacturing town, and of a half dozen building projects and important leases, can scarcely be considered dull, even if the general market is not as yet keyed up to a point satisfactory to general dealers in real estate. The weather continues to be a disturbing factor in the market and to put a damper on any anticipated activity in general subdivision property. The announcement of a proposed purchase of an acre tract at Barrington is directly in the line of improvements along the Elgin, Joliet and Eastern railway which has been pointed out from time to time by the JOURNAL. This Belt Line was projected with the intention of encouraging the establishment of manufacturing interests along its route around the city. From appearances, it has not failed in its purpose. The activity and interest caused by the road has taken a somewhat different turn than the projectors of the road anticipated. While they hoped for the establishment of independent industries along their road, the inclination has been rather to the development of large acre tracts by industrial town syndicates. The manufacturing town idea has become exceedingly popular during the last three years and the success which a number of these projects have met with is encouraging the establishment of others. The Outer Belt road offers special inducements to manufacturers in the way of railroad rates and as it passes through a section where property can be obtained for about farm land prices, acres on its lines, especially at junction points, are in some demand. At almost every intersecting point fromed by this line with roads radiating from the city, large tracts of land have been bought, or are being negotiated for. At least at six of these junction points contracts for land purchases have been completed and the names of some of Chicago's most wealthy capitalists are found among the promoters of Belt Line manufacturing towns.

SALE OF MARKET STREET PROPERTY.

The big sale of the week in down-town property was that of the southwest corner of Van Buren and Market streets, 150x97x149 feet, running to the river on the west, by Judge John P. Altgeld to W. C. Seipp, for $625,000. The Van Buren street frontage is 150 feet, the length of the south line of the property is 149 feet, and the Market street and river frontage is 97 feet. The estimated value of the Market street frontage is $400,000, or about $4,000 a foot. This would leave $225,000 as the valuation of the building, which is a modern warehouse structure of mill construction. This is regarded by some as an exceptionally high price for the improvements. Inasmuch as the transaction is in the nature of a trade, it would be difficult to estimate the cash value of the purchase. The Market street property is said to be encumbered to Philadelphia parties for $300,000. As part payment Judge Altgeld accepts 200x94½ feet, east front on Groveland Park avenue, northwest corner of Thirtieth street, with 100 feet adjoining on the northeast corner of Cottage Grove avenue and Thirtieth street; also 166x161 feet on State street, west front, 173 feet north of Forty-seventh street, at $225,000. The two former holdings are handsomely improved. The latter piece is vacant. In addition to this property Judge Altgeld receives $100,000 in cash. The Groveland Park avenue property includes the old Seipp homestead, a handsome three-story mansard roof brick building. The general opinion of brokers appears to be that the Market street property brought all that it was worth.

ACRE SALE AT BARRINGTON.

Announcement was made this week of the sale of 2,000 acres in Barrington on the line of the Elgin, Joliet & Eastern railroad. It was said that 2,000 acres had been placed under contract at an aggregate price of $300,000. The land is north of and adjoining the old town of Barrington and is partly in Lake and partly in Cook county. The purchasers are Chicago and Milwaukee capitalists, known as the George-Bulger syndicate. Among the Chicago parties interested are John Cudahy, William Bulger, R. H. Buckingham, secretary of the Chicago Steel company, and Burton Johnson, assistant freight agent of the Chicago & Northwestern railroad. In the Milwaukee contingent are John S. George, general agent of the Chicago & Northwestern railroad, and a nephew of Roswell P. Flower of New York; Thomas Shea, John Murphy, cashier of the Plankinton bank; H. M. Benjamin, C. C. Rogers, president of the Advancement association of Milwaukee, and George Freeman of Freeman & Lewis.

The land placed under contract lies at the crossing of the Northwestern and the Elgin, Joliet & Eastern railroads. About 100 acres are in Barrington township adjoining the village of Barrington, while the remainder lies across the line in Lake county. The junction is just thirty-one miles from Chicago. The lowest price paid per acre was $100 and the highest price $300. Negotiations are said to be in progress to secure the location of the Chicago steel company on the property with a large factory. Another company also is expected to locate there which will employ 250 men. At present, however, the Comstock farm of 297 acres near the junction, which was secured at $100 an acre, is to be used by John S. George, of the Chicago & Northwestern road, as a stock farm.

MORE WORLD'S FAIR HOTEL PROJECTS.

The three-acre block at the northeast corner of Fifty-seventh street and Indiana avenue has been leased to a local syndicate by Thomas L. Fulton for a year and a half at a total rental of $15,000. The block has a frontage of 800 feet on Fifty-seventh street and 266 feet on Indiana avenue. The lessees will improve the property with a large hotel to be converted into an apartment building in 1894. This property was bought by Mr. Fulton in 1875 for $18,000.

The Michigan Club house company has been incorporated with a capital stock of $350,000, for the purpose of erecting an eight-story hotel and club house in Kenwood. The intention is to cater especially to visitors from Michigan. John E. Crawford, F. H. Kellogg and W. J. Yates are the incorporators. Charles S. Holmes and L. A. Haseltine, of Room No. 303 Stock Exchange building, are the promoters. Mayo & Curry, architects, are now at work on the plans The location has not been decided upon but the promoters say it is a settled fact that the hotel and club house will be located in Kenwood.

Boddie Brothers have bought from Mrs. Lavina Hoyt for $18,000 the southwest corner of Seipp avenue and Seventy-first street having a frontage of 300 feet on Seipp avenue. They will erect a three story brick structure containing 200 rooms, for hotel purposes. On the rear of the lot a two-story building 20x80 feet in size will be erected which will contain the kitchen and dining rooms. After the fair the hotel building is to be converted into an apartment house. The structure will cost $75,000.

Two World's Fair attractions of more than ordinary magnitude are in preparation by Thomas Tilley & Co. One is a project for building a tower 1,492 feet high to be surmounted by a fifty-foot statue of Columbus. The tower is to have a circular base of 550 feet diameter, and the diameter on the floor of the observatory will be 220 feet. This floor is to be reached by an electric railway winding round the tower in spiral curves. The structure will cover about twelve acres of ground space and is to be adjoined by a six story building to be used as a hotel and theater. The other improvement is an auditorium to seat 25,000 people to be built on the ground leased by the Highland Association at Yates and Seventy-fifth streets. This structure is to be 325 feet in diameter and will cost $100,000.

THE AUDITORIUM HOTEL ANNEX.

The Congress Hotel company has secured from the estate of Mrs. Whitehead for $154,000 the property 38½ feet fronting on Michigan avenue just south of the Wilmarth lot. This purchase gives the hotel company 178½ feet of Michigan avenue frontage running south from Congress street for their annex to the Auditorium Hotel. It is probable that additional property in the rear of this land fronting on Congress street will be secured, and that the entire Michigan avenue frontage will be used for the hotel. It is probable that the Auditorium Association owning the preponderance of the property between Wabash and Michigan avenues, will ask for the widening of Congress street. In this event thirty feet would be added to the width of Congress street, leaving the hotel site 148½ feet in extent on Michigan avenue from the southwest corner of Congress street.

The United States Hotel company is the title of a new corporation recently organized with a capital stock of $250,000 for the purpose of building a hotel with 1,250 rooms adjacent to the World's Fair grounds. S. S. Beeman is the architect. The building will be four stories high and will occupy one full square. The outer structure will be composed principally of staff, such as is used in many of the World's Fair buildings. The hotel will be lighted throughout by electricity, heated by steam and have all modern improvements. It will have four passenger elevators. The dining room will be in the center of the first floor, above which will be an open court. Extending around the court on all sides broad verandas will be built at each floor. The projectors and principal stockholders of the corporation are George W. Henry, Henry A. Towner and W. S. Saeten. The hotel will be managed by W. S. Saeten, at present manager of the Coates house of Kansas City. Operations on the building will be commenced in a few days, and the contractors agree to have it completed by Oct. 10.

MISCELLANEOUS TRANSACTIONS.

Mark D. Leonard has sold for Arthur B. Camp 325 feet, west front, on Michigan avenue, corner 78th street, for $11,375, or $35 a foot. He has also sold for Ernest Dale Owen 148 feet west front on Indiana avenue, near 50th street, for $17,802 or $120 a foot.

T. G. Dickinson & Co., have just made a ten year lease of the building at Nos. 179 and 181 Lake street, at a term rental of $60,000, taxes and insurance. The building is owned by Joseph H. Walker and leased to F. E. Coyne. It is 40x165 feet in dimensions, and four stories high above a basement. For eight years it has been occupied by Walker, Oakley & Co., tanners. Mr. Coyne assumes the lease of this company for two years, and secures an eight-year extension. The lessee will use the basement and first floor as a bakery and restaurant.

An east frontage of twenty-five feet on State street, 200 feet north of Nineteenth street, is reported sold for E. C. Cleaver to W. R. Linn at a consideration of $20,000.

AUCTION SALES ON THE BOARD AND THE EXCHANGE.

Judicial sales are held daily at the Real Estate Board. Some of the more recent sales were as follows:

Lot 26, block 7, Van H. Higgins' subdivision, section 4, 38, 14, to August Kuegrin for $1,260. Lot 7 in Gross' Humboldt park addition to Chicago, section 1, 39 13, to Carl Moll for $1,415. South 16 feet of lot 5 and north 8 feet of lot 6, block 71, Mather & Roberts' addition and north ½ of lot 957, section letter G in Graceland cemetery, $3,535. Lot 22 block 6 Hegewisch subdivision, section 31, 37, 15, to Commonwealth Building and Loan Association, $2,619.20. North 16 feet of lot 9 and south ½ of lot 10 block 4, Normal school subdivision, section 21, 38, 14, to Cottage Grove Building and Loan Association, $4,977.90. Lot 13 in block 13, Weddell & Cox's subdivision, section 20, 38, 14, to same association, for $2,742.35. Lot 16 block 34, Calumet and Chicago Canal and Dock company and parts of fractional section 5 and 6, 37, 15 to Fred Frattz, for $957 43.

At the auction sale at the Real Estate Exchange Monday, a fruit farm near LaPorte, Ind. was sold to Frank Riedle for $3,800 and five lots on Avers avenue north of Ohio street were sold to C. F. Holman for $375 each. A number of other pieces were offered but were withdrawn because the price set was not reached by the bidders. The next sale will be held Tuesday at 12 o'clock.

TRIAL TRIP ON THE ALLEY "L."

At 2 o'clock yesterday afternoon two trains left the Congress street station on the alley "L" road for a trip down the line. A large number of invited guests were in attendance. Refreshments were provided by the company. The run to Thirty-ninth street was made in twelve minutes and was a most enjoyable trip. The road-bed and cars were found to be thoroughly substantial and comfortable. At Thirty-ninth street a stop was made for the purpose of listening to speeches and enjoying refreshments. The party on board included the mayor and well-known public officials and prominent business men from every line of business. Trains will be run every two minutes and will be expected to make the run from Congress street to Thirty-ninth street in fifteen minutes including stops. The excursionists were unanimous in voting the initial trip a success.

ELGIN MAN'S VIEW OF THE MARKET.

To begin with the says: "Conveyancing is getting to be a big business in Elgin. The daily commercial report from Geneva shows the volume of business. The Elgin papers publish only the doings of Elgin and immediate vicinity; the Aurora papers do likewise for their city and hence the general public has no means without special effort, of instituting comparisons It is a fact however, that the Elgin transfers exceed these of Aurora—being about as numerous as for all the rest of the county, and they are talking of starting an abstract office there."

"Now about Chicago," he said, "your city is not fit to live in. It is too dirty, too noisy. There is too much ado about nothing, too much expense and too much taxes and no public improvements. Why, much of your territory inside of the city limits is not habitable—is not civilized, or rather its inhabitants, the frogs, are not. You have too many tramps, too many politicians and too much dust and mud. When the dust don't fly terribly the mud splashes all over you, in your eyes, in your mouth and up your nose. Everything is so disagreeable that your rich men and women do not stay in Chicago half of the time. They have residences in the South in the Carolinas and along the St. John river, in Florida, in northern Georgia and in a thousand other places, including Elgin and Lake Geneva. A good medium sized residence will rent for as much in Elgin as it will in the less pretentious quarters of Chicago, and taxes are not half as much. Besides, our railway connections are splendid and our manufacturing facilities unsurpassed. The Elgin, Joliet and Eastern Railway enables us to ship everywhere."

"In Paris, France, as soon as snow begins to fall, out comes the hose, and it is washed away as it comes down. Every morning in ordinary weather 3,200 street cleaners, men and women, sally forth, divided into 149 gangs, each with a leader and his deputy."

"But what do you do in Chicago? You wallow in filth and keep bragging about it all the time. Much of your population and territory could be lopped off with benefit to the decent people living there. Will tell you something more later on. You treat crim-

inals better than you do honest men. 'Blow less and clean up' should be your motto.'"

The JOURNAL refers this to the street cleaning commission with power to act.

THE FIRE INSURANCE SITUATION.

How best to prevent the destruction of property by fire is a question that is steadily forcing itself on the public mind. Though the conditions surrounding this problem have by a natural process of business interests been kept from public view, yet fire underwriters to whom this economic measure has been entrusted, have failed to keep in harmonious touch with public sentiment and the result is that the public render little if any aid in suppressing fraud losses which have become a serious burden to the honest premium payer.

Take for example a rate of premium of one per cent with an equal distribution of property among the people, basing our calculation on the average loss ratio, we find that only one person in two hundred would meet with the loss annually. Considering the cupidity of mankind and the disregard that some people have for the rights of others, how readily we may anticipate a continuation of the increasing loss ratio when the companies cannot secure the good will of the better element of society and a favorable public sentiment so necessary for the discouragement of the operation of the fire bugs.

In 1880 the losses by fire in the United States amounted to about seventy million dollars. Truly, not an insignificant sum; yet this waste has been steadily increasing, when considering improvements in fire departments, and private means of fighting fire and the better understanding of the causes of fires, the fire waste should be on the decrease.

In 1890 losses reached the enormous sum of one hundred and ten million dollars. In 1891 as if to challenge all efforts to suppress this destruction of property, the fire fiend made a record of destruction in this country of over one hundred and fifty-two million dollars. About forty percent of this great waste, or about $60,800,000, was uninsured, and the loss fell directly on the individuals owning the property destroyed; the balance or about sixty percent, $91,200,000, by the law of average, is borne by the people who pay insurance premiums.

While much is being done to avoid accidental fires, little or no effort is being put forth for the suppression of incendiarism. The thief who steals money and goods, robs only the individual from whom he takes them; the World and State has lost nothing, but property reduced to ashes is a loss to the people and so much taxable value to the State is destroyed. The $152,000,000 burned up in this country in 1891, is as complete a loss to the people and State as if so much gold had been dumped into an unfathomable portion of the Atlantic Ocean, and the amount of taxes that was apportioned to that vast valuation last year, must now be added to the tax levied this year on remaining property.

It is a feeble defense for the underwriters to lay the cause of these conditions at the door of public prejudice. There is cause for this prejudice against the fire companies and underwriters are responsible for the cause either on account of improper practice on their part, or because of a too limited knowledge of the principles of their business on the part of the public or both. The legitimate lines of business that are best understood by the people are the least hampered by adverse public sentiment, and if the companies have failed to properly till and weed the field which the public has assigned to them they alone are to blame. While we can only touch this subject in a general way in this article, we have decided to continue discussing these economic conditions in detail, being confident that property owners will devise ways and means for suppressing this appalling and unnecessary waste of our National wealth and individual holdings.

WHERE THE SHOE PINCHES.

In a recent issue of an eastern journal that eminent fire underwriter Thos. S. Chard, of this city is quoted as follows:

"The withdrawal from business of so many second grade companies has set adrift a large amount of undesirable insurance. It was the acceptance of risks of the class referred to which proved fatal to the retiring companies and companies now taking in such driftwood will fare no better."

On its face the above statement would lead the average readers to conclude that the business of the retired companies was peculiar to themselves, and of such questionable character as to warrant the above philanthropic warning to other fire insurance companies.

Such conclusions, however, are far from correct.

It is a well known condition that the "mill stone" which hangs on the necks of the smaller companies is the inadequate and shamefully low rates that prevail on a certain class of large risks that can by no means be styled "driftwood" but a class of risks in which nearly all fire insurance companies have their share and by the common reinsurance process remaining companies' lines are increased on these same risks by the retirements above referred to.

A proportionately higher rate is charged on smaller risks to cover this discrepancy and as small property owners, and agents as a rule, cleave to the larger companies the smaller or "second rate" companies as Mr. Chard terms them, become weighed down with the large risks above referred to, which are made unprofitable by rates maintained at low tide by the leading companies.

This maintainance of inequality in rates is probably one of the greatest obstacles in the way of the oft repeated attempt to formulate average rates from combined experience of companies.

Returning to the above statement of Mr. Chard we reiterate that this class of business is not of the "driftwood" character which finds a place only on the usual "prohibited lists" and viewed from its proper standpoint his statement only serves to trim the breeze to the Fire Insurance Companies' sails.

We refer to the trimming of the breeze rather than sails, with due consideration.

INDIVIDUAL UNDERWRITING.

The Review of New York, a leading insurance journal makes such special mention of Individual Underwriters (Lloyds) as would indicate that this class of fire underwriting is becoming popular. The following statement of the Review will be interesting to property owners.

"The withdrawal of so much insurance capital has widened the field for this system of insurance and as the business is done at less than half the expense of stock companies, profits can be made by the saving of expenses alone even though the loss ratio run as large as that of stock companies. Brokers and insurers * * would do well to investigate this plan of insurance."

The Review should have credit for so frankly admitting and publishing facts that are of vital importance to property owners, even if perchance all fire underwriters should not agree with it, yet on the whole we can see no reason why stock companies should in any way oppose individual underwriting when we consider the salutary effect on incendiarism and the natural check on fraud losses that would result from having leading property owners and agents personally interested in suppressing fires and punishing the fire bugs.

A LACK OF PUBLIC SPIRIT.

We learn that J. M. Kimball has abandoned the idea of organizing the proposed Chicago Lloyds. It appears that while prominent property owners were giving their support to the measure in a general way, yet the little service required of a few of the prominent members on the advisory board was withheld.

The time is near at hand when prominent business men of public spirit will realize that they can serve the public as well in directing individual underwriting as in lending similar aid to savings banks, building and loan associations and like public institutions.

REFORM IN UNDERWRITING.

The twenty-sixth annual meeting of the National Board of the Fire Underwriters was held the 12th inst., at the rooms of the New York Board of Fire Underwriters in the Mutual Life building, President John Skilton, occupying the chair. The desire for the fire underwriters to act in conjunction and of their resolution to do so increased the interest in this gathering and the meeting was largely attended and great attention was given to the proceedings. The president's address was able and comprehensive and his sentiments were sustained by copious statistics, and he expressly called the attention of the fire underwriters to the following important subjects:

"The importance of securing legislation by the states providing for a thorough investigation of the causes of fires, should be kept in mind, with a view of pushing a successful campaign before the different legislatures at their next sessions. And our efforts to secure local building laws providing for improved construction under a proper and efficient supervision should be continued on a well defined plan.

"The hazards growing out of the use of the electricity for light, power and many other purposes, should receive special attention by a fully empowered committee, looking to the formation of uniform rules and restrictions in line with the present knowledge of the hazard. Possibly the time is not yet with us for fully measuring the elements of danger connected with the introduction of electricity, but it is well understood with all the safeguards already introduced, the dangers are great, and there is strong belief that the fire waste has been greatly increased by this powerful agent.

"The relative amount of insurance to the value of property covered is a point that the adverse loss experience of the past sixteen months has forced us seriously to consider, and I am convinced that a more general use of the coinsurance clause is demanded, and if secured, will be a powerful factor in reducing the fire waste. The importance of this is receiving the thoughtful consideration of the active minds in our business, far more than ever before, and the action of the New York local board in adopting an 80 per cent coinsurance clause to apply to all rated risks in the metropolitan district is of the greatest importance, and foreshadows an era of prosperity in New York City underwriting. I believe that if the companies generally would take up this question of coinsurance for immediate co-operative action, and would join in instructions to their representatives in the different underwriting organizations, looking to the formation of rules providing for the more general use of the clause, a bright and promising day in our business will have been reached."

FIRE LOSSES.

It is said that fire losses are on the increase, and as there have been no sweeping conflagrations during the last sixteen months, the late New Orleans fire being the largest reported, there appears to be no adequate explanation of the great number of losses sustained.

Many underwriters think that the prevalent use of electric light and power with unsuitable insulations may be partly responsible for the excessive destruction, but this is yet undetermined. It is well understood that much wiring has been done by people not competent to do such work. Wiring is in most cases so covered that its condition is not apparent.

One great cause of the spread of fires is undoubtedly faulty construction of buildings; this to a certain extent can be obviated by architects taking advantage of the many precautions which have been lately brought into use, such as improved systems of conduit and insulation, which have been recently mentioned in our columns and which seem to be thoroughly safe.

A building law must avoid the entailing of unnecessary expense, or it will work hardship and interfere with the growth of the city, but, happily, construction can be economical as well as relatively safe. It has been demonstrated that wood can be used in the construction of buildings in such masses and arrangement as to make it highly improbable—with an efficient fire department—that the flames will pass beyond the floor on which they originate, if there is no open communication by stairways and elevators or light shafts. Again, cheap methods of fire-proofing have been brought out in late years that are applicable to office or public buildings, and while the system is effective the cost is not largely in excess of that of ordinary construction.—Architecture and Building.

GLASS AS BUILDING MATERIAL.

For a long time architects have been accustomed to build transparent glass brick into walls to afford light in places where a window would mar architectural effects. But now it is proposed to cast glass, not necessarily transparent, into large blocks for building purposes. This material is practically indestructible, perfectly non-absorbent and therefore damp proof in a manner which few bricks are; and in this way coarse glass of this kind could be made as cheaply as concrete, stone or baked clay. A plan has also been put into practice by which broken glass of various colors is mixed up, placed in moulds lined with silica, talc or some other resisting material, and fired. The result is a firmly coherent mass, which can be dressed and cut into blocks, which are, of course, irregularly colored, and may be employed in place of artificial marble. If decorative effects are desired, designs in relief can be obtained by pressure while the block or slab is plastic.—New Orleans Picayune.

MANUFACTURING SUBURB AT MILWAUKEE.

The Chicago idea is taking root in Milwaukee. The Milwaukee Telegram is authority for the statement that the efforts of the gentlemen interested in forming an important manufacturing locality at North

Milwaukee are beginning to take effect. During the week arrangements have been perfected by which the Lansing B. Warner Manufacturing Company is to be located at North Milwaukee, to put up a factory costing in the neighborhood of $30,000, and employing to begin with 100 men. The compan is a well established one, coming from the East, and is engaged in the manufacture of wooden pulleys. It is stated that this is but a starter for a number of other concerns that will locate soon at the new northern suburb.

CURRENT COMMENT.

The action of the city council in reconsidering the former motion by which the terminal commission was abolished is commendable. It is a good example of that sober second thought which comes to the alderman through a week's reading of the newspapers. As soon as the council abolished the commission it was evident that a mistake had been made. It was contended by some of the friends of the commission that the movement had been actuated by political spite. This, however, was not proven. Still, the action was evidently too hasty and was recalled with as good spirit as it was passed. The fact is the terminal commission under Mr. Dreyer's leadership is doing an important work for the city and one which could not be done as successfully in any other way. The expense attached to its work is inconsiderable when compared with the results to be obtained. There are times in municipal as well as other business when the cheapest is not the best. It is so in the case of the work to be done by the terminal commission. The importance of the elevation of the railroad tracks within the city limits is so great that any consideration of expense more than the mere ordinary caution against extravagance should not hinder the great work to be accomplished.

***

The announcement that the present comptroller of the currency is ready to resign his position in order to accept the presidency of a new national bank in Chicago, has occasioned the turning of public attention to Chicago as a national banking centre. The tendency of banking business to seek the centres of trade is well known. The bank clearings of New York city are a conspicuous example. The total weekly clearings of the New York banks exceed by several hundred million dollars the total clearings of all the other sixty-six leading financial cities of the Union. The bulk of the banking business of the United States as indicated by the clearing-house returns, is confined to New York, Chicago, Boston and Philadelphia. In this connection it is worthy of notice that Chicago is now taking second place among the banking centres of the nation. For a long time the contest has been between Chicago and Boston, but the average is now in favor of Chicago. Financial leaders recognize the fact that manufacturing and wholesale business is fast moving westward, and taking up its permanent abode in the natural centre of the continent. This alone is destined to make Chicago a centre of great banking activity. In this respect the city has only begun to grow. What the future of its banking business will be is merely a matter of conjecture, but there can be no doubt that it will be great.

***

The Teed case at Normal Park bids fair to become celebrated as establishing a precedent to show to what extent a community has the power to rid itself of obnoxious residents. So far as we can learn it is not claimed that the Teed colony is violating any law in settling at or remaining in Normal Park. No specific charges of immorality or criminality are brought against the colony as a whole. The simple fact is that on account of peculiarities in their belief they are obnoxious to the residents of Normal Park. The interesting question is, can they be ejected from the neighborhood? Will the mere fact that they are not wanted there enable the residents of the town to drive them out by process of law? It is probable that the Teed colony could be ejected by force of public sentiment assisted by force of musele if necessary, but in the latter case the law would be clearly on their side and they would be likely to evoke the law to secure heavy damages against their persecutors. Any resort to force, then, would be ill-advised. If there is any law to reach the case it should be allowed to take its course. If it should be discovered after careful investigation that Teed's followers have as good claim to protection as the other residents of the suburb, their opponents may be willing to retire with the assurance that they have done their best but have been defeated.

***

The track-raising ordinance of the Illinois Central railroad is the first practical movement in the direction of the general elevation of railroad tracks inside the city. The tracks are to be elevated from 51st street to 67th street, a distance of about a mile and a half. The streets will run under the tracks and the South Side Elevated Railroad will cross the Illinois Central on an elevated structure about thirty-five feet above the street. It is a significant fact that this arrangement has been made entirely with a view to facilitating passenger traffic to and from the World's Fair. No consideration has been had apparently for the future growth of the city, though that is of more importance than the demands of the Fair, which at longest are to be confined only to about six months. The question is, if it is profitable for the city and the Illinois Central Railroad company to elevate their tracks for the distance of a mile and a half merely for the World's Fair traffic, would it not be more profitable for them to elevate their entire system of tracks within the city limits in view of the rapid growth of the city and the certain great demands on the road in the near future for passenger transportation.

***

In a recent letter on the subject of good roads Mr. Clem Studebaker discusses the relative advantages of good thoroughfares to the farmer, the storekeeper and the general public. He points out the fact that good roads open up to sections which they penetrate avenues to the best markets greatly to the advantage of the farmer and the townspeople as well. But the farmer does not feel that the burden of the expense of road making should fall on him. He sees that the highway is open to all the world and that all the world uses it, and he feels that the burden of construction should be borne by all alike. To the argument that good roads will enable him to draw larger loads to market he replies that there are two parties interested in every such case and that it is as much to the advantage of the merchant, the marketman and the railroads to have good country roads. Cut off communication with the country and the town languishes even more disastrously than the interior. Mr. Studebaker contends that country road building should be under the supervision of the army, that a given percentage of the cost should be paid out of the national treasury and that a portion at least of the labor required should be recruited from the ranks of the unemployed or idle.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

B. F. Jacobs & Co. report that work on the new factory at Evergreen Park is rapidly progressing and that the building will soon be ready for occupancy. The E. A. Armstrong company, manufacturers of uniforms, now of Detroit, Mich., will commence operations as soon as the factory is completed. The company will require twenty horses for their employes before they remove from Detroit and these will be begun at once. The Baptists of Evergreen Park are about to erect a church edifice and the deed for the property on which the Methodists are to build at once was transferred to the pastor, Rev. H. E. Cornell yesterday,

Seventy-one lots were sold at Chicago Heights during the week and contracts closed with three large factories. Full particulars respecting the new factories will appear in the next issue of the JOURNAL.

The work of macadamizing streets is progressing rapidly. West End avenue and 14th street are nearly finished and work has begun on East End avenue. Main street will be macadamized as far as State street. Chicago Heights will occupy a prominent place among the leading manufacturing cities.

W. A. Howe reports the sale of 25 by 151 feet on State street, 200 feet north of Nineteenth, east front, for E. C. Cleaver to W. R. Linn for $20,000. The lot is improved with an old frame building which is not considered in the transaction, however. The sale fixes a price of $800 per front foot for the lot, which is considered quite low by well-posted brokers.

An eastern company employing several hundred men is negotiating for the lease of a manufacturing site of 500 feet frontage along the Desplaines river in Maywood, near the Chicago, St. Paul and Kansas City railroad bridge. The negotiations are on a basis of $500 per annum for the first ten years and $1,000 for the remainder of the term of a ninety-nine-year lease.

J. B. Mallers has leased the Quincy street corner of his new building on Market street to C. H. Fargo & Co. for five years at an annual rental of $24,000. The lease includes 62 by 180 feet. Work on the building was begun only a short time ago and it will not be finished until Jan. 1, 1893. It is understood that several other large wholesale shoe houses are negotiating for space in this structure.

Norman P. Gassette & Co. sold for Mrs. Hannah G. Woodward her residence 3524 Michigan avenue, to Shaw & Kennedy for $30,000.

T. G. Dickinson & Co. sold for P. H. Fleming 125x150 feet at the southeast corner of Grand boulevard and Forty-eighth street for $37,500.

The Michigan club-house, incorporated with a capital stock of $350,000, proposes to erect an eight-story structure at Kenwood. The building is to be used as a hotel and clubhouse.

W. D. Kerfoot & Co. report the sale of 23½x110 feet, containing old-style improvements, at the northeast corner of Dearborn and Thirty-ninth streets, for E. H. Cahill to Walter R. Howard for $11,000. The same firm sold 25 feet frontage on grand boulevard, 65 feet south of Fortieth street, at $225 per foot.

George W. Cass has sold to Mrs. Potter Palmer, the premises 1831 Michigan avenue for $24,500. The lot is 25 x158 feet and is improved with a three story stone-front residence.

McKey & Poague have made the following recent sales: 33, 43 and 49 East Sixteenth street for W. L. Allen for $54,000. The lots are improved with four-story brick residences. Also 5033 Madison avenue, a stone front residence, for F. W. Griffin, for $13,000; 50 feet on Wharton avenue, bet Sixtieth and Sixty first streets, for J. L. Naulty for $6,000; and a fruit farm of 180 acres near Jacksonville, Fla., for F. W. Griffin for $27,000.

The contract for building the new dry goods palace for Marshall Field & Co., on the corner of Washington street and Wabash avenue, was awarded to George A. Fuller & Co., who agree to erect the building and complete it in every detail by March 1, 1893, for the sum of $800,000.

Negotiations are in progress between the Doggett estate and others for a leasehold on the southeast corner of Harmon court and Wabash avenue. If the property is secured a hotel building to cost $125,000 will be erected to be converted into a warehouse after the World's Fair.

An undivided one-sixth interest in 240 acres at the southeast and southwest corners of Sixty seventh street and Richmond avenue, has been sold by C. A. Beardsley to B. and H. M. Duffield and G. C. Buell for $72,000. The property is to be subdivided at once and the lots placed on the market.

J. C. Hyde in connection with H. L. Burnette of Bonney Brothers have sold for H. A. Stokes, the grocer at 2338 State street, 252 feet at the southeast corner of Clifton Park avenue and Twenty-fourth street in Lawndale for $12,500. The purchaser is Alfred E. Barr, the attorney. It is said Mr. Barr intends to improve the property shortly with handsome two-story flat buildings.

Eggleston, Mallette & Brownell report the following recent sales: 50 by 171 feet on Stewart avenue, between 72d and 73d streets, improved with a two-story stone front flat building having all modern conveniences for $20,000; 50x125 feet on Vincennes road, between 73d and 74th streets, improved with a 3-story stone front flat building for $30,000; the northeast corner of 74th and Vincennes road 64x125 feet, improved with a three-story stone front flat building, for $35,000. John F. Carver of Fort Wayne, Ind., was the buyer in each case.

A sale of interest as showing the steady increase in values on West Madison street is reported by Cremin & Brenan. They have closed the sale of the northeast corner of Madison and Forty-fourth streets, 100 feet front, for $10,200 cash. Three years ago they sold the same property to a traveling man for $3,000. A year ago they sold it for him for $6,000, and the present sale for $10,200 shows another handsome advance. The same firm has also sold for the Mehegen estate 18 and 20 Congress street, 50x 116 feet, with old improvements, to John Lassen for $10,500 cash. Also the corner of Leland and Ashland avennes, 92x165 feet, for S. Lloyd to J. A. Conklin for $5,650 cash; and 333 Waller avenue to George B. Sloan, of Oswego, N. Y., for $4,850.

LATE LEGAL DECISIONS.

IMPORTANT DECISION ON LIEN LAW.

In a recent decision by the Supreme Court of New York relative to the Lien Law, Justice Williams made a broad assertion that is causing interested parties to consider the exact status of the sub-contractor in his right to file liens and the right of the general contractor to contract with the owner to deliver the building without liens. In June, 1891, after a hard fight on the part of sub-contractors and material men throughout the state, the Legislature passed a law securing to sub-contractors the power to file mechanic's liens and preventing interference with this right by contract.

The case Taylor vs Murpy. The plaintiff furnished material for the erection of the defendant's dwelling house. On the order of contractor Christy, a mechanic's lien was entered for the amount of materials furnished. An affidavitt of defence was filed, that no liens were to be entered under the express stipulation of the contract. Judgment was given for want of a sufficient affidavit of defence, the justice saying that the promise of the contractor to release and discharge the said houses from the operation of liens, either for work done or material furnished, is not a waiver of the right to enter a lien or a covenant that none shall be entered. It is merely a promise to release and discharge the liens that may be entered against the building which does not fall within the rule.

So far the Supreme Court ruling is acceptable, but the stumbling block is the sweeping assertion also in the same decision which is as follows:

"The contract between the owner and the contractor is the source from which the right of the sub-contractor is derived under the provisions of the law, and it is self-evident that a stream cannot rise higher than its source. The agreement of the builder to provide all the labor and materials for the erection of a building and look for his security solely to the personal responsibility of the owner,

leaving the building unincumbered by liens is a valid and binding one. It violates no rule of public policy. A statute that should disregard its obligation and authorize the entry of a lien for work or materials in violation of its terms, would seem to be within the prohibition of the constitution, which declares that no law impairing the obligation of contracts shall be passed." The decision has caused a grave doubt to arise as to the constitutional ity of the new law, although several legal lights have declared that it will stand if attacked on the ground.

REGARDING PRIVATE ROADS.

Where a right of way through a private alley laid out entirely on the grantor's land is granted to the owner of property adjacent thereto which fronts on a public street, and to his heirs and assigns forever, it does not become appurtenant to such property, but is a right of way in gross. Fisher v Fair, (S C.) 13 S E. 470.

A right of way in gross is a mere personal privilege, and dies with the grantee, although the instrument creating it conveys it to the grantee and his heirs and assigns. Fisher v Fair (S. C.) 13 S. E. 470.

The erection of a fence in the centre of a private lane by adjoining owners, each enclosing his proportionate share thereof, is an abandonment of the easement therein, which will prevent its revival by either owner or his grantee. Hennesey v Murdock, 17 N Y. 276.

One who has enjoyed continuously, uninterruptedly. and adverselv a right of way over another's land for more than 30 years, has a right of way by prescription entitling him to enjoin its obstruction. Sheeks v Erwin (Ind.) 29 N. E 11.

Open notorious, continuous and peaceful use, under a claim of right of a private road for a term greater than the statute or limitations, gives the person exercising such use an absolute easement, although the use was begun under permission and no open assertion of adverse use was made until the road was obstructed. McAllister v Pickup (Iowa(50 N W 556.

An agreement between the owners of land, that either of them shall have the right to close a private road opened between them, cannot affect the right of a third person who has acquired by prescription a right to use the road. McAllister v Pickup, (Iowa) 50 N W. 556.

SIDEWALK DECISION.

If a sidewalk is in such a condition that a person using ordinary care and prudence could use it safely, one who slips and falls and is injured thereon while intoxicated may be denied a recovery on the ground that his negligence and intoxication contributed to his injury. McCraken v. Markeson (Wis) 45 N W. 332.

Violation of a penal ordinance forbiding driving upon a sidewalk is not excused by the fact that the street was impassable by loaded teams because of mud, and that it was the only way by which defendant could haul goods from his place of business, where he knew of its condition before starting upon it and could have preceeded or retired by unloading. State v. Brown (N. C.) 13 S E. 940.

PROTECTION TO PURCHASE AT JUDICIAL SALE.

The statute (section 31 of the Conveyance act) protects purchasers at judicial sales, as well as other sales against prior unrecorded deeds. Therefore a purchases at a bankrupt sale will be protected against a prior unrecorded deed of the bankrupt, if the purchaser has no notice thereof and is not chargeable with facts sufficient to put him on inquiry.

NOTICE AS TO BANKRUPTCY PROCEEDINGS.

The records of deeds showed conveyances by a bankrupt of land not included in his schedule, which were recorded after the adjudication in bankruptcy, but before the filing of a petition of his assignee for leave to sell, in which the deeds were not sought to be set aside, and the petition showed that the bankrupt's title was a mere cloud, which it was sought to remove in the interest of others: Held, that record of such deeds from the bankrupt, taken in connection with the other facts, was sufficient to put a purchaser on inquiry as to the bankrupt's title.

RIGHTS IN LAND BY POSSESSION OF A TENANT.

It is well settled that whatever is sufficient to put a party upon inquiry, is notice of all facts, which a pursuit of such inquiry would lead to, and that possession of land through a tenant, is notice that the possessor has some rights in the same.

At the time of a contract of the sale of lots 3 and 4 in a block. a trespasser was in the occupancy of a house on lot 5 adjoining lot 4, and had erected a barn on lot 5, which extended over some distance on lot 4. After the sale, the purchaser saw the occupant and informed him of the purchase and the latter then agreed to pay the purchaser $10 a year for the use of the lots 3 and 4: Held, that the purchaser's possession through such tenant was notice to all the world of the purchaser's rights in the lots. The rule which limits a trespasser to the land actually occupied by him in asserting rights under his possession has no application in such a case.

EFFECT OF AFTER-ACQUIRED TITLE.

When a party makes a deed purporting to convey the fee with full covenants of warranty and afterward acquires a title, it will, by the express terms of the statute, and by force of the doctrine of estoppel, inure to the benefit of his grantee.

ACTS AND STATEMENTS OF RELATIONS AS AFFECTING RIGHTS OF INFANTS.

When infants are in the possession of land inherited from their father, which is rented and managed by their mother, and grandfather, no acts or statements made by such mother or grandfather can be allowed for the purpose of affecting or depriving them of their title.

OF TITLE BY THE POSSESSION OF LAND.

The actual occupancy of land, as notice, is equal to the record of the deed under which the occupant claims, and a purchaser is bound to inquire by what right or title he holds, and will take subject to that title or interest whatever it may be.

WHAT IS SUFFICIENT TO PUT PURCHASER ON INQUIRY.

The record of a mortgage or deed of trust on part of a tract of land from a son securing a note of his father, although the records may show title to the whole in the father, is sufficient to put a purchaser from the father on inquiry as to any unrecorded deed from the father to the son.

DEVISE OF A LIFE ESTATE WITH REMAINDER TO HEIRS OF GRANTEE.

When a testator intends to devise or give his land to his widow and the heirs of her body, under section 6 of the statute relating to conveyances, the devise will vest in her only a life estate, with remainder in fee to the heirs of her body, leaving the reversion in case of an entire failure of issue in the heirs at law of the devisor.

COLOR OF TITLE

A warranty deed purporting on its face to convey the title in fee is color of title in the grantee; and it makes no difference whether the same fails to pass an absolute title because the grantor had none to convey, or had no authority in law or in fact to convey one, or whether such want of authority appears on the face of such instrument or aliunde. So, too, a tax deed is also color of title though the tax sale may be void for want of a judgment. It is sufficient if it appears on its face to be regular.

BAD FAITH IN ACQUIRING TITLE.

The grantee of land from one holding only color of title, will not be affected by the want of good faith in his grantor, or his bad faith in acquiring such color of title, when such grantee has no knowledge or notice whatever of any of the facts from which the bad faith may be implied.

WHEN THE POSSESSION IS ADVERSE.

When a tenant for life acquires a tax deed regular on its face for a tract of land, and makes a conveyance to a purchaser, who has no notice of bad faith in acquiring such tax title, the possession of the grantee will be adverse to all the world and not in subordination to the interests of the remainder man.

When a party under color of title purporting on its face to convey the fee of land has possession for over seven years, during which time he pays all taxes thereon, he will be held to be the owner thereof.

GENERAL AMNESTY REMOVES DISABILITY AS TO REAL ESTATE TRANSFERS.

The Superior Court of the United States has decided that that the general amnesty granted to soldiers of the Confederate army after the war removed the disability which restrained a Confederate soldier from making a valid transfer of real estate in Cincinnati.

MECHANIC'S LIEN—RIGHTS OF MATERIAL MAN.

The Indiana Appellate Court held, in the case of Kulp et al v. Chamberlin, that a material man who has filed his notice of intention to hold a lien on the property for the material furnished to the contractor and upon which lien no credit has been given, who fails to proceed to enforce the lien by suit within a year from the filing of notice with the recorder, loses all his rights thereunder.

MUNICIPAL REGULATION OF STREETS.

The Superior Court of Louisiana held, in the recent case of the New Orleans City and Lake Railroad Company vs. City of New Orleans, that the power of regulating the streets delegated to the city of New Orleans, by the legislature of the State embraces authority to grant to establish street railways on its streets but does not include authority to any person or corporation an exclusive privilege to operate a railway on any street.

RIGHTS OF MARRIED WOMEN.

The Superior Court of Kentucky held, in the case of Goodwin vs. Tinsley et al., that timber growing upon land which was the wife's general estate belonged to her, and if with her consent, while it was growing upon her land, her husband sold it for her benefit, the money arising from it, when received by her or by her husband, who loaned it out for her, taking the note payable to her, became her separate estate, and was not liable for his debts.

The Kentucky Court of Appeals held, in the recent case of Johnston's Adm'r. v. Johnston, that although money of the wife may be obtained by the husband under a verbal agreement to invest in a home for her, still, if she acquiesces in his conversion of it to his use by purchase of property in his own name her subsequent claim to the property or its proceeds will not prevail against his creditors.

Where a married woman represents that a loan on property purchased, the purchase price of which is secured by mortgage on her lands, is for her own use, she will be estopped as against one who in good faith has contracted with her in reliance upon her statements from asserting that she is a surety and not the principal in the transaction. Supreme Court of Indiana in Taylor v. Hearn.

NOTICE AS TO MATTERS OF RECORD.

A purchaser at a judicial sale is chargeable with notice of such material facts as the record of the proceedings under which he derives title discloses,and he will be presumed to have examined the record before purchasing.

A petition of an assignee in bankruptcy for the sale of land, disclosed the fact that the bankrupt had not scheduled the land as a part of his estate, and showed that the application was made, not at the instance of creditors, but in the interest of others claiming title adversely, who had agreed to bid enough to pay the expenses of the sale and the decree ordered the sale, only. of the interest of the bankrupt, without any finding of title in him, and failed to show there was any necessity for the sale to pay debts. The land was in the possession of one holding under a prior unrecorded deed of the bankrupt, and was worth $200 per acre, and it was sold for about fifty cents per acre: Held that these facts were sufficient to put the purchaser on inquiry as to the bankrupt's title.

NOTICE TO AGENT—NOTICE TO PRINCIPAL.

When an attorney is employed to aid in acquiring the title to land for his client, the latter will be chargeable with notice of all such material facts as may have come to the knowledge of the former during the course of his employment or agency.

EFFECT OF DECREE UNDER BURNT RECORDS ACT.

A decree under the Burnt Records act, restoring lost records and confirming a party's title to land, is not conclusive of such party's ownership of the land, and will not preclude the equitable owner from showing that such party held the land in trust. The confirmation of the legal title in one is not in any manner inconsistent with the fact that such title is held for the benefit of another. Weber v Clark. Ill Sup Ct Jan 22,'91. 136 Ill, 256.

NEW PLANS BY CHICAGO ARCHITECTS.

Architect Julius Speyer has plans for alterations of the Glenarm Hotel at 167 Madison street to cost $40,000; also plans for a three-story and basement flat building 100x100, to be erected at Drexel and South Chicago avenues and 74th street at a cost of $35,000; also for John Brown a four-story and basement store and flat building, 50x68, to be erected on Division street near Western avenue at a cost of $18,000; also for George Nolan, a three story store and flat building on Kedzie avenue near 12th street at a cost of $10,000. The same architect has planned alterations in the restaurant and saloon of Lansing & McGarigle at 126 Clark street, to cost $15,000.

Architects Park & Pursell have planned a three-story flat building, 25x72, to be erected on Jackson boulevard near Whipple street, by E. Greenburg. It will be constructed of brick and stone with hardwood interior and cost $12,000. They have also planned a three-story flat building 27x68, to be built on Harvard street near California avenue, to cost $8,000.

Architect J. E. O Pridmore is letting contracts for a three-story residence for Mrs. L. A. Clark on Oakenwald avenue near 46th street to cost $10,000. The same architect has furnished plans for the reconstruction of the residence at the northeast corner of Vernon avenue and 39th street into a flat building at a cost of $5,000.

Architect W. W. Boyington has designed a three-story flat building 50x50, to be built at Lincoln and Seminary avenues and Marianna street at a cost of $10,000.

Architect Henry Ives Cobb is completing plans for a ten-story hotel, 100x100, which Gen. W. F. Singleton will build at the northwest corner of Rush and Indiana streets. The first and second stories will be built of gray stone, and the upper part of pressed brick and terra cotta. The building will be of steel frame and fire-proof and will have all modern conveniences. Mr. Cobb has also designed for L. E. Steinfeld a four-story store and apartment house, 300x75, to be built on the south side of 55th street between Washington and Madison avenues. Pressed brick and terra-cotta, hardwood finish, steam heat and electric light. Cost $175,000. Mr. Cobb is also planning for P. J. Costello a four-story store and flat building, 150x75, to be erected at the southeast corner of 55th street and Washington avenue. Pressed brick with stone trimmings. Cost, $75,000.

Architects Thomas & Rapp have designed for the Wilkins estate a four-story and basement apartment house, 73x171, to be erected at the northwest corner of Wabash avenue and 21st street. It will be constructed of pressed brick with buff Bedford stone trimmings, will be finished in hardwood and heated by steam; cost, $75,000. The same architects have designed for Dr. Almon Brooks five houses to be erected on Lake avenue between 45th and 46th streets. They will cover an area of 10 x70 and will be of stone, with hardwood interior finish; heated by steam; cost, $75,000. They have also planned a three-story store and flat building for the McKey estate, 75x85, to be erected on the east side of State street near 20th. It will be of stone and brick and cost $40,000.

Architect H. B. Wheelock has drawn plans for two three-story and basement houses, 33x70, to be erected at 4210 and 4212 Prairie avenue by Mrs. Flora Dodson. They will be of stone with hardwood interior and heated by hot water; cost $75,000. The same architect has planned for James Madden a two-story stone front flat building to be built at 4713 Indiana avenue, at a cost of $7,500.

Architect L. B. Dixon has plans for a four-story apart-

ment house, 25x80, to be built on Cornell avenue near 54th street. The exterior will be of Roman pressed brick with stone trimmings; the interior will be finished in hardwood and heated by steam; cost, $15,000.

Architects Marshall & Ryder have planned a three-story hall building to be erected in Austin at a cost of $20,000. The building will be 18x120 and will contain a large public hall, two large rooms and a dancing hall. T. L. Phillips is interested. The same architects have planned for Dr. N. W. Thompson a three-story apartment house, 50x65, to be erected on Robey street near Milwaukee avenue; cost, $16,000; also a church, 120x60, for the First Presbyterian congregation of Austin; cost $15,000.

Architect E. M. Newman has planned a two-story and basement flat building, 31x60, to be erected at 5545 Monroe avenue by J. B. Cutler. It will be of blue Bedford stone with hardwood interior finish; will be heated by steam and lighted by electricity; cost, $9,000.

Architect W. T. Lesher will furnish plans for the reconstruction of the buildings of the Consumers' Pure Ice company at Butler and 36th streets, which were destroyed by fire recently.

Architects Flanders & Zimmerman have planned for W. R. Griswold a four story flat building, 100x76, to be built on Ashland avenue and Lake street. It will be of pressed brick with terra-cotta trimmings; heated by steam; cost, $60,000. They also have plans for a seven-story apartment house, 50x100, cost $10,000.

The first building to be erected at Jackson Park by a foreign nation will be that of Great Britain, the plans for which have just been brought from England by Colonel G. R. Grover, of the Royal Engineers. The building was designed by Colonel R. W. Edis, and will be erected at once by George A. Fuller & Co. It will be a very good typical specimen of a picturesque "half-timbered" English home of the century during which Columbus made his famous voyage.

OUTSIDE BUILDING NEWS.

ALABAMA.

Montgomery—Figh & Williams have contracted for the stone building for McIntyre Bros., noted in last issue. Architect McGrath furnished the plans and the cost will be about $18,000. A hydraulic elevator will be put in.

ARKANSAS.

Little Rock—Bradshaw & Cunningham will build a brick warehouse.

DISTRICT OF COLUMBIA.

Washington—J. T. Walker & Co., have contract for the building for the Home of Incurables. It will be a three-story brick and stone structure, with the main front 70x44 feet, and two wings 43x40 feet each. Steam heating and all improvements will be put in, and the estimated cost is $50,000. H. L. Page & Co., are the architects.

GEORGIA.

Owners of the Exclusive Auction privilege on the Chicago Real Estate Exchange.

$5,000,000,00

Invested in growing industries

At Harvey

Boulevards, Parks, Shade Trees, Sewers, Waterworks, Electric Light, Electric Railway, 600 buildings completed, Fine Business blocks, a $14,000 Illinois Central Passenger Station, and other modern improvements.

18 Factories, Pop. 4,000.

All this and much more than this in 20 months.

VISIT HARVEY,

And you will be convinced of its wonderful future. A large number of houses of all sizes are needed at once. Workmen are waiting.

The population is increasing, all branches of trade and business, with a corresponding increase in the value of land. Free tickets furnished.

The Harvey Land Association.

LOTS AT ALSIP.

A NEW MANUFACTURING SITE 15½ miles south from the Court House, just north and a little west of Blue Island, at 123d street, on the Calumet Terminal Railroad, and near the Chicago & Grand Trunk, The Chicago, Rock Island & Pacific and the Chicago & Northern Pacific suburban line railroads. The Alsip manufacturing plant, covering several acres, is already in operation, employing a large number of men, and material is now being delivered for doubling the capacity of the works.

The situation is high, rolling ground, and no water within 20 feet of the surface. It is adjacent to Wireton Park and the Chicago Wire and Spring Co.'s plant, main building 720x150 feet, will employ about 400 men. The Steel Barbed Wire Co. and the Farquhar Heating Co. are all in operation just east of this property. The combined force employed by these works require a large number of houses, many of which are already completed, and many more under construction. We do not ask you to buy lots on PROSPECTIVE INDUSTRIES. The plants are already in operation, and employing a large force of men, and no question of doubt can enter into the future of values. Without a word in print about "lots at Alsip," we have sold a large number, and purchasers have already built comfortable, commodious dwellings, and more are constantly going up. Investment in Alsip lots at present prices will insure large profits within one year. Liberal terms will be made, and monthly payments if desired.

I. N. ISHAM,

167 Dearborn Street.

Room 214, Stock Exchange Building.

WARRANTY DEEDS.

The following is a Summary of the Warranty Deeds filed for record during the six days ending Thursday evening, May 26, 1892.

Western Springs

The Queen Suburb of Chicago

26 MINUTES FROM UNION DEPOT!

ON THE CHICAGO, BURLINGTON & QUINCY R. R.

56 TRAINS DAILY.

WATER, from the CELEBRATED MINERAL SPRINGS will be conveyed to all portions of the village.

A system of Drainage has also been adopted by the Village Board of Trustees, both water and sewer systems have been developed by Engineer Benezette Williams, and will be completed as speedily as possible.

These improvments make this suburb in all particulars, the most desirable about Chicago, as a place for Homes with schools and churches.

The train service is complete.

Rapid transit is a fact.

This location is 96 feet above level of Lake Michigan. The ground high and rolling. The streets are shaded by trees of more than 20 years growth, In fact the entire village is a beautiful Park. Lots can now be secured at prices that insures purchasers large returns for their money in the Near Future. All desiring Homes for their families, should look this property over before purchasing elsewhere.

Call and go out with us any day, and we promise to surprise you with the advantages and beauty of this place.

C. C. COLLINS,

Telephone 2868.

Rooms 60-61, 175 Dearborn Street.

Edgemoor

We are now offering for sale blocks and lots in Edgemoor, the new suburb on the Chicago Central Ry. at 79th street. Edgemoor is one-half mile square and includes 160 acres of the beautiful ridge property in the South-West part of the city with an East frontage on Western Ave. and a North frontage on 79th street. The Chicago Central, the Northern Pacific's new suburban road, runs directly through the center of the property with a depot at 81st street. On this road will be inaugurated by June 1st, the most complete train service as to elaborateness of equipment and quick running time given on any suburban road in the city. The scheduled time from Edgemoor to the Grand Central depot will be 22 minutes. The South 80 acres of Edgemoor is being improved in a high class manner. The contracts for the side-walk and curb and gutter work have been let to The North Western Asphalt Co. The walk is built of granite and cement and is six feet wide. The combined curb and gutter is also built of granite and cement, the gutter being eighteen inches wide. Edgemoor is the only residence district in Chicago, outside of the boulevard frontages, where the curb and gutter combined has been put in. The contract for the macadam work has been let to Eggleston, Mallette & Brownell and calls for a high grade of work. A double row of trees of the Catalpa variety, are being planted, one row on the park-way which is 12 feet wide. A special form of warranty deed is used in conveying the property which provides for a 20-foot building line and a $3,000 building restriction. Contracts for four houses to cost $5,000 each have already been let and they will be completed and occupied by June 15th. Every effort will be made to make Edgemoor a high class residence district. Lots will be for sale for the next 60 days at prices 25 per cent less than the same grade of property can be purchased anywhere else in Chicago. We are prepared to offer special inducements to individual investors and syndicates who will take a five-acre block interest in the property. Liberal commissions made to brokers and agents.

HAZLEWOOD & WRIGHT,

1316 CHAMBER OF COMMERCE BUILDING.

A RARE OPPORTUNITY.

20 ACRES JOINING EDISON PARK.

A fine tract, on two section lines, with streets opened and sidewalks laid to it. It is 50 feet above the lake, with beautiful surroundings. Distance only 35 minutes' ride—34 trains daily. There is a profit of 200 per cent in it, at least, to subdivide or syndicate it. Don't fail to investigate it. ONLY $500 PER ACRE.

SEND FOR LIST OF ACRES.

Andrew Dunning,

92 La Salle street, - Chicago, Ill.

Dudley st 789, R Albrecht, 3 story flats, $4,800.

Why are Lots Selling at

HARVEY.

Faster than at any other Chicago Suburb?
Come and see. You will find it is

BECAUSE we have high land, 22 feet above the Lake.
BECAUSE It is beautifully located, with broad streets, trees, parks, sewers, paved streets, electric lights, electric cars.
BECAUSE Harvey is a temperance town, and always will be.
BECAUSE we have more large manufactories than any other suburb, and because we sell lots cheaper, and you can build a home and pay for it out of the RENT you pay in Chicago.
PROVIDED you buy of the original founders of the town, and do not buy in any of the additions to Harvey.

Full Information and free transportation gladly furnished by

THE HARVEY LAND ASSOCIATION,

Ontario av 9114, John P Enagathy, 3 story flats, $2,700.
Cottage Grove av 4026, Fred W Friedberg, 4 story flats, $12,000.

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo_mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE

CHICAGO,

MILWAUKEE

AND ST. PAUL

RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

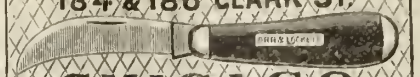
Public Notice.



FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

REAL ESTATE AND BUILDING JOURNAL.

Room 5, 163 Washington St.

STICKNEY.

The foregoing diagram shows in detail the arrangement of the Stickney transfer yards and where the various enterprises centering there are to be located. It also shows the exact location of the additional purchase of 160 acres by the National Stock Yards company outside the circle.

It will be seen that the Chicago & Western Indiana Belt railway and the Calumet line encircle the tract, and on these roads, which are now largely used by the railways doing business in Chicago, entrance to the yards will be made. The trains will be run on to the circular tracks shown in the center of the map, and from there switched off into various yards. The yards at Stickney will contain 1,000 miles of tracks, giving storage room for 160,000 cars, and so arranged that any particular car can be reached at short notice, and 250 engines can work at the same time without interference, which will save much valuable time.

The original intention was to locate the National Stock Yards in the center of these circular tracks. There were to be pens on a large scale for all kinds of live stock, warehouses for packers' supplies and products, and a large hotel for the accommodation of stockmen. The smaller packers, representing twelve of the firms now at the Union Stock Yards bought the Stickney tract of 650 acres for $650,000 and attempted to secure the necessary railroad facilities to connect with all the leading trunk lines in Chicago. Six of the smaller packers finally consolidated under the name of the International Packing and Provision Company (Limited), with a combined capital of $6,500,000. They were then about to secure the railroad facilities desired when the Union Stock Yards Company, fearing disastrous competition, renewed their efforts to effect a compromise and succeeded in making an arrangement for a final cessation of hostilities. The new agreement involves the perpetuation of the present stock yards for fifteen years and provides that the Stickney yards shall not be used in competition but shall be confined to warehouse, freight and manufacturing purposes. Its ownership will still remain in the hands of the smaller packers, now comprising seven companies, but these companies will be put on an equality with the "big three" so far as track and yardage charges are concerned and all will be harmony between the hitherto warring factions.

The future of the Stickney tract is not dependent on the stock yards interests alone but will be largely shaped by the various manufacturing and storage interests which will naturally center there. Heretofore the great drawback has been lack of water. This will be obviated by securing a supply either by artesian wells or from the Desplaines river or by running a tunnel through to the lake. A large main would bring water into an extensive portion of the city now destitute. The cost of putting in such a main running from the Stickney Stock Yards to Lake Michigan would be $400 000. This expense could be easily divided between the Stickney Company and the city, upon the condition that the company allow the city to tap this main in order to give water to that portion of the city now unsupplied.

The advantages of Stickney for freight transfer are readily seen from consideration of the fact that the firm of Armour & Company paid in one year to the railroads $38,000 demurrage charges on cars. At Stickney the cost would be diminished to 10 or 12½ cents per car, and there would be comparatively no delay.

Constantly on Hand.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

20 MILES OF MACADAMIZED STREETS AND STONE SIDEWALKS.

Extensive Improvements are under way, and within Sixty days Ten miles of streets will be macadamized. Special inducements are offered to parties who wish to organize Clubs or Syndicates for the purpose of purchasing a block or selecting a number of choice business lots.

The Best Savings Bank is Real Estate Judiciously Purchased.

Lots within the business center of Chicago could be purchased within a comparatively short time for a few hundred dollars, and were within the reach of all who desired to invest. The wise people who invested a small amount of money in Chicago property are now rich. The lots they purchased for a few hundred dollars are selling now for thousands of dollars per foot. Chicago's wonderful and natural growth has been the cause, and Chicago has only begun to grow.

Buy a Lot at Chicago Heights,

Pay for it and let it alone for a few years. The investment will make you independent. 500 houses can be sold as soon as erected. Contractors and builders will make the greatest mistake of their lives if they fail to take advantage of the splendid opportunities offered them at Chicago Heights.

Eight Large Factories in Full Operation.

Negotiations pending with a large number of factories which have an established business of long standing as well as a national reputation at home and abroad.

Free Factory Sites, and a Liberal Cash Bonus

Will be given to Factory establishments of good standing.

The Largest Factory in America

Heroy & Warrener, of New York, the largest Plate Glass people in America, have located at Chicago Heights, and their extensive factory covering Eight Acres is in course of construction.

Superb Transportation Facilities.

Chicago Heights is located seven miles south of the city limits, on the Chicago & Eastern Illinois Railroad, Michigan Central Railroad, Elgin, Joliet & Eastern Railroad, Chicago's great belt line, which makes connection with every railroad entering the World's Fair City, making this point a great railroad center, thus affording transportation facilities unequalled by any manufacturing center. In addition to this, Chicago freight rates prevail to and from all points, thus making it possible for manufacturers to enjoy the same commercial advantages as though they were located in the very center of the city.

Pure Spring Water and Pure Air.

The land is high and admirably adapted to the uses to which it is to be put. It lies 120 feet above the level of Lake Michigan, is beautifully undulating, and partly wooded, while a never-failing stream furnishes an abundant supply of pure water, which, with the pure air afforded by the high altitude, makes this one of the most healthful and charming places about the city. In addition to these advantages it possesses good churches and schools.

Stability of the Enterpise.

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

CHICAGO, SATURDAY, JUNE 4, 1892.

Finance and Trade.

A week which contains a holiday is usually a poor week financially. A week in which the first day is a holiday and every succeeding day is wet and unseasonable is not likely to prove an exception to this rule. Saturday is but half a day at the best, but a rainy Saturday is almost a blank. The holiday on Monday crowded business on to Tuesday. The four days following Monday were really all the working days that the week contained. They were so marred by rainy and cold weather that in some lines of business little has been accomplished. Owing to the fact, however, that the week has seen the beginning of a new month, with the customary activity in settlements and orders, mercantile business has been brisk. The bank clearings indicate the relative activity of the week as compared with the week previous. On Thursday the New York clearings showed an increase of over forty-four millions of dollars over the same day of the week previous. In Chicago the clearings increased five millions, and in Boston and Philadelphia two and three millions respectively. The banking activity of the week has been especially noticeable, and is attributed both to a reduction of deposits and an increased demand for money. Large depositors have drawn heavily on their deposits. This is owing in some measure to a decrease in the rate of interest on country deposits] New York and Boston banks have announced that interest rates will be reduced June 1, from 3 per cent to 2½, 2 and in some cases 1½ per cent. This announcement has had the effect of diverting money on deposit into other channels, particularly into stocks, which at this time offer a very alluring field owing to the prevailing low prices. In some quarters there is noticeable an increased demand for loans which has a tendency to strengthen the money market. In other localities, however, the same ease prevails, and on the whole the improvement is thought to be only local and temporary.

The worst feature of the weather conditions is that they produce a depressing effect on investors. The real facts as to the present financial situation as compared with the past are not known to the general public, and the result is that the very discouraging rains and the cold and backward spring are the immediate causes of discouragement to the average capitalist. A glance at some comparative figures will reveal the true condition of affairs and serve to dispel some of the clouds that have settled heavily on the financial horizon.

The Washington reports of foreign commerce for the first four months of the year show a large increase in exports over the corresponding period last year. At the same time there is a large decrease in our gold shipments to Europe. During a number of weeks recently gold shipments ceased entirely, but have now recommenced, and it is reported that at least $2,000,000 will be engaged for to-day's steamers from New York. However, it is not considered likely that gold exports will seriously impair the market in the near future. The exports of specie from January 1 to June 1 amounted to $32,822,606, as against $54,391,387 in 1891. On the other hand, the imports of specie since January 1 were $6,709,590, against $2,810,323 last year.

A further examination of the official report reveals the fact that the total shipments of wheat during the month of April, 1892, amounted to $14,438,786 against $11,031,372 during the same month last year. The shipments of corn were $4,247,268, against $1,058,320. The total exports of breadstuffs were $19,905,717, against $12,373,827 in April, 1891. For the ten months ending May 1, the exports of breadstuffs were $253,065,629, against $97,626,753 for the same period of 1891.

A further indication of prosperity is seen in the reports of corporations and railroads. Everywhere increased dividends are announced. Securities are on the up grade. Confidence in the success of new industrial and railroad enterprises is greater than ever before. The gross earnings of 147 railroads for the four months ending May 1, 1892 were $169,261,963, against $157,586,613 for the year preceding, showing an increase of $11,675,350. These figures are in line with the general improvement in individual corporations which has been noticed of late in Chicago. The success of the Alley "L" and the North and West side cables, and even an appreciable improvement in Lake Street "L" stock, has caused renewed confidence in such enterprises in Chicago.

The New York stock market has had a decidedly bearish tone. The bears have taken advantage of the weather and other unfavorable conditions and have had their own way with many of the leading securities on the street. Within a day or two the tide has turned and prices have assumed a more hopeful aspect. Trading has been light but this has been due to lack of offerings rather than to scarcity of buyers. The most numerous transactions were in railroad securities which have developed a pronounced firmness. On the Chicago exchange the features of the week have been Alley "L", Lake street "L" and the cables.

Wheat has had a bullish tendency on the Chicago Board of Trade, owing to the depressing weather reports. Operators are evidently waiting for a decisive turn in the weather conditions before prognosticating the coming crop. Corn is reported in unfavorable condition almost everywhere. Farmers are refusing 60 cents a bushel for their reserve stocks, with the expectation of getting more. As yet corn has hardly made a showing above ground where planted and in many sections no corn has been sown. It is thought that nothing short of long continued warm weather between the present time and the first of August can save the corn crop for this year. To the farmers this anticipated short crop is the less likely to be disastrous because of the unusually large reserves of wheat and corn which are now held by them in store.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of sixty-seven leading cities for the week ending May 26, 1892, as compared with those of the corresponding week of last year, with percentages of increase and decrease.

CITY.	WEEK ENDING MAY 26, 1892.	WEEK ENDING MAY 28, 1891.	PERCENTAGES.

†Not included in totals.

A glance at the column of percentages shows that only thirteen out of the sixty-seven cities return decreases. This is the most favorable statement made for several months. It indicates a wave of returning prosperity affecting the entire country. When we note that the clearing-house returns from nearly four-fifths of the cities of the United States show increases ranging as high as 61.9 percent and that the total increase is 12.1 percent over the returns for the same period last year, we gain a fair idea of the rapid growth of the financial interests of this country. When we further consider that this result has been achieved in the face of the most discouraging weather conditions we are still further impressed with the progress of trade and finance as indicated by the clearing-house returns. At the total rate of increase indicated this week the clearing-house returns would double in eight years. It seems incredible that the business of the country is doubling every eight years, yet this would seem to be the conclusion to be arrived at from a study of the clearing-house returns on a basis of an increase of 12 percent per annum over each previous year.

The decreases of the table are as usual confined to the western and southern cities. Duluth, Portland, Or., Sioux City. Seattle and Los Angeles, are of the former class; New Orleans, Louisville, Houston, Nashville, Fort Worth and Birmingham, are of the latter. The largest decrease shown by any one of these is 28.1, while five of the cities return decreases of less than 10 percent and only six of more than 10 percent. On the other hand thirty-two cities return increases of over 10 percent. The remarkable increase of 61.9 percent is attributed to Salt Lake City.

To the improved weather conditions may be attributed the increase in business reported for the week. Other conditions being favorable a change to brighter skies and warmer air is quickly followed by activity all along the line. Improvement has been noticed especially in dry-goods business. The inquiry for cotton goods has been brisk. Wool and woolen fabrics of all kinds are in demand and boots and shoes are active. The clothing business has received an impetus due to better weather. Iron, though sold at low prices, is moving in large quantities. The demand for money in some localties is improving.

Trade conditions at Chicago are better than they were at this time last year. From Minneapolis and Milwaukee the same hopeful outlook is reported. At Minneapolis there is a large demand for flour. The output for the week was 173,000 barrels, against 112,009 for the corresponding week a year ago. The lumber trade is also reported satisfactory. Receipts of cured meats, wool and hides at Chicago are much larger than last year; the receipts of flour are double,

and of barley quadruple those of the week last year. Corn is speculative and uncertain. Wheat has been higher, with exports large and equal to receipts at Chicago.

These improved conditions are quite sufficient to account for the flattering condition of the clearing-house returns as indicated by the table.

A comparison by groups of states shows the following.

	WEEK ENDING MAY 26, 1892.	WEEK ENDING MAY 28, 1891.	PERCENTAGE.
New Engl'd States.	$112,292,878	$ 99,288,242	Inc 13.1
Middle "	777,441,045	691,568,777	" 12.4
Southern "	29,020,986	32,816,738	Dec 11.6
Western "	40,799,317	33,431,530	Inc 21.9
Northwestern "	120,467,551	108,281,276	" 11.1
Southwestern "	35,928,333	33,411,554	" 7.5
Far Western "	27,722,336	23,063,259	" 20.4
Totals,.....	$ 1,143,672,446	$1,021,861,376	

It is a fact worth noting that only the Southern group shows a decrease this week. Even the Far-western and Southwestern show increases. It is to be hoped that the Southern may soon emerge from the slough of despond in which it has been so long struggling.

THE LOCAL STOCK MARKET.

The week has been almost featureless on the Chicago Stock Exchange. Buying orders have been plentiful but in most cases below the market and there has been no tendency to sell. Consequently, prices hold their own and in a few cases advances are noticeable. The Street Railways as usual monopolize a good deal of attention, but the transactions have been small and without any great change from previous quotations. City Railway holds firm at 375. West Chicago Street Railway has ranged from 147¼ to 149½. North Chicago Street Railway, from 193½ to 195. This is a slight reaction from the prices of last week when 150 7-8 was paid for the former and 196 for the latter. Transactions have been small and unimportant. Buyers are evidently waiting for a still further reaction which does not come. Holders of the Street Railway stocks are evidently not anxious to sell, for there are few offerings of these stocks on the market. The tendency is decidedly in favor of firmness all along the line. In City Railway there is comparatively nothing doing. This is largely accounted for from the fact that the regular 3 per cent dividend on this stock will be paid June 30 to stockholders of record June 15.

Chicago Brewing and Malting sold at 37, a drop of two points from 39, the price reached last Saturday. Later on it strengthened under the announcement that all the breweries except one had come into the trust. Negotiations are now pending to bring this one in and it is thought they will be successful. The possibilities of this stock for speculative purposes are recognized by investors now that the combination is likely to become complete and be enabled to put up the price of beer.

The fluctuation of the unlisted securities on the Exchange has furnished about the only diversion from the staid order of business. Lake Street "L" stock has touched 29, the highest price it has ever reached. Chicago and South Side Rapid Transit Co. has been sold at 115, a remarkable figure considering the fact that the road has never yet earned a dollar. Both these stocks are examples of the public confidence in street railway securities. The experience of the past in other securities of this class has been so encouraging that investors are quick to see a ray of hope in any project involving the construction of an intra-mural railway. In fact it is comparatively easy to interest capital in new street railway enterprises, as is evidenced by the large number of these projects which are in active preparation.

The Chicago and Northwestern railroad directors have declared the regular dividends of 1¾ per cent on the preferred and 3 per cent on the common stock.

It is expected that Milwaukee and Chicago Brewing preferred will pay a semi-annual dividend of 4 per cent June 14, although the official announcement has not yet been made.

THE REAL ESTATE MARKET.

The week has developed little that is new or interesting in the real estate situation, but a number of incidents have been noted which have a more or less direct bearing on real estate interests. One of these is involved in a transfer of two South Side corners which has been recorded. The property transferred consists of the northeast and northwest corners of Fifty-third street and Prairie avenue. Each corner has a frontage of 300 feet and is transferred at a consideration of $100 a front foot. The sale in itself is of no special importance but there are certain details connected with it which will be of interest to South Side property owners. The contracts for the sale of these two corners were made in October of 1890, and ran from J. & W. Sloan of New York to R. A. Wells and A. J. Montague. The delay in making the transfer has been occasioned by a defect in title and brings up the history of the celebrated "Tiffany quit claim." The two corners were a part of a large tract formerly owned by Carding Jackson. A one-seventh interest in this property was inherited by Mrs. Joseph Tiffany. There has always been a question as to whether she had transferred her interest in subsequent instruments as an heir, or had simply transferred her dower interest as the wife of Joseph Tiffany. The purchasers demanded that a quit claim be secured from the Tiffanys to complete the chain of title. The agent representing the Sloan's interest agreed to get this quit claim but delayed action regarding it. The defect in title has been recognized for years and there has been no difficulty in securing quit claims from the Tiffanys who considered that they had no actual rights in the property. However, while the agent of the Sloans was negotiating with Mrs. Tiffany for a quit claim covering a fifty-acre tract, William J. Lloyd of Philadelphia paid the Tiffanys $175 for a quit claim on a large tract of land west of Washington Park and at once placed it on record. This put quite a different aspect on the matter. He asserted his rights to a one-seventh interest in the entire property and refused to give the Sloans a quit claim, excepting on payment of one-seventh of the purchase price. As the Sloans had made a contract with the two purchasers and had secured earnest money, they were obliged to carry out their contract and were in such position that they were forced to submit to the terms proposed by Mr Lloyd. The courts decided that the contract with Messrs. Wells and Montague was valid, and to settle the matter, the Sloans paid Lloyd $4500 for his quit claim on the two lots and made the transfer to the purchasers. It is thought that this recognition of Lloyd's title will have a tendency to complicate matters in regard to his claim and may possibly involve a large amount of South Side property in litigation.

WORK ON THE ART INSTITUTE STOPPED.

This week has seen the work on the new Art Institute stopped by the assertion of property rights of one owner of Michigan avenue frontage. A decision was rendered on Tuesday by Judge Tuttle in the case of Mrs. Sarah E. Daggett sustaining the injunction which was granted by Judge Tuley against the Inter State Exposition company and the city of Chicago some time ago. This injunction was granted to protect the lake front from the construction of buildings. The present decision is aimed against the directors of the Art Institute and the World's Columbian Exposition and threatens to entirely stop work which has commenced on the Art Institute. The directors of this Institute have been at an expense of probably $75,000 in making plans and laying foundations for the new building. The controversy between Mrs. Daggett and the Art Institute people is a continuation of the fight which was begun by Stafford, Hoyne & Scammon, soon after the Lake-Front bill was passed in 1869. The case, or rather various cases which have resulted since that time involve some nice points of law and property rights. The Lake-Front Park as it is known at present was acquired in two sections. That part north of Madison street was deeded by the United States Government to the city prior to 1827 to remain forever free and clear from obstruction. That portion between Park Row and Madison street was acquired in 1827, when the government gave certain lands to the State of Illinois to aid in the construction of the Illinois and Michigan Canal. These lands were platted and the portion east of the west line of Michigan avenue, as far south as Park Row, was left as an open space, or common. The Common Council by numerous acts, has taken space as a park with the stipulation that it is to be kept free of obstructing buildings. The Art Institute managers considered that they had secured the acquiescence of all the owners of frontages on the Lake-Front Park before they began work. The action of Mrs. Daggett and her success in this preliminary skirmish promises to present a perplexing problem to all parties interested in the Art Institute.

SOLD FOR A THIRD OF A MILLION.

The star sale of the week has been one of residence property. The ten-acre block bounded by Grand Boulevard, Vincennes avenue and Forty-ninth and Fiftieth streets has been sold for $325,000. The purchasers are in the form of a syndicate of twenty-five members, many of whom will at once begin the erection of fine houses. The land is the only important unsubdivided tract on Grand Boulevard north of Washington Park. The Storey tract is another well-known holding further north which has been recently subdivided. The ten-acre block which has just been sold consists of the old Stone Homestead and was sold for J. W. Doane and H. O. Stone, as trustees. The block is to be subdivided by opening a street to be known as Washington Park place from north to south. This street is is to be improved in the same manner as Vincennes avenue and Grand Boulevard. In all there will be about 2400 feet of frontage and the average price is something like $135 a foot.

Choice residence property, such as the above tract has occupied more of the attention of purchasers during the last two or three years than ever before in the history of Chicago. A number of ten-acre block sales which have been made in succession in the same general locality, shows a marked tendency to increase in value. In certain sections on the North side and in the Hyde Park district prices have made startling advances in the last three or four years. The difficulty in surrounding Chicago residence sections with proper safe-guards against the establishment of undesirable improvements is one of the most intricate problems that real estate men in Chicago have to meet. The constant change and tendency to shift business centers has been a feature of the development of Chicago. Streets which were once entirely occupied by choice residences gradually take on a semi-business appearance or are occupied by apartment houses. One of the most striking examples of this tendency to change is shown on Wabash and Michigan avenues. These streets in the down town portion were once considered choice residence streets. They have gradually changed, one into a wholesale and retail business street and the other into the locus of the hotel business. The change has been slow; in fact, in some portions it has been rather difficult for owners to decide whether the advance in values was sufficient to warrant the tearing down of old buildings. A result of this is seen in some of the remodeled Wabash avenue buildings where business fronts have been added to old residences. In choice residence sections much difficulty has always been experienced in keeping out apartment houses and buildings which are considered objectionable from an esthetic standpoint. The establishment of a building line is a much more difficult undertaking than most subdividers realize. In fact, it is said that over three-fourths of the building lines which have been established at various times are not binding on property owners. Great care is necessary in drawing up the deeds providing for a building line in order to make it effective. Quite frequently, some account is given of the indignation of residents of fashionable districts on the projected construction of some apartment house or hotel building. The location of the World's Fair in Chicago will be detrimental to property in the Hyde Park district for this reason alone. These sections under ordinary conditions would have developed as high class residence districts exclusively. The construction of apartment houses and hotels, however, has been stimulated by the location of the World's Fair and the sentimental value of the property which is the standard of values in high residence sections has consequently been lowered.

IMPORTANT SALE OF STATE STREET PROPERTY.

Turner & Bond have sold for Mrs. Mary Newcomb to A. A. Johnston the northeast corner of State and 21st streets for $146,600. The lot has a west frontage on State street of 183¼ feet and is 118 feet deep, extending back to the right of way of the Alley "L" Road. This is the largest piece of unimproved property on State street north of Twenty-second and its immediate improvement will add considerable to the value of the property in that vicinity. The price paid represents a valuation of $800 per front foot.

This property was purchased for an Eastern syndicate which will erect a series of fire-proof warehouses to cost $400,000. These warehouses will be used for the purpose of storing fine furniture and household goods and will be similar to buildings now used for the same purpose in New York city. They will be about six stories high and will be built of steel.

The warehouses are a new departure in the storage business of this city, as there are at present no buildings of the kind proposed that furnish facilities for storing expensive furniture, valuable paintings, costly libraries or works of art, and it is believed that they will meet with immediate success. In New York there are several warehouses of this kind, one of which, the Lincoln, is said to contain from $8,000,000 to $10,000,000 worth of paintings, books, statuary etc., at one time. The site selected for the warehouses is well adapted for the purpose intended, being less than two miles south of the retail business center and adjacent to one of the best residence districts in the city. It is easily accessible by cable car, and the completion of the Alley "L" will bring it to within a few minutes' ride of the entire Hyde Park district. It is only about a block south of the Alhambra theatre.

The price paid for the property may be said to be a direct outgrowth of the completion of the Alley "L" Road and may serve to demonstrate the increase in values made by the construction of the first elevated road in the city. The property was bought by Mrs. Newcomb in December, 1890, through the agency of Turner & Bond. for $500 per front foot. At that time the Alley "L" Road had been projected, but doubts were entertained by many as to the construction and final completion of the road. The present sale, made just on the eve of throwing the road open to the public, at $800 per foot, shows an increase of 60 per cent in about seventeen months, and it is understood that the last purchasers have already received a proposition offering an advance of $200 per foot on the price paid by them, or just twice the amount paid for the ground less than a year and a half ago.

AN IMPORTANT ACRE DEAL IN LYONS.

What promises to be the most noteworthy acre transaction of the year is now under negotiation in the township of Lyons. The deal includes nearly 1,000 acres. It is said that Eastern capitalists contemplate the establishment of a new manufacturing suburb just south of Riverside. The land includes the Prescott tract of 500 acres, a part of the Holton land and several smaller holdings.

The Prescott land is in two pieces—one of about two hundred acres in the north half of section 12 and the entire north half of seceion 11. The Holton land on which an option has been secured, comprises 240 acres in the east half of section 9. Besides these tracts J. S. Meckling has secured options on about 113 acres that will also form part of the deal. The tract extends from the Desplaines River on the east to the right of way of the Calumet Terminal on the west and is about two miles south of the Chicago, Burlington & Quincy Railroad. The plans of the purchasers are kept secret for the present and the only positive information that can be obtained is that the different tracts mentioned and possibly some others have been put under contract and that a decision with respect to closing the deal is expected from Boston in a few days. It has been intimated that this transaction really means the entrance of a new railroad to the city and General Joseph T. Torrence partially confirmed this report by admitting that he was negotiating with a new railroad to enter the city from this direction over his elevated terminal system. If such is a fact the road will necessarily have to pass through this tract in order to make connections with the elevated terminal or the Santa Fe tracks. A. M. Holton, who represents part of the land on which options have been secured, said that he expected a decision from Boston some time this week. He professes ignorance as to who the real buyers are, or the purposes for which the land is to be used. Other property-owners in that section say they have been approached for options but were unable to learn what the land was to be used for. This section of country has been comparatively neglected in the past and the absence of any boom prices makes it desirable property for speculators who desire to establish a new suburb or to secure a right of way for a new railroad enterprise.

A NEW FACTORY AT CHICAGO HEIGHTS.

One hundred and seven lots were sold at Chicago Heights during the week just closed. J. E. McElroy has contracted for the erection of 45 houses. The Walburn & Swenson Manufacturing Company, now operating at Fort Scott, Kansas, will locate at Chicago Heights. The contracts have been signed and the buildings will be commenced at once. As soon as they are completed the company will remove its entire plant to Chicago Heights. A tract of nine and three quarter acres has been selected at Main street and Birmingham avenue in the triangle bounded by the Chicago & Eastern Illinois, the Joliet cut-off, and the Elgin, Joliet & Eastern railroads. All the buildings will be of brick. The main structure will be 400x125 feet. There will also be an engine house, 65x85 feet, a pattern shop, 75x90 feet, and an office two stories high, 30x55 feet. The company will employ 200 men in the manufacture of mining machinery, heavy sugar-refining machinery, and general foundry work. The Walburn & Swenson company last year built the largest refining plant ever constructed for Claus Spreckles of Honolulu.

ANOTHER "L" ROAD PROJECT.

Articles of incorporation have been filed at Springfield for the Chicago and Suburban Rapid Transit Railway company, with a capital stock of $5,000,000. The incorporators are Irus Coy, James H. Ashby, C. P. Caldwell, M. S. Tierney and George C. Lazear, all of Chicago. It is understood that the intention of the company is to build an elevated road on Halsted street from a point near Lake street to 130th street near Blue Island, with branches south from Thirty-ninth street to the Calumet river, and on Thirty-ninth street to Western avenue. If right of way cannot be secured on Halsted street it is probable that an alley route west of that street will be chosen. It is intimated that London and Boston capitalists interested in the Stock Yards company are back of the enterprise. Of the incorporators Messrs. Ashby and Lazear are employes of the Stock Yards company; C. P. Caldwell is a Hyde Park physician, and M. J. Tierney is a brick manufacturer. One of the objects of the company is said to be to build an elevated road on Sixty-seventh street to furnish the Rock-Island railway a short cut to the World's Fair grounds.

The ordinace of the company was introduced in the Council meeting Wednesday evening. The evident intention is to extend the road to Blue Island, with lateral branches The ordinance leaves the right of way to be condemned between Wentworth and Western avenues. The ordinance describes the route as starting at a point on Lake street between Morgan and Canal and running thence south to the South Branch; thence over a suitable bridge south between Wentworth and Western avenues. A cross line is to run from Western avenue to Lake avenue, between Thirty-ninth and Forty-seventh streets. Another branch is to start from the main line between Sixty-seventh and Seventy-first streets and extends to Stony Island avenue. The road is to be elevated fourteen feet above the established grade and the company agrees to submit its plans for the approval of the Commissioner of Public Works The company's ordinance asked for a franchise for fifty years. Four miles of roadway are to be completed within two years from date of the company's acceptance. The ordinance was referred to the joint committee on streets and alleys south and west.

SALES AT AUCTION ON THE REAL ESTATE EXCHANGE.

At the regular weekly auction sale on the Real Estate Exchange Tuesday noon unusual interest was manifested and the bidding was spirited. Ten pieces of property were offered and five were sold. The sales were as follows: Potomac avenue west of Hoyne avenue, 100x119 feet, for $5,700 cash to Martin S. B. Anderson; Lowe avenue, corner Thirty-fifth street, 72x48 feet, subject to special assessments not exceeding $150, to John Mulvihill, at $42 a foot; Eighty-ninth street, east of Langley avenue, 48x125 feet, to J. C. Owen, for $1,200; West Eric street, east of Milwaukee avenue, 22x137 feet, with two-story frame house, to James Curran, for $3,450; Germania place, east of La Salle avenue, 25x80 feet, to A. Schubert, for $4,100. This is the most successful sale yet held by the Exchange and the members are much encouraged. The next auction sale will be held Monday, June 6 at 12 o'clock noon.

A resolution has been adopted in the Real Estate Exchange to admit associate members on an initiation fee of $10 and yearly dues $20. Associate members will be allowed to sell property through regular broker members, the commissions to be half those charged to outsiders.

MEETING OF THE REAL ESTATE BOARD.

The regular meeting of the Real Estate Board was held Wednesday of this week. An amendment to the by-laws was proposed by Walter H. Wilson, reducing the membership fee for associate members from $100 to $25, but was lost. H. F. Gillette was elected to agent membership. The date of the next informal dinner was fixed for Thursday, June 23. George Birkhoff, Jr., was appointed to act as toastmaster and S. D. Walden, Jay Dwiggins and William H. James were made the committee on arrangements.

PROGRESS OF THE SHERIDAN DRIVE.

A strong effort will be made to complete the Sheridan Road during the coming year, so as to have it ready for the World's Fair. At a recent meeting of the Sheridan Road association new officers were elected for the ensuing year. Potter Palmer, the retiring president, was unable to serve longer on account of his many responsibilities. Mr. Volney W. Foster, the father of the Sheridan Road, who has done so much for it since its inception, was elected president; W. A. Alexander, vice-president, and Alex Clark, secretary. A committee has been appointed from each municipality on the road as far as Highland Park, to co-operate with the association and the city council in each town or village, with a view to an early completion of the road. It is the desire and belief of the officers of the association that the road will be finished by the time of the opening of the World's Fair. The serious condition of the road in many places this spring on account of the unprecedented rains, should wake up those interested, to prompt action.

THE FUTURE OF NORTH SIDE PROPERTY.

Shrewd investors are looking to North side property as likely to furnish the next example of a rapid rise in values. Property north of the river has never been boomed and has been rather kept in the background and overshadowed by the many South side enterprises which have kept the value of South side property prominently before investors and home-seekers and thus doubled and quadrupled its value while North side holdings were remaining dormant. Even now it is claimed by prominent dealers that property on the North side is held below its real value and that with the rapid growth of the city it is sure to come prominently to the front and increase in value very rapidly Chicago Avenue is within walking distance of the Court House, yet property on that street between Clark street and the lake shore has sold within the past six months for $200 a front foot. Recently 100 feet of frontage on Michigan avenue at the northwest corner of Thirteenth street was sold for $300,000. The corner was improved but the sale establishes a valuation of about $2,250 a front foot for the ground, which is several blocks farther from the Court House than is Chicago avenue. The query in the minds of thoughtful investors is whether there is a real difference in value of ten times as much for property at Michigan avenue and Thirteenth street as for property on Chicago avenue. It would seem as though the difference of value was not justified by the difference of location. It is well-known that property in the neighborhood of Superior street and the lake is worth $300 a foot, but Michigan avenue frontages of residence property at an equal distance from the center of the city have brought four times as much money. Yet residents of the North side claim that there is no more desirable residence property than that in the neighborhood of Superior street and the lake shore. This difference in the selling values of North and South side property seems inexplicable and some investors who consider themselves far-sighted are putting all their spare cash in North side property with the expectation that it must certainly rise in value before long. They argue that it is now at as low a price as it ever will be and that with the rapid growth of the city the demand for choice residence locations will make the best portion of the North side very valuable.

These considerations have made conservative investors confident in the future of North side property. A case in point is furnished by the five story flat building now being constructed by R. S. Elder on Superior street Mr. Elder has seventy-five feet fronting Sedgwick street on which he is putting up a building to contain forty flats at a cost of $75,000. The entire investment will represent $100,000 and will provide a magnificent flat property with an income on a 5 percent basis representing probably $150,000. It is an example of confidence in North side property not likely to be misplaced.

NINETY-NINE YEAR LEASES.

The desirability of the ninety-nine year lease as an investment is impressing itself on investors more and more every year. Where the conditions are such as to warrant erecting a substantial building on leased premises a ninety-nine year lease without revaluation is more desirable than a fee in the premises, because it has a speculative value as a lease and the rental remains at a fixed sum. The wonder is that these leaseholds are not taken as soon as they are offered. There are now on the market a number of offerings of ninety-nine year lease-holds where owners are willing to lease without revaluation, and will make a liberal building loan in the bargain. The experience of Chicago investors is that offerings of this kind if at all liberal are not to be slighted. Many a fortune has been realized from a leasehold interest alone. William Fitzgerald is credited with having made a profit of $75,000 on the Auditorium leases. The case of the Leroy Payne lease has been mentioned in these columns. Other instances might be enumerated. The fact is there is no form of investment so alluring to the investor with moderate capital and strong nerves as the ninety-nine years leasehold.

THE SITUATION AT STICKNEY.

Interest in Stickney property continues unabated but the densest ignorance prevails among real estate men as to the intentions of the promoters of the Stickney deal. The officers of the Union Transfer railway company were seen by a JOURNAL reporter, but refused to give any information whatever as to the plans of the company. In fact, the secretary plainly intimated that the newspapers had no right to information on the subject and refused point blank to say anything. However, Mr. Andrew Crawford, the able representative of the Eastern capitalists interested at Stickney, received the JOURNAL reporter courteously and explained that the Union Transfer railway company was engaged in making surveys for a new belt line to encircle the city, with termini on the north and south at the lake shore. The original intention was to use the Western Indiana belt line, and the company spent a year attempting to secure it, but were unable to complete the arrangements and concluded to build a belt line of their own. An effort was made to connect Stickney with the Chigago & Grand Trunk road at Elsdon and the right of way was secured and the road built nearly the entire distance, but owing to a disagreement with the city authorities the work had to be stopped This road is now complete, with the exception of a small strip which can be constructed on short notice if the necessary arrangements can be made with the city.

On the Stickney tract proper about 40 miles of tracks are laid. The only obstacle in the way of commencing active operations in the freight clearing-house is that there is neither freight nor passenger transportation connecting with the various railroads and the city. As soon as this requisite is provided it is expected that Stickney interests will experience a boom such as has never before been known in that locality. Real estate dealers who are handling Stickney lots and acres are quietly awaiting developments and in many cases are content to hold on to their present interests in Stickney property without making much effort to sell, believing that the prospective increase in values is worth waiting for. Heretofore the great drawback to Stickney property has been the lack of facilities for reaching it but with direct railway communication it is expected that Stickney will take front rank among the manufacturing suburbs.

RECKLESS DESTRUCTION OF FORESTS.

BY O. W. CRAWFORD.

The time when New England was the home of the lumber industry of the United States is within easy recollection. We looked to Maine, the Pine Tree State, for the type of the hardy woodsman and for the bulk of the lumber for all market demands.

Fresh from the slaughter in New England the destructive lumberman next invaded the Northwest. The solemn chambers of the mighty forest of Michigan and Wisconsin had till then echoed no ruder sound than the heavy fall of some great pine wrested from its base by the fierce north winds. The work of destruction began. Swarms of woodsmen built their camps along the streams. The measured stroke of the ax, the buzz of saw and the dull thud of falling trees told of a devastation measureless in its effects.

Broad stretches of woodland, one day the grand results of centuries of great nature's handiwork, the next a treeless waste. One day the crowning excellence of a beneficent creation, the mysteries of its benefit not yet all solved, the next so worthless as to be thought of only with contempt.

Acting as if trees were in the way of agriculture and forest lands had no other value than the soil, landowners gave them away or sold them at such low prices that it was actually offering a premium to the purchaser of timber lands For the spoliation of our magnificent, but never extensive forests, the Government has stupidly been responsible.

First lumbermen, then fires, attacked the pineries. The debris left by the former fed the latter. Young trees and plants were consumed. Nothing but a waste of ashes dotted with black stumps remained. The work of destruction was complete. It was death without a hope of resurrection.

The census of 1880, true to its purpose, made an exhibit which should have appalled commercial America It placed the hand-writing on the wall. It showed the only remaining white pine territory possessing only eighty billion feet of merchantable standing pine. Each year since, the devouring saws and consuming fires have destroyed three billion feet of pine logs. But for the importation of Canadian logs, today the well would have been dry. In eight years,

more trees have been used than eighty life times could reproduce.

Foreign people have contemplated our unbusiness like treatment of our forests with first astonishment and then avaricious interest. To-day there is filed in the forestry department of several of the strongest governments of the old world, carefull prepared reports, which show that within fifty years the United States will be in the markets of the world buying lumber.

Who can picture on canvass or paper the consequences of removing the forests from our hill and mountain lands. Patriarch citizens tell of seasons in years past so different from now as to be barely believed. We exclaim, why should there be such changes? Weather prophets and sensational storm predictors look into the heavens for portentious indications. Scientists and observing men point to the dehabilitation of hills and mountains. Who can contemplate the annually recurring floods of lower Maine, New York and Pennsylvania and the country along the great father of waters without a shudder. Think of Port Jarvis, Johnstown and the unprotected Mississippi planters whose heart-rending experiences have made a mark of sorrow in the history of this country. They cry aloud to the richest government on the globe for protection. What can protect them? Nothing can effectually protect them and the generations yet to come, but the preservation of the forests we have and the reproduction of those we have destroyed with a recklessness almost criminal.

The fate of New England and the northwest seems to be the imminent doom of the South. The last and only pine forests of the United States east of the Rocky Mountains are south of the Ohio River. Let the history of the white pine forests inspire a protecting policy which will save the yellow pine of the south from the perilous destruction which has commenced. Every commercial interest in America demands such a policy. Within a lifetime the believed to be inexhaustible forests of the northwest have been almost entirely used up. The demands of this rapidly developing country are not only greater than before but increasing with a rapidity far beyond any estimate based upon business history. Much good can be done by the dissemination of information, forestry statistics, resolutions of sympathy and support to all forestry societies and memorials to state legislatures and the Congress of the United States. It is the wisdom of government to save the people from themselves.

The territory west of the Mississippi has to-day more than one-half of the yellow pine of the United States. It is held by Louisiana, Texas, Arkansas and Missouri. Texas alone holds one-fifth. The ridiculous cheapness of Southern timber lands, with the ease with which lumbering is carried on, combine to incite the most ruthless profligacy in timber cutting yet known in this country. As an article of commerce, local, inter-state and foreign lumber is next to iron in importance. As an article of commerce lumber is next to crops in magnitude.

The National Government has shown its appreciation of forestry matters by establishing a forestry department under the agricultural portfolio.

THE CAUSE OF ALL OUR WOE.

It is a wise provision of nature that those things which are the most useful and universally needed are the most abundant. It is the artificial wants of life that are wanting, not the natural necessities. Over abundance begets satiety; scarcity of an article creates demand. Therefore water the most abundant substance on the surface of the earth at all times is least appreciated, especially at this time when nature seems to be over stocked with it. Next to water among earthly possesisons in point of abundance is real estate which although of greater value when properly moistened is still less appreciated by mankind, or at least Americans. Water, sunlight and air are the common inheritance of man and are made secure to all by statutory law as well as the common and the divine law. But although real estate can be fenced in, preempted and bought absolutely in fee simple, it does not command half as much attention nor as high a price in the United States as many other commodities of far less value. Real estate is so cheap generally that it is a by-word to say "as cheap as dirt." But this is not the case in all highly civilized countries of the old world. The poor man can scarcely own any land in fee simple and the majority of the tillers of the soil are but serfs; not lords of the the manor as here. There people appreciate the land and lament its scarcity and cost.

If the laws of Great Britain could be made as favorable to the poor man in this respect as they are in the United States and the lords of the manors over there should subdivide their estates into lots and blocks and offer them for sale absolutely to the highest bidder on "easy payments" the poor people would make every sacrifice possible to buy. They would be willing to live on bread and water and labor late and early to acquire in fee simple the most coveted and valuable class of property in Europe.

* * * * That excessive rains have destroyed life and property in the Mississippi valley is the fault of man not of his maker. The people destroyed the forests all over the land, neglected to build levees and good roads and they are now paying the penalty of their own reckless destruction. All of the legitimate subdivisions in Chicago would be comparatively free from water and the sale of lots not hindered seriously if we had these very things. A few car loads of gravel would make a mile of good road; half of the money squandered by politicians would build sewers and a poll tax levied on tramps and convicts would provide the manual labor necessary to make all needed public improvements. In Ohio and many other States they have splendid roads and good ditches by means of such laws as suggested above. But two generations to come can not atone for nor remedy the evil of the reckless destruction of the forests.

CURRENT COMMENT.

Sentimental values, speculative values and real or intrinsic values are not simply features of the real estate market, but they are factors. It is the business of the owner and the agent to manufacture sentiment in the absence of speculation and he who fails in this must fall back on plan solid facts in effecting a sale. It is not always an easy matter to sell a piece of property at its real or intrinsic value because it is necessary in such cases to find a buyer who wants to improve his purchase and occupy it, or rent it to some one who will occupy it. As the supply of cheap lots is certainly greater than the demand, as demonstrated in the JOURNAL by publishing a list of all subdivisions recorded in 1890 and 1891 and deducting the number of lots and parcels of land sold therefrom, it is painfully obvious that a surplus of over 110,000 lots exists, not to say anything about twice as many more outside lots that are on the market. These must be worked off during speculative periods, for sentiment and demand only enter into the question of values of fashionable residence quarters and down town holdings.

***

Two decisions of importance have recently been made by the Supreme Court of Minnesota relative to Building and Loan Associations. They will be found in another column of this paper under the head of Recent Legal Decisions. The associations affected are known as the "Nationals," and the principles are, loaning money to non-members in the one case and selling stock for non-payment of dues in the other. In both cases the decision was adverse to the associations.

These decisions will be read with interest by everyone familiar with the building and loan association methods. Evidently, the time has come when these methods are to be thoroughly investigated by the highest judicial tribunals in the land. The National idea is comparatively new, but it has grown so rapidly that already the asssociations have assumed prodigious proportions and yet the law as to national building associations is still in its infancy. The future of the movement is destined to be great but it is encompassed with many grave dangers, and the province of the courts is to wisely and impartially lay down such courses of action as shall not only render the investors in National associations safe but shall discourage dishonest or incompetent men from entering the business.

***

A careful estimate of the losses by flood during the past few weeks foots up about $32,000,000. These losses are confined chiefly to the west and the Mississippi valley and represent in the main agricultural or real estate losses. In many localities, as in Sioux City, the losses have been largely exaggerated. In other places the truth has been but half told. The losses in Illinois alone are estimated at $12,000,000, and in Missouri at about the same figure. These losses, it must be borne in mind, are mainly damages to lands and buildings and destruction of crops, so that they are very largely real estate losses. True, they are not irreparable, but they are likely to occur any year unless some active measures are taken to prevent them. That such measures can and ought to be taken is evident. In Louisiana in two years nearly $3,000,000 has been raised by taxation for the construction of levees. Even then a large portion of the State is threatened with overflow and serious loss because Arkansas above has not put its levees in as good condition. Foreseeing this danger Louisiana went to the expense of building levees outside its own State. But with all this expense the State is not safe. They are now calling on the United States Government to take charge of the entire matter and to provide against future losses by making the levees perfectly safe. This is really the only practicable solution of the entire problem. The great water courses are so extensive that only the General Government itself can rightly control them and protect the adjoining real estate interests from inundation in time of floods.

The vicious tirade against Chicago and the west generally which was recently indulged in by a New York daily paper may have a temporary effect in dampening the ardor of some eastern investors in Chicago real estate, but in the long run it will merely prove to be a boomerang in the hands of the vile sheet which originated it. In his spiteful effort to injure Chicago and the World's Fair, the editor of that "socalled" newspaper over-stepped the bounds of common sense and decency and attacked the entire west in a diatribe, which evidently was intended to cast discredit on Chicago alone. If he had considered the census returns, he would have become aware of the fact that the centre of population of the United States is not far to the eastward of Chicago and that within the area pointed out by him as being a semi-barbarous wilderness two-thirds of the inhabitants of the Union reside. He would have been impressed with the fact that the commercial and real estate interests of these people are worthy of the respect even of a New York daily paper and he would have wisely refrained from his foul attack which was a disgrace to the constituency he pretends to represent.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

W. C. Seipp has sold to T. J. Lefens 40x80 feet on the southeast corner of Market and Washington streets for $36,000.

R. A. Greifenhagen sells to S. Gans 50 feet on La Salle avenue south of Goethe street for $65,000.

W. H. Colvin has sold to E. C. Day 99x180 feet on the southeast corner of Drexel boulevard and Forty-third street for $52,000.

William D. Sloan has sold to A. J. Montague et al, 300x171 fee, on the northwest corner of Prairie avenue and Fifty-third street, $30,000; also the same area on the northeast corner of the same streets, to R. A. Wells for $30,000.

Work has been begun on the flat building at the southeast corner of Cottage Grove avenue and Fifty third street. The owner is Dr. Henry J. Reynolds and the structure will cost $300,000.

Rhodee Bros. have sold 50x175 feet on Lake avenue for $8,750, or 175 a front foot. The purchaser will erect an apartment house to cost $75,000.

James G Stevenson reports the sale of 100 feet on East End avenue, east front, 100 feet north of Fifty-first street boulevard, for Paul Cornell to James H. Stout, of the Knapp & Stout Lumber Company, of Menominee, Wis., for $25,500. The purchaser intends to erect a handsome residence on the lot this summer.

R. W. Hyman, Jr., has placed on the market a new subdivision of eighty acres at the northwest corner of Austin avenue and Twenty-second street. The land has been subdivided into half acre blocks.

The conservatory on the roof of the new Masonic Temple building was formally opened to the public Wednesday afternoon. The following figures in regard to the Masonic Temple are of interest in this connection: The ground on which the temple stands cost $4,340,000 and has a frontage of 175 feet on State street and 114 feet on Randolph. The total cost of the ground and structure complete will be $4,340,000. It contains twenty-one stories, ranging from twelve to twenty four feet in height respectively and reached by seventeen elevators. An iron-bar acting as a brace to the glass dome which decks over the main skylight at the top is exactly 308 feet from the pavement. Floors from 1 to 16 will be rented for office purposes; 17, 18, and 19 will be used for masonic purposes; 20 for water tanks used in running the elevators and generally supplying the building with water, and the 21st story will be the observatory.

Andrew Dunning is selling blocks in Stewart D. Anderson's addition to Jefferson Park. This property is between Milwaukee and Elston avenues, four blocks from Jefferson Park station on the Northwestern and two blocks from Forest Glen station the Chicago, Milwaukee & St. Paul railway. The fine train service, high location and low prices, combine to make this property very desirable.

G. A. Seaverns has bought a tract of 16⅔ acres fronting on California avenue, between 42d and 43d streets, for $26,666, being at the rate of $1,600 per acre. J. P. Shelby is the grantor.

A. S. Leib reports the sale of 35 feet west frontage on Drexel boulevard for $15,000.

It is reported that the South Side Rapid Transit Co., has secured the right of way to 79th street, and will have an elevated railroad built to that point within a year. The South Chicago Electric road now runs cars down Cottage Grove avenue to 92d street and east to South Chicago every ten minutes.

Norton Brothers have bought the Colonel Smith homestead at Maywood, adjoining their present plant for a consideration of about $50,000. The purchase consists of about twenty acres of land and a large brick and frame house. The firm intends to use a part of this land for manufacturing purposes, while the residence is to be occupied by one of the members of the firm as a home-

stead. Since Nortou Brothers built their factory at Maywood they have made several additions to their plant and have now under way another extension.

Extensive improvements are being made in the subdivision of Austin Heights, just south of Austin. Contracts have been let for several miles of macadamized streets, stone sidewalks, sewer and water. The aim of the owners of the subdivision, Cromin & Brennan, is to make this a high class residence district. Kissack & Muir have charge of the improvements.

Roxford and Bellamy report the following recent sales: The three-story stone front flat building, 4835 St Lawrence avenue, for $11,000; forty-eight feet at the corner of Maryland avenue and 66th street for $4,000; 50 feet on McChesney avenue near 65th street, $2,500; 25 feet on Evans avenue near 65th street; and 25 feet on McChesney avenue near 63d street; 50 feet on McChesney avenue, near 64th street. A. L. Howard, manager of their south side department, reports an increasing demand for property along the line of the Alley "L" road.

Isaac Pflaum has sold the property at Nos. 284 and 286 West Madison street, for Charles W. Pardridge to Hugh Daly for $60,000. The southwest corner of 46th street and Lake avenue was figured in the deal at $35,000. The West Madison street property is the Ryan store building near Morgan street and was formerly the West side store of the Pardridge Bros.

T. G. Dickinson & Co., have sold for Mrs. Beall No. 425 North State street for $12,000, and for Henry L. Hatch No. 350 Chicago avenue for $8,500.

Kesbler & Co have sold for Mossler. Isses, the lease of of the store at the corner of LaSalle and Madison streets formerly occupied by E. A. Cummings & Co. to a local retail jeweler at an advance of $3,000. The lease runs three years at an annual rental of $6,500. The new lessee pays therefore at the rate of $7,500 a year which is nearly equal to the rental paid by E. A. Cummings & Co. for the entire assessment—$8,000. The demand for small stores in prominent locations is in excess of the supply.

The last reported deal for the Atheneum property on Dearborn street near Randolph, contemplated the purchase of the property for $300,000, then the fee was to be sold for $400,000 and the original buyers were to take a ninety-nine year lease of this valuation. The deal fell through because a loan could not be made for the purpose of erecting a modern building on the lot such as would be deemed sufficient security to protect the owner of the fee. The Atheneum lot has an east frontage of 100 feet on Dearborn street and is 80 feet deep. Some time ago it was suggested that the German Opera House company secure the lot and improve it with a building to form part of the Schiller Theatre, but the schems fell through. At that time the rental asked was $13,000, or 5 per cent on a valuation of $270,000. A rumor was also in circulation a few weeks ago to the effect that the Western Union Telegraph company was negotiating for this property in connection with the Borden Block, but for this report there was no foundation. If the Western Union secures a location it will not be north of Madison street, but in well informed circles it is generally considered that the talk of the Western Union securing a site for a building of its own is simply a bluff made to secure a more advantageous renewal of its present lease than could otherwise be accomplished. Still, it is the unexpected that always happens, and there is a possibility, at least, if not a probability, that the telegraph company may erect a building for its own use that will equal its magnificent building in New York.

The Hotel Endeavor is to be built on the northeast corner of Indiana avenue and Fifty-seventh street. Negotiations are now pending between the Endeavor company and Thomas L. Fulton for the lease of the latter's ground at a rental of $15,000 for a year and a half. The ground is on the line of the alley "L" road and is two blocks west of Washington Park.

A syndicate, composed mostly of employes of Kelley, Maus & Co., is to build a three-story hotel at the southwest corner of Sepp avenue and Seventy-second street to cost about $30,000. The building will have a frontage of 150 feet and will be 111 deep. It will contain about 200 rooms, besides parlors, restaurant, etc.

Mayo & Curry have let contracts for a four-story apartment building to be built on Clement avenue, near Park Manor, for M. Buckley. It will have ground dimensions of 60 by 100 feet and is to be used for hotel purposes next year. It will cost $45,000. The three-story brick building adjoining on the south is to be remodeled at an expense of $10,000, and will also be used for hotel purposes.

Among the building projects now under way is a $60,000 flat building at 240 East Chicago avenue by Susan M. Krucker and a $30,000 flat building at 368 Sacramento avenue by J. T. Bunting.

J. A. McLennan will erect an eight-story building at 6345 and 6347 Cottage Grove avenue to cost $60,000. The building will have a frontage of fifty feet and the ground floor will contain two stores. The upper floors will be arranged in flats but will be used for hotel purposes next year.

LATE LEGAL DECISIONS.

DIFFERENCE BETWEEN GENERAL AND SPECIAL DEPOSIT.

In the recent case of the Mutual Accident Association v. Jacobs, the Illinois Supreme Court has decided as follows: "There is a wide difference between a special and a general deposit, as these terms are understood, not only by bankers but by the public, who are transacting business daily with banks. Where money of any description is deposited in a bank and the identical gold or bank bills which were deposited are to be returned to the depositor, and not the equivalent, the deposit will be special. A deposit which is to be returned in kind is a general deposit.

Where the money which has been delivered to a bank, even though it be for some specified purpose, as for instance, investment in a mortgage security, has been mingled with the funds of the bank, there is no reason why the depositor should be preferred above any other creditor.

In this case the money passed into the bank as a general deposit, and was mingled with the other funds of the bank, and the depositor occupies the position of a general creditor.

SOME REQUISITES OF WILLS.

In Robinson v. Brewster, the Illinois Supreme Court has recently rendered decisions as follows :—A will is a disposition of one's property to take effect at his death. An instrument by a party in which he states that in consideration of $1, as well as for affection, he assigns and sets over to his daughter all of his property, real and personal, to have the same after his death, is good as a testamentary disposition and valid when properly attested.

If the intention of the maker to dispose of his estate after death be sufficiently manifested and this intention be lawful in itself, and the instrument be executed with the statutory formalities as to subscription by testator and attestation by witnesses, it will operate as a will whatever its form.

The testator is not required to proclaim to the witnesses that he is making a will nor are the witnesses required to know that it is a will they are attesting.

To entitle an instrument to probate, as a will, the same must be in writing and signed by the maker, but the signature is just as effective when the testator makes his mark at when he signs his name.

A will must be attested by two credible witnesses. It is sufficient if the witnesses sign the instrument in the presence of the testator at his request, and their names are written opposite or under the word "attest." It is not indispensable that the witnesses shall subscribe any formal clause of attestation.

Where one of the attesting witnesses is dead, and the other testifies that they both were present when the testator signed the instrument, and that the latter saw the testator sign it, and that it was so signed by him in the presence of both the witnesses, and it is proved that the signature of the deceased witness, as subscribed, was in his handwriting, and that the will itself was in his handwriting, and that he was present and superintended the execution of the instrument, the proof will be sufficient and will meet the requirements of section 6 of the act relating to wills. In such case, the testimony of the surviving witness that he believes the testator was of sound mind when he signed the instrument will suffice.

The parol declarations of a testator made before or after the execution of the will, are not admissible for the purpose of invalidating the will. But his declarations made after the execution of the will may be sometimes admitted to show his knowledge of its contents in cases where it is claimed that he was imposed upon by not being informed of its contents.

A few minutes before the execution of a will the testator told a witness that he was making his will and desired him to come to an attorney's office and witness it, which the witness did. Held, that such statement and request so shortly before the signing of the will might be regarded as a part of the res gestae, and proper evidence to indicate the testator's intention to make the paper signed his will.

When the execution of a will has been proven in the manner prescribed by the statute, it will be presumed that the testator knew its contents. The law does not require that a party executing a will shall make a declaration that it is his will.

CONTRACT BETWEEN HUSBAND AND WIFE.

The Illinois Supreme Court in Nowell v. Forsytho, decided March 26, 1892, that when a wife before her marriage accepts a sealed agreement of the husband for the conveyance of a tract of land, to be made on his death in lieu of all dower in his lands and all claims on his estate, a parol agreement between them for the substitution of another more valuable tract, when executed by her joining with the husband in a conveyance of the first tract to a purchaser, and the execution of this deed for the second tract to a trustee, by which he is to convey the same to her on the husband's death, will be valid and binding on her, and such substitution will not abrogate the anti nuptial contract and restore her rights to dower, etc. on his death.

So when a wife has an equitable right to a deed for a tract of land of her husband, in case she survives him and joins in his deed of such land to a purchaser, but receives no part of the purchase money, it may be shown by parol evidence that she received and accepted a deed to a third person as trustee for her benefit for another tract of land and was not a gift.

PRESUMPTION AS TO DELIVERY OF DEED.

Douglas v. Pleasant Wirt, Ill. Supreme Court, March 26, 1892:—The law presumes much more in favor of the delivery of deeds in case of voluntary settlements, especially when made to infants, than it does in ordinary cases of bargain and sale.

The owner of real estate made and executed a deed for the same to his four infant grandchildren, reserving the use of the property during his life and that of his wife, who united with him in its execution and acknowledgement. Afterward he caused the same to be placed in the hands of a neighbor and friend to be taken care of, but gave no specific directions to hold it until the death of the grantors and then deliver it to the grantees. His previous statements to the custodian showed an intention that the grantees should have the property after his death. Held, that from such statements in connection with the fact that the grantor never took the deed from the custodian, but let it remain until his death, showed that the delivery was intended for the grantees therein named.

To constitute a delivery of a deed no particular formality is required, provided it appears that the grantor intends to part with his title and the control of the instrument passes to the grantee, or to some third person for the grantee. When the deed reserves the control of the property during the life of the grantor, the delivery may be made to a third person for the benefit of the grantee and such delivery will not be inconsistent with the rights so reserved.

When the grantor of land delivers the same to a third person to keep for the grantees, who are infants, until his death and that of his wife, the fact that after his death his wife may obtain and destroy the deed, will not affect the question of delivery of the same.

ESTOPPEL TO DENY OWNERSHIP OF LAND.

When a father expressly recognizes one of his sons as the equitable owner of a tract of land, the legal title being in the former, and by his advice another son purchases the land of his brother, paying the full value thereof, the father will thereafter be estopped from denying that the son so purchasing obtained the equitable title to the land, and such estoppel extends to the heirs of the father.

When a person by his advice and direction causes another to purchase land of one claiming title thereto, at its full value, he will be estopped from asserting the legal title resting in his name as against such purchaser.

INNOCENT PURCHASE NOT AFFECTED BY UNRECORDED INSTRUMENT.

The Supreme Court of Illinois reaffirms the doctrine announced in Enos v. Buckley (94 Ill.) and cases of that class as distinguished from cases of the class of Miller v. Mettler (129 Ill.), where the only source of title in the party claiming the benefits of the statute was the life estate, no other source appearing. The Supreme Court of the United States in the ten cases before it announced substantially the same doctrine, following the case of Dugan v. Follett (100 Ill.) to the effect that where the instrument creating a life estate is not of record, an innocent purchaser without notice will not be affected by its production afterward, even though that instrument be a foreign will.

EFFECT OF INSURANCE IN FOREIGN COMPANY.

The statute which prohibits foreign insurance companies from transacting business in this State without complying with its provisions, is enacted for the protection of our citizens against loss from irresponsible foreign companies. The duties it enjoins and the penalties it imposes are upon such companies and not upon those contracting with them in good faith.

The public have the right, in the absence of bad faith and of actual knowledge to the contrary, to presume that a foreign insurance company transacting business in this State, is acting lawfully; and the company when sued upon a policy issued after its right to act has ceased, is estopped to allege that it had no lawful authority to issue the policy.

When an agent of a foreign insurance company issues a policy of insurance after its right to insure in this State has ceased, an instruction of such company to the agent to take up and cancel the policy, unknown to the assured, will not affect the rights of the latter.

When a foreign insurance company having authority to transact business in this State, appoints an agent here with power to act for it, if that agency is terminated, the burden will be upon the company to bring notice to those who thereafter transact business with him of the termination of the agent's power. An agent after revocation of his authority, may bind his principal by contract with one who has no notice of the withdrawal of power.

SPECIFIC PERFORMANCE OF A PAROL CONTRACT.

A court of equity, in the exercise of a sound, legal discretion, will not decree a specific performance of a parol contract for the sale of land unless it is established by clear and satisfactory proof; and unless the party seeking its enforcement shows himself entitled to a deed without any further thing being done on his part, and unless there are such acts of part performance as to take the case out of the operation of the statute of frauds.

When the evidence introduced to show the terms of a parol contract for the sale of land, leaves the mind in doubt as to the consideration to be paid, and the proof fails to show payment of the purchase money, or possession taken with the vendor's consent, a specific performance will not be decreed in favor of the purchaser.

The taking of possession of land under a parol contract

of sale with the consent of the vendor, paying the purchase money and making lasting and valuable improvements are sufficient acts of part performance to take the case out of the statute of frauds and to justify a specific performance of the contract.

CHARGING PERSONAL TAXES ON LAND.

The right of the collector to charge a person personal property tax upon his land, is not confined to cases of removals or insolvency of the delinquent, but under Sec. 170 and 255 of the Revenue Act, which are to be construed together, applies to all cases where the personal tax can not be made out of the personal property.

When the collector's book shows a charge of unpaid personal property against particular parcels of land, it will be presumed that such charge became necessary because the tax could not be made of personal property.

By Sec. 191 of the Revenue Law, all mere irregularities in the proceedings for the levy and collection of taxes not affecting the substantial justice of the tax, are cured and rendered harmless.

IMPORTANT BUILDING ASSOCIATION DECISIONS.

The Supreme Court of Minnesota held in the recent case of The National Investment Company v. National Savings, Loaning & Building Association, that a contract entered into with a building association organized under the laws of that State, by and through which it might be enabled to evade the statute and loan its funds to a person not a member or shareholder of the association was invalid and non-enforcible.

The same court also recently held, in the case of Allen v. American Building & Loan Association et al., that where a corporation has practically deprived a stockholder of his stock and the advantages accruing from its ownership by bidding it in for itself at a sale which it pretends to make under its by-laws, and on account of the failure of the stockholders to meet and pay certain prescribed monthly dues, an action for conversion of the stock, or one in the nature of an action on the case, will be against the corporation, although such sale was irregular and illegal, having been conducted in total disregard of the requirement of the laws authorizing the same. The court further held that where at such sale a portion of the stock was sold to third parties for an amount in excess of the arrearages and, as provided in the by-laws, this excess or surplus was sent in the way of defendant's checks by mail to the stockholders, who cashed the checks in ignorance of the fact that the sales had been irregularly and illegally conducted and made, the facts did not amount to a ratification of the irregular and illegal sales, and that the action could be maintained without first returning or offering to return the money so received.

TRAINS ON THE EVANSTON DIVISION.

The stopping of trains on the Chicago & Evanston railroad at Michigan street has occasioned considerable inquiry on the part of residents of the northern suburbs many of whom have been under the impression that the arrangement was permanent. The officials of the road inform us that it will require six weeks to complete the new bridge now in process of construction, but after that trains will be run as heretofore into the Union depot, without interruption from the occasional accidents to the bridge which have been so annoying.

NEW PLANS BY CHICAGO ARCHITECTS.

Architects Huehl & Schmid have plans for a 3-story flat building 57x58, to be erected on Noble avenue, near Clark street, for H. J. Keep. It will be of brick and stone with hardwood interior finish and cost $12,000. For John Schmid they have planned a 4-story flat building, 24x40, to be built on Huron street, near La Salle avenue. It will be of pressed brick and stone and cost $7,000.

Architect W. D. Cowles has completed plans for a 2-story and basement residence, 35x75, to be erected at the southwest corner of Midway Plaisance and Ellis avenue, to be constructed of Roman pressed brick with brownstone trimmings, the interior to be finished in hardwood and heated by hot water; cost, $22,000. For E. D. Murray he has planned a 3-story flat building, 72x88, to be erected on St. Lawrence avenue near 72d street. It will be built of pressed brick and stone and will cost $80,000.

Architect A. F. Hussander has designed for M. Sibley a 2-story and basement flat building, 22½x70, to be erected on Wabash avenue near 45th street at a cost of $7,000.

Architects Ostling Bros. have plans for a 3 story store and flat building for Charles Siebert, 25x60, to be erected on Clark street near Dewey court; cost, $8,000. The same architects have designed a 4-story store and flat building, 25x56, for Mrs. C. Wood, on Sigel street; cost, $12,000. Also for John O'Donohue, a 4 story flat building, 134x59, to be erected on the southeast corner of Halsted and Division streets; cost, $12,000.

Architect F. B. Townsend has designed for J. H. Hanchett a 3-story apartment house, 53x74, to be erected at the northeast corner of 50th and Evans avenue. It will be constructed of stone; cost, $7,000.

Architect J. M. Van Osdel has designed for Daniel Carbin a 4-story apartment house, 100x130, to be erected on the north side of 51st street, 150 feet east of Cottage Grove avenue. It will be constructed of Kasota pink limestone in the first story, with brick and terra-cotta above. The interior will be finished in hardwood and Arkansas pine; heated by steam and lighted by gas and electricity. The power and heating plant will be located in a separate building in the rear. The total cost will be $90,000.

Architect S. E. O. Pridmore has plans for a 4-story and basement apartment house, 25x98, to be erected on Indiana avenue, south of 35th street, by Oliver Nelson. It will be constructed of cut stone, the entrance being finished in marble and the interior in hardwood; heated by steam and lighted by electricity; cost, $12,000.

Architect J. W. Ackerman has plans for a cafe and natatorium, to be erected on Midway Plaisance, opposite Oglesby avenue. It will be two stories high, 235x200, and will be constructed of staff; cost, $75,000. The same architect will reconstruct the hotel building at 50 Sherman street and erect a 5-story addition in the rear, 40x60 for N. A. Chapin & Son at a cost of $35,000. The same architect has plans for a 4-story store and flat building, 26x70, on 35th street, near Prairie avenue, for John H. Bloom. It will be of stone, with hardwood interior, and cost $10,000. Also for a 3-story store and flat building, 50x85, to be erected at Halsted and 44th streets; cost $22,000. For Charles Kelley at Austin he has designed a 2-story frame residence, 22x60; cost, $5,000. For Mrs. Charles T. Gilbert a 2-story frame residence at Morgan Park, to cost $5,000.

Architect J. H. Moore has designed a 2-story flat building, 50x70, for Mrs. F. H. Sturtevant, to be erected at Oak Park; cost $12,000. For C. O. Bishop he has planned a 2-story store building, 35x100, to be erected on Peoria street near Van Buren; cost, $3,500.

Architects M. F. Colton & Son have made plans for a 2-story residence for C. W. Hillman, to be erected at Evanston, to cost $6,500. The same architects have plans for a 2-story and basement house for Prof. McCarroll on Oak avenue near Dempster street, in Evanston, at a cost of $6,500. Also two houses at $5,000 to be built at Highland Park for Hilliard & Wood. Also a $6,000 house on Wrightwood avenue for E. W. Bromilow, and for F. L. Chapman a 2-story house on Roslyn place near Clark street, to cost $5,500.

Architects Stiles & Stone have designed a 4-story apartment house, 50x79, for Mrs. Henry McKey and Richard McKey, to be erected at the southwest corner of Hibbard avenue and 51st street at a cost of $30,000. The building will be of cut stone, with hardwood interior finish, heated by steam and lighted by electricity. The same architects have planned two 3-story and basement houses for Dr. W. S. Johnson, to be erected on Washington avenue near 54th street. They will be 40x70, the fronts being of cut stone and the interior finish of hardwood; steam heat; cost $30,000. They also have plans for a 3-story apartment house, 25x80, for Mrs. Elizabeth Taylor, to be erected on Langley avenue south of 43d street; cost, $10,000. It will be of cut stone, the interior being finished in hardwood and heated by steam. The same architects have designed a 2-story school building, 50x128, to be erected at Elgin at a cost of $20,000; also a $6,000 school building to be erected at Carpenterville near Elgin.

Architect Franklin P. Burnham has designed a cold storage warehouse for the World's Fair grounds. It will be of staff, the same as the other World's Fair buildings, and will be very handsome. The style of architecture will be the Romanesque, with large central arched entrance, tower on each end and a central tower 170 feet high. Mr. Burnham is also preparing plans for a three-story residence for Joseph Livesey on Warren avenue to cost $15,000.

Architects W. M. Boyington & Co., have drawn plans for a new hospital and also a college building for Hahnemann Medical College at 2811-2815 Groveland and Cottage Grove avenues—the site of their present buildings. The hospital will be seven stories high and cover a ground area of 64x137 feet. It will be of brick and terra-cotta with hardwood interior finish and will cost $74,000. The college building will be in the Renaissance style of architecture, 64x77 feet and five stories in height.

Architect S. S. Beman has designed a market house and public hall for the Pullman Palace Car Co., to be erected at Pullman at a cost of $70,000. It will cover 100x162 feet and will be three stories high. The first story will be a market the second a large public hall and the third will be occupied by the Masons and Odd Fellows for a place of meeting. It will be an ornamental structure of cut stone, pressed brick and terra-cotta.

Architect Myron H. Church has completed plans for thirteen three-story houses at the southeast corner of Forest avenue and 38th street, at a cost of $78,000, for Charles E. Springer. They will have a frontage of 300 feet and a depth of 52 feet. The exterior will be of pressed brick with cut stone trimmings. Each house will have eleven rooms and will be heated by a furnace. Work is to be begun at once.

Architect C. H. Tabor drew the plans for the three-story apartment building being erected for Eggleston, Mallette & Brownell on Vincennes road, between 72d and 73d streets. It will be of brick, with stone front and will have two towers and a number of bays. It is to cover a frontage of 150 feet and will be divided into apartments. Cost $50,000.

Hutch and Young have taken out a permit to construct a seven-story office building at Blue Island avenue and Harrison street to cost $150,000.

Architect H. B. Wheelock is letting contracts for a store and flat building to be erected on Thirty-first street, near Fifth avenue, for M. Peterson to cost $15,000.

Architect C. K. Howell has completed designs for a six story apartment house to be built on Ellis avenue between 38th and 39th streets. It will have a frontage of 250 feet and will be 150 feet deep. The exterior will be of pressed brick with terra-cotta trimmings. The interior will be divided into 115 apartments, with steam heat and elevator service. The building is to cost $100,000. The same architect has also prepared plans for a two-story residence to be built on Sheridan road near Emerson avenue in Evanston for Louis Rice at a cost of $10,000.

Architects Treat and Foltz have prepared plans for a three-stroy residence to be built on Jackson avenue near 54th street, for O. M. Powers. It is to be constructed of stone and pressed brick and will have slate roof and all improvements. It will cost $20,000. Also for a two-story and basement residence to be erected on Greenwood avenue, near 51st street, for George A. Tripp. It will be built of frame and ornamental shingles, with stone foundation. It will be heated by steam and cost $10,000.

Architects Lamson & Newman are letting contracts for a block of four 2-story flat buildings to be erected at Jackson boulevard and Wood streets at a cost of $28,000 for Charles A. Brown. They will have pressed brick fronts with stone trimmings and will be provided with all the latest improvements. The same firm is also letting contracts for a three-story flat building to be built on Colorado avenue, near Sacramento, for A. Livermore. It will cost $11,000.

W. A. Merigold & Co., sold yesterday for the Estate of Mary Furlong the premises 349 W. Congress street; for John Reilly, 50 feet on 47th street, between Langley and Champlain avenue for $7,150; residence on 40th Place, 50 feet south of 30th street for $2160.

SHERIDAN DRIVE AND THE NORTH SHORE.

It is apparent to all who have visited the north shore, that some of the finest residence property within easy reach of the center of the city lies in that direction. Up to about three years and a half ago, this territory was comparatively neglected. In the fall of 1888, however, an association of prominent citizens of the north shore suburbs, known as the North Shore Improvement Association, set on foot a movement to secure the construction of the Sheridan Drive. From that time to the present, interest in north shore property has increased rapidly. Values have doubled and quadrupled. The Sheridan Drive from a project has become a reality; and all along the line have sprung up the beautiful and costly residences of some of Chicago's most prominent business men.

Lake View and Ravenswood, which a few years ago were considered outlying suburbs, are now populous parts of the city. Leaving the city limits at Edgewater, we enter Rogers Park. Thence through South Evanston to Evanston the improvements are continuous. Handsome residences on paved streets overlooking the lake indicate the character of the purchasers who are fast building up these suburbs. Beyond Evanston are Wilmette, Winnetka Glencoe, Ravinia, Highland Park, Fort Sheridan, Lake Forest, Lake Bluff and Waukegan. The entire drive of thirty-six miles from Chicago to Waukegan is unsurpassed in this or any other country for varied picturesqueness of both land and lake scenery. Its most noticeable features are the high and rolling character of the land, and the heavy trees with which many portions of the lake shore are wooded.

The work of the North Shore Improvement Association has been largely confined to securing the active co-operation of residents of the various municipalities through which the road must pass. The Lincoln Park Commissioners have charge of the drive from Elm street south of the Park, to Fifty-ninth street north of it. South of Elm street it is expected that the drive will be constructed by the property-owners and the commissioners. North of Fifty-ninth street it ceases to be the Lake Shore Drive, and becomes Sheridan Road. Through Rogers Park the drive runs along Evanston avenue. An assessment of $25,000 was levied, and the street was macadamized through the whole length of Rogers Park.

North of and adjoining Rogers Park is South Evanston, with nearly a mile and a half of lake shore. The drive continues northward on Evanston avenue through Calvary Cemetery along the lake shore to Rinn avenue, thence west one block to Arnold avenue, thence north to Lincoln avenue, thence west one block and noth to the north line of South Evanston. About $40,000 has been expended in South Evanston in the extension of the drive.

In Evanston the drive runs along the shore to the university campus. Here it turns westward for about two blocks, thence north along the campus to Centre street; thence west on Centre street to Ridge avenue, thence north on Ridge avenue to the north line of the village. These improvements have cost the village of Evanston about $50,000. Thence north through Willmette and Winnetka the drive is most picturesque. The elevation of the ground above the lake is from fifty to eighty feet, and the route followed takes the road up and down numerous slopes and along the sides of deep, heavily wooded ravines. The entire drive to Waukegan presents a series of pleasing surprises alternating beautiful landscape with charming lake views.

A portion of the return drive is along Ridge avenue, from North Evanston to Rosehill cemetery in Lake View. Ridge avenue is rightly named from the fact that it is on a plateau from forty to fifty feet above the lake.

Edgemoor

We are now offering for sale blocks and lots in Edgemoor, the new suburb on the Chicago Central Ry. at 79th street. Edgemoor is one-half mile square and includes 160 acres of the beautiful ridge property in the South-West part of the city with an East frontage on Western Ave. and a North frontage on 79th street. The Chicago Central, the Northern Pacific's new suburban road, runs directly through the center of the property with a depot at 81st street. On this road will be inaugurated by June 1st, the most complete train service as to elaborateness of equipment and quick running time given on any suburban road in the city. The scheduled time from Edgemoor to the Grand Central depot will be 22 minutes. The South 80 acres of Edgemoor is being improved in a high class manner. The contracts for the side-walk and curb and gutter work have been let to The North Western Asphalt Co. The walk is built of granite and cement and is six feet wide. The combined curb and gutter is also built of granite and cement, the gutter being eighteen inches wide. Edgemoor is the only residence district in Chicago, outside of the boulevard frontages, where the curb and gutter combined has been put in. The contract for the macadam work has been let to Eggleston, Mallette & Brownell and calls for a high grade of work. A double row of trees of the Catalpa variety, are being planted, one row on the park-way which is 12 feet wide. A special form of warranty deed is used in conveying the property which provides for a 20-foot building line and a $3 000 building restriction. Contracts for four houses to cost $5,000 each have already been let and they will be completed and occupied by June 15th. Every effort will be made to make Edgemoor a high class residence district. Lots will be for sale for the next 60 days at prices 25 per cent less than the same grade of property can be purchased anywhere else in Chicago. We are prepared to offer special inducements to individual investors and syndicates who will take a five-acre block interest in the property. Liberal commissions made to brokers and agents.

HAZLEWOOD & WRIGHT,

1316 CHAMBER OF COMMERCE BUILDING.

Blocks of Lots at Acre Prices

For Those Desiring

Small Acre Tracts for Subdivision or Investment Purposes.

SPECIAL ADVANTAGES.--Within Chicago City Limits; 25 minutes' ride on two Railways; 40 Trains Daily; Cable line being extended to within three Blocks; City Water: High School; Streets Graded; Double Rows of Trees; Charming Residence District; 40 feet above the Lake. LOTS AT ALSIP.

A NEW MANUFACTURING SITE 15½ miles south from the Court House, just north and a little west of Blue Island, at 123d street, on the Calumet Terminal Railroad, and near the Chicago & Grand Trunk The Chicago, Rock Island & Pacific and the Chicago & Northern Pacific suburban line railroads. The Alsip manufacturing plant, covering several acres, is already in operation, employing a large number of men, and material is now being delivered for doubling the capacity of the works.

The situation is high, rolling ground, and no water within 20 feet of the surface. It is adjacent to Wireton Park and the Chicago Wire and Spring Co.'s plant, main building 720x150 feet, will employ about 400 men. The Steel Barbed Wire Co. and the Farquhar Heating Co. are all in operation just east of this property. The combined force employed by these works require a large number of houses, many of which are already completed, and many more under construction. We do not ask you to buy lots on PROSPECTIVE INDUSTRIES. The plants are already in operation, and employing a large force of men, and no question of doubt can enter into the future of values. Without a word in print about "lots at Alsip," we have sold a large number, and purchasers have already built comfortable, commodious dwellings, and more are constantly going up. Investment in Alsip lots at present prices will insure large profits within one year. Liberal terms will be made, and monthly payments if desired.

THE NORTH PART OF CICERO.

The territory shown on the map includes all of the north half of Cicero, extending from Fullerton avenue on the north to Twenty-second street on the south. It embraces also the portion of the city containing Humboldt, Garfield and Douglas parks. It shows the Grant Locomotive Works between Twelfth and W. Twenty-second streets, W. Forty-eighth street and Central avenue; also the towns of Cragin, Galewood, Austin, Ridgeland, Oak Park, River Forest and Maywood.

The first feature of this territory which strikes the reader on looking at the map is its remarkably good railroad facilities. Hardly any point on the map is more than four blocks distant from a railroad. Many points are accessible to two or more lines leading into the heart of the city. It is this more than anything else that has caused this territory to grow in population so rapidly. Along the line of the Northwestern and the Wisconsin Central railroads there have sprung up a series of villages which have gradually merged into one, until the city is now continuous to and beyond the Des Plaines river.

In addition to the excellent steam railway facilities with which the north half of Cicero is supplied, there are equally good street railway accommodations. In the Cicero and Proviso Electric street railway the west siders have a transit system superior to any other in the city. This road was opened for travel in February 1891, since which time business has developed so rapidly along its lines that the equipment has been doubled, the power plant enlarged and other provisions made to accommodate the increased demand. At the time of opening, tracks were laid on Madison and Lake streets to Harlem avenue and since they have been extended on Madison street west to the Des Plaines river and on Des Plaines avenue from Madison street to Twelfth street, thus reaching important objective points, viz: Waldheim and Forest Home cemeteries on Des Plaines avenue and Altenheim and Concordia cemeteries on Madison street. The Madison street line also reaches the vicinity of Maywood and passes along the centre line of the village of River Forest and intersects the village of Harlem. The extensions of the system next to be made will be west on Madison street, from the Des Plaines river into Maywood; west on Twelfth street from W. Fortieth street to Broad View, a town on the Illinois Central's new line, the Chicago, Madison and Northern; and the property owners along the way are working actively to get matters in shape for the company to commence the building of these extensions. A line west on Sixteenth street, from W. Forty-eighth street to Harlem avenue, is also being considered and negotiations are also under way with the company in the interests of a line to extend north on Ridgeland avenue into Jefferson. It will be remembered, too, that the company's franchise includes a line on Chicago avenue from W. Fortieth street to Harlem avenue, which line, by the way, may be changed to Augusta street so as not to be so near the Lake street line.

Of the future of this section of the city it is safe to predict great things. On the north is Cragin, with unequalled railroad facilities—a natural manufacturing centre. In the centre are Austin, Ridgeland, Oak Park, River Forest and Maywood, already a continuous city. South of these come the various additions which are fast filling up all the available territory as far south as the Grant Locomotive works and the Northern Pacific Car shops. These great industries, of which we shall speak later on, will double the population for blocks around them in every direction. They have already given a great impetus to the sale of property and the building interests in this vicinity.

The problem of securing an adequate water supply for this great district was at one time discouraging but has been at last solved by sinking artesian wells and pumping the water into the mains by powerful engines,

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every performance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

CHICAGO, MILWAUKEE & St PAUL R'Y., CO.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C., M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

AT

MANHEIM, west adjoining FRANKLIN PARK, than in ANY OTHER SPOT on our SWIFT CIRCLING GLOBE.

A WHITE HEAT OF EXCITEMENT

Will glow throughout this beautiful region on that auspicious day.

MANHEIM is sure to be the Great Work-Shop of Franklin Park, which is the Ideal Home-Site. The near future, with its multiplied Railroad connections will constitute Manheim A Veritable Hive of Teeming Industries. Two Manufacturing Plants, employing 1,200 workers, are already located within three blocks of this centre. Toss aside all small considertions, and be on hand Sunday, June 12, 1892,

TO GRASP YOUR RIGHTFUL SHARE OF THESE ENHANCING VALUES.

That Prince of Auctioneers, Col. George H. Clark, will give every man and woman present a chance to secure 50 feet of eligible frontage for fifty per cent of its actual worth. Many of these lots have been in demand by individual enquirers at considerale prices, but I have determined to make the place conspicuous in the public mind by offering to a multitude of people a lucky apportunity at auction sale.

The AMUSEMENT FEATURES of this great occasion will be **Extensive and superb. A Grand**

Double Balloon Ascension

by veteran experts trained to penetrate the skies, will form a thrilling spectacle. Exquisite Melodies will be sounded by **Thompson's Military Band.** Athletic Competitions, Dances, Songs, Banqueting, and varied diversions will complete the Splendid Entertainment.

By drawing among the successful bidders a lot will be deeded Without Cost or encumbrance To The One Holding The Lucky Ticket.

Be ready **Sunday, June 12, 1892,** at the Chicago & Northern Pacific R R, Depot, or the Chicago, Milwaukee and St. Paul R R. Depot, **at one o'clock P. M.,** for this

GRAND, FREE EXCURSION.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,
HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

DIRECTORS:

building ready for occupancy. We expect, however, to have it under roof in a year from next fall."

Dr. A. Brooks will erect five dwellings at 4533-41 Lake avenue. George R. Thorne will build two three-story stores and flats at 300 55th street at a cost of $20,000.

Architect Carl M. Almquist is letting contracts for a store and flat building for Adam Neebe, to be built at 75th street and South Chicago avenue, at a cost of $20,000. He is also making plans for a similar building at 76th street and South Chicago avenue, for W. Everett, to cost $10,000. He is also ready to take figures for an apartment house on Barry avenue, near Clark street, for W. Johnson to cost $16,000.

Ostling Brothers are letting contracts for a five-story and basement store and apartment building to be built at Chicago avenue and Franklin street for L. Hesselroth to cost $90,000. It will be stone front, 75x130 feet in size, and contain all modern improvements.

Architect A. G. Morey will build a residence for himself on St. James Place near Lincoln Park. It will be a 3-story stone front structure with all modern improvements and cost $7,000, He is also remodeling the residence of Dr. Ives 3220 Vernon avenue; cost, $5,000. Also plans for a residence for Mr. Dart at South Evanston, to cost $14,000.

Architect A. Rehwoldt is letting contract for a residence at Irving Park for R. C. Dixon, to cost $5,000; also an apartment building, corner of Schell avenue and 71st street, for F. B. Hitt, to cost $7,000; also plans for an apartment building for James McFarlane, to be built on Sangamon street, near 61st street at a cost of $5,000.

Architect Theodore Karls has designed an apartment house for A. Fischer, to be built at 49 to 55 Astor street. The structure will be 82x170 feet, four stories and basement, stone front with copper bays and will have all modern improvements, such as hardwood finish, hot water heat, electric light, dumb waiters, refrigerators, gas ranges, etc. The building will contain twelve suites of apartments of seven rooms each and will cost $50,000. Architect Karls is also making plans for a manufacturing building, to be built at 341 Morgan street and run through to Wallace street for S. Franklin. It will be 25x171½, two stories and basement, and will be thoroughly fire-proofed steel construction and contain dry kiln engine room; cost $20,000.

OUTSIDE BUILDING NEWS.

ALABAMA.

Dadeville—A $5,000 school building will be erected in Dadeville. H. J. Gillam can be addressed.

ARKANSAS.

Little Rock—W. R. Casey has been awarded contract for building the Reider Block. F. W. Gibb is architect, and estimated cost is $35,000.

DISTRICT OF COLUMBIA.

Washington—Philip N. Dwyer will prepare plans for a stone edifice, 77x160 feet, for St. Paul's Church. It will have stained glass windows, low-pressure steam heat and slate roof. The estimated cost is $70,000. Rev. James F. Mackin, pastor, can be addressed.

FLORIDA.

St. Augustine—It is learned that Carrera & Hastings have drawn plans for the building of a handsome residence in St. Augustine for H. M. Flagler, of New York city.

GEORGIA.

Augusta—J. H. McKenzie has received contract at $159,792 for the Oglethorpe armory.

Rome—J. S. Veal will receive plans and specifications for an edifice for St. Peter's church to cost not more than $10,000.

KENTUCKY.

Ashland—The Chesapeake & Ohio Railroad Co. (office, Richmond, Va.) will build a passenger depot and office building, also a freight depot.

LOUISIANA.

Lake Charles—Alfred Muller, architect, Galveston, Texas, will receive proposals until June 8 for erecting the three-story brick building, 60x110 feet, for the Calcasieu Bank.

New Orleans—The Illinois Central Railroad Co. (office, Chicago, Ill.) will probably build a three-story freight depot.

New Orleans—Building permit has been granted for a $20,000 structure at the Straight University.

MARYLAND.

Annapolis—Plans are being received for the $25,000 courthouse for Anne Arundel county. The county clerk can give information.

Baltimore—Contract has been awarded for the five-story brick and stone building for the Baltimore Medical College. The total cost of the structure complete will be from $60,000 to 65,000. W. F. Weber is the architect.

Centreville—The Catholics will build an edifice.

Westminster—An engine house and hall will be erected for the fire department. The mayor can give particulars.

NORTH CAROLINA.

Statesville—Contract for the erection of the church for the Presbyterians has been awarded to H. W. Fitch, of Asheville, N. C. It will cost about $8,000.

Wadesboro—D. L. Parker contemplates rebuilding his hotel lately burned. Mrs. S. W. Hearn intends erecting a hotel. C. C. Hook, of Charlotte, will furnish plans for a hotel to be built in Wadesboro at a cost of from $10,000 to $15,000.

Waynesville—Charles Goodyear, of Boston, Mass., will, it is understood, build a large hotel in Waynesville.

SOUTH CAROLINA.

Laurens—Robert H. Hudgens has contract for building an edifice for the Baptists. It will cost about $10,000.

Newberry—The Lutherans intend building an $8,000 edifice.

TENNESSEE.

Greeneville—The erection of a brick school building is contemplated. The mayor can give particulars.

Harriman—T. C. Barnes has contract for a two story brick business house for A. M. Jerauld, also for a similar structure for a Mr. Thomas, of Wisconsin.

Knoxville—No definite arrangement has been made for the preparation of plans by W. Chamberlin & Co., for remodeling the McMillan building.

Morristown—Cobble & Co., of Whitesburg, have been awarded contract for the school building. Beaver & Hoffmeister, of Knoxville, prepared the plans and the estimated cost is $16,000.

Morristown—C. F. Briggs, of Newport, is reported as to build a $100,000 hotel in Cain's addition to Morristown.

Nashville—Architect Kimball, of New York city, furnished plans for the edifice for Christ church. Contracts have been let, J. S. Dismuke can give particulars.

TEXAS.

Galveston—George J. Gray, H. E. Borden and B. S. Davison have chartered the Alta Loma Hotel Co. to build a hotel at South Galveston. The capital stock is $50,000.

Houston—An addition to cost $8,560 is to be built to the Hamilton school building, and the Longfellow school building will be enlarged at a cost of $7,360. George Dickey prepared the plans.

Llano—The Austin & Northwestern Railroad Co. (office Austin) will, as lately noted, build a granite and marble depot in Llano, but plans have not been perfected.

Wichita Falls—The Panhandle National Bank will receive plans until June 10 for a building to replace one lately burned.

VIRGINIA.

Alexandria—Philip N. Dwyer, of Washington, D. C., will furnish plans for improving St. Mary's church at a cost of $12,000.

Charlottesville—The city council is considering the building of an armory for the Monticello Guards.

Clifton Forge—The Methodists will build a new church. B. T. Bagby can give particulars.

Fincastle—W. B. Simmons will receive proposals until June 10 for building the edifice for the Baptists. Wilson & Huggins, of Roanoke, are the architects.

Lexington—A $10,000 school building will be erected. The trustees of public schools can give particulars.

Lynchburg—James Hancock will, it is stated, erect a building to be occupied by the Traders' Bank.

Roanoke—Wilson & Huggins have completed plans for the Belmont school building. It will be two stories, 73x93 feet, and contract will be let on June 15.

Tazewell C. H.—Contract will be awarded on June 11 for the jail mentioned last week. William Pierce prepared the plans. G. W. St. Clair can be addressed.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

THE GROWING MANUFACTURING TOWN OF

HARVEY

Takes The Lead.
4,000 Population in 18 months
9 Factories in operation.
4 New Factories located and building.

And others under consideration.
This means an increase of 50% in population, all branches of trade and business; with a corresponding increase in the value of Harvey property.

Lots are Cheaper in Harvey

While at the same time they derive benefit from **More Improvements** and the town of **Harvey** offers more inducements and has more advantages than any suburban town in the vicinity of Chicago.
Maps, plats, and a World's Fair Souvenir mailed free. Free tickets furnished. 70 Daily Passenger Trains, Illinois Central and Grand Trunk Rys.

The Harvey Land Association.

819 to 825 The Rookery,
Corner La Salle and Adams Sts., Chicago.

months and this sale it is expected will bring the number up to 2000 lots sold. Manheim is a beautiful suburb about one and a half miles west of Franklin Park on the C. M. & St. P. Ry, and is destined to become a part of the thriving new settlement just west of and beyond the Desplaines river. The excursion is intended for the pleasure of visitors, lot-owners and intending lot buyers. Among the many fine residences at Franklin Park is the new home of Lesser Franklin which cost over $20,000. The occasion promises to be an enjoyable one.

THE NEW CHICAGO CENTRAL AND EDGEMOOR.

The aristocratic new suburb, Edgemoor, is situated at the corner of Seventy-ninth street and Western avenue, fronting a half mile on the former and one-half mile on the latter. It constitutes the beginning of the Ridge property in the so called Southwest Highlands and lies on the new Chicago Central Railway which will be in operation by the first of July. At Eighty-first street is located the depot of this road; on the west is the Wabash and the Panhandle or P. C. and St. L. on the east with depots at Seventy-seventh and at Seventy-ninth streets.

It will thus be seen that the founders of this new town control an enviable position. They are putting in the very best street improvements viz: six-foot sidewalks and combination curb and gutter. It will be fully as well improved as Edgewater proper and will have advantages that that suburb has not. Harvey is the south terminus of this line and the Grand Central Depot at Harrison street and Fifth avenue is the northern terminus. As is well known the B. & O. is coming in on this line. The roadbed is completed and an army of 500 men is engaged in ballasting the track. The delay in completing the road has been caused by the bad weather. Trains will run from the Grand Central Depot to Edgemoor in twenty-two minutes. The management expect to compete in business with the Illinois Central.

Seven fine houses are now being built to cost $5,000 each. Messrs. Hazlewood and Wright are both building fine homes there to cost $7,000 each. The lots are 50x125 feet in dimensions and the price is fixed at about $30 per front foot with all improvements. The well known firm of Eggleston, Mallette & Brownell is making the streets, a fact that certifies to the high character of the improvements. When the new road opens for business the Chicago Central Railroad company will give the public a chance to see some of the finest land and improvements in Cook county. The exact route of the Calumet Terminal is shown on the map of the Southwest Highlands published in the REAL ESTATE AND BUILDING JOURNAL of April 11, 1891.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

S. M. Bloss & Co., report that eight houses are now in course of erection in their Melrose subdivision. Work is being pushed on the streets which are to be macadamized in first-class manner.

Perry & Hoole report the sale of 54 lots in their Avoca addition to Kenilworth as follows: 6 to Alex Mitchell; 12 to J. Q. Pearson; 23 to Cassandra D. Hammond; 14 to Fred F. Wakefield. Total consideration $15,000.

Andrews & Piper have sold to W. P. Jaques 3,300 feet at Berwyn for $65,500.

Hazlewood & Wright report that Edgemoor property to the amount of $40,000 was sold during the month of May. Contracts have been let for seven $5,000 houses which are to be completed during the summer.

D. W. Storrs and F. A. Henshaw have sold 50x100 feet at the northeast corner of West Lake and Sheldon streets, with a brick block of stores and flats to Victor Fredenhagen jr., for $25,000.

At the annual election of the Chicago Stock Exchange, last Monday, Mr. Frank N. Gage was the only candidate on either ticket that received the entire vote of the exchange.

N. L. Woodward is about to erect two handsome two-story brick and frame residences on Sherman street opposite Hamline street.

D. J. Sachsel has subdivided the west 145 feet of lot 9 in block 55, Sheffield addition, at corner of Ashland and Wrightwood avenues and will have same ready for the market next week.

M. J. Richards & J. M. Ryan acting for Reitz Bros., Lumber & Salt Co., have sold to Dupont de Nemours & Co., the gun powder manufacturers, the property at the corner of Union and 22d streets with 417 feet frontage on Union street, for $130,000. It is expected that the purchasers will erect a manufactory and otherwise improve it.

Fred L. Baruff reports the sale of seventy-five lots in his Hinsdale subdivision for $30,000. The purchaser intends to build house there this summer.

Galloway, Lyman & Patton report the sale of 100x179 feet, west front, on Prairie avenue, between 54th and 55th streets, for $100 per foot.

The Board of Education proposes to purchase the following new school sites: At 80th and Nutt streets to cost $9,000; also one on Belle Plaine avenue to cost $4,450.

J. C. Magill & Co., report the sale of the building and leasehold at Nos. 3005 to 3009 Cottage Grove avenue for $32,000. This property is to be used as a hotel during the World's Fair year, a lease for it having been made with a Boston hotel man. The same firm also negotiated for the sale of 100 feet east front, on Sheridan road, in Evanston, north of Hamilton street, at $120 a front foot, and seven and one half acres at Lake Forest, opposite the summer home of E. J. Warner for $10,000.

Mr. Gnaedinger, of Schumacher & Gnaedinger, expects to have his handsome new residence at Grand and Washington avenues ready to move into by the end of the present month. In spite of the bad weather Mr. Gnaedinger reports the sale by his firm of $10,000 worth of lots during the past week in their subdivision appoint and expects to close some good sales of me property during the coming week.

It is estimated that over 1,000 houses are needed at once in the manufacturing suburbs of Chicago and that they could be rented as fast as finished at a profit of 15 per cent on the investment. Chicago Heights needs 300 or 400 houses and cottages. Harvey needs as many more. Other suburbs require from twenty-five to a hundred each. In many of these instances workmen are living in other suburbs and going to and from their work morning and evening. Capitalists who want safe investments should investigate these opportunities.

Plans have been drawn for fifteen houses for employes of the uniform factory at Evergreen Park and contracts will be let at once. B. F. Jacobs & Co., managers of this property, report great activity in building at this suburb.

Charles H. Smith, secretary of the Kenilworth company, reports the sale of two Kenilworth avenue corners to John H. Wood, of Carson, Pirie, Scott & Co., and Ernest Heath, of Heath & Milligan.

Tolman & Sondelins have bought the southwest corner of Michigan avenue and Fifty-ninth street from T. Halbrid for $17,000. The lot has an east frontage of 70 feet and is 170 feet deep.

A number of brokers who cling to the idea that successful real estate auctions can be conducted in Chicago are negotiating for the old quarters of the Mining Exchange on the main floor of the Chamber of Commerce Building and will conduct a private auction room. Nothing but cheap properties or bargains will be listed. Among the promoters of the new enterprise are some of the pillars in the Real Estate Exchange.

Activity in Indiana acres is extending beyond the territory usually selected by brokers heretofore as promising large returns on investments. A number of acre sales have recently been made in Lake County east of the Tolleston tract by E. T. Davis. Several good sized tracts have recently been sold in sections 5, 6 and 31. It is understood that these purchases are made on the strength of certain improvements about to be made in this vicinity, the nature of which are carefully kept secret at present.

Two pieces of property were sold Monday at auction at the Real Estate Exchange rooms out of four pieces listed. The sales made were a three-story brick flat building, Nos. 1548 and 1550 Milwaukee avenue, which was sold to C. E. Crell for $14,500, and a cheap lot on Montana street, between Forty-fifth and Forty-sixth streets, sold to J. E. Woodruff. A short business session of the exchange preceded the sale. It is probable that sales will hereafter be held on Wednesday instead of Monday.

The Metropolitan "L" Road has already begun to take preliminary steps toward securing a right of way. It has obtained estimates for its entire route from Fifth avenue to Ashland avenue, in which both the land damages and the cost of buildings to be removed are given. It is expected that an effort will be made at once to secure the right of way, by purchase, if possible, otherwise by condemnation proceedings.

Ninety-three lots were sold at Chicago Heights during the week and contracts awarded for twenty-seven houses. In addition to this Mr. James E. McElroy is arranging for the construction of a hotel that will cost about $50,000. Heroy & Marrenner's extensive glass factory is nearing completion. They will be in full blast July 15, and will start with 300 men. Roth & Engelhardt, who are well and favorably known in the music trade, took possession of their new piano factory Monday, June 6. They will employ 100 men. The work of macadamizing streets is progressing rapidly and Chicago Heights, with her $50,000 hotel, new Opera House, pressed brick stores and macadamized streets will soon occupy a prominent position among the leading manufacturing cities of America.

Messrs. Lobdel Farwell & Co., will move into their spacious new offices in the Owings building next Wednesday, lately occupied by the American Trust and Savings Bank. The rapidly increasing business of this firm necessitated larger quarters. Mr. Whittaker will have charge of the mortgage department.

General Manager Wm. J. Spicer, and other officials of the Grand Trunk Railway have selected Harvey as the suitable location for their round house, in view of extending their Chicago suburban service from Blue Island to Harvey. A site was also selected for a handsome passenger depot and another site for a freight depot.

M. S. Gregory and Co., report sales as follows: Premises northeast corner of St. James Place and North Clark street, 50 feet front on Clark street by 130 feet on St. James Place, with two three-story flat buildings thereon to J. W. Chisholm of New York, for $28,500; 50 feet front on Barry avenue, 200 feet east of Wauban, to A. S. Shelbourne for $10 000; 44 feet on St. James Court to E. R. Gregory for $5,720.

Hutchinson, Wilmot & Blum report the following sales: Southwest corner of Groveland avenue and Commercial street, 125 by 125 feet, to George Nolan, $5,500. Northwest corner of Ashland avenue and Byron street, 50 by 125 feet to Wm. Hacker, for $3,500. Lot on Paulina street near Graceland avenue, 25 by 125 feet, to Henry Sanders, for $750. Lot on Southport avenue, near Graceland, 29 by 175 feet, to Charles Burmeister for $1,000. Nine lots on Leavitt and Belle Plaine avenue, 25 by 125 feet, to the board of education for $4,450. Lot on Graceland avenue, near Paulina street, 25 by 125 feet to John Vetter, $1,050.

Tolman & Sundelins purchased the southwest corner of Michigan avenue and Fifty-ninth street, 70 by 170 feet, from T. Halbrid for $17,000.

Baird and Bradley report the sale of 100 feet on Oakdale avenue, east of Evanston avenue at $150 a foot.

Judicial sales at the real estate board rooms Thursday were as follows: Lot 79 in Crain & Wesson's subdivision of blocks 27 and 28, section 17, 30, 14, for $10,000 to Mary A. Cullerton. Lot 8, block 1, in Delavan's addition to Chicago, for $3,600 to Mary A. Sullivan. Lot 9 in the same block for $3,800 to Johanna Dailey. Lot 44 block 12, Douglas Park addition to Chicago, for $2,571.94 to Charles W. Nichols.

Wm. A. Merigold & Co., sold yesterday the southwest corner of Vincennes avenue and 49th street, 50x150, at $150 per foot.

LATE LEGAL DECISIONS.

In the case of Pickering v. Lomax the Supreme Court of the United States has recently decided that a deed of Indian lands, requiring the approval of the president, is not vitiated by the lapse of thirteen years after it was made before such approval, provided no third parties have in the meantime acquired an interest in the lands. The approval by the president relates back to the time of the execution of the deed, subject only to the intervening rights, if any, of third parties which may have accrued.

Nor is it material that the grantee of the Indian may have in the meantime died, since if the ratification be retroactive, it is as if it were indorsed upon the deed when given, and inures to the benefit of subsequent grantees.

PERFECTING TITLE TO MINING CLAIMS IN INDIAN LANDS.

In the case of Kendall v. San Juan Silver Mining Co., the Supreme Court of the United States has recently rendered the following decision:

Where a party was in possession of a mining claim on the withdrawal of a reservation caused by a Treaty with the Indians, with the requisite discovery, with surface boundaries sufficiently marked, with a notice of location posted, and with a disclosed vein of ore, he could by adopting what had been done and causing a proper record to be made, and performing the amount of labor or making the improvements necessary to hold the claim, date his rights from that day.

Under Rev. Stat. § 2324, the manner of locating mining claims and recording them is subject to the laws of the State or Territory, and the regulations of each mining district, when they are not in conflict with the laws of the United States.

Under the Act of Colorado, of February 13, 1874, the discoverer of a lode, must within three months from date of discovery record his claim in the office of the recorder of the county in which the lode is situated, by a location certificate.

Under the Colorado Act of Feb 13, 1874, a location certificate of a lode claim which shall not contain the name of the lode, the name of the locator the date of location, the number of linear feet claimed on each side of the discovery shaft, the general course of the lode, and such description as shall identify the claim with reasonable certainty, is void.

Where the reservation of the premises in controversy in Colorado by force of the Indian Treaty was extinguished April 29, 1874, on that date the premises were open to lo-

cation, and within three months afterwards the duty rested upon the plaintiffs to record the certificate of the location of their lode, if they desired to preserve any right in it.

Where the plaintiffs failed to comply with the law in making a record of the location certificate of their lode, it does not lie with them to insist that their wrongful entry upon the premises during the existence of the Indian reservation operated in their favor against parties who went upon the premises after they had become a part of the public domain, and made a proper location certificate and record thereof, and complied in other particulars with the requirements of the law.

DAMAGES RECOVERABLE FOR RAILROAD CONSTRUCTION.

In the case of the Chicago & Western Indiana Railroad Co. v. Cogswell the Illinois Appellate Court has decided that a recovery may be had for damages caused by a change in the plan of construction with respect to which damages were originally assessed. Damages having been had upon the basis of a certain plan of construction, if a change is made to another plan, the property owner is entitled to such additional damages, if any, as arise from a manner of construction concerning which there was no assessment or payment of damages.

But if in the former proceedings there was no restriction as to the mode of construction, and damages were assessed for everything which it was reasonably probable would then ensue, there can be additional damages from the use for the same purpose of the same land.

In the former assessment, no particular mode of construction was stipulated for, but the road was then in operation on the surface of the ground, and it will be presumed that the damages were then assessed upon that basis.

In this case, however, a recovery can be had only for such damage, if any, as is in addition to any that arose from the road when running at about the natural surface, and that damage can only be awarded for a direct physical disturbance of a right which the property owner has in respect to his property.

TEST AS TO WHAT CONSTITUTES FIXTURES.

There is no universal test by which the character of that which is claimed to be a fixture can be determined in the abstract; neither the mode of annexation nor the manner of its use is in all cases conclusive. It must usually depend on the express or implied understanding of the parties concerned. The manner of attachment to the realty as a test, must not ignore another test, namely, the intent of the party making the attachment.

REMOVAL OF BUILDING FROM MORTGAGED LAND.

In Turner v. Melbane, decided in the Supreme Court of North Carolina, April, 1892, it appeared that a mortgagor had moved a house from the mortgaged premises to another piece of land owned by him, but not covered by the mortgage. It was held that the mortgagee's lien on the building was not affected. The following is the opinion:

"The defendant mortgagor moved the house from the mortgaged premises across the road to another tract, also belonging to him, but not covered by the mortgage. This certainly could not impair the mortgage lien upon the house. If it could in these days, when house moving machinery has been so greatly perfected, there would be a serious impairment of the security of all mortgages on improved real estate. The court decreed a sale of the house in its new situs, under the mortgage, with leave to the purchaser to remove or roll the building off again. We can perceive no grounds, legal or equitable, upon which the defendant can object to this. The plaintiff does not ask for more, the rights of third parties are not involved. It does not appear that the building was attached to the freehold, and it is unnecessary to discuss the effect of such attachment in this case, if any. No error."

WHAT CONSTITUTES A DEDICATION OF LAND.

In the case of the City of Chicago v. A. J Drexel:

The town of Lake View brought an action against four defendants for a strip of land lying between certain blocks and the lake, the plaintiff claiming title by dedication, and a trial was had resulting in a judgment of not guilty, after which the town was annexed to the city of Chicago, which asserted ownership over the premises by claiming that the strip was a public highway, as against a remote grantee or one of the defendants in the action of ejectment. Held, that the judgment was conclusive against the city as to the title.

To prove a common law dedication of land for a street, both an intention on the part of the owner of the land to make it, and an acceptance of such dedication by the proper public authorities, must be shown, and the proofs as to these facts must be clear and unequivocal.

When the owner of land subdivides it and makes, acknowledges and records a plat of the subdivision, designating thereon certain strips of land as streets or highways, such plat, though not made in accordance with the statutory requirements, will be evidence of an intention, as well as of an offer to dedicate to the public a right of way over the strips thus designated, as at common law.

But when such plat fails to designate any strips of lands as public streets, and all that appears on it are certain blocks of certain dimensions and numbers, part of which are subdivided into lots consecutively numbered, with certain strips of land of certain designated widths lying between the blocks, and nothing appears apart from their former location and dimensions to show the purpose for which such strips are laid out, while this may be considered some evidence of an intention to dedicate such strips to the public, its force, when considered alone, will be greatly weakened as evidence.

There is no rule of law which forbids the subdivision of land by the owner in such a way as to establish over it only private ways for the sole benefit of those who may become owners of lots in the subdivision, and in which the public as such, will have no interest, and over which it will have no control. In such case the rights of the lot owners to easement in and over the ground, laid off on the plat as ways, will have no tendency to establish the title of the public to such ways as public streets.

The evidence of an acceptance of a common law dedication by the proper authorities must be clear and satisfactory. An acceptance of a part of the streets mapped out on a plat, is not an acceptance of the whole, the rule being, those authorities may accept them as a whole or in part only.

The authorities seem to be clear, that since to render a dedication complete and effectual, it must be accepted by the public authorities, it is, before acceptance, a mere offer which the owner of the land may revoke at any time. And his conveyance of the land so offered for a street or highway, before acceptance, is a revocation of the offer to dedicate, and any acceptance thereafter will be unavailing.

BUILDINGS MAY BE ERECTED OVER A RIGHT OF WAY.

Away back in 1832 John Cowman sold lots in the block between 16th and 17th streets, Union Square and 5th avenue, and across the rear of lots 1 and 2 reserved 15 feet as an alley way, "subject to a right of passage for horses, carriages, and carts for the private convenience of the owners of lots 1, 2 and 3" * * * "and at the entrance of each of said ways into the street a proper and suitable gate with lock and key is to be kept," etc.

When Mr. W. Jennings Demorest bought one of these lots in 1890, he went ahead and extended the building on the front of the lot over and across this right of way, supporting the rear part on iron columns a foot in diameter, leaving an open space under the extension through its whole width 15 feet high and 15 feet 9 inches wide.

The present owner of one of the adjoining lots tried to get an injunction against him to prevent this, but the Court of Common Pleas found that the building as erected by Mr. Demorest does not prevent or obstruct the plaintiff's use of the way underneath it or beyond it. This view has been sustained by the Court of Appeals. The latter holds that while the deed says that the passage is to be "kept open" that does not mean open to the sky, or to reserve light and air for the benefit of the several lots, but only for the passage of horses, carriages and carts.

RIGHT TO HOMESTEAD ENTRY IS ASSIGNABLE.

The Supreme Court of Minnesota, in the case of Webster v. Luther et al has decided that the right given by Section 2306 of the Revised Statutes of the United States to enter additional lands to make up the original homestead entry 160 acres is assignable.

IMPORTANT INSURANCE DECISIONS.

The Minnesota Supreme Court held, in the case of the Merchants' Insurance Company v. Prince et al., that a local custom allowing insurance agents after the termination of their agency to cancel any of their policies issued through them was unreasonable, subversive to the principles of the law governing the relation of principal and agent, and void.

MANUFACTURING CORPORATION HELD LIABLE.

The Supreme Court of Minnesota has decided in the case of the St. Paul Trust Company, that a manufacturing corporation organized under the laws of Minnesota may take insurance on its property in an insurance corporation organized under the Minnesota laws of 1881, ch. 91, so as to be bound upon its premium notes.

ENDOWMENT INSURANCE LIABLE FOR DEBTS.

The Supreme Court of Nebraska held, in the case of Talcott v. Field, that while ordinaily a policy of life insurance payable to the wife upon the death of her husband is not subject to be applied in payment of his debts, yet where the policy is in the form of an endowment, a certain sum to be repaid after a specified number of years, the transaction is in the nature of a loan, the insurance being a mere incident, and where the premiums have been paid by an insolvent debtor the insurance money on such policy received by the wife during the lifetime of the husband is not transmitted so as to be hers as against creditors of the husband, but is subject to their claims.

AGENT'S POWER TERMINATED ONLY BY NOTICE.

The Supreme Court of Illinois, in the case of the Watertown Fire Insurance Company v. Rust has decided that where a foreign insurance company, having authority to transact business in a state, appoints an agent there with power to act for it, in case the agency is terminated the burden will be on the company to bring notice to those who thereafter transact business with the agent of the termination of his power, and an agent after revocation of his authority may bind his principal by contract with one who has no notice of the withdrawal of power.

CONDEMNED PROPERTY DANGEROUS TO HEALTH.

The Supreme Court of Georgia, in the case of Dunbar et al. v. the City Council of Augusta, has decided that the constitutional provision requiring compensation to be made for property taken or damaged for public purposes does not apply to property rightly condemned and destroyed as a public nuisance because dangerous to health.

MECHANICS LIEN LAW CONSTRUED.

The Supreme Court of Georgia held, in the recent case of McAuliffe v. Baillie et al., that the act of October 13, 1891, providing for additional security to material men and laborers, and requiring 25 per cent of the contract price to be withheld by the owner from the contractor, does not require that 25 per cent of all earnings for work actually done in the progress of erecting the building shall be withheld, but that partial payments may be made to any extent, provided they amount in the aggregate to not more than 75 per cent of the total contract price.

NEW PLANS BY CHICAGO ARCHITECTS.

Architect Julius Huber has planned a club house and barn for Mr. Nathan to be erected at the southeast corner of Clark and School streets. The club house will be two stories high 50x50, and will be constructed of pressed brick and stone; cost $10,000. The same architect has drawn plans for a two-story and attic store and flat building, 25x68 to be built by Edward Bingel at the southeast corner of Southport and Belmont avenues. Cost $5,000.

Architects Hetherington & Warner have completed plans for a three-story addition, 26x60, to the Servite Fathers Building at the northwest corner of Albany avenue and Van Buren street. It will be of stone and pressed brick and will cost $5,000. The same architects have planned for John Brophy a three-story and basement store and flat building, 25x58 to be built at Union avenue and 28th street; cost $60,000.

Architects Lamson and Newman have plans for a three story club house and concert hall, 100x140, to be erected on the north side of 51st street, 127 feet west of Cottage Grove avenue, by the South Park Club Association. It will be built of staff and will cost $30,000. The same architects have designed for Charles A. Brown four 2-story store and flat buildings, 75x85, to be erected at the northeast corner of Jackson and Wood streets at a cost of $15,000. Also for Charles Leberman a 3-story store and flat building, 25x60, to be erected on California avenue, near Sacramento street; cost, $7,000. For Mrs. A. Williams they have planned a 2-story flat building, 25x65, to be erected at No. 848 Warren avenue; cost, $7,000.

Architects Flanders and Zimmerman have drawn plans for a 3 story dwelling, 25x70, to be erected for Mrs. Beneck on Deming court. It will be of pressed brick with cut stone trimmings and copper bays. The interior will be finished in hardwood. Cost, $10,000. The same architects have designed two 3-story flat buildings, 38x61, to be erected on Rhodes avenue near 35th street by G. Brown, at a cost of $15,000.

Architects Adler & Sullivan have designed for the Union Trust Company a 15-story office building to be erected at the corner of Seventh and Olive streets in St. Louis. The exterior will be of terra-cotta; cost, $600,000.

Architects W. W. Boyington & Co., have designed for Mr. Stout of Dubuque, Iowa, a frame house to be built in Hyde Park, at a cost of $5,000. The same architects have designed for F. A. McCarthy a three-story and basement flat building, 22x80, to erected on 63d and Wallace streets; cost $7,000. They have also designed alterations in W. L. McLaughlin's residence at 97 Rush street.

Architect Perley Hale is drawing plans for a 4-story and basement flat building 60x117 for H. Grossman, to be built at the northeast corner of Evans avenue and 48th street. It will be constructed of pressed brick, with Bedford stone trimmings, the entrance being finished in marble and tile. The interior will be cut into twenty-four flats. They will be finished in hardwood, heated by steam and supplied with gas ranges; cost, $50,000.

At an informal meeting at the Elgin court Thursday evening it was decided to erect a new city hall to cost $30,000. Work will be started on it in July. The building will include a public library and a jail. It will be erected on the city's valuable property, corner Spring and Chicago streets.

Architects Reeves & Davis have designed for G. W. Hutchins a 2-story frame house to be built at Lecon to cost about $2,500. The same architects have plans for a town hall for the village of Normal, Ill., of brick, to cost $15,000. Also an opera house at Washburn a one-story structure covered with iron; cost $7,000.

Architect Henry Ives Cobb is in charge of the new building at the intersection of Blue Island avenue and Harrison street. It will be called the "New Era."

A building permit has been issued to the Congress Hotel company for its ten-story building at Nos. 207 to 221 Michigan avenue. The cost is to be $1,000,000.

The estate of M. A. Meyer is to build a seven-story warehouse at Nos. 208 to 218 Van Buren street to cost $90,000.

Dr. Charles A. Pusheck has made plans for an $80,000 apartment house at Nos. 230 and 232 La Salle avenue.

Work on the new public library building is to be begun about July 1. The specifications for the foundation have been drawn up and will be in the hands of the building committee in a day or two when bids will be advertised for at once. It is expected that it will take about three years to complete the building. Mr. Moos, chairman of the building committee, said concerning this new improvement. "We will have the finest library building in the country when it is completed. The work will not be rushed, but will be done in a very substantial manner, and it will take at least three years to get the new library

THE REAL ESTATE MARKET.

National politics instead of, or rather supplimental to unpleasant weather has been the disturbing element in the real estate market this week. The public has been more interested in the situation at Minneapolis, than in the real estate situation at Chicago, and bulletins from the Republican convention absorb more attention by far than the daily transfer lists. For almost a year there has been a curious conflict of forces operating on the general realty market. During most of this time the underlying conditions have been the best. Money has been plentiful, building projects have been pushed forward with great energy, the city has been well advertised, the manufacturing interests of the city have been added to, and everything necessary to a strong situation seems to be present. The fact is, that with the exception of a few lines the situation shows unusual strength. Owners are firm in down town and investment holdings, available suburban districts have become centers of great building activity, and locations in the business district were never in greater demand. From a commission standpoint, however, it has been unfortunate that the superficial and local influences have not been in line with the underlying conditions. Since the Baring failure alarmed financial circles and caused a temporary money stringency, there has been a feeling of mild distrust engendered, which in Chicago took the form of a disinclination to make real estate investments. This timidity has been local in its character and investors from outside cities have profited by it in securing eligible Chicago holdings. Other local conditions have been voiced from time to time in the excuses given for the apparent inactivity in the market. Flurries in the stock and money markets, holiday vacations, and last, but by no means least, unseasonable weather have been given as reasons for dullness. It is probable that these adverse local conditions have been in a certain sense beneficial as a means of checking abnormal activity and providing against damaging reaction. It is hard to realize to what length the activity might have been carried had the trading and buying infection of 1889 and 1890 gone hand in hand with the easy money situation of 1891 and 1892. The seed would have been sown for an abundant harvest of sheriff and trustees sales such as are announced in page after page of western boom towns. The tendency shown during 1889 by men with $25,000 to buy $100,000 worth of property has been discouraged, and "all cash" sales are now of common occurrence. Buyers have been given time to make second and third payments and begin to feel like owners. The quiet period has furnished a sort of clearing house in which investors owners and prospective buyers have been able to determine their standing and to realize that Chicago property is not a bad article to own as well as to deal in. The strength of the general situation promises much for the future market and although the total of transfers during the half year which will end with the current month will not be extraordinary, the total for the entire year of 1892 may prove to be far from insignificant.

During the week, the incorporation of the Cheltenham Cottage Hotel Company marked the inauguration of another hotel project in the World's Fair district. The company was incorporated with a capital stock of $250,000, and will build and manage a hotel in the vicinity of Cheltenham provided proper arrangements can be made for a site. Notwithstanding the great number of hotels which have been projected in the Jackson Park district, it is a notable fact that actual work has begun on a very limited number. Ground has been broken for the erection of a hotel at the southwest corner of Midway Plaisance and South Park Court by W. W. Ingram. This is one of the more important of the recently projected hotels and the fact that actual work has begun will be taken as a good omen by the owners of property in the vicinity. The building will cover a lot 130x150 feet. It will be six stories in height and contain 400 rooms. It will be of buff brick relieved by buff Bedford stone courses. The plans for the building provide for a structure of striking appearance. Three deep exterior courts will run up through the street fronts of the building. Nine tiers of bay windows will also open up through the two fronts. The entire structure will be surmounted by a roof garden and a series of open towers over each course of bay windows.

OFFICE BUILDINGS TURNED INTO HOTELS.

The transformation of office buildings into hotels still goes on in the down town district. The first and most prominent building to be mentioned for this purpose was the Honore block at the northwest corner of Adams and Dearborn streets. This buinding was leased for hotel purposes some time ago and will soon be ready for occupancy. The Fuller building at 150 Dearborn street is another example. A lease has just been negotiated by Porter & Co. for Chief-Justice Fuller to a Mr. Thompson of Minneapolis for all of the building above the first floor for a year and a half at a monthly rental of $500, or $9000 for the term. The building is now being remodeled for hotel purposes and will be known as the "Hotel Thompson." When completed the building will have about seventy rooms. The Fuller building has a frontage of 102 feet on Dearborn street and is 50 feet deep. The lessee promises to have the hotel ready in time for the Democratic convention. Other buildings which were vacated May 1 on account of the exodus into the high office buildings will be transferred into hotels. It seems to be the growing belief of real estate men generally that the hotel accommodations of the city will not be sufficient to accommodate the crowds of visitors from outside points.

DINNER OF THE REAL ESTATE BOARD.

The subject for discussion at the informal dinner of the Real Estate Board, to be given June 30, at the Union League club, will be "Chicago's Need of Elevated Roads, and the Effect of Such Roads on Realty Interests." George Birkhoff Jr. will be the chairman of the occasion.

The difficulty in securing the attendance of members of the Real Estate Exchange at the rooms on La Salle street during the noon business hour will be obviated by serving a lunch in the rooms. It is expected that the attraction of something good to eat will bring together more brokers than anything else.

RETURNS FROM THE AUCTION ROOMS.

The Call Board Bulletin of the Real Estate Board shows that a total of seventy-six pieces of property were sold at auction on the Board by decree of court from May 9 to June 2 inclusive. Twenty-five parcels are reported as advertised to be sold at auction on the Board during the month of June. Doubtless other sales will be announced later on. Members of the Board who are interested in auction sales are considering the feasibility of selling property at auction for their clients. This experiment is now being tried on the Real Estate Exchange and it is announced that still another auction salesroom will be opened on La Salle street where regular auction sales will be conducted. We see no reason why the feature cannot be made a success in Chicago as well as in New York, Boston and other cities. Like every other new departure it will take time to accustom the public to it but eventually it will prove successful.

WORK OF THE VALUATION COMMITTEE.

The report of the Valuation Committee of the Real Estate Board shows that during the past five months of 1892 they have made valuations on property worth $4,053,707, which is greater than the entire amount valued in 1888; more than twice as much as the valuation in all of 1890; and over one-third more than the entire amount valued in the years 1889 and 1891. This record speaks well for the popularity of the work done by the Valuation Committee.

EFFECT OF THE WEATHER ON REAL ESTATE.

The depressing effect of rain on the real estate market was strikingly illustrated Wednesday in the office of a prominent broker. Wednesday morning opened clear and warm and the sun apparently had come out from his long seclusion to stay all summer. An important deal in subdivision property was on and the weather was propitious for the first time in many months. The would be purchaser was evidently in an optimistic mood in harmony with the rest of the world. The deal was practically closed. The broker was congratulating himself on the prospect of having made his best sale of the year, when suddenly the sun slipped behind a cloud and a low muttering of thunder was heard in the west. The customer rose, walked to the window and looked out at the pouring rain; and when he turned away from the window that interesting deal in subdivision property was indefinitely postponed.

ANOTHER BIG BUILDING PROJECT.

The Medinah Temple company was incorporated Thursday of this week with a capital stock of $500,000. The object of the company is to construct a twelve-story building in the down town district. It is said that a large corner in the vicinity of Van Buren and Franklin streets has been secured under an option of lease, the site including valuable frontage on two streets. The incorporators of the company are George W. Powell, John A. May and William A. Stiles.

The design for the new building contemplates a handsome structure. The exterior facing throughout the lower ten stories will be extremely plain. The features of ornamentation will be in the upper two stories. They will resemble in a certain degree mansard stories in their treatment. A heavy cornice encircles the building between the tenth and eleventh stories. On each corner will be a spire like a turret treated after the Moorish style of architecture. The roof will be covered with red tile, and will come down with a heavy cornice between these corner turrets. The parties interested in the building refuse to make known the exact location selected for a number of reasons. One of these is that the success of the enterprise depends largely on the manner in which the members of the Medinah Shrine meet the stock subscription. It is said that the order is not entirely unanimous in regard to the building question.

NUMEROUS NEW HOTEL PROJECTS.

The final negotiations in the matter of the lease of the Mecca apartment house to the Standard Hotel company have been completed and the lease has been signed. The lease runs for ten years at an annual rental of $60,000. Allen, Opdyke & Allen represented the Mecca company and George F. Montgomery represented the lessees.

J. C. Swalm & Co. are engaged on plans for a frame hotel to be built near the Highland association grounds at the World's Fair. It will be 50x120 feet in size, four stories and basement and will cost $16,000.

Eugene Praeger, oil inspector under Harrison's last term of administration, has secured a ninety-nine-year lease of 109 feet frontage on Thirty-ninth street running 209 feet back to Oakwood boulevard. Mr. Praeger will immediately begin with the erection of a building which will contain a theater with a seating capacity of 1,300, a hotel of over 100 rooms, cafe and billiard rooms. The saloon part of the new enterprise will be a novelty in its line because running through the ground from northwest to southeast, is the prohibition boundary which divides the property in a diagonal line, nearly in the center. North of this limit will be located the refreshment rooms, while total abstinence will rule south of it.

HIGH RENTS IN CHICAGO.

The tendency to high rentals in the down town district in Chicago increases yearly. A few years ago the rents paid to-day would have seemed fabulous. Then a building costing $40,000 to $50,000 was thought to be a costly structure. Now as much as that is paid for the annual rental of a floor or two in some of the new office buildings. In the new Masonic Temple there is a lease to the masons of the entire eighteenth, nineteenth and twentieth floors for $40,000 a year. This is probably the largest single lease of space in an office building. Next comes the theatre in the Schiller building which has been leased by Anson S. Temple, late of the Auditorium, for a term of five years at $35,000 a year. It is said that Lyman & Jackson, the law firm, pay $25,000 annual rental for the sixteenth story of the new Title & Trust building on Washington street. The basement of the Ashland block at the northeast corner of Clark and Randolph streets has been rented for a saloon. It will be in the shape of a carpenter's square and will have an entrance on both Clark and Randolph streets. The lease calls for $15,000 annual rental for ten years. One half of the entire second floor of the Ashland block, 3,200 square feet has been rented to the Hibernian

bank for five years at $10,000 a year. The second floor of the Schiller building, 2,280 square feet, has been leased to Henry Dettmer for three years for a piano store at a yearly rental of $10,000.

It is said that the main floor of the new building of the Hartford Safety-Vault Deposit company on the corner of Madison and Dearborn streets has been leased to the American Tailoring company for five years at $60,000 per annum. The company will sublet what space it does not need.

CURRENT COMMENT.

If it is true that owners of real estate in the 19th ward have combined to put up the price of property in the district in which it is proposed to erect a new school building, their action is not only unjust to the city but also unfair to the residents and the other property-owners of the ward. It is proposed to erect an eighteen-room school building in this ward to accommodate the hundreds of pupils who cannot now attend school more than half a day. A site near the corner of Good and Better streets has been favorably considered, but the price named by the present owners is said to be the obstacle now blocking the way. The proposed site has a frontage of 192 feet and the price is $13,800. It is claimed by some of the members of the board that this figure is too high, and an effort will be made to secure a cheaper site. The fact is there is no more foolish policy than that which delays or hinders the establishment of new school houses in any locality. Property-owners cannot afford to discourage enterprises of this kind. Every school building erected enhances the value of surrounding property at once and permanently. It has a tendency to raise rents, also, by making the locality more desirable for residence purposes. Furthermore, in course of years it raises the general standard of intelligence in the community and thus exerts a direct influence on property values. The property-owners of the 19th ward would do better to present to the Board of Education a school site than to haggle over the price.

***

The revival of interest in elevated railroads indicated by renewed work on the Lake Street "L" road and the opening of the Alley "L" to traffic bodes well for Chicago. The success of the first elevated road project seems now assured. The officials report that the road is carrying 50,000 passengers daily, a number in excess of the estimate made before trains were put on. If this measure of success is continued it is reasonably certain that it will be a great stimulus to other similar enterprises. Already work has been resumed on the Lake Street line and Col. Alberger announces that the contract has been let for an iron bridge to connect the road with the South Side. The West side is in need of rapid transit facilities far more than any other portion of the city, but property owners on the West Side have not favored enterprises of this kind heretofore and it is even rumored that heavy damage suits will be instituted against the Lake Street company as soon as active operations are commenced. This policy on the part of West Siders is by no means conducive to the prosperous development of that portion of the city. Perhaps the successful operation of an elevated road on the West Side for a few months would work the much needed revolution in public sentiment in that division which now stands in the way of rapid transit.

***

A rating department has been organized in connection with the Real Estate Board and information is to be given to members of the board as to the financial standing of tenants and purchasers. This is a much-needed enterprise and if carefully conducted cannot fail to prove of much value to real estate men and owners generally. Ratings are needed especially on tenants, among whom there is as great a variety as among any class of business men who ask for credit. The old system of references for tenants is not satisfactory. It is well known that it is comparatively easy for a worthless tenant to secure good references by the peculiar methods best known to such people; and these plausible references do not protect the landlord when the tenant has moved out three months in arrears and left an empty house in the dull season when it is not easy to secure a new tenant. There is a very large class of renters who make it a point to move out in arrears. They seem to regard the landlord as deserving of their best efforts in this direction, and the worst of it is that these people are frequently honest in other relations—that is, they pay everybody but their landlord. On the strength of this seeming honesty they secure the confidence of the landlord and then swindle him. Agents and owners should band together for mutual protection against this large class of "dead beats." An impartial record should be kept and the old system of "references" should be abolished. By the "record" let the tenant stand or fall. If he has been unfortunate he may be excused; but if he has shown a disposition to avoid payment of rent actually owing he should be posted in such a manner as to prevent future occurrences of the same kind.

***

The popularity of the Title Guarantee Companies is on the increase all over the country. In Chicago the new building of the Title and Trust Company is an enduring monument to the guarantee idea. The time is coming when every title of importance will be guaranteed. Not only so, but the facilities afforded by the guarantee companies for the handling of property in trust for syndicates, estates and others are becoming better known and appreciated every year. These companies furnish deeds and guarantee titles to subdivisions and have such unusually good facilities for this class of work that they are able to make very low prices. In New York the title companies are doing a heavy business in handling mortgages. In one week recently the Title Guarantee and Trust Co. of New York transferred fifteen mortgages on New York city realty, fourteen for a total of $198,000. The buyers include capitalists, trustees of estates, and savings banks. The Brooklyn mortgages sold by the same company during the same week numbered thirty-eight, aggregating about $170,000. The buyers included trust companies, insurance companies and out-of-town savings banks.

MEMORIAL HALL.

The Elgin people are discussing the question of building a memorial hall. The time is drawing near when some one will make a move in this direction. Buildings of this kind are being erected in nearly all towns and cities of enterprise. The Elgin Daily News says: Now while our library is looking around for a new location, would be a good time to bring this matter up.

Objections have been raised in regard to having the library located in the city hall. Our city is growing every year, and a building suitable for a memorial hall, with a public reading and library room, would be a great convenience and meet a necessity.

THE FUTURE OF CHICAGO. PASSENGER TERMINALS.

The removal of the Illinois Central depot to Twelfth street and the establishment of the Alley "L" station on Congress street with the location of the Dearborn station at Polk and the Grand Central at Harrison, afford an indication of the probable future locus of the South side passenger terminals. The tendency seems to be to move farther away from the business portion of the city. In accordance with this tendency it is thought that before long the present Lake Shore and Rock Island depot at Van Buren street will be removed either to Polk or Twelfth streets. For a long time this step has been seriously contemplated. Ten years ago property in the vicinity of this depot was considered of comparatively small value. The Board of Trade building and the other immense office structures surrounding it had not yet been contemplated. Shortly afterward, however, there was a southward movement that suddenly sent prices of business property in this locality flying. Values doubled and quadrupled and fortunes were made by lucky investors and leaseholders in the few years following the erection of the Board of Trade building. It was then that it dawned upon the officials of the Lake Shore and Rock Island railroads that their present quarters were occupying too valuable property. The depot structure alone covers an entire block. Another long block is occupied by the yards and freight houses between Harrison and Polk streets. From Polk to Twelfth street are two more blocks of valuable property now monopolized by side tracks. No less than four entire blocks of marketable property would be gained by the two railroads by the removal of their present freight and passenger terminals to Twelfth street. This inducement it is thought will be sufficient to effect a change in the present location of the Van Buren street depot.

MONEY PLENTIFUL AND CHEAP.

The superabundance of money awaiting safe investment in London was well put in evidence a few days ago, when the Chancellor of the Exchequer invited tenders for £1,600,000 of Treasury bills. Applications for ten times that amount were at once sent in, and the Chancellor was able to get the money he wanted at the lowest terms ever secured for an English loan—namely, 2 1-16 per cent.

WHITE PATCHES ON BRICKWORK.

Many a handsome brick building is disfigured long after its erection by the appearance of white patches on the surface of the brick. The custom hitherto has been to wash the face of the walls with a solution of aqua fortis; but this proceeding has proved ineffectual in a number of cases. It will therefore be of interest to builders to hear that according to a statement made by H. C. Standage in the Builder of Philadelphia, a solution of common salt will permanently wash off the blotches. Generally one or two applications will suffice. The white discoloration is derived from soluble salts of sodium in the mortar.

A PROSPEROUS NEW TOWN.

One of the most beautifully situated towns in all of Cook county, on the highest ground within a radius of twelve miles of the Court House is Franklin Park. It lies about 90 feet above city datum or about 94 feet above Lake Michigan. The Northern Pacific and the Chicago, Milwaukee and St. Paul Railways, pass through Franklin Park. Both roads have built depots at convenient distances from the centre of the town and are doing all in their power to accommodate the public at this point. The town extends east and west all the way from River Grove to Manheim and north and south from Grand avenue to a point about a half mile north of the C. M. & St. P. Railway tracks. Eighty houses have been built and sold. Sewers are in, sidewalks laid and 26,000 trees in all have been planted.

Nearly 40 miles of streets have been opened and graded, and a look of peace and plenty is visible on all sides. Over two hundred thousand dollars have been expended thus far in building sewers, sidewalks, tree-planting and in making roads. Two boulevards or macadamized streets extend entirely through the town. The country surrounding Franklin Park is delightful and picturesque. If there is sunshine anywhere it is at this thriving new suburb which is less than two years old. The writer visited Franklin Park on last Sunday and had a pleasant drive about town. Mr. Franklin, the founder, permanently resides there with his family which consists of wife and five beautiful children, the eldest being a daughter of about sixteen summers who is attending the female seminary at Lake Forest. Franklin evidently believes in the future of his great enterprise.

AUCTION SALE JUNE 12, 2 P. M.

On Sunday June 12, at 1 o'clock p. m. two excursion trains will leave the depots of the Chicago, Milwaukee & St. Paul and the Chicago & Northern Pacific Railways for Franklin Park, with ten coaches on each road for the accommodation of people who desire to attend the auction sale of lots announced on another page in this issue. In all 1820 lots have already been sold at Franklin Park during the last twenty-three

Finance and Trade.

The week has been one of political expectation, without any unusual financial developments. Speculative interest has been dull but general trade has been fairly satisfactory. A few unimportant gold shipments to Europe have had a bear influence on the investment tendency. This has been further intensified by the fact that Monday was a holiday in London and was also observed to some extent on this side of the water. The announcement of a London bank failure, caused, it is said, by inability to realize on assets, had a further depressing effect Wednesday. The Oriental Bank, an Anglo-India concern in London, closed its doors with liabilities amounting to £9,000,000. The failure is said to have been caused primarily by the depreciation in silver and the consequent increasing distrust throughout Great Britain of investment in silver countries. It is confidently hoped that the bank will be able to resume and pay all liabilities in full. The news of this failure, however, together with the further announcement on the same day of a large stock exchange failure in Paris, had a very appreciable effect on the stock and grain markets. The latter market was also further disturbed by the announcement of the passage of the Hatch bill in the lower house of Congress. Altogether, in speculative circles, the week has been one of discouragement and bear markets everywhere.

No little alarm has been caused by the announcement that the Anti-Option measure known as the Hatch bill is likely to become a law. Henry Clews is credited with the following expression of opinion on the subject. He says: "The Anti-Option bill is about as brutal an attack on general business interests in this country as could well be concocted by anybody, however viciously inclined. If passed, the effect would be to speedily drive the grain business to Canada, and the only Americans that would be benefited thereby would be the refugees. The bulk of the cotton business would find its way to Liverpool and an immense amount of American capital would follow those products seriously to the detriment of New York. Chicago and New Orleans. A more ruinous measure for the farmers and merchants, banks and bankers of this entire country could scarcely be devised." This expression may be taken as fairly representing the general opinion of the Hatch bill in financial circles. With practically an unanimous opinion against the measure among those most vitally concerned in it, the wonder is that it receives a moment's serious consideration by Congress.

Gold shipments to Europe have played a prominent part during the past week in depressing the stock market on Wall street. This feeling on the part of investors is purely sentimental, as is the average disturbing influence on the street. Compared with last year the gold shipments of this year are not worthy of consideration. The fact is the gold scare arises largely from a misapprehension of the real situation. During the ten months ending April 30, we imported $48,614,269 worth of gold and exported $28,611,602, making $20,002,667 gold that we have gained from abroad. Add to this about $25,000,000 of gold coinage (including recoinage) per annum, and we have a net gain of about $45,000,000 of gold for the ten months preceding April 30 last. It must be borne in mind that the United States is a gold-producing country. Our mines have an annual output of about $33,000,000 worth of gold bullion. It would require an unusual drain on the gold reserves of the country to offset this annual production of gold alone. Some further figures also may serve to dispel any apprehension as to a prospective scarcity of gold. The estimate of the Secretary of the Treasury makes the total gold coin and bullion in the country on June 1, 1892, $680,438,749, against $646,582,852 on July 1, 1891, an increase of $33,855,897. These figures are further supported by the bank reports. The National banks of New York on May 17, reported their gold holdings at $78,000,000, against less than $53,000,000 last year. an increase of $25,000,000. The Boston National Banks hold $10,700,000 against $9,700,000 a year ago, an increase of $1,000,000. The Philadelphia National banks hold $14,000,000, against $13,000,000 a year ago, an increase of $1,000,000. The Baltimore National banks hold $2,300,000 as against $1,800,000 a year ago, an increase of $500,000. The Chicago National banks hold $20,700,000 as against $17,200,000 a year ago, an increase of $3,500,000. In the National banks of these five cities alone there is $31,500,000 more gold than at the corresponding time last year. These figures ought to be conclusive that there is nothing in the present situation to warrant any alarm.

The political situation has not yet shown any appreciable influence in financial affairs. The investing public has learned that the prosperity of the country is not wholly dependent on the success or failure of any political party. Neither of the two leading parties have espoused the cause of free silver or any other fanatical measure which would revolutionize the financial affairs of the country. If there were any prospect of the success of the Alliance party there might be some cause for alarm on the silver question but with both the leading parties in the field practically unanimous on the leading financial questions of the day there is no danger in the event of the success of either of them.

Money continues to be so plentiful as to excite comment. The total per capita in the United Kingdom is $17.90; in France it is $43.11; in Germany $16.40, and in the United States $25.62. It is claimed that the superior banking facilities of this country make its supply of money practically larger per capita than even in France.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of sixty-eight leading cities for the week ending June 2, 1892, as compared with those of the corresponding week of last year, with percentages of increase and decrease.

CITY.	WEEK ENDING JUNE 2, 1892.	WEEK ENDING JUNE 4, 1891.	PER-CENTAGES.

Totals, Can....	$14,294,493	$11,665,970	

†Not included in totals.

The percentages of increase shown by the table continue to be encouraging, though not quite as satisfactory as last week. The total increase is 6.1 percent. This is only about half as great as the percentage of increase shown last week, but is greater than that of the weeks ending May 5 and May 12, which were 4.0 and 4.9 percent respectively. The clearings continue to show an increase over last year though business has been anything but satisfactory. Of the four largest cities Philadelphia only shows a decrease. Chicago has the largest increase and next to New York the largest volume of clearings. As before noted in these columns Chicago has apparently taken second place over Boston in the list of financial cities and at the present rate of increase will soon reach an average total of clearings of over $100,000,000 a week.

San Francisco returns a heavy loss—29.5 percent; Baltimore, 9.0, and Cincinnati 11.4; but New Orleans, for the first time in many months, shows an increase. Whether this is due merely to a spasmodic wave of increased business or to the beginning of a reaction which will be more than temporary, can only be learned through future returns.

It is a remarkable fact that Minneapolis and St. Paul each show an increase of exactly 36.2 percent. Pittsburg increases 27.7; Detroit, 24.3; Milwaukee, 49.2; Indianapolis, 26 5; Columbus 39.9; Richmond, 25.1, and Dallas. 40.3. Duluth returns a loss of over 25 percent, which, together with the losses reported from that city for several weeks past, is hardly in keeping with the reported boom as heralded by Duluth correspondents.

An interesting table has been compiled by Bradstreets, showing the total clearings for the month of May in 1890, 1891 and 1892. This report says that the aggregate for May, 1892, is $4,953,752,400 as compared with $4,735,645,345 for May 1891. This is 14 percent smaller than the aggregate for May, 1890, which was $5,840,059,374. The total of bank clearings for May 1892 is the first monthly aggregate to fall behind any total for the same month for the three preceding years. The May total this year was even only nominally larger than the May total for 1889, which would indicate a decidedly unsatisfactory month this year.

The bank clearings have steadily decreased this year as evidenced by the following comparisons. The total for January, 1892, was $5,571,652,776; February, $5,132,314,382; March, $5,217,080,189; April, $5,010,149,163, and May, $4,953,752,400. This is a decrease of $618,000,000, or 11 percent, from January to May. In 1891 the corresponding decrease was only $144,000,000, or 3 percent. In 1890 the May total was $623,000,000, or 12 percent larger than in January, while in 1889 there was also an increase of 1 percent in May over January. These figures afford an index to the general condition of trade during the first five months of

1802 as compared with the corresponding period for the two preceding years.

The explanation of the unfavorable state of trade as outlined above is usually sought for in the weather conditions which, with the flood disasters, are thought to have been sufficient to account for any considerable falling-off noticeable. However, the weather is not wholly responsible for this poor showing. The dulness observable is not confined to American trade centres but is felt throughout Europe as well. The abundance of money at all the financial centres and the low rates of interest indicate a general stagnation which is not to be accounted for by the state of the weather merely. Add to this that the speculative spirit has almost ceased to manifest itself, capitalists being content to allow funds to remain idle in the banks rather than to run the ordinary risks of stock speculation at prevailing prices, and we have proof of a widespread lack of confidence which probably is largely the cause of the present inactivity.

A comparison by groups of states shows the following.

	WEEK ENDING JUNE 2, 1892.	WEEK ENDING JUNE 4, 1891.	PERCENTAGE.
New Engl'd States.	$ 96,587,684	$ 88,998.420	Inc 8.5
Middle "	667,615,897	629,719,724	" 6.0
Southern "	39,203,357	34,894,655	" 12.6
Western "	41,425,712	37,573,649	" 10.8
Northwestern "	122,042,613	105,558,882	" 16.0
Southwestern "	34,474,548	33,917,616	" 1.4
Far Western "	25,002,318	29,295,898	Dec 14.4
Totals,.....	$ 1,026,352,129	$ 959,958,844	

Again the week is marked by increases in all the groups save one. The Southern and Southwestern groups are emerging from the apparently hopeless rut of decreasing returns into which they had fallen. We have yet to note a permanent improvement in the Farwestern which this week, as usual, shows a decrease of 14.4 percent.

THE LOCAL STOCK MARKET.

The Street Railway stocks have shown additional strength on the local Stock Exchange during the past week, and sales of these securities have been made in large amounts and at the highest figures. West Chicago Street Railroad stock has beeen phenomenally strong and has sold at the highest prices ever realized for that stock. On Friday 154½ regular and 154¾ for account was reached. The feature of the day was the scarcity of selling orders as compared with the demand. North Side stock also was in great demand and was bid up to its highest figure. Little of it was to be had, which appeared to be the reason for the advance. It is evident that investors have come to regard the entire line of Street Railway securities with favor and are fast absorbing the stocks for strictly investment purposes. The amount held for speculation is growing smaller and the demand is at the same time increasing. Not only North and West Side stocks are affected favorble but City Railway and Alley Elevated are also in demand. The former has sold this weeek at 380, and though Alley "L" has been somewhat weaker than it was last week, it is still at a remarkable figure for comparatively a new venture, selling as it does at 110. The earnings of the road since its opening Monday have been flattering, and officials and friends of the enterprise are already figuring out a dividend of from 4 to 5 per cent. But others are not so confident, and as yet it may be said that the stock is not a known quantity in the market.

The general advance in the Street Railway securities is unquestionably due in a large measure to the influence of the World's Fair. Whatever may be the capacity of the local transportation lines, they will certainly be taxed to their utmost during the greater portion of the year beginning next fall with the dedication of the buildings in October. The experience of past expositions is that next to the hotel keepers the first to profit by the crowds are the street railways. This consideration alone is sufficient to influence investors strongly in favor of the street railway securities.

The bond market has been strong and active. Inquiry has been good for West Chicago Street Railroad 5s., which have sold at 101⅞; Tunnel 5s., have reached 98; City Passenger Railway, 99½; Alley 5s., 98½.

The stockholders of the Elgin National Watch company decided at their recent meeting to increase the capital stock of that company from $2,000,000 to $6,000,000. An immediate increase of $2,000,000 will be effected by the payment of a stock dividend of 100 per cent. When the conditions of the company's business warrant it another stock dividend of $2,000,000 will be declared, which will bring the total stock up to $6,000,000. For years this company has paid 30 per cent dividend but has earned much more than that, the surplus being put into the plant at Elgin.

A. H. LORD,

149 La Salle St., Room 26,

LOTS AT ALSIP.

A NEW MANUFACTURING SITE 15½ miles south from the Court House, just north and a little west of Blue Island, at 123d street, on the Calumet Terminal Railroad, and near the Chicago & Grand Trunk The Chicago, Rock Island & Pacific and the Chicago & Northern Pacific suburban line railroads. The Alsip manufacturing plant, covering several acres, is already in operation, employing a large number of men, and material is now being delivered for doubling the capacity of the works.

The situation is high, rolling ground, and no water within 20 feet of the surface. It is adjacent to Wireton Park and the Chicago Wire and Spring Co.'s plant, main building 720x150 feet, will employ about 400 men. The Steel Barbed Wire Co. and the Farquhar Heating Co. are all in operation just east of this property. The combined force employed by these works require a large number of houses, many of which are already completed, and many more under construction. We do not ask you to buy lots on PROSPECTIVE INDUSTRIES. The plants are already in operation, and employing a large force of men, and no question of doubt can enter into the future of values. Without a word in print about "lots at Alsip," we have sold a large number, and purchasers have already built comfortable, commodious dwellings, and more are constantly going up. Investment in Alsip lots at present prices will insure large profits within one year. Liberal terms will be made, and monthly payments if desired.

I. N. ISHAM,

167 Dearborn Street.

Room 14. Stock Exchange Building

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M.. & St. Paul R'y, 160 Adams St., Chicago, Ill.

THE SCROLL OF FORTUNE'S FAVORED ONES.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

In FRANKLIN PARK are thus combined

All the Essentials of an Ideal Home-Site.

DO NOT FAIL TO SEE IT.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,
HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

DIRECTORS:

C. H. WACKER. E. S. DREYER. JAMES E. McELROY. GEORGE BURRY. FRANCIS LACKNER.

STOCKHOLDERS:

E. S. DREYER, of E. S. Dreyer & Co., Bankers, cor. Washington and Dearborn sts.
ADOLPH LOEB, Banker, 120 La Salle st.
WASMANSDORF & HEINEMAN, Bankers, 145 Randolph st.
JOHN BUEHLER, Banker, La Salle and Randoph sts.

Finance and Trade.

The feast of good things is evidently only deferred. As matters are now, business men have really little to complain of. Trade has fully maintained its volume, and if its course has been somewhat uncertain and erratic the explanation is to be found in the tolerance that has been extended to legislative cranks. It cannot be too well understood that the business and finances of this country have long since passed the experimental stage, and that only perplexity and delays can result from the injection of new principles totally at variance, with those already existing, and which have so long governed the transactions of business. This fact seems, at last, to be in the way of being understood and appreciated. The almost absolute certainty of having a forceful and prudent President during the next four years is an immense thing for the country, especially for the business men whose enterprises create and distribute wealth through all classes and sections.

Statistician Dodge's report is another notable factor in promising and widening prospects. The wheat average has advanced over 4 per cent since the May returns, a gain wholly unusual at this season of the year and quite unexpected by the traders. Figuring upon Dodge's report, experts place the probable yield of wheat in the United States for the present year at from 520,000,000 to 580,000,000 bushels, the acreage being practically the same as last year. The statement as to corn was also quite unexpectedly satisfactory, alike as to condition and acreage planted. Since Dodge's monthly report, everything has been such as to fully maintain an improvement.

Should the Hatch bill pass both houses of Congress, it would, perhaps, be asking too much of the occupant of the White House to veto it, considering how such a step might affect his chances next November. That the best financiers are adverse to what Henry Clews has not unfittingly called "infamous measures" is clearly shown by the protests that continue to be made by the leading banking institutions of the country. Should the measure go through the result is perfectly clear. Speculation in farm products will be killed, and the farmer will either have to carry his own crops and sell in driblets, or else he must reduce his prices to such an extent as to make it worth the while of the receivers and elevator men to hold the stuff and take the risks. This is a subject well worthy of the close attention of all interested in agricultural produce, especially as bountiful crops seem now to be assured. Big crops and no speculative demand give promise of unsatisfactory prices to the producer, to say the least.

Gold continues to leave this country finding its way to Germany, presumably en route to Austria. The dual empire is now fully committed to the gold standard. Its acceptance, only under the strictest limitations, of the invitation to the forthcoming monetary conference makes its position abundantly clear.

Business in Wall street has presented no special feature during the past week. Fears of further gold going out and some selling by houses with foreign connections have worked against prices. Bonds and good dividend paying securities have, however, been in steady demand. St. Paul has been attracting a good deal of attention, and scores quite a substantial advance. P. D. Armour has long been a bull on this property and his large purchases have had much to do with the upward movement. The Rockefellers have also taken some large blocks off the market. This, in conjunction with the fact that London holds half of the 400,000 shares of the road, amply serves to explain the rise. The report is that St. Paul has earned seven per cent on its capital, and will distribute in dividends from 4 to 5 per cent. Taking the railroads as a whole, the earnings during the past year have fallen considerably short of expectation. The total earnings for five months for companies operating 92,000 miles were $193,526,000, a gain of 7 per cent as compared with corresponding period of last year. It need scarcely be said that the chief gains have been in the granger and Wester lines.

A slight improvement is reported in the demand for money; rates continue, however, to rule low. The existing cheapness of money has doubtlessly had something to do with the recent lively boom in local stocks. The iron trade is better reported, but some labor troubles threaten to reduce the output and to place buyers at some inconvenience. There is some talk of a big tin-plate concern being located at Chicago, employing upward of 500 men. The business is to be removed from Wales, which has heretofore been the head center of the tin-plate trade of the world.

The outlook in Europe is improved. The crops promise to be much better than those of last year, when the conditions were, in places, not far removed from those of famine. Improved crops mean increased wealth and ability to invest. This should help to maintain and advance prices here. The Spanish Americans are also apparently getting the better of their troubles, economic as well as political. Gold at the Bank of England has increased, during the week, £788,000 ($3,945,000), and proportion of reserves to liabilities advanced from 45.48 per cent to 46.99 per cent. Money at London, Paris and Berlin, plentiful and loanable at easy rates.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of sixty-eight leading cities for the week ending June 10, 1892, as compared with those of the corresponding week of last year, with percentages of increase and decrease.

†Not included in totals. *Last week's totals.

Continued improvement is noticeable in the clearing house statements, the one given this week being by far the most satisfactory yet presented. All the the larger cities at the head of the list show substantial increases with the single exception of San Francisco. Only fourteen of the entire number of cities reported, including Canada show decreases, and only four of these exceed 20 percent of decrease. Among the increases we note that of 70.5 percent in Minneapolis returns, indicating a large increase in the volume of flour shipments from that point. New York shows an increase of 41.1 percent; Chicago 24.1: Boston 23.4, and Philadelphia, 27.5. The total increase of all the American cities is 16.6; outside of New York 20.3 per cent.

The improvement noticeable in general business as indicated by a larger volume of bank clearings is doubtless due to better weather. Throughout the east warm days have been the rule and in the west and south a cessation of the rains and floods has encouraged activity in farming operations and stimulated trade. It would be difficult to imagine a more discouraging state of affairs than that which has prevailed since the beginning of the year throughout the entire country. The weather conditions up to within a week or two have been about as unfavorable for the transaction of the business as they well could be. Still, in spite of this discouragement there is every indication that the country is much more prosperous than it was at this time last year. The large reserves of farm produce held by the farmers shows that they are in condition to meet any ordinary emergency such as a partial failure of crops, without serious inconvenince. The railways, whose prosperity is so closely linked with that of the agricultural classes, are likewise prosperous. New railroads are now being projected in territory which was not thought capable of supporting such enterprises a few years ago, and roads which were then laid through trackless wildernesses are now teeming with the life of new cities and villages. Manufacturing industries everywhere are prosperous. New industrial enterprises are springing up in every quarter of the country. Wonderful new cities are building in almost a day. Money is plentiful, and capital is ready to engage in any project that promises sure returns. The genius of the American people as a money-getting and wealth-producing nation was never so apparent as it is today.

The value of the bank clearings as an index of the general business situation is evident from a comparison of the report given above with the general financial reports for the week. No better test of prosperity could be had than the railroad earnings which show a handsome percentage of increase over the corresponding period last year. The iron business is frequently cited as indicating the general financial condition of the country. We find that there is an improved demand for all grades of iron, especially for for pig iron, rails and structural iron. The demand for iron ore is good and prices are firm. Trade in dry goods and all kinds of wearing apparel is im-

proved everywhere. Wool is selling readily and cotton is especially active. Wherever the influence of the first few days of pleasant weather has been felt retail trade is improved. From no quarter is it reported dull. These facts are given not only to show the generally improved condition of business throughout the country but also as indication of the value of the table of bank clearings as index to the business situation. The clearing-house returns are like a barometer in their faithful presentation of the high or depressed conditions of the financial atmosphere.

A comparison by groups of states shows the following.

	WEEK ENDING JUNE 10, 1892.	WEEK ENDING JUNE 11, 1891.	PERCENTAGE.
New Engl'd States.	$115,502,541	$ 95,046,357	Inc 21.0
Middle "	769,428.866	667,121,132	" 15 3
Southern "	38,929,757	34.633,436	" 11.8
Western "	46,896,677	39,928,258	" 18.0
Northwestern "	145,119,419	114,084,077	" 27.2
Southwestern "	40,410,679	35,919,204	" 14.2
Far Western "	26,650,380	25,633.287	Inc 4.0
Totals,.....	$ 1,182,938,319	$1,012,365,751	

The roll of states as presented in the groups above shows an unbroken front of handsome increases for the first time in many months. Even the Farwestern group increases 4 percent. No better cause for congratulation on the improved financial situation could be had than this showing of substantial increases in the banking business of the entire country as indicated above.

In its estimate of the good results of last years crops which are now beginning to be felt, the Daily Indicator says:

The wonderful crops harvested in the calendar year 1891 have brought in their train most stupendous results and the year ending June 30, 1892. will be one of very large aggregate in the financial and commercial record of the country. Naturally we look first to our foreign trade to discover the effect of our big crops, the exports of breadstuffs being so large as to swell the aggregate of exports to unparallelled proportions. We show here the monthly increase in exports of merchandise, as compared with the previous year, for the ten months ended April 30, and also the changes in the net balance of exports or imports:

	Exports mdse		Net movement
July.....Inc	$ 8,200,000	Decin imp	$ 18,700,000
August .....Inc	16,500,000	Inc in exp	11,700,000

January.....Inc	17,500,000	Inc in exp	17,100,000
February....Inc	11,800,000	Inc in exp	12,300,000
March .....Inc	6,500,000	Inc in imp	2,400,000
April .....Inc	5,200,000	Dec in imp	10,100,000
Total ten months	$127,000,000	Inc in exp	$139,400,000

In the ten months we exported $127,000,000 more merchandise than in the corresponding period last year, and our balance of trade, or net exports, was $139,400,000 larger. In every month since July 1, our exports have been larger than in the previous year, and with the single exception of March the net balance was more favorable to this country in every month of the current fiscal year. Now we will note the improvement in railroad earnings. The following table shows the gains or losses in earnings, gross and net, for each month as compared with the previous year:

	Gross Inc	Net Inc.
July	$3,647,000	$1,668,000
August	2,932,000	1,177,000
September.....	4,594,000	2,329,000
October	6,846,000	2,722,000
November	5,913,000	2,923,000
December	5,266,000	2,667,000
January	1,146,000	*881,000
February	7,381,000	2,789,000
March.....	5,688,000	2,258,000
April.....	1,494,000	
Total.....	$42,908,000	$17,649,000

*Decrease

In every month since June, 1891, there has been an increase in gross earnings, and in every month except January an increase in net earnings. In ten months the gross earnings show an increase of nearly $43,000,000, and in nine months the net earnings increased over $17,600,000.

The cotton situation as reported by a prominent authority, Mr. S. M. Inman of Atlanta, Ga., is summed up as follows:

"Thus far we feel pretty safe in our position, but there are possibilities which I mention that may decrease the crop of 1892-3 much more than this. Suppose it should appear from the bureau report, as it has been indicated by nearly every private and State authority during the past month, that the decrease in acreage, instead of being 12 percent is as much as 16 percent. This would mean a decrease of 1,450,000 bales instead of 100,000, and a total decrease of 1,950,000 bales, instead of 1,500,000, based on equally good seasons. All this is based on the supposition of all the conditions of the crop and yield continuing as good the coming year as they were the year we are just leaving and which was the best for thirty years after the planting had fairly started. The crop of 1890-1, which was considered phenomenal, proves to have been 4 percent off in condition in comparison with the crop of 1891-2, and the crop of two years ago, which was a fair average was, in round numbers 18 percent off in condition as compared with the present wonderful year. Assume then that this growing crop will be 10 percent lower in condition than the one just gathered and we have a still further shortage of 700,000 bales, applying a percentage in condition to the reduced crop of 7,000,000 bales which we have just been discussing. These 700,000 bales added to the deficit of 1,950,000 bales mentioned above makes 2,650,000 bales, or a crop at the utmost, under all these conditions, of not over $6,500,000 bales. High prices for December are probable."

UNIT OF VALUTION.

About forty years ago an insurance company of Liverpool determined to erect a building on the corner of Dale street and the eastern entrance of the Liverpool Exchange. They purchased land of sufficient quantity, paying therefor at the rate of £80 or $400 per square foot. This valuation may be represented by a layer of silver dollars covering the property a little over six deep. Now applying this to a lot 25x100 (size of ground) the value is $1,000,000, or as we estimate $40,000 per front foot; as that purchase was made over forty years ago, and values have rapidly increased in Liverpool, a front foot must be worth much more than $100,000.

When prices reach this high point, each individual foot has a value actual and independent of its location, front or interior on property suitable for building.

In determing values, therefore, it is necessary that a fixed and invariable measure shall be taken as a unit; this must embrace the component elements of surface (the available portion of real property), length and breadth; such a unit is a square foot. In our city, value is customarily expressed upon the lineal foot of frontage; where two exist that is chosen which presents the more advantageous exposure; of several frontages the difficulty increases and the utility of this method of estimating values disappears and a confusions arises that makes our system inoperative.

Were our lots of approximate uniformity in depth and regularity of boundaries the present system would be practicable, but such an irregularity of outline exists that a uniform unit of measurement becomes an absolute necessity, and as values continue to increase the demand will be more urgent. In no other way than by the superficial unit can values be comparative and comprehensible.

Some concerted action should be inaugurated on the part of agents to embody this system in the conduct of their business. It must come eventually and be the ruling guide, as it is in the cities of the East and Europe and as recognized and practiced here in some legal controversies.—Tevis and Fischer's Real Estate Journal.

THE LOCAL STOCK MARKET.

The features of the local stock market of the week have been the meteoric movements of the street railway stocks. While speculators have shown absolutely no inclination to enter the general market, the North and West Side railway stocks have been in a fever of activity. The market is exceedingly narrow and has been limited to the street railway securities alone. Lake Street Elevated stock was in somewhat better demand than of late, and scored a small net advance. Alley Elevated stock was weak and Alley bonds shaded down a trifle in price. The interest of the week centres around the street railway situation. During the course of the advance in the North and West Side stocks, buying has been freely carried on in the interest of insiders and the Philadelphians. Up to this week, however, the public has not been in the market to any extent. With the opening of this week the conditions were reversed. The public with its characteristic desire to get in near the top came into the market in force. There were the wildest buying orders, executed in the wildest possible manner. A series of highest points in both stocks was registered early in the week in a surprising manner. It was noted that the broker who represents the insiders as they are termed, changed his tack and began to beat to windward by curtailing his purchases, and in fact by making some sales. On Monday West Side made a net advance of 6 points, and stood at 165. North Side sympathized and went to 202, and City Railway was marked up to 385. Tuesday simply added another chapter to the movement begun Monday. North Side stock scored the star advance to 215 for the account, while West Side went to 169¾. The Wednesday market opened strong with excited outside buying. The advances in West Side stocks were to 169¾ and 217½ respectively. The break came at the opening of the second call and prices sagged down to 163½ and 208½. The public sentiment favoring selling became as pronounced as it had just been in purchasing, and stop orders helped on the decline. After the decline there was a slight reaction and the market and its conditions became identical with the market on Monday and during the preceding week. The public lost its absorbing interest in the situation and the insiders again begun their buying tactics. The movements of the market lend plausibility to a theory which is generally accepted as explaining the tactics of the railway stock manipulators. It is thought that heavy stockowners realizing that the earning power of the Yerkes properties cannot possibly decline during the next eighteen months, have assumed the most pronounced bull tactics and are steadily increasing their holdings. In all probabilitiy they will not hold their purchases indefinitely, but will at the proper time begin feeding them out to investors. The public too, has just demonstrated its desire to buy stock at the top notch prices. As it is now an assumed fact that electricity will supersede horses as a motive power in all lateral lines, there is every reason for believing that the earning power of the stocks will be increased. On horse car lines from 80 to 90 per cent of receipts go to pay operating expenses. It is estimated that electric car lines under similar conditions can be operated for about 50 per cent of the receipts. The change in motive power alone will provide for quite an addition to yearly net earnings.

At the time the last packers' deal was carried through the new securities in the form of stocks were taken by the underwriters. Since that time there has never been sufficient demand to put prices to a point where the underwriters could get out until Thursday. The price then went too far. All the stockyards differences have been satisfactorily adjusted and it is rumored that P. D. Armour will go into the directory of the new company. There is no material change in the brewery situation. Prices are still down to the cut rates, and Stein Bros. and the Standard Brewing company refuse to come into the combine. It is believed that a satisfactory settlement will be reached but stockholders have grown weary waiting for this oft predicted and long deferred termination of difficulties.

Dividends have been declared by a number of corporations during the week. The regular 2 per cent quarterly dividend was declared by both Western Stone company and the Commercial Building company of St. Louis. A quarterly dividend of 1¾ per cent will be paid by the National Railway company on the ninth of next month. Notwithstanding the fact that statements were made up to the last moment the usual Whisky Trust dividend would be declared, the dividend was cut in two and is one-half per cent monthly. Operators are inclined to feel sore at the Trust officials for allowing the idea to become general that the 1 per cent monthly dividend would be sustained.

THE REAL ESTATE MARKET.

TWO DEALS OF EXTRAORDINARY MAGNITUDE BUT OF ENTIRELY DISSIMILAR NATURE.

Marshall Field's purchase of the northwest corner of Dearborn and Madison streets has been the event of the week from a real estate standpoint. Early in the year H. H. Kohlsaat sold the fee of the miniature lot which forms the corner of a corner to Mr. Field for $200,000. The sale was not announced when made for fear of the possible effect that the announcement might have on the pending negotiations for the Washington street frontage. No transfer of title was recorded and the entire purchase was so quietly managed that in all probability the public would have received no intimation of a change in ownership but for a recent assignment of insurance policies. However, within a few days a transfer will be recorded which will give Marshall Field title to the highest-priced piece of real estate in Chicago. The lot has a frontage of twenty feet and is but forty feet in depth. Each of the 800 square feet in the lot costs Mr. Field just $250. Front foot figures would have no significance but the fact that the purchase price is equivalent to $1.75 for every square inch emphasizes the characteristic feature of the sale. The price so far overtops other unusually high valuations that it practically stands alone. The sale aside from the remarkable valuation it establishes, is of interest on account of the principals in the transaction. Marshall Field's position as an in season and out of season bear on city real estate is so well known that his action in buying a corner at a price 60 per cent higher than anything in Chicago ever brought, has surprised owners and agents. A number of brokers since the sale was announced have admitted that they would not have had the temerity to offer such a property to Field.

From another standpoint, however the transaction is shorn of some of its romantic features when it is considered as a means of loaning $200,000 for ninety-nine years on good security. The property is bought as a fee and is under a ninety-nine year lease to the Inter Ocean Syndicate. The annual rental is $10,000 or 5 per cent on the purchase price. It is commonly reported that Marshall Field has something like $2,000,000 each year to invest in real estate and is consequently always in the market for eligible fees that will bring in 5 per cent. The valuation of $250 a square foot was in a certain sense established when Mr. Kohlsaat in 1889 leased the corner. The purchase of the fee at par supplements the lease in squarely establishing this unusual figure. When H. H. Kohlsaat bought the corner in fee simple for $150,000 no one was more ready to criticise his judgment than Marshall Field. Now, however, he pays a bonus of $50,000 to secure the same property as a fee. Mr. Kohlsaat's experience with the corner has been of the most satisfactory character. He purchased the lot in 1889 from William Y. Daniels for $150,000, and turned in as part payment a lot on Dearborn near Harrison street at a profit of $8,000. When he made the ninety-nine year lease to the Inter Ocean company he cleared $50,000 from an investment standpoint. The amount can now be fairly put on the right side of his profit and loss account with the corner.

If the deal which has been made between H. H. Kohlsaat and Marshall Field indicates anything, it indicates that goood fees which will pay even 5 per cent are in good demand and are hard to obtain. It has been known for months that Marshall Field is constantly in the market for good fees. The Chicago University has had some difficulty in placing its investment funds at 5 per cent. A few years ago investors required property which promised 6 per cent. Now they are satisfied with 5 and it is a common opinion that investment rates will go lower. In fact, during the week, a real estate loan was offered on the best of security at a 4 per cent basis and was not taken. The people who insist on capitalizing down town property on a 6 per cent instead of a 5 per cent basis are as far behind the time as those who continue to estimate values by the front foot instead of by the square foot.

DEAL INVOLVING ONE AND THREE-QUARTER MILLION DOLLARS.

In marked contrast to the transaction by which Marshall Field becomes the owner of the highest-priced piece of property in Chicago is the acre purchase which was made public during the week. The Chicago Associates who are practically L. F. Menage and a syndicate of Minneapolis and Eastern men, completed another of an interesting series of immense suburban acre purchases. A tract of 3,800 acres surrounding the village of Matteson has been purchased through Allen, Opdyke & Allen at a consideration of $1,739,000. Something like twenty-five holdings are included and a tract of regular shape extending along the county line has been secured. The location of the tract is almost identical in nature with that of the Chicago Heights tract which it adjoins on the west. Both are on the Outer Belt Line and the Joliet Cut-off railroads. The Matteson tract is connected with Chicago by the Illinois Central railroad while the Chicago Heights tract is given suburban service by the Chicago & Eastern Illinois railroad. The price paid is explained to some extent by the method in which payment is made. The Chicago Associates turn over $810,000 worth of Minneapolis equities. Part of this property is in the central portion of the city while the remainder is in the suburban district adjacent to the park and boulevard systems. The Matteson land will be developed as a manufacturing town site. This deal follows almost immediately two purchases made by L. F. Menage which were reported exclusively by the REAL ESTATE AND BUILDING JOURNAL. The first of these was the purchase of the east half of Section 3 in Worth, consisting of 314 acres on both sides of the Wabash railroad for $400,000. In part payment, was given $130,000 worth of Minneapolis real estate. The second purchase has only recently been closed and involved 2800 acres at Maynard. In that transaction, a body of land just east of the Indiana state line, at the junction of the Chicago & Grand Trunk, Monon and Pan Handle railroads was purchased for $568,760 and $200,000 worth of Minneapolis property was taken in part payment.

FORCES THAT OPERATE IN THE REAL ESTATE MARKET.

TWO KINDS OF BUYERS.

The man who buys property hap-hazard, anywhere and everywhere, partly because others do so and partly because he can buy cheap, represents one kind of buyers and by far the most numerous class.

The other class study the forces that operate in the market, its trend and direction of greatest development and are thus enabled to take advantage of a future rise. These purchase slowly and judiciously, if sometimes dearly; those hurriedly and often thoughtlessly because others do the same. Among the forces that operate in the market at the present time are: the rise in the rents in the city and the threatened or prospective rise again next May, and the filthy condition of the streets of Chicago together with poor accommodations in the lower grade of tenement houses. In one little suburb by actual count it was found that six out of every ten families who had settled there had been tenants in the city, but who are now building homes for themselves, and the remainder were single persons, mostly young men, who had been boarding with the new comers. The dirt and especially the torn up and muddy condition of the streets were contrasted with the pure sweet air of the suburbs and the green grass which is always clean, cool and refreshing. Bad as the roads are nature has made them about as good as the majority of streets in the city.

To be poor and proud is a little bit distressing and these afflict the majority of all respectable people who must depend upon their own exertions for a living. Such persons will not live in a metropolitan neighborhood where lots can be bought for $1000 or less, nor can they afford to own a home on a first or even a second class street where it costs from $20,000 to $100,000 to possess one. Hence they go to the suburbs as the only avenue of escape from dirt, noise bad water, high rents and costly living, and when once there are compelled to buy a lot and build because it is a well known fact that there is a scarcity of houses in desirable suburban towns. This will have a direct effect upon rents in the city and help to keep prices down, but does not make a particle of difference in the prices of high grade residence property.

THE MIRAGE IN THE MARKET.

The actions of buyers are as was said by Mahomet about the actions of the unbelievers, like the Sarab of the Plain. He who is thirsty takes it to the water and finds it to be nothing. Thus it will be with that class of buyers who now declare that the World's Fair is to blame for the dullness of the real estate market, because they see a reaction already from the premature boom of one and a half years ago. They assert confidently that there will be a slump in prices after the World's Fair and refuse to be cojoled into any other belief. They are relying on the mirage ahead of them which will dissolve and disappear with the rapid growth of the city even after the World's Fair is gone. He who bases his calculations upon a temporary thing, must buy early and sell quickly to avoid the reaction which is sure to come as soon as the temporary force is removed. But the reaction has already come and no fancy prices are being paid for any thing but central holdings and the choicest residence property.

ADVICE TO PURCHASERS.

The great majority of real estate men lay the blame for the inactivity in the real estate market at the door of the weather, but one of the leading business men expressed the opinion to a reporter of the REAL ESTATE AND BUILDING JOURNAL, that as bad as the weather has been, a great deal of blame is due to the effect of the World's Fair upon the public mind. According to this gentleman's theory would be purchasers are holding off awaiting a big drop after the closing of the exhibition. Of course, as all men who are at all posted on the situation, know this is a mistaken idea, of which the public mind should be ridden as quickly as possible. On the contrary Chicago real estate is more than likely to greatly increase in value after the excitement and flurry of the great exhibition is all over. All natural laws point to such a conclusion. There will undoubtedly be a great deal of money made by store keepers and business men generally during the Fair, which will of course make purchasers and consequently create a demand for real estate investment, and so insure good prices. The fact cannot be too strongly impressed upon the minds of the would-be-investors that this is the accepted time to purchase, whether for a home or investment. Buy now while owners are anxious to sell, and profit by the opportunity.

DEMAND FOR MEDIUM-PRICED HOUSES.

Homes costing in the neighborhood of $3,000 are in greater demand than cheaper property or more costly residences ranging in values from $10,000 to $50,000. The latter kind are generally built by people of means who first secure a site for a home with great care and then build according to their own tastes and requirements. The era of shanty building has passed, or in a great measure become unnecessary and unpopular with the poor. The cheapness of money and the extensive operations of building societies are mainly the cause of this improved condition of the poorer classes. In fact it is the policy of the subdivider, the money lender and the building societies to encourage a higher grade of improvements, in order to make the security better and enhance surrounding property. This growing tendency has become so general that it is adhered to as a principle by all concerned and may be regarded as an index to our common prosperity. Even on obscure streets, long held back by the lack of improvements and a want of enterprise on the part of property owners, we now see three, four and five story buildings that provide all needed comforts and conveniences for business and residence purposes. Cheap tenement houses are going out of use; so also high-priced houses for rent. The former are superseded by low-priced flats and the latter by high-priced flats, apartment houses and family hotels, while the more thrifty and frugal families go to the suburbs and build themselves a home or join the legion of Building and Loan associations. During the years of 1881 to 1887 a number of costly and elegant houses were built throughout the city, some of them on Washinton Boulevard that could not be rented for less than $75 to $100 per month with profit, and they stood idle until they were sold or until their owners decided to let them at a much lower figure. Why, a cashier of a bank or a superintendent of a railroad could not afford such extravagance. And then came a compromise; the easy payment plan was introduced and the high-toned tenant became a purchaser on monthly payments and henceforth reaped a profit on his own capital, besides realizing the increase in values caused by the growth of the city. Money saved is money earned, and money brings money if rightly used. It is better to buy on monthly payments than to pay rent. What the poor man needs is a "nest egg" in the shap of a home. If the conditions are favorable he will not be long in becoming a capitalist, so to speak. Medium-priced houses in the suburbs of Chicago costing from $2,500 to $3,000 can be sold if well and honestly built, because they meet the wants of a numerous and desirable class of people.

EXCURSIONS AND AUCTIONS.

Excursions and auctions appeal to a class of buyers who can not be reached or obtained in any other way. The vast majority of working people are too much occupied with their daily labors and domestic affairs to spend the time required to look over the ground and make a judicious selection of a lot suitable for a home. They are enabled to kill two birds with one stone, so to speak, because they gain in one trip, recreation and a knowledge of suburban property. The subdivider, or the promoter of a new town is sure to sell enough property to pay his expenses in getting up the excursion, and if his enterprise is a worthy one and his land desirable the people learn to like the place as it becomes more and more familiar to them and they begin to think more seriously of making it their home.

In last week's JOURNAL a page advertisement announcing a great auction sale was published, together with editorial mention of the fact, and as predicted by the advertiser and others who know the value of the JOURNAL'S endorsement in such cases, the excursion and the auction were successful. No larger crowd ever attended a real estate auction in Cook county than the one that went to Franklin Park on last Sunday.

Chicago Heights has been made a success by judicious advertising and skillful management, and the REAL ESTATE AND BUILDING JOURNAL can justly claim to be a prime factor in the success of this great and thriving town. Western Springs has been made famous not alone on account of its beauty, sparkling water and high elevation, but by the continued announcement of these things in the REAL ESTATE JOURNAL. The buying classes, not excepting people of moderate means and laboring men are beginning to learn the value of reading this paper because thousands have already made money by following its advice. It has the reputation of being conservative, and of truthfulness. It prints only important news in its editorial columns and arranges all common place matters under the head of "Agents' Budget." It deals in facts, not romance. The public know it.

THE DRAINAGE BOARD HAS A SESSION.

On Wednesday there was a session of the drainage board to award contracts on the main drainage channel below Willow Springs. Mr. Cooley, chairman of the joint committee on engineering and finance, which has been considering the bids, reported for the committee that they had been unable to thoroughly investigate the subject in time to make a report and asked for further time. The committee was given until Saturday to bring in its report, and the board will hold a special session at that time to hear it. A meeting of the joint committee was held at which a

vote will be reached. An amendment to the rules of the hoard was passed allowing a minority, in case a quorum is not present at any regular meeting, to call a special meeting.

Attorney Carter presented a report of expences in his department for May as follows: The total for salaries was $1,505; for stationary $18; sundries,$4.19; court costs in Will county, $26 70; office expenses $225; right of way expenses, $708.26; abstract, $1,690; abstract of Artingstall route, $18,300; E. A. Cummings for right of way on Artingstall route, $525; total $23,002 15. The expenses of the district for the week ending June 15, amounting to $3,755 35, were ordered paid. There were present Messrs. Eckhart, Cooley, Boldenweck, Wenter, Altpeter and Gilmore.

The joint committee met a delegation of stone men from Lockport and Joliet Thursday morning and made an effort to arrive at an equitable price out of court for the lands owned by the Illinois Stone company along the route of the canal.

EXAGERATED REPORTS OF ALLEGED MANUFACTURING PLANTS.

The JOURNAL has invariably given a fair and impartial account of all manufacturing plants where they were backed by money and responsible men. As soon as the Washburn-Moen works at Waukegan became a fixed fact their grounds were shown on the North Shore maps published by the JOURNAL and a full history of the compauy together with full particulars of the new works. But the announcement of the purchase of the land was made many weeke previous.

A short time ago several prominent and wealthy men of this city engaged in the business of subdividing and promoting manufacturing towns,complained to the JOURNAL that irresponsible persons and land associations were doing a business that would reflect discredit upon substantial and worthy enterprises. These were enumerated; the syndicate of women, or Woman's Land Association operating in the vicinity of Waukegan, another similar affair that was operating south of Hinsdale and a wild-cat scheme located about four miles from Harvey. The JOURNAL took some pains to investigate these alleged land operations and found that they were not likely to succeed, and also learned that other schemes for catching "suckers" were on foot as well as the Women's Land associations. The severe trials that then beset all real estate men would but be aggravated by a severe criticism of the kind demanded, and the JOURNAL allowed them to pass unnoticed at the time. Again it is stated that land speculators are at work in the vicinity of Waukegan.

THE NICHOLS CHEMICAL CO.

of New York as previously reported by this and other Journals have been negotiating for a small tract of land at South Waukegan for the purpose of building a Western branch of their works. For fear that this was another "fake" to sell lots, the newspapers withheld further mention of the affair. The purchase of the land has at last been consummated but the exagerated story about the works to be built there is simply an advertisement by a real estate firm to sell lots.

SPECIAL ASSESSMENTS.

Is there any remedy for the growing abuse, in Illnois cities of the dangerous power of "special assessments" and "special taxation?" Must owners of property "stand and deliver" whatever amount may be demanded by aldermen, behind the words of an ordinance, for an alleged local improvement, without other alternative than submisssion to the confiscation of their property?

The Illinois statute seems to have been designed to facilitate the worst abuses of this dangerous power, by requiring no other basis for its exercise than the arbitrary dictum of an aldermanic majority. True, this dictum must be emitted in the form of an ordinance; but no other basis of an ordinance to take the property of the citizen on a special pretence of benefitting him is required, than the wish to take it by the fellows that vote for the taking. No preliminary survey, no condemnation of a work to be renewed, no declaration of any public or local necessity, no petition, no estimate, no basis of proceeding of any kind, is required.

An ordinance or order is "necessary as a jnrisdictional matter," says Mr. Ch. Justice Elliott (in his treatise on Roads and Streets, p 385). But, it is not necessary, "unless required by the statute," that the ordinance shall predicate any need of the improvement, and the Illinois statute contains no such requirement. "The adoption of the ordinance is a sufficient declaration of the necessity for the improvement," although in fact there may be no such necessity. "If, however, the statute specifically requires that the ordinance shall state the grounds on which the local authority proceeds, they must be set forth or the proceedings will fall before a direct attack." (Hoyt v Saginaw, 19 Mich 39; S. C. 2 Am R. 76; Elliott Roads and Streets, 385.

We cite further from the very able work of Judge Elliott: "The words of a statute assuming to grant authority to levy special assessments will not be extended by construction, for as against the corporation asserting the authority, the construction is strict, and nothing in its favor will be intended exeepting such matters as are clearly implied from the express words of the statute. It is indeed, the general rule that municipal charters are to be strictly construed but the rule seems to be even more rigidly enforced in cases where the right to impose a burden on private persons is claimed, than in cases of a different class, and the courts have sternly kept corporations within the limits of their charters in all cases where a right to levy a special assessment is involved..... There is no elasticity in such statutes, and it is beyond the power of courts to stretch them so as to make them cover cases not fully and clearly within their scope. (p. 371.)

Nevertheless, there is at this moment before the aldermen of Chicago a project to levy special assessments or special taxes for cleaning and sprinkling the streets—things that no possible ingenuity of construction can bring within the meaning of "local improvements."

That the growing abuses of this dangerous power of special taxation may be restrained by proper legislation is plain. Probably an effective remedy would be found in an amendment of section 1 of article 9 of the city charter act, so as to require that every ordinance for a local improvement to be made wholly or partly by special assessments or special taxation shall declare a necessity and set forth the grounds constituting the necessity for such improvement. Such a restriction is found in the statutes of some of the more prudent commonwealths, and ought to be embodied in the law of Illinois where the grossest abuses of this dangerous power, amounting to the confiscation of private property, are now practiced with impunity.—Legal Adviser.

This is putting it pretty strong but is in line with the JOURNAL'S position on this important and much abused subject. Reform in special assessments is what we need.

TRADE AND LEGISLATION.

The rapidity with which trade and commercial organizations have spread in the United States during the past few years may be taken as an evidence that they are serving the various purposes for which they were designed. Not the least important of the objects of boards of trade, chambers of commerce and kindred bodies made up of business men is to influence legislation in the interest of the people at large, and the results which they have achieved in this direction have been and will doubtless continue to be uniformly beneficial to the masses. A register of the commercial organizations of the whole country is kept by the New York Board of Trade and Transportation. It shows that there are 1,066 bodies of this class now in existence in the various states and territories. Three years ago there were, according to the report of the bureau of statistics, only 506 organizations of this character. That their number should have more than doubled in so short a time shows that their advantages have been widely recognized. New York heads the list of states with 150, Massachusetts has eighty-nine, Pennsylvania eighty-two, Ohio sixty-eight, and other states follow as a rule in the order of their population and the extent of their commercial interests. Nebraska is credited with only ten, but there are nineteen states and territories that have a smaller number.

Although the chief function of these organizations is the promotion of commereial prosperity in the communities in which they exist, their influence is often exerted in behalf of legislation in which the people at large have a common interest. They are entirely composed of men whose interests are inter-dependent and who are necessarily solicitous for the common welfare because their own prosperity is staked upon that of the general public. Trade organizations are composed of elements so diverse that they could not combine in the interest of class legislation inimical to the common welfare if they should try to do so. Hence it follows that the recommendations of trade organizations have great weight in congress and in the various state legislatures, and as their number grows this wholesome influence will be extended. This is an era of commercial activity in which business interests predominate over all others, and every agency that helps business helps the people at large.

But a chamber of commerce or a board of trade is not alone influential in behalf of legislation directly related to material prosperity. Such organizations may and often do bring their power to bear upon the makers of laws in the interest of the public welfare in directions wholly unrelated to commercial affairs, and doubtless their usefulness will be yet further extended as their representative character becomes more generally recognized. The legislator who is guided is in his action by the wishes of such organizations cannot go far astray.

PARKS IN VARIOUS CITIES.

POPULATION COMPARED WITH ACRES OCCUPIED.

	Population.	Acres.
London	3,832,000	22,000
Paris	2,270,000	58,000
Berlin	1,122,000	5,000
Vienna	1,100,000	8,000
Brussels	380,000	1,000
Amsterdam	350,000	800
Dublin	250,000	1,900
New York	1,840,000	4,900
Philadelphia	975,000	3,000
Chicago	725,000	3,000
Brooklyn	665,000	900
St. Louis	400,000	2,232
Boston	400,000	2,000
Baltimore	355,000	832
Cincinnati	325,000	539
San Francisco	325,000	1,181
Washington	225,000	1,000

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

Among the strong financial firms doing business on the Chicago Stock Exchange may be mentioned the house of Lobdell Farwell & Co. They have lately moved into their new quarters on the main floor of the Owings Building at the southeast corner of Dearborn and Adams streets and are advertising their old quarters across the hall for rent. They make a specialty of commercial paper and collateral loans to members of the Stock Exchange and Board of Trade, to both of which organizations they belong. Their mortgage loan department is under the management of Charles C. Whitacre, a well known gentleman in the financial circles of Chicago. He possesses the happy faculty of doing business to the satisfaction of his house and its customers.

The premises number 793 Washington Boulevard have been sold for $22,500 by Mr. J. Young, whose office is at 1237 West Madison street. The same firm has also sold the next 22 feet west of said premises for $7,700. Both deeds have been recorded.

Marshall Field evidently believes in Chicago real estate and that it pays to own it. He has purchased the fee of the northwest corner of Dearborn and Madison streets, from H. H. Kohlsaat for $200,000. Mr. Field, by his purchase secures a 5 percent investment of absolute security, the property being leased to the Inter Ocean Building Company for ninety-nine years from May 1, 1889. Mr. Field has been successful in all of his land and realty operations and will undoubtedly be a buyer in the market for some time to come. The brokers are watching his movements and the actions of his agents.

Matthew Laflin has leased to Charles Marsh for ninety-nine years, at $12,000 per year, the southeast corner of Wabash avenue and Randolph street. The ground fronts 48 feet on Wabash avenue and extends back 83 3-10 feet on Randolph street. By the terms of the lease the ground is shown to be worth a little more than $4,000 per foot on Wabash avenue, estimated at 6 percent. On the 5 cent basis the property is valued $240,000, or $5,000 per foot for the frontage named, or a little more than $61 per square foot of area.

The trustees of the Northwestern University have decided to close out their large holding in Evanston real estate, and invest the proceeds in more productive interests.

The Lake Forest University is about to erect an academy to cost about $100,000. It is to be built in the novel

form of a semicircle of two and three story buildings. There is some talk of the erection of a chemical hall in the near future to cost in the neighborhood of $75,000.

Bids are to be advertised for the erection of a $50,000 pavilion at Humboldt Park.

Permission has been received from Washington to bridge the south branch and the canal at Western avenue, to complete the West side boulevard system.

The Kenilworth Company by their secretary, Charle S. Smith, reports sales at Kenilworth to S. B. Mason of the Crane Elevator Company, and W. B. Clancy, of A. H. Andrews & Co.

The Metropolitan "L" Road Company has begun condemnation proceedings to obtain its right of way and the suits will be pushed rapidly.

A company has been formed and application made for incorporation papers, to erect a large hotel at Seipp avenue and Seventy-third street.

Now that it seems probable that the Real Estate Board will establish a system of auction sales, a number of members have announced their willingness to bid for the exclusive auction privilege. There is a strong feeling however, that the privilege should not be granted to any one firm, but arrangements should be made so that as many firms as may desire can obtain booths in the board rooms, to exercise the privilege of selling realty at auction. Such an arrangement will save the auction sales from becoming merely a private enterprise, and will give them the prestige of being backed by the board.

A syndicate headed by William Bohlin will erect a four story hotel at the southeast corner of Stony Island avenue and Sixty-ninth street. The building will have a frontage of 190 feet on Stony Island avenue and will be 120 feet deep. It is to be built of stone and brick and will contain about 200 rooms. $75,000 is the estimated cost.

Contractor Onderdonk expects to be able to celebrate the completion of the four mile tunnel within a few days. The engineers estimate that there will be but one inch deviation in the lines of the two sections when they come together.

Baker, Smith & Co., Steam Heating, through their manager, P. S. Hudson, report the following contracts completed: New Ashland Block, Northern Hotel and Woman's Temple. They will furnish the heating apparatus for J. W. Elsworth's new building; the Lakota Hotel, Thirtieth street and Michigan avenue, and the Groveland apartment building, and the new Browns Hotel at Denver, Colo.

A new apartment house to cost about $100,000, will be erected by Henry Vollmer, at the southeast corner of Ellis avenue and 43d street. The lot which is 150 feet square, has been leased by Mr. Vollmer for ninety-nine years at an annual rental of $2,750.

W. H. McNaughton & Co., have sold for Robt. G. Clarke premises No. 5127 Cornell avenue, 45x156 with two story frame house to Caroline A. Knapp for $10,000. The same firm have sold for Caroline A. Knapp No. 510 Jefferson avenue, 20½x150, with three story stone front residence to Clara Margarite Clarke for $16,000.

S. E. Gross reports that the sale of lots at Grossdale and Dauphin Park has been greatly stimulated by the large amount of buildings that are now being put in these two charming suburbs. At Grossdale houses are being put up all over the suburb costing from $1,500 to $3,500 and at Dauphin Park there is scarcely a block in which two or three buildings are not being erected. The following sales have been made: 53 lots at Grossdale for $17,345; 26 lots at Dauphin Park for $18,500; 12 lots at Ashland avenue and 47th street, $11,450; 15 lots at Gross Park for $10,750; 7 lots at Humboldt Park for $5,625; 9 lots at Avondale for $4,300; 6 lots at Oak Park for $2,750.

A syndicate of St. Louis capitalists have about closed with the owners of Probst's third addition to Oak Park for the purchase of blocks 1 to 5, in all about thirty-four acres.

The consideration of sale is $85,000, or at the rate of $2,500 per acre. When consummated, this sale will close out all of the addition.

Fred L. Boruff has sold $200,000 worth of property at Hinsdale during the past week, and reports a great activity in that locality.

Wm. A. Merigold & Co. report the sale of 50 feet on Drexel Boulevard 150 feet north of 48th street facing east for $21,250, being at the rate of $425 per foot. They also sold the premises 113 Albany avenue near Madison street for $3,200.

The thirteenth factory located at Harvey, J. Matthews Steel Boiler Mfrg. and foundry will have five brick buildings The boiler shops proper will be 65x200 feet, foundry 42x80, blacksmith shop 40x60, engine room 36x36, and a two-story office 42x24. These buildings will be completed about July 1st.

The Calumet Electric road now in operation on Cottage Grove avenue connecting with the cable cars at 71st street, run trains every ten minutes consisting of grip car and one trailer which are usually comfortably filled. There is an increasing demand for property along the line of this new road and rapid development and a corresponding increase in the value of property is predicted.

At Dauphin Park the demand for property has been especially stimulated by the opening of this new road and a large amount of property is changing hands at increasing prices.

RECENT DECISIONS OF THE APPELLATE COURT.

(First District.)

Real Estate Sale—Commissions.—Appellant having placed his property in the hands of appllees to sell at a fixed price and for an agreed commission, they were bound to exercise the utmost good faith toward each other. There is no evidence that appelles were the procuring cause of the subsequent sale of the lands to Peabody at a less price, though he had been the party to whom appellees referred appellant as a probable purchaser at the price first fixed. There is no evidence that appellees induced Peabody to afterward buy the property at the price finally paid. They did not accomplish the sale and are not entitled to commission. Mears v. Stone.

Laches.—As to what constitutes laches or acquiescence that will debar a party from equitable relief, which he might otherwise have had, is a matter concerning which there can be no definite rule applicable to all cases. Time alone is not to be considered, but all the circumstances attending both action and nonaction.

A made a mortgage in February 1876, to secure his two notes for $1,300 each, maturing in one and two years. He never paid anything on the notes or taxes or interest. In 1886 the owner of the notes sold the land under a power of sale in the mortgage, and the purchaser paid all taxes and made valuable improvements. More than four years after the sale the mortgagor quit-claimed his equity in the premises to complainant. The sale was one which might have been set aside upon application in proper time, but the circumstances show inexcusable delay on the part of complainant.

The party who challenges a sale on account of irregularities that may have intervened, must be diligent in discovering that which he alleges will avoid the sale, and diligent in his application for relief.

Insurance—Loss.—The damage to the property was occasioned by an explosion produced by the lighting of a match in the basement, which was at that time filled with illuminating gas. The damage was a damage by the explosion produced in this manner, and not a damage produced by the burning of the property insured.

A clause in the policy provided that if loss or damage occurred by reason of "lightning or explosion of any kind, unless fire ensues," the the insurer would not be liable, etc. Held, the company not liable.

Party Wall.—Appeals on one record and one abstract from interlocutory order granting injunctions, no brief being filed in the second case, that appeal is therefore dismissed.

When a party wall becomes unsafe the party who takes it down without the consent of the other, must exercise reasonable care to do his neighbor no unnecessary harm, but the support which the building of the neighbor needs in place of the wall, the neighbor must himself provide. The whole duty of the party taking down the wall is negative. When the right to support by the wall ceases, the owner of the building needing support must provide it. Whatever may be the necessary consequences of taking down the wall, must be guarded against, or suffered by the appellee. Injunction dissolved.

Forcible Detainer—Injunction.—Whether the tenant is entitled to damages for an injunction sued out to prevent him from using the premises for dram shop purposes, is the question now before the court.

On principle, for maliciously suing out an injunction, that is afterward dissolved, but was injurious while it was in force, a common law action will lie, but here there was no offer to show malice and want of probable cause, essentials in actions of that class. If these essentials are absent the only remedy is such as the statute, or a bond may give.

In actions upon contracts, and a distress for rent is of that class, the counter claim or matter of recoupment, must be such that a defendant may maintain an independent suit for it. As defendant could not sue appellee for the supposed damages, he can not recoup them in this suit. Crate v. Kohlsaat.

Bill to Set Aside a Deed—Relief to Complainant Under Cross-bill.—On bill by a party to set aside a deed to two lots, only as a cloud on title, and cross-bills by the defendants to redeem a tract of eighty acres, in which the lots were included, from a sale under a deed of trust, the court, in addition to the relief prayed in the original bill, confirmed the title in the complainant in the original bill to the entire tract, against persons who were not parties to that bill, and against whom no relief was prayed in the original bill: Held, that the decree granting the original complainant relief under the cross-bills was erroneous.

When a decree is rendered under a cross-bill, giving the complainant the right to redeem from a trust deed, and a sale thereunder, upon the payment of the sum found to be due on the trust deed, by a day named, it is entirely competent for the court to further decree that upon failure of the complainant in the cross-bill to pay the amount required to redeem, his cross bill to stand dismissed; but it is error for the court to go further, and assume to grant affirmative relief to the complainant in the original bill, as to land and against persons in respect of which his bill seeks no relief.

A complainant in an original bill can not have affirmative relief granted to him by virtue of anything contained in cross bills filed, or upon his answer thereto, or against parties not defendants to the original bill, or in respect of property in regard to which no relief is sought in such bill.

Practice—after reversal and remandment—directions to be followed.—Where a decree is in all respects affirmed by this court, except in so far as it grants affirmative relief to a defendant in a cross-bill not asked in his original bill, but in that respect is reversed and the cause remanded, with directions to modify and amend the decree so as to conform to the opinion of this court, and on remandment the court amends its decree partially, but not to the extent indicated by this court in its opinion, the decree as amended will again be reversed and remanded, with directions to the court below to modify the same, as before directed. (Roby v. Calumet & Chicago Canal & Dock Co. Ill Sup Co, Mch 30, '91. 137 Ill, 289.)

PLANS BY CHICAGO ARCHITECTS.

Architects Ostling Bros., have completed drawings for flat building to be erected at 117 Sedgewick street for Mr. A. Schroeder, 25x56 feet, four story and basement. The basement and first floor will be of rock faced stone, the superstructure of St. Louis pressed brick with stone trimmings. The facade will be improved with ornamental copper bays and cornice. The approach will be by a flight of stone steps leading to recessed entrance. Cost $15,000. Also block of stores and flats at the corner of North Halsted and Diversey for Mr. J. J. O. Donohue, 50x134 feet, four stories and basement. Separate entrances being provided for the flats. The front will be rock faced stone for the first two floors, the superstructure being of pressed brick with stone dressings, with fronts of wrought iron columns and girders, plate glass, etc; cost $75,000. Also flat building for Mr. Peterson to be erected at 237 Townsend street, 25x65 feet, four story and basement. Pressed brick and stone. Hardwood finish and all the latest arrangements; cost $12,000. Also flat building at 112 Schiller street, for Mr. Charles Kallborn, 26x50 feet, three story and basement. The front will be of pressed brick with stone trimmings, galvanized iron cornice and gravel roof. Plate glass, etc., and timber porch; cost $7,000.

Architects Pond & Pond have completed arrangements for spacious apartment building to be erected on Woodlawn avenue near Fifty-first street, for Mr. J. A. Miller, 50x85 feet, three story and basement. The front will be of St. Louis pressed brick with cut stone dressings. Tile paved vestibule, plate glass, and the latest devices; cost $25,000.

Architect Gregory Vigeant, spacious flat buildings to be erected at the corner of Midway Plaisance and South Park court, for Mr. Bennett. The facade will be of pressed brick with cut stone dressings. The interior will be conveniently arranged into twenty-eight flats, and supplied with the most modern equipments; cost $55,000.

Architect D. A. LaPointe—Flat building to be erected on Walnut street, between Kedzie and Homan avenues for Mr. Ferguson, 25x65 feet, 3 story with basement. Pressed brick and stone; cost $10,000. Also apartment building on Fulton street for Mr. Brady, 25x60 feet. The front will be of pressed brick and stone; cost $16,000. Also flat structure to be erected on Seminary avenue, near Belden avenue for Mr. Peter Walker, 24x55 feet, three story and basement. The facade will be of St. Louis pressed brick with cut stone dressings, galvanized iron cornice, etc., cost $6,500. Also spacious flat building on Sacramento avenue near Walnut street, for Mr. J. Perry, 40x60 feet, two story and basement. Modern improvements. Cost $15,000.

Architect L. Gustav Hallberg has completed drawings for block of stores and flats on North Clark street, near School street, for Mr. Darkley S. Talbot, 60x100 feet, five stories and basement. The facade will be of selected pressed brick with cut Bedford stone trimmings, galvanized iron cornice and bays and gravel roof. The stores will be fitted with modern fronts with iron columns and bressummers; cost $30,000. Also apartment building on Sidney court near Rightwood avenue for Mr. Theo. Theis, 35x75 feet, three story and basement. The front will be of pressed brick with stone trimmings and mansard roof. The interior will be finely finished and replete with every convenience. Steam heat; cost $15,000.

Architects Flanders and Zimmerman—Designs for spacious block of flat buildings to be erected on Ashland boulevard near Lake street for Mr. William Griswold, 100x76, four stories and basement. The front will be of pressed brick with cut Bedford stone trimmings, and copper cornice and bays. Plate glass and all the latest improvements. There will be four separate buildings; cost, the block, $60,000. Also fine hotel to be erected on Sixty-third street, near Prairie avenue, for Dr. G. Chamberlain, 65x100 feet, seven story with basement erection. The facade will be of St. Louis pressed brick with cut stone trimmings, copper cornice and bays and composition roof. There will be two stores attached. The hotel will be furnished with usual conveniences in shape of restaurant, cafe, reading room, barber's shop, etc. The hall will be laid with mosaic flooring and Mexican onyx wainscoting. Quick service elevators will give access to all the floors. Steam heating and electric lighting; cost $100,000. Also flat building on Rhodes avenue near fifty-third street, for Mr. G. Brown, 38x61 feet, three story with basement. The front will be of cut stone, improved with recessed entrance

approached by stone steps. Entire modern outfit. Cost, $15,000. Also hotel to be erected on Stony Island avenue, near Sixty-fourth street, for Mr. W. F. Richardson, 75x100 feet, three story erection. The building will be temporary for purposes of accommodation connected with the forthcoming World's Fair, and will be of framed construction; cost $10,000. Also block of three flat buildings on Maryland avenue, near Sixty-fourth street, for Mr. B. F. Dradburn, 50x65 feet, three story structure. The front will be of pressed brick with cut stone dressings, copper cornice, etc.; cost $22,000.

Architect Jamson and Newman have prepared designs for block of stores and flats to be erected at the corner of Harrison street and California avenue, for Mr. McGrath, 50x75 feet, three story with basement. The front will be of Bedford stone, with copper bays and gravel roof. All the latest improvements and hardwood finish. The stores will be fitted with modern fronts with iron columns and bressumers. Plate glass, etc. Cost $20,000.

Architect Wm. Ohlhaber has completed arrangements for block of stores and flats to be erected on North avenue, for Mr. Ohlhaber, 48x65 feet, four stories. The front will be of St. Louis pressed brick with cut Bedford stone trimmings, galvanized iron cornice and bays and gravel roof. The stores will be fitted with modern fronts with iron columns and bressumers. Plate glass; cost $12,000.

Architect Fred Ahlschlager has prepared plans for hotel on Madison avenue, near Jackson Park, for Mr. A. B. Wilcox. The building, which will be of frame work, will consist of three stories and basement and cover an area of of 44x150 feet; cost $15,000. Also handsome church in the Gothic style for the Swedish Congregation, to be erected at the corner of Fifty-fifth and Atlanta streets. The exterior will be of selected pressed brick and stone and slate roof. The interior will be provided with choir loft, galleries, etc., and have a seating capacity for 1000 persons. In the basement provision will be made for school and classrooms; cost $25,000. Also flat building to be erected on South Green street, near Sixty-third street, for Mr. John Brenkman, 22x50 feet two stories and basement. The basement will be of stone, the superstructure of framed work; cost $3,500. Also flat building at the corner of Lincoln and Thirty-first streets, for Mr. J. L. Hoeber, 25x75 feet, three story and basement. The facade will be of St. Louis pressed brick with Bedford stone dressings, galvanized iron cornice and gravel roof. Plate glass and modern sanitary arrangements; cost $10,000.

Architect J. F. and J. P. Doerr have completed arrangements for block of stores and flats to be built on the corner of Wentworth avenue and Thirty-first street, for Mr. Peter Leddig, 40x125 feet, four stories and basement. The front will be of selected pressed brick with cut stone trimmings. Hardwood finish. Stores will be provided with modern fronts. Plate glass, tile paving, etc; cost $40,000.

Architect J. E. O. Pridmore has completed designs for double flat building on Calumet avenue, between Forty-second and Forty-third streets, for Mr. Joseph Cormack. The building will be four stories and basement high and cover a ground area of 50x75 feet. The front will be entirely of stone. The interior will be finished in hardwood, and heated by steam. Plate, ornamental and art glass, tile paving; cost $18,000. Also plans for transforming residence on the corner of Vernon avenue and Thirty-ninth street into flats, for Mr. C. H. Powell. The interior will be entirely rearranged and redecorated, and an entire new arrangement of sanitary plumbing provided. The front will be improved with porch and whole newly painted, etc. Cost $5,000.

Architect Francis J. Norton has completed drawings for a handsome three story brown stone residence, 25x180 feet to be erected at forty-fifth and Grand boulevard for Mrs. Mamie Hayes. It will be finished with plate, stained and art glass, hard oil finish and all sanitary electric and modern improvements; cost $25,000.

OUTSIDE BUILDING NEWS.

ALABAMA.

Dadeville—A $5,000 school building will be erected in Dadeville. H J Gillam can be addressed.

Montgomery—Figh & Williams have contracted for the stone building for McIntyre Bros. Architect McGrath furnished the plans and the cost will be about $18,000.

New Decatur—Architect Geo. W. Laine is making plans for a residence for E. D. Henderson; cost, $4,000. Also plans for several cottages and sketches for a block of six houses. To be built of brick, with stone trimmings.

ARKANSAS.

Little Rock—W. R. Casey has been awarded contract for building the Reider Block. F. W. Gibb is the architect, and the estimated cost is $35,000.

DISTRICT OF COLUMBIA.

Washington—A bill has passed the Senate authorizing the District commissioners to build a market-house to be used as a flower market and to cost not more than $30,000.

FLORIDA.

St. Augustine—J. A McDonald has contract for building the residence for H. M. Flagler, of New York. Carrer & Hastings, of 44 Broadway, New York, are the architects.

GEORGIA.

Augusta—J. H McKenzie has received contract at $15,792 for the Oglethorpe Armory.

Rome—J. S. Veal will receive plans and specifications for an edifice for St. Peter's Church, to cost not more than $10,000.

KENTUCKY.

Ashland—The Chesapeake & Ohio Railroad Co. (office Richmond, Va.) will build a passenger depot and office building, also a freight depot.

Middlesboro—Phillips & Titus are, it is stated, having plans, prepared by Architect Sybrant for a brick block.

LOUISIANA.

Lake Charles—Alfred Muller, architect, Galveston, Texas, will receive proposals until June 18 for erecting the three-story brick building, 50x110, for the Calcasieu Bank.

New Orleans—The Illinois Central Railroad Co. (office, Chicago, Ill) will probably build a three-story freight depot. Building permit has been granted for a $20,000 structure at the Straight University.

MARYLAND.

Baltimore—The Auditorium Co. R. S. Albert, secretary, has invited competitive plans for a music hall. A site 200x117 feet has been selected.

Winchester—An engine house and hall will be erected for the fire department. The mayor can give particulars.

MISSISSIPPI.

Meridian—The First Baptist Church, lately damaged by fire, will be either remodeled at a cost of $10,000 or a new edifice built at a cost of $18,000. Rev. J. W. Bozeman can give particulars.

MINNESOTA.

Minneapolis—The Board of Education will erect a three-story brick school house; cost, $90,000. Mr. Allen, architect.

Minneapolis—George Van Dusen is about to erect a two and a half story fire proof dwelling to cost $45,000; Orff & Bros., architects.

NORTH CAROLINA.

Winston—W. A. Lemly and Joseph Jacobs will erect a four-story brick block, 92x72 feet.

Wadesboro—D. L. Parker will rebuild his hotel at a cost of $5,000. Charles C. Cook, of Charlotte, is the architect.

SOUTH CAROLINA.

Aiken—The Aiken Warehouse and Manufacturing Co. may build a warehouse.

Laurens—Robert H. Hudgens has contract for building an edifice for the Baptists. It will cost about $10,000.

Newberry—The Methodists intend building a church to cost from $8,000 to $10,000.

TEXAS.

Decatur—Contract for a building for the Northwest Texas Baptist College has been awarded to Ferrier Bros. & Wirz, of Seymour, at $24,557.

El Paso—It is understood that the following contracts for the new military post at El Paso will be let: All buildings except barracks to Geo. H. Evans & Co., of Topeka, Kans.; barracks, F T Stevenson, of Dallas. The aggregate cost of the work to be done is estimated at $250,000. Capt. George Ruhler can give particulars.

Houston—Plans are being prepared for a three-story brick hospital for the Sisters of Charity. The estimated cost is $20,000.

Houston—The Omaha & South Texas Land Co. is reported as to build in North Houston a hotel to cost between $60,000 and $70,000, and one to cost about $12,000, also a bank building.

Whitesboro—Contract will soon be awarded for building a two-story, 30x80 feet, city hall. Bristol & Son, of Dallas, prepared the plans.

TENNESSEE.

Chattanooga—Adams & Schneider have secured contract for the Temple Court office building. S. M. Patton is the architect.

Henry C. Beck will erect a four-story business and apartment building, with a frontage of 57½ feet. S. M. Patton will furnish plans.

Nashville—The Louisville & Nashville Railroad Co. (office Louisville, Ky.) has, it is stated, plans prepared for the erection in Nashville of union passenger and freight depots, at a cost of $1,000,000.

Paris—The Louisville & Nashville Railroad Co. (office, Louisville, Ky.) intends, it is stated, rebuilding its passenger and freight depots, roundhouse, etc., recently burned, at a cost of about $40,000.

Unicoi—The hotel lately noted will be built by the Unicoi Development Co., at a cost of $20,000. McDaniel & Stone of Bristol, have the contract.

VIRGINIA.

Appomattox—George W. Abbott will receive proposal until June 30, for rebuilding the county courthouse.

Newport News—The building committee of the First National Bank will receive proposals until June 18, for erecting a bank and office building. George C. Moses, of Norfolk, is the architect.

Newport News—W. H. Davis, of Norfolk, has awarded contract to Mr. Faber for the building of a two-story brick market-house, 90x40 feet.

Roanoke—It is reported that J. A. Plumbly & Son contemplate erecting a three-story brick business house, 75x110 feet, to cost $18,000, and the Gambrill Grocery & Milling Co. a three-story brick business block, 60x300 feet, to cost $35,000.

Roanoke—Contract for building an addition to the courthouse has been awarded to Menefee & Wade, of Buena Vista, at $5,950. Wilson & Huggins furnished the plans.

Richmond—The Van Dorn Iron Works, of Cleveland, Ohio, has contract for building a two story jail for Henrico county. It will cost $12,000.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

WHY
are more lots being sold in
HARVEY
than elsewhere?
BECAUSE
Lots are CHEAPER IN HARVEY, while at the same time they have the benefits from more improvements than any suburban town in the vicinity of the WORLD'S FAIR CITY. There are 9 FACTORIES IN ACTIVE OPERATION. 4 NEW FACTORIES ARE BUILDING. There are Parks, Trees, Sewers, Boulevards, Water Works, Electric Ry, Electric Lights, etc. There are 70 DAILY PASSENGER trains to CHICAGO, and the WORLD'S FAIR is but a few moments ride.
YOU CAN BUY a beautiful EAST FRONT Residence Lot for $200.
YOU CANNOT DO BETTER ELSEWHERE.
VISIT HARVEY AND BE CONVINCED.
Workingmen can pay for a home by working in the factories.
Free tickets, maps and price list gladly furnished by founders and promoters of Harvey.
The Harvey Land Association.
819 to 825 The Rookery,
Corner La Salle and Adams Sts., Chicago.

Western Springs

The Queen Suburb of Chicago

26 MINUTES FROM UNION DEPOT!

ON THE CHICAGO, BURLINGTON & QUINCY R. R.

56 TRAINS DAILY.

WATER, from the CELEBRATED MINERAL SPRINGS will be conveyed to all portions of the village.

A system of Drainage has also been adopted by the Village Board of Trustees, both water and sewer systems have been developed by Engineer Benezette Williams, and will be completed as speedily as possible.

These improvments make this suburb in all particulars, the most desirable about Chicago, as a place for Homes with schools and churches.

The train service is complete.

Rapid transit is a fact.

This location is 96 feet above level of Lake Michigan. The ground high and rolling. The streets are shaded by trees of more than 20 years growth, In fact the entire village is a beautiful Park. Lots can now be secured at prices that insures purchasers large returns for their money in the Near Future. All desiring Homes for their families, should look this property over before purchasing elsewhere.

Call and go out with us any day, and we promise to surprise you with the advantages and beauty of this place.

C. C. COLLINS,

Telephone 2868.

Rooms 60-61, 175 Dearborn Street.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

CHICAGO, MILWAUKEE & St PAUL R'Y., CO.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

In **FRANKLIN PARK** are thus combined

All the Essentials of an Ideal Home-Site.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,
HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

Finance and Trade.

The adverse conditions that hinder the progress of business throughout the country are regarded as only temporary save where life and property have been destroyed by the floods. The distraction caused by the National conventions and politics was short lived and if the campaign is conducted in a dignified manner by both of the old parties, no further disturbances will be experienced. By far the most serious feature of the situation in the West is the continuous heavy rains. If we are to judge by the press reports the effects have been disastrous in many of the States, but if are we to rely upon the returns furnished by the United States Bureau of Agriculture at Washington there is scarcely cause for alarm on the general condition of the crops. In Illinois and along the bottoms, some damage has resulted from the accumulation of water and the overflowing of rivers. The standing crops in such locations have suffered considerably, but the acreage so affected has not been great. In many districts, in the West and Northwest, the recent warm showers have been very welcome, and have materially advanced the condition of both wheat and corn. The latter crop has started somewhat unevenly, but with a favorable Fall a fair average yield may be expected. The heavy receipts of corn at Chicago and other receiving points show clearly that farmers have few misgivings as to the outlook for that cereal, else they would hold over for higher prices. In Nebraska and parts of Dakota the complaint is, if anything, of dry weather and excessive heat. Spring wheat which is being harvested in Southern Illinois, Ohio and Indiana and also at Kansas City and localities further South, is reported as generally satisfactory, and such as should justify expectations of a fair yield.

The talk of transferring the business in cotton futures to Liverpool is assuming some coherency. And the city on the Mersey is daily cancelling open options in cotton at New York held for the account of European operators, and transferring them to the ledgers of her own brokers. With the Hatch bill out of the way business may, however, be expected to promptly return to its accustomed channels.

Iron has touched the lowest level of prices at any time since the war. Pig iron at Philadelphia has fallen, since 1885, from $17.50 to $16.00 per ton, steel rails, however, have advanced from $26.00 to $30.00 per ton. The Southern furnaces have just succeeded in obtaining some heavy orders, but only by cutting down prices. In the Western mills labor troubles are threatened, and manufacturers are using every effort to supply customers before July 1. Structural ironwork is brisk, notably in the East, and higher rates are being secured. Some idea of the status of this industry can be obtained by glancing at the output of pig iron at Pittsburg. For the first six months of the current year the total output is placed at 4,750,000, compared with but 3,372,000 tons for the corresponding months of the pending year, an increase of 1,376,000 tons, or nearly 41 percent.

During the current week about $3,000,000 of gold will have left these shores for the other side. This gives $10,100.000 of gold for the fortnight. This is an unexpected and unexampled amount. Last year, under far more urgent conditions, the total exports of gold for June were but $15,800,000, or double that of normal years for the same month. Now that t the great parties of the country have declined to accept the principle of free coinage of silver, it may be expected that a firmer grip will be held upon the yellow metal. Meanwhile, the great Indian banks with headquarters located at London, are suffering heavily from the grave depression in silver. Only the other day the Hong-kong and Shanghai bank closed its doors with $45,000,000 liabilities, and now the Agra is reported in difficulties with $25,000,000 liabilities. As a result of this and other experiences, merchants trading with the East are clamoring for a cessation of further coinage of silver in India and the gradual introduction there of the gold standard. With all the nations of the world perciptating themselves upon the precious yellow metal, it will reqnire prudent financiering to avoid something very much in the nature of a gold panic. To show how the thing works against the American farmer, it may be noted that cables from the other side announce "Russia and India wheat depressed owing to Agra bank failure." New York and Chicago naturally respond and so prices fall, upon what might otherwise have readily developed into a strong bull market.

Business on Wall street during the past week, has been dull and without special features. The market has received its main snpport from Chicago where a strong bull clique has been formed in grangers. Cammack has been engaged covering some of his short lines, and the bears are disposed to leave off their hammering tactics, for a season. There has been a fair volume of purchases for investment, mostly in bonds. When Jay Gould predicts phenomenal crops of every kind for the United States, he speaks more or less, by the cards. But when he proceeds to assure his listners that Russia is doomed to another year of famine, greater than the last, he manifestly talks of something about which he knows nothing. The latest is that Russia will permit exportation of all grains except rye. This scarcely fits with Mr. Gould's assumption.

Chicago banks report a generally healthy condition of business, witn money in somewhat improved demand. Deposits continue, however, to roll in at a rate which more than offsets the inquiry for loanable funds. Call money has been obtainable as low as 3½ percent and Commercial paper has been discounted at from 4 to 5 percent.

At London no less than $3,000,000,000 are said to be seeking safe and profitable investments. During the week Canada succeeded in issuing a three percent loan at that financial center at 101½, and the subscriptions were three times in excess of those asked. Bullion at the Bank of England has increased £789,000, ($3,866,000); and the proportion of reserve to liability has advanced from 46.99 percent to 47.22 percent. The regular rate of discount retained at 2 percent but money is freely obtainable from outside houses at from 1¼ to 1½ percent.

The notion that part of the gold recently exported was destined for Spain, which country has just borrowed $35,000,000 at 4 percent, is a mistake. Spain is for the occasion being financiered from Paris. Our gold passes through Hamburg, enroute for Austria via Berlin.

ANALYSIS OF BANK CLEARINGS.

This analysis of the bank clearings is not intended to show the latest returns for they are wired separately to and from all the leading cities and collectively from New York City to all of the leading daily papers in the United States. But it shows something more important viz: the status of trade, in every section of the country, which does not change in a day, and the philosophy of the situation,

The following are the bank clearings for the week ending June 17, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

CITY.	WEEK ENDING JUNE 17, 1892.	WEEK ENDING JUNE 18, 1891.	PER-CENTAGES.

†Not included in totals.

Of the sixty-one cities available for purposes of comparison, no less than forty-five establish gains, while declining returns are at hand from but sixteen The aggregate gains $127,688,000, or 12.6 percent. Of this amount, the gain at New York city is $50,452,000 or 8.6 percent of its separate returns, thus leaving the gains for outside points at $77,236,000 or 18.3 per cent.

Of the first twenty cities on the list, all but one show quite substantial improvement. Minneapolis heads the list with an increase in bank clearings equal to 71.3 percent. Then Milwaukee, Omaha and New Orleans follow with gains of 40.1 percent, 37.5 percent and 36.1 percent, respectively. The exception is, once more, San Francisco, which declines 5.6 percent.

The declines are neither numerous nor important, being limited, for the most part to cities, which clear far less than $2,000,000 weekly. Among the most notable of these is the case of Duluth, which falls off rather sharply, viz: 22.4 percent. Galveston is another instance worth recording, if only by way of contrast with the highly favorable returns from that point some time ago, and which attracted considerable attention.

Chicago continues to make an excellent display, and may now be considered as firmly established in the second place, preceded by the Empire city, alone. In the week under consideration, Chicago bank clearings exceed $111,425,000, being an advance over the corresponding week of last year of nearly $24,000,000, or 27.5 per cent. Its lead over Boston is over $15,690,000, or nearly 16.4 percent, while Philadelphia is now hopelessly out of the race.

In comparing this year's bank clearings with those of the preceding year, one important fact must be constantly borne in mind. We refer to the system of bank clearings recently introduced on the New York Stock Exchange. Thus last week the clearings for the New York Stock Exchange footed up no less a sum than $135,000,000. If this were added to the bank clearings as given for that point, the difference would be considerable. When, however, this is made an argument against the claims of Chicago the case is quite different. If New York and Boston have separate systems of clearings for their Stock Exchanges, so has Chicago, not alone for its local Stock Exchange but for its Board of Trade transactions.

The steady growth in the volume of the United States bank clearings bear eloquent testimony to the fact, that trade, as a whole, is not suffering. All the indications are that business is steadily augmenting. Just now, there is a lull, owing to the attention of so many of the most active men, in all walks of life being concentrated upon the great political campaign ahead of the country. Yet, despite this fact, the figures before us indicate considerale and increasing activity.

Canada returns a decrease, from Montreal and Halifax, the only points available for comparison, of $676,000, or rather over 5.7 percent.

Continuing our analysis for the same weeks, but by groups of states we have:

	WEEK ENDING JUNE 17, 1892.	WEEK ENDING JUNE 18, 1891.	PERCENTAGE.
New Engl'd States.	$109,304,477	$ 92,479,155	Inc 18.2
Middle "	736,188,101	674,863,607	" 9.1
Southern "	37,087,244	33,008,343	" 12.5
Western "	44,961,549	37,851,636	" 18.7
Northwestern "	144,316,512	112,118,070	" 28.6
Southwestern "	40,229,636	35,168,612	" 14.
Far Western "	28,269,269	27,179,090	" 4.
Totals,.....	$ 1,140,356,788	$1,012,668,513	

We have here an uninterrupted record of gains for all the groups extending from the Atlantic to the Pacific and from the great Lakes to the Gulf of Mexico. The largest percentages of gain is in the Northwestern group, and the smallest in the Farwestern group. The New England States show up well, with an advance of over 18 percent. This indicates some return of activity in the great milling industry, which has for some time been complaining of languishing business. Agricultural prosperity is apparent in the figures from the Western and Southwestern groups, while those from the Southern states yield evidence that the outlook there has lightened materially. As already stated, the gain for the Middle states was .1 percent and would have been far greater but for the new arrangement as to the New York Stock Exchange clearings. The returns then must, as a whole, be regarded as wholly satisfactory.

FROM A NEW YORK STANDPOINT

The New York Clearing House aggregates reflect the reaction of business all over the country, responsive to the propitious weather and the improving aspects of the economic conditions. The loans have risen $968,000 and the deposits $22,000. The daily clearings have averaged $114 millions the last two weeks against $112 millions last year when the Stock Clearings were not in operation; so that the increase is averaged at more than $25,000,000. The surplus reserves are now $23,545,850, agaist $15,772,125 a month ago, $6,687,600 in 1891 and $4,910,375 in 1890. The specie has declined from the export demand to $102,945,900, against $104,035,800 last week, $60,504,400 a year ago, $76,237,900 in 1890 and $75,075,300 in 1889. The greenback reserves have increased to $56,120,700, against $55,159,200 last week and $45,853,300 in 1891. The statement is regarded as favorable, being made up on rising averages. The specie exports for a week were $1,950,166 of which Hamburg took $900,000 United States gold coin, Havre $500,000 and Liverpool $250,000. The total specie exports since January 1, are $37,678,304, against $67,597,066 last year, $13,411,728, in 1890 and $41,784,818 in 1889. The imports of specie were $60,041 for the week and $6,786,321 since January 1, 1892. Foreign exchange has a firmer tendency from the increase of the imports which are $3,396,980 more than those of last week. The aggregate is $11,670,118, against $8,081,804 in 1890 and $10,914,915 in 1890. The European demand for our securities and industrial investments is improving and the arbitrage bankers report the prospects auspicious for an impulse from this and other sources reaching the foreign exchanges so as to favor the stability and ease of the money market.

These propitious indications as to the movements of business are confirmed by the railroad reports and by the estimates of careful authorities that the crops this year will exceed $1,800 millions in value. The May railroad earnings also exceed expectation. The total for 143 roads is $39,067,814, against $38,242,992 last year showing an increase of $824,832. From January 1, to January 31, the earnings of 142 roads were $204,126,016 in 1892, against $101,529,058 the previous year, showing an increase of $12,596,958. The Southern traffic shows the most decline and irregularity, some of the causes of which are hopefully disappearing.

Measured by the general clearings of the banks similar evidence of irregular and growing prosperity appears throughout the country. The total for the last fort night was $2,098 millions, against $2,115 millions in 1891, the last week's gain exceeding 15 per cent. For Boston and New England the clearings for the first week in June were $100,749,736 millions, against $105 millions in 1891; for Chicago and the Middle—Western $140,633,829, against $126 in 1892; for New York City $599,308,943 against $668,526,534; for the whole country, $1,063,324,250, against $1,132 millions in 1891; and for the banks outside New York $478,815,307 against $464 millions; the business week in 1892 being in most of the cities restricted by the holiday to five days. The total June clearings are expected to develop several new and promising indications in the South and elsewhere. The aggregates of May for the United States were $5,029 millions, against $4,809 millions in 1891, the banks outside of New York having $2,049 millions against $1,903 millions, those of the South $229,272,025, against $221,648,308 in 1891; and those of the West $775,414,320, against $699,862,430 in the previous year. For the five months ending May 31 in 1892, the New York clearings rose to $16,102 millions, against $13,511 millions in 1891, $15,631 in 1890 and $14,485 millions in 1889. In Chicago the clearings for this period rose to $1,975 millions as compared with $1,712 millions in 1891, $1,552 millions in 1890 and $1,322 millions in 1889. For the six current months of the fiscal year the interior business of the country as measured by its bank clearings may perhaps surpass the progress of any similar period just as has been achieved by the comparative increase of our foreign commerce, and by the economic growth and activity in which our progress since the war has been so marvellous as to transcend all similar records.

UNIFORM BANKRUPTCY LAW.

In a recent lecture in Chicago on Constitutional Law, Justice Harlan of the United States Court took the ground that Congress has, under the Constution, the power to make a uniform bankruptcy law. This, he said was so intimately connected with inter-state commerce that it was wisely committed to Congress. If Congress did not control this subject, one State would have the power to appropriate a bankrupt's estate for the benefit of the friends or creditors in that State to the exclusion of debtors who might be in other States. One State might be disposed to give preference to one set of creditors over the others. Another State might be in favor of making a distribution of the property on the pro rata principle. Hence it was thought best to empower Congress to pass a uniform bankruptcy law that would be equally operative in all the States and equally binding on all. The law is also important in its bearing on foreign nations and our relations with foreign governments. If we could not by a uniform law direct the actions of the individual States, cases might occur in which States would give offense to foreign powers by discriminating against their citizens, and they would doubtless retaliate by similar discriminations against us.

It used to be a law in some states, that a man who did not pay his debts on execution could be put in prison; but I believe there never was such a law in the Western States. However harsh or otherwise its provisions were, it was decided by the Supreme Court that the right to put a man's body in prison on his failure to pay his debt was not a part of the contract between the parties, and that there could be no such contract between individuals as would deprive a man of his liberty by holding him in prison.

THE LOCAL STOCK MARKET.

In striking contradistinction to last week's local stock market with phenomenal fluctuations in street railway securities, came the current week with scarcely a single feature of interest. Fluctuations were within extremely narrow limits and there was nothing even approximating activity. West Side stock has been kept within a few notches of last week's high point without any influences being brought to bear to depress or elevate prices. At the Monday morning session of the Stock Exchange, the opening price was 168. The same interests are represented in purchasing as have operated during the entire recent advance in the stock, but the range in price tended downward rather than upward and the close was at 167. The same general movement has been noticed at each succeeding session of the Exchange. The high and low points for the week might be given as 169 and 167 respectively. North Chicago has not remained so near the high point as the other Yerke's street railway stock. It opened for the account at a fraction below 214 but settled down to about 212. Developments of some sort are expected which will augment the favor with which these securities are received by the public. It is probable that before a year the net advance in the ruling price of these stocks will be considerable but during the interim the market will be subject to violent fluctuations. The market in street railway securities promises to be interesting from a purely speculative standpoint, but not entirely satisfactory to brokers operating on small margins or investors who have not full faith in the ultimate future of the street railways as dividend earners. Among the probabilities or at least possibilities discussed are increased dividends in both stocks, and an issue of stock at par by the North Chicago Company to provide for electric construction. Enough sales of City Railway stock were made to establish a price at 395.

The industrial stocks hold their own, but it is thought that the advances registered are not commensurate with the earnings. Brewing securities have been firm but with no material change in prices or in fact in existing conditions as regards the beer war. There have been both bull and bear points in Street's Stable Car stock. In the first place the May earnings were not entirely satisfactory and the stock was inclined to be rather heavy on the publication of the monthly statement. On the other hand a decision has just been rendered by the supreme court squarely in favor of Streets company in the Montgomery stock car patent case. This again has been offset by the news that Armour & Co. have begun the construction of high grade patent stock cars. It is said that the construction of such cars by the packing companies will cut into the business of the Stable Car company seriously. Packing and Provision stock was quoted at about 52½. An extract from a Boston paper contains the following:

"There is a chance for an agreeable surprise for the stockholders in the Chicago Stock-Yards. Now that all the trouble has been settled there will be a steady increase in profits, and it is estimated that the common stock will get 9 per cent instead of 8 per cent for the year. The terms of settlement are said to be $300,000 in bonds and $100,000 in cash. As there was no good reason why the small packers should have received anything these amounts may be set down as clear. Probably the only reason why such a settlement was made to expedite the closing up of the deal with the big packers."

All through the list of industrials the course of the market has been without any special features. Straw board reached 87 and Diamond Match a fraction above 135. The Stock Exchange listed £400,000 common and preferred stock of the Peter Schoenhofen Brewing Company. The preferred stock bears 7 per cent interest. In addition $217,000 in debenture 5s. of the same company were listed. The first sales of these securities were made on Thursday when 160 shares of the preferred stock sold at 48¾. An additional issue of Gas 5s., amounting to $558,000 was listed making the total bond issue of the Chicago Gas Light and Coke company $8,908,000. The bond market continues to be strong with the ideas of sellers slightly out of reach of prospective buyers. The demand for bonds by dealers as an indication of the easy money conditions, is good. Gas 5s., are in sufficient repute to register a price better than 98. Alley bonds are less than two points from par and Consumers Gas bond are hard to secure at anything less than an even 90. On Thursday the New York Biscuit company succeeded in placing all the 6 per cent bonds it had in market. New York brokers placed $90,000 while the remaining $80,000 was taken in Chicago.

THE REAL ESTATE MARKET.

The week in real estate circles could be fairly characterized as one of the dullest and least interesting of the year. There were none of those large transactions, which, although having but little relation to the general situation, serve to keep up general interest. Last week presented a number of such transactions, which were of sufficient interest and importance to dwarf the commonplace sales and leases of this week. There will be no difficulty, however, in locating the cause of the temporary dullness. The proceedings in the barn-like structure on the Lake Front would have been sufficient to eclipse general interest in real estate, even if the phenomenal rainfall which proved such a damper on Democratic enthusiasm had not entirely discouraged brokers. The congested condition of the streets during the past few days has raised the question as to the possibilities of a satisfactory general real estate market during the World's Fair. Agents argue that if a Democratic convention during a few days is the occasion of dullness in all except retail lines of business, that the greater degree of congestion during the greatest world's exposition ever held will produce the same results in a more marked manner. Other agents claim that the cheap lot market for which extensive preparations have been made in recent subdivision operations, will be benefited. They claim that a supply of people brought to Chicago is all that is necessary for the sale of property tributary to a city so well advertised. This may be true of buyers of cheap lots with earnest money payments of from $10 to $25 but in the case of important investments people who are on a holiday excursion to the fair will not be readily interested. There is but little change in the underlying conditions of the market. Owners are still firm, inquiry from outside prospective buyers is good and money is easy. The local and superficial conditions are by no means so satisfactory but are subject to change at any time.

A comparison of the list of brokerage licenses taken out last month with those granted during May of 1891 shows that there is a very respectable minority of operators who expect no immediate improvement of conditions. Those who entered the field of real estate brokers in the extraordinarily active period are gradually dropping in to other work. On the other hand, there are those who predict a bright future for the market and account for the dullness of this season by various conditions, adverse in their nature, but purely temporary and superficial. The latter class are mostly professional optimists who would excuse the unfavorable features. Then, opposed to these two classes are the conservative brokers, those who admit that they do not know what to expect. They believe that during the latter half of 1892 activity may be renewed enough to give the results of the year a creditable standing.

The question of rapid transit is the most important now before owners of city property. The construction of the alley "L" road has tended towards increasing the value of all classes of property adjacent to it. Probably the first announcement of the line selected created the greatest excitement among real estate speculators. Now when rapid transit is an assured fact the solid increases in value are felt. It is a noteworthy fact that Chicago property has risen in value, especially in the suburban districts, in proportion to the rapid transit facilities secured. Where transporation service is poor, there development and improvement is slow accordingly. Taking this as a basis property owners are more than anxious to secure rapid transit lines near their possessions. It is altogether probable that the promoters of the Metropolitan Elevated railroad who are practically the parties construeting the alley "L" road will have less difficulty in the preliminary work of securing right of way for the West side road than they experienced in providing for the South side line. Property owners and the public generally are becoming educated up to the idea of rapid transit by means of elevated roads, and the fragment of a line from Congress to Thirty-ninth street furnishes an object lesson of more than ordinary value. It is not generally real-

ized that work on the Metropolitan line is to begin at once. Two of the officials of the South Side Rapid Transit company, who have been most active in securing alley "L" right of way are engaged in their last case in the interest of that company. As soon as satisfactory disposition is made of this case they will begin the same tactics on the West side. By settlement or condemnation proceedings they will acquire property in the interest of the Metropolitan company and so finally rest the question of contingent damages. For the present no attempt will be made to carry the road further down town than Fifth avenue. This will be at least the temporary terminus of the road but it is probable that some combination will be made of the two roads built under the same auspices.

HOBBIES IN THE REAL ESTATE BUSINESS.

A worn out hobby is a chestnut, if we may be permitted to use slang. This thing of adding the word "Heights" to every new town or subdivision is getting altogether too common. It is strange indeed that through all the long years of Chicago's existence, covering no less than a half dozen boom periods that new or undiscovered "Heights" should appear. It may be that the land round about Chicago is like the sea, subject to subterranean volcanic action, or to the work of the coral insect where islands appear and disappear in a single day or year. Washington Heights, Arlington Heights, Englewood Heights and Englewood on the Hill were well enough as a contradiction to the low lands or wet prairies that stretched far to the southward of Chicago in the early days when there were no sewers and no improvements down there. Even some of these names in early days were looked upon as figures of speech rather than physical facts. But as they were highly improved and ornamented by their founders they have been long since accepted as genuine elevations above the general level of the prairie. Still others of note like Chicago Heights have become known and are really locations far above city datum. It devolved upon the REAL ESTATE AND BUILDING JOURNAL to settle the question of elevations and to inform the public through its maps and illustrations where and what the heights are. Strange to say the highest suburban towns and elevations are not called heights at all though the readers of the JOURNAL know that Winnetka and Western Springs are higher than any of the so-called heights. Nor will any of the first above mentioned suffer by such a comparison. It is no disgrace to be only a little lower than Winnetka, which is above 90 feet over high water mark, nor Western Springs which is more than 100 feet above the level of the lake; and Hinsdale is still higher. The town or village of Dunning is high, dry and beautiful, being in the neighborhood of seventy-five feet above the surface of Lake Michigan; yet no one ever hears them called heights. There are still other elevations in the county according to the published maps and diagrams of the JOURNAL which have been benefitted largely by the promulgation of these facts, but it requires a stretch of the imagination to picture several of the new Heights lately discovered as occupying a very high altitude. All classes of buyers should understand that the JOURNAL is a reliable guide in this matter of elevations, and it is hoped that property owners as well as buyers of suburban homes will remember and appreciate this new feature or new departure in journalism whereby thousands have been benefitted financially and in point of health. Some confusion exists in this important matter which has been occasioned by confounding the levelings for drainage purposes in the territory along the Desplaines river with the level of the lake or city datum, which is about four feet higher than the lake level. The Drainage Board has given a higher elevation to Oak Park than to territory north of it, when in reality it is but little higher than Cragin and not by any means as high as Franklin Park. There are other phases of this subject of interest to subdividers and home-seekers which will be presented in the JOURNAL in a future issue.

ACRE SALE SOUTH OF WAUKEGAN.

The largest acre deal north of the city transacted this year has been closed this week by W. J. Scanlan who has agreed to buy the Dady farm consisting of 735 acres for a total consideration of $257,250, being at the rate of $350 an acre. The land lies southwest of the Washburn-Moen tract and adjoins the small tract sold last week. It includes the south half of section 30, also the northeast quarter and the north half of the northwest quarter of section 31 and the northwest quarter of section 32. The land lies on a ridge about a mile and a half west of the Lake. It is claimed to be the highest land around Waukegan. Part of it is well wooded and all of it has excellent drainage on account of a deep ravine that runs through it to the lake. The purchaser intends to subdivide the 100 acres in section 32 and will improve it in a very substantial manner with macadamized streets, stone sidewalks, etc. His intention is to make it a residence district for the use of the mechanics and laborers that will be employed in the various factories now located and to be located at South Waukegan. The rest of the land will be held as an investment it is claimed. The purchase is said to be an indication that numerous investments are to be made in the near future around Waukegan A contemporary says within the next few days three or four other acre purchases in this same vicinity will probably be announced and the location of several new industries may also be made public before long. If there is to be any boom in acre property this year it will be around Waukegan, and speculators are already beginning to secure long term options on many available pieces in this section.

Other acres of some magnitude it is reported, are being negotiated but they lack authenticity. The report is that eighty acres in Shields township, owned by one Jno. McDonnell has been sold to a local investor for $200 an acre. The land is described as the east half of the northeast quarter of sec 8. The purchase was made as an investment. Eugene A. Bournique has also bought a tract of 400 acres at Spring Bluff in Benton Township for $125 an acre. This land is about four miles north of Waukegan and adjoins the 1,200 acre tract recently bought by Dunlap Smith and others. The purchase was also made as an investment.

ANOTHER FACTORY AT WEST PULLMAN.

There will undoubtedly be a demand soon for cheap lots at West Pullman. The Burgland & Shead Company, manufacturers of buckets will locate at the corner of 120th and Peoria streets. This company is an Ohio concern that has been in business for twelve or fifteen years and is the second largest concern of its kind in the country. Their trade extends all over the East, West and South and includes all the prominent tobacco and candy manufacturers in the country. Their main building will be 50 by 180 feet two stories high and of brick construction. There will also be a brick boiler and engine house, 40x40 feet, a brick dry house, 40 by 100 feet, and a brick ware house 50 by 100 feet. The firm will employ about one hundred men to begin with and will be in operation by August 15. Thirty-five additional dwelling houses will be built in the residence section. The West Pullmnn Hotel at 120th street has been completed.

WHAT BUYERS ARE WAITING FOR.

NEED OF BETTER DRAINAGE.

The recent heavy rains have almost inundated all vacant grounds in the city and very forcibly reminded subdividers of the great need of better drainage. Both buyer and seller are averse to viewing land under water but this objection would be removed if suitable ditches and sewers were made in all subdivisions. It would be difficult to provide a system of sewers in the city that would be adequate to the demands of the people and business during continuous heavy rains such as we have experienced the last two months. It is much easier to get rid of the surface water in the suburbs where there is no sewage to be disposed of. This can be done by opening the ditches and tileing. There ought to be a law that would compel landowners and subdividers to construct surface drains and ditches to carry off surface water before they were allowed to sell lots. The heavy rains and the lack of sewers and ditches have caused the dullness in the real estate market for the past three months, the winter having been a wet, open one. But why should Chicago real estate operators suffer more than those of other cities? If we have not a rolling surface like Milwaukee, Kansas City, Cincinnati and a hundred other places we have, it is boasted, more money and enterprise. If nature has not provided us with natural drainage we should create it ourselves out of the abundance of our resources. Detroit is blessed with perfect drainage and pure water for the reason that the surface of the city slopes toward the river which remains pure and clear all the year round. At Nashville, Tennessee, during the time of meeting of the National Real Estate Congress it rained heavily especially the latter part of the week but visitors could ride in any direction for ten or fifteen miles from the city in carriages without serious inconvenience because the roads were good, largely made so by the perfect drainage of the city and country. It is utterly impossible for the city of Chicago to build sewers throughout all of its new territory in the next twenty years, and as travel and population increase the difficulty also increases. Why, in the northern portions of Cicero and in the town of Jefferson the roads have been impassible for more than six months of the year for the last three years. Beyond Humboldt and Garfield Parks north of Lake street, to use the language of a farmer living near Mont Clare, "It is worth a man's life and a pair of good horses to go into the city." This is all caused by the lack of proper drainage and good roads and without the first the second cannot exist. Nothing so much discourages a would be buyer as these very things and the agents find it necessary to lie idle from six to eight months in the year waiting for the pleasant weather and good roads which are seldom found here of late. It is useless to attribute all of the trouble to the rains; the roads have been impassable six months in the year for the last three years. Buyers may be waiting for the owners to fall in their prices but if the rains continue much longer and the roads do not improve we will all want to sell out. If the city cannot afford to build sewers in the new territory the common council should order the ditches opened and cleaned and the roads improved in some wise.

NEW PACKING HOUSE AT FREEPORT.

A syndicate from a neighboring State have sent a committee to Freeport, Ill., to look at a proposed new site for a packing house. Should the committee find things as represented a stock company with a capital stock of $100,000 will be organized there without delay, and the plant will be erected before fall.

Several attempts have been made during the past few years to establish a packing house in Freeport. All acknowledge that a better point for such an industry could not be selected. Freeport has excellent shipping facilities and is situated in a great pork country.

Just where the plant will be located has not yet been determined upon, but no doubt East Freeport will be chosen as there are several desirable pieces of land for sale there which would fill the requirements.

Merchants there realize the great benefit a pork packing establishment would be to the city. In the first place it would give employment to at least 100 men at a season of the year when work is scarce in other branches of trade, and then it would be of great benefit to all business men.

NATIONAL BUILDING AND LOAN ASSOCIATIONS.

In previous issues of the JOURNAL the plans and methods of doing business by the National Building and Loan Associations were fully set forth. The initial or first meeting of these societies was held some time ago in Grand Pacific Hotel when the organization of the association was formed.

The first convention of the National Building and Loan Association met Wednesday at Crystal Hall No. 82 Madison street, Chicago. Nearly all the associations were represented. The purpose of the meeting is to perfect a permanent organization and to consider the extent and nature of State supervision over such associations, and other financial questions.

E. A. Somers of the Continental Building and Loan Associations of this city, called the meeting to order, and Joseph P. Jaeger of the Standard Loan and Investment Company read the call for the convention. R. Chamberlain of the North and South association, was chosen temporary chairman and A. L. Hayes, Chicago, temporary secretary. Mr. Chamberlain delivered an address of welcome, and outlined the business before the convention. E. A. Somers, C. F. Dixon of Cleveland; C. B. Mordacei, of Chicago; C. F. Easton of Aberdeen; W. H. Callett of Knoxville, and W. L. Marsten, of Chicago, were appointed a committee on credentials. M. W. Brady of Chicago was made chairman of the committee on resolutions. Messrs. Thomas Fritze, Moatz, Randolph and Vail were made a committee on permanent organization

At this meeting the National organization was perfected.

Among those present were: Col. C. H. Miller, Columbus, O.; Gov. Austin, of Minnesota: F. J. Fitzwilliams, of Bloomington; M. Van Allen, of Chicago, and A. R. McGill, of St. Paul.

The committee on credentials reported 150 delegates present and entitled to seats in the convention.

William Gibson of New York was elected permanent chairman, Tracy Underhill permanent secretary, and E. A. Somers, Chicago, treasurer. A list of Vice-Presidents was read including the names of Governor S. B. Buckner, Kentucky; Owen Scott, Bloomington; Col. C. H. Miller, Ohio; A. O. Bement Lansing, Mich.; Thomas J. Bunn, Bloomington; ex-Gov. A. R. McGill of Minnesota; C. B. Ayres, Des Moines, Ia.; Gen. Fitzhugh Lee, Virginia; ex-Gov. Horace Austin, Minnesota; Bruce Carr, Indiana; A. D. Pierce, New York; J. Edward Simmons, ex-President New York Stock Exchange; M. Van Allen, Chicago; Judge Tuthill, Chicago.

At the conclusion of the afternoon session the delegates were driven to the Sunnyside Hotel, where a banquet was served. M. W. Brady of the Mississippi Valley Society of this city, presided and acted as toastmaster.

CHANGING THE SYSTEM OF FURNISHING PLANS FOR GOVERNMENT BUILDINGS

The bill before Congress designed to do away with the present system of having all the plans for government buildings drawn in the office of the supervising architect of the Treasury is a belated measure, but that is all the more reason why it should be put through. The brain of the country ought to have a chance—it never had, never will as long as the plans emanate from one lot of men employed in the department. They are inclined to run in grooves and indulge in fads. We don't want fads in public buildings; we are making enough mistakes with all our endeavors for future generations to gape at, without intensifying them by yielding to mere whims. It seems the House Committee is clearly of our way of thinking; it has been investigating the matter, and has found that the buildings constructed recently by the United States as compared with those constructed a quarter of a century ago, show a marked deterioration of artistic quality, and that, despite the marked inferiority of the typical Government buildings, the cost has been relatively and positively much greater than that of private buildings of the best type. The new bill provides that the Secretary of the Treasury may in his discretion invite not less than five architects to submit plans and specifications for each proposed building, and may pay for such services out of the funds appropriated by Congress for such buildings.—Exchange.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

Practice and theory do not agree in the real estate business at least. There is more talk and noise and reasoning and theorizing about the lot and realty trade than anything else. How about the fellows and the newspapers who figured out that from forty to one hundred millions of visitors would visit the World's Fair and leave all of their loose change in Chicago mostly in exchange for lots? The JOURNAL don't believe that they will pan out that way at all. From the looks of the streets about one million of the forty millions expected are here now, but they do not want to buy lots. The majority of them are after a job where they can draw a small salary. This thing of the World's Fair booming real estate engenders a tired feeling in the bones of a great many agents.

Re-roasting chestnuts is again in vogue. One year and three months ago the JOURNAL published all there was in it about the new building to take the place of the Methodist Church block. This same story has been repeated by all of the newspapers until it is a veritable chestnut. Of course the corner will be improved some time.

It is reported that the Corrosive White Lead Company of Omaha has secured a tract of land near Blue Island on which it will build an extensive plant. This company is one of the most extensive manufacturers of white lead in the country and will employ quite a large number of men.

A large hotel at Seipp avenue and 73rd street is well under way and the success of the enterprise seems assured. The company in charge of the scheme has been incorporated under the name of the Exposition Depot and Hotel Company and a considerable portion of the stock has been subscribed. The building will be erected on a lot adjoining the Baltimore & Ohio Railroad and will be used for depot purposes as well as a hotel. It is to be four stories high and will have ground dimensions of 300 by 150 feet. The hotel will contain about four hundred rooms, besides parlors, offices, etc. The company expects to begin building in a few weeks. Another World's Fair enterprise that has recently been incorporated is the Spiral Tower and Observatory Company, which proposes to build a tower 100 feet high, access to the top of which will be had by means of a spiral railroad about one thousand feet long. The capital stock of this company is $200,000 and its incorporators are David C. Burson, W. C. Stevens and L. W. Cass.

The Chicago Heights Land Association have had a very active week. Their popular manufacturing residence town of Chicago Heights is receiving almost daily endorsements from people all over the country, both in the way of investments in lots and in the location of new factories. One hundred and sixty-seven lots were sold on their last excursion and Sixty-five lots were sold from their main office during the week. This excursion was a grand success. The 2,500 people who crowded the cars at Chicago made it impossible for the train to accommodate the 500 more who were waiting at Kensington and Pullman.

Contracts were awarded last week for thirty-seven new houses, and General Manager Kilgallen reports that the plans for Walburn-Swenson's new factory are in the hands of the Probst Construction company, J. N. Williams of Kenosha, Wis., A. Anderson & Co. and F. Faulknau; the latter of whom is now building the auditorium annex. Dolese & Sheperd, the contractors for macademizing the streets have just put on fifty extra teams and expect to have fifteen miles of streets and thirty miles of stone sidewalk completed by August 15th. Wm. Lang & Co. have just put on twenty-five teams working modern machine graders on the streets.

A very interesting booklet called "Chicago's Beaten Path," has just been issued by them and is now ready for distribution. Chicago Heights is certainly the most popular of Chicago's manufacturing districts, and every one who goes on their excursion comes back to Chicago with the impression that the company's statements regarding this property are altogether too conservative.

Andrew Dunning reports the sale this week of two blocks in S. D. Anderson's addition to Jefferson Park. He is selling this tract in blocks of lots. This firm controls a large number of acre tracts in the northwest territory in addition to his beautiful farm south of Dunning which is highly improved.

Mr. James Cairns 1072 Fulton street, reports the sale of 40 feet fronting south on Warren, between Kedzie and Homan avenues, for L. A. Cairns to F. F. Butler, of Rice & Butler Malting Co., who will build a fine residence on it. Work will commence at once. Mr. Cairns is an experienced dealer in West Side property and his judgment is much respected by those who know him intimately.

COLORS AS APPLIED TO DECORATION AND HOUSE PAINTING.

A dainty boudoir is finished entirely in white and a very pale shade of green, the woodwork and furniture being white maple in its natural tone. The walls show a delicate leaf pattern in pale green on a background of white. The windows are draped with very fine white muslin curtains, with an inside heavier curtain of delicate green India silk lined with white, and looped back with broad white ribbons. Silks of the two colors are draped in intertwining folds about the broad mirror of the bureau, and the carpet carries out the same color tones. A few bright water colors in maple frames with broad white mats, give life and color to the whole room.

LAKES.

In using any of the lakes, light, medium or dark, it is essential, in order to obtain the best results, to use them in their purity. That is to say, if a shade of lake is desired somewhat darker than the darkest furnished by your color grinder, the only safe, reliable method is to darken the ground or preparatary color. At best, lake is of a fugitive nature, and unless treated very cautiously and with due regard for its controlling properties it can not be depended upon to afford a fair measure of durability.

To obtain the dark shade of lake spoken of make the ground of Tuscan red and drop black, adjusting it to at least two shades darker than the lake itself. Do not make the ground to dry dead, but simply flat, using varnish instead of oil for a binder. Some paint mixers advocate using a trifle of oil with the varnish to allay the deadening effects of the turps necessarily used, but this practice has few recommendations looked at from my point of view. An elastic rubbing varnish will give the color free working qualities, and will likewise enable it to resist the effects of the turps. A coat of this ground color should be allowed ten hours at least to harden thoroughly before applying a second coat, which upon panel work will be found necessary. It is advisable to add some of the lake to the second coat of ground work color as a mellowing, toning ingredient. This ground ought properly to be free from all imperfections, dirt, etc., as the lake itself, being naturally transparent will, when applied, merely serve to expose foreign matters rather than to conceal them.

GREENS.

Trouble is oftentimes met with in mixing and applying the various greens used in coach work. The difficulty of mixing, is of course, of secondary importance, as most of the popular greens are furnished by color grinders; but there is infinite variety almost of shades, and in the jobbing shops it not infrequently happens that something out of the ordinary is asked for. And when such a color is shop-mixed, it can be depended upon to give trouble in putting on, unless unusual discretion and skill is brought to bear upon the work.

Olive green has long been a standard green and is probably one of the easiest to mix. At the same time it is an altogether difficult color to apply satisfactorily. The mellowing occupying as it does the controlling influence, is bound to assert itself. This trouble will be met with only in putting on the color and varnish or, strictly speaking, the true olive. A difficulty in another form will be encountered in preparing the ground. A good ground for olive green, after the black has been placed, is made of about three parts of black, two parts of chrome green and one part of umber. A green of any shade has a well known propensity for assuming two or more tints when applied to a panel with horizontal strokes of the brush, and then squared off at the ends with two or three veritical strokes.

Sometimes a bottle green, less expensive than that secured by the employment of yellow lake or Dutch pink, is desired. Such a color of a decidedly rich shade, too, can be obtained by mixing together one quarter chrome yellow, one-quarter drop black and one-half Prussian blue. It is best to tone this combination with a few drops of burnt umber.

This green should first be put on as a flat color over a black ground. A little of the same color may then be stirred into rubbing varnish and the second coat of green applied as color and varnish.

In selecting a color scheme for a house, soft graduations of tone, blending from the darker tones at the base to lighter hues at the top are always to be preferred. A general color tone, or harmony, should be adopted, and every color chosen should have a definate relation to the prevailing tone. For example if a combination in terra cotta is to be used, every color, whether for body, trim, blinds or gable, should be one in which either the red predominates, or at least is in such proportion as to bring the color into harmony with the general tone. No color in the composition of which the red element is entirely lacking should be selected. Violent contrasts in every case should be avoided, except possibly the contrasts between very light and very dark shades of the same color. Sometimes effects are obtained by a violation of this rule which may attract for a time by their boldness and novelty, but we are apt to tire of them very soon, as they lack restfulness, an element very essential to any really satisfactory color effect.

HOW TO PAINT THE EXTERIOR OF A HOUSE.

BY V. B. GRINNELL.

Many modern houses look well with the color graded lighter toward the top if done in moderation and soft contrast, but very many houses will not successfully bear the treatment advocated by some writers, to wit: The "richer, darker" tones at the base, and the lighter and more delicate shades on the gables. The high, top heavy house needs a treatment very different from the low, squatty cottage, with a dreary expanse of plain roof; and the house

with broad base, and verandas so constructed as to look weak and thin at the top, requires special handling as regards gradation and contrasts in color; and the house with steep roof, numerous gables and dormer windows needs a different treatment still. A high, top heavy structure will bear rich colors at the base (trimmed to look heavy) and neutral, or retiring shades upon the upper stories and gables, with parting bands in rather strong contrasts between each change of color.

If the cornice is too heavy, projects too far and makes the roof look too large for the body, or, in other words, like a very slim man under a very broad hat, or a boy trying to wear his daddy's broad brim, you can paint the planceer and fascia like the safest color on the body, the frieze in soft contrast, the crown mould, like the frieze, and the bed mould in rather strong contrast. By this treatment you can (on a tall house) apparently diminish the size of the cornice twenty-five per cent. If the roof still looks too large, cut it up in two shades in rather noticeable contrasts. If the openings are too small, out of plumb, too few in number or out of place, trim them if at all in the least noticeable contrasts. If they are of the proper proportion and so located as to show to advantage, give them prominence by contrasting colors. Here we have a low cottage with ten feet posts, broad on the ground and a large plainly built hip roof. Shall we paint the verandas in bright or rich colors and trim in strong contrast, and paint the body in quiet shades and tone down the projecting cornice by painting it the body color and trim the mouldings in slight contrast? The idea is to make the walls look high as possible, also to give the verandas sufficient prominence to attract attention from the low walls and too heavy cornice, which we may obscure somewhat by quiet treatment. The roof is the most prominent feature of the house, and so low that it almost seems to hit one in the face. How shall we paint it? We might paint it plain, in a light tint, but in a few days it would look like a faded cotton umbrella carried by a gaudily dressed lady. The roof is there to stay, and will retain its prominence no matter how we paint it. Hence, I should say paint and decorate it until you make it the most artistic as well as the most noticeable feature of the place. Run a decorated and properly proportioned band of color around each face of the roof with a light soft field inside; then if we think best we can relieve the the field by modest ornaments at each angle. Here we have a nondescript piece of composite architecture, well calculated to worry the brain and make the decorator sweat. It is a two-story upright with a bay window in front, and on each side a one-story wing with verandas. The base looks all right and everything is in good shape to decorate, but that obnoxious second story which points towards the sky, thin solitary and alone, all out of proportion with the work below it. The first story wings, verandas and bay window are to be painted in bright colors and trimmed in contrast. Now, how shall we treat the upper story and gable? Shall we paint a parting band at the top of the first story, put on a lighter shade and a still lighter one on the gables, and thus make the second story look like a second little house built on top of the other, or shall we carry up the body and trimming colors of the lower story, trim the cornice heavy in one shade. paint the roof in a fairly strong color and make this part look as large as we can, and at the same time have it in keeping with the lower story and wings? Here is a one story cottage large on the ground with a steep roof, with numerous gables, and dormer windows. How shall we paint it?

With the exception of two verandas and two bay windows, its projections and gables, is about all there is to decorate; hence, we will paint the roof light, trim in rich tones, and set out the verandas and bay windows in lively colors. The first house described stands on a rise of ground exposed to full view in front. The second stands between two taller houses on level ground, with a few small trees in front. The third at the foot of a hill on a farm with trees in front, the last stands on elevated ground, and is seen only in glimpses between evergreen trees.

LATE LEGAL DECISIONS SUPREME COURT OF ILLINOIS.

EMINENT DOMAIN—CONDEMNATION OF RIGHT TO DAMAGE PROPERTY, NONE OF WHICH IS TAKEN.—Notwithstanding the constitutional provision that private property shall not be damaged for public use without just compensation, a railroad company acquiring the right to lay its tracks in the streets of a city is not required to institute condemnation proceedings in respect of damages which may accrue to owners of property abutting such streets.

And when no part of the land of an abutting lot owner is entered upon or sought to be condemned for public use, such owner is not entitled to have proceedings instituted under the eminent domain law to ascertain what damages his property may sustain in consequences of the construction and operation of a railroad in an adjoining street. But the land owner is remitted to his action at law to recover his damages.

ACTION TO LAND OWNER IN NATURE OF A CONDEMNATION PROCEEDING.—The right to recover damages for an injury to private property occasioned by the occupation of a public street, by a railroad, or the taking of other property for the public use is secured to the property owner by Sec. 13 of article 2 of the Constitution of 1870; and the railroad company will be liable for all direct, physical damages occurring from the construction and operation of such railroad to such contiguous or abutting owner. The action for damages to property not taken, may be regarded as in the nature of one kind of condemnation proceeding; and in all cases, where no land is taken there should be but one proceeding for the recovery of damages, in which the recovery should include the entire damages past, present and future.

Although the Legislature has failed to provide in the eminent domain act for the assesment of compensation for damages to private property none of which is taken or sought to be appropriated, the property holder is not left without a remedy. He may, nevertheless, have his action at common law, and thereby have his compensation "ascertained by a jury" as required by the constitution.

The right of eminent domain is an essential attribute of sovereignty, inherent in every independent government and to be exercised in the discretion of the sovereign power to promote the general welfare of the people. The right of the citizen to own, possess and enjoy his property must necessarily give way to the right of the State to appropriate it to public uses, when, in the judgment of the sovereign power, public interest will be promoted. The taking or damaging of private property for the construction, operation and maintenance of railroads, is a public use within the meaning of the constitution.

INJUNCTION—OF USE OF PROPERTY FOR RAILROAD PURPOSES.—This court is probably committed to the doctrine that injunction will not lie at the suit of the abutting property owner, when the entry upon and occupation of a street by a railroad, is, by the authority of the municipal agency, invested with the control of such street. The want of power of a court of equity to interfere by injunction, is predicated upon the impracticability of the ascertainment of the damages that will be done. But when the land owner has settled his right to damages and their measure in an action at law, if any reason exists why he cannot have execution of the same, eqnity will assist him, but not before.

RIGHT TO PAYMENT OF COMPENSATION AS AGAINST PURCHASER OF RAILROAD.—When land has been taken by a railway company, the owner's right to compensation will not be defeated by a mortgage or alienation by the railway company unless he has done some act amounting to a waiver of his right to compensation, or by which he is estopped from asserting it. In many of the cases his right to payment as against an alienee of the company, is placed upon the ground that the compensation not having been paid, the title to the land sought to be taken remains in the original proprietor, and that ejectment will lie at his suit to recover the land, or when the amount of compensation has been ascertained by condemnation, it may be treated as a forced sale of the land and a lien in the nature of a vendor's lien enforced against the property.

The right to compensation before the owner can be deprived of his property, being secured by constitutional provision, such title can not be divested, except on payment of the compensation, or its equivalent, by any act of the Legislature, or of the railroad company; and an alienee or encumbrancer thereof will take cum onere the right of the owner to compensation, and is not, therefore, an innocent purchaser.

When the property of an abutting lot owner is damaged by the construction and operation of a railroad upon a public street under license of the municipal authorities, there will be a forced deprivation of property, or damaging of the same without the owners consent, and this in every just sense is a taking of private property of such owner to the extent to which his property is thus damaged.

When private property is injured in value by the use of a street bounding the same, it may be that he is without remedy until the damage has actually occurred, and the amount of such damage ascertained by an action at law. But when the damages are ascertained in the mode provided by law, the right of the lot owner to the payment of the same as compensation, is guaranteed to him by the Constitution, as a condition to the continued appropriation of the street to the public use, whereby the injury to his private property is inflicted.

It is not in the power of a railway company which has damaged private property for the use of its road, to defeat the constitutional guarantee of just compensation by alienation or otherwise, and the alienee, purchaser or successor will be required to take notice of the provisions restricting the power to take or damage private property for public use, and be held to take subject to the burden cast upon the railroad by, through or under whom the interest is required. It does not follow that a right of action will exist against the new company, who may, as successor of the original company, become possessed of the franchise and property, but when a mortgagee or successor company insists upon a continuation of the use, or when there is an appropriation of that part of the railroad, whereby the damage has been occasioned, the right of the lot owner to compensation out of the res is absolute.

A railway company having but a part of its road completed, gave its mortgage upon its entire line, part of which only was projected to secure its bonds. The mortgage recited that the bonds were to be issued at the rate of $10,000 a mile as the projected road was completed. At the terminus of the road the tracks were laid in a public street under leave of the city authorities, without the payment of any damages to the owners of lots abutting upon the street. Afterward such owners brought suit against the company alone for damage to this lot, in which they recovered judgements, the mortgagee and bondholders not being made parties. On bill filed by the judgment creditors to enforce payment of the judgment, the mortgagee and bond holders filed a cross bill to foreclose the mortgage, claiming a prior lien under the mortgage, which had been recorded long before the recovery of the judgements. The court opened the judgment and allowed a defense to be made to the suits at law. The court after trial and judgment by its decree foreclosing the mortgage, gave the judgment creditors the priority in the payment: Held, that the court did not err in decreeing that the damages to the abutting lot owners, the plaintiffs in the judgment should have priority of payment out of the proceeds of the sale of the road under the decree of foreclosure.

MEASURE OF DAMAGES—DAMAGE TO PROPERTY NOT TAKEN.—All special damages, present and prospective, to the owners of lands resulting or to result from properly constructing, mantaining and operating a railroad under the laws of this State, constitute as to such land owner, one single indivisible cause of action, which may be enforced under the Eminent Domain Act, or any other appropriate form of action. After such right of action has once accrued if the land is conveyed so another the latter can not maintain any action for damages which could have been anticipated and allowed as prospective damages, in a suit the grantor might have brought.

SURVIVORSHIP OF RIGHT OF ACTION—WHEN IT ACCRUES.—Where a lot is injured or damaged by the construction and operation of a railroad in the street in front thereof, a right of action will accrue to the owner of the lot against the railway company, as soon as the railroad is built and and put into operation. And on the death of such owner the right of action will pass to his personal representative and not to his heir or devisee, such right not being assignable.

UP TO WHAT TIME.—A right of action accrues to a lot owner for damages caused thereto by the location and operation of a railroad in the street in front of his lot for any injury to the same, from the time of the completion of the road and its operation, in which he may recover prospective as well as present damages. But such owner is not bound to sue immediately, and the defendant can not complain that he waits until his damages becomes susceptible of absolute proof before bringing of his action instead of resorting to prospective damages.

If the suit is brought within the Statute of Limitations, which is five years, proof may be made of the permanent damages to the property, and the recovery being one for all, may include all damages flowing from the location and ordinarily skillful operation of the road.

The measure of recovery of a tenant for injury to his business by the location and operation of a railroad in the street in front of his place of business, is limited to the loss of probable profits of his business, shown by the evidence from the time of the construction of the road and its operation on the street, and to such time as the tenant might, by the use of reasonable diligence, have procured another place of business equally eligible for the transaction of his business including a reasonable time for the removal of the same.

If the owner of the property urges or induces a railroad company to locate its road upon the adjacent street, he will after the invitation has been acted on, be estopped from claiming damages, or enjoining the operation of the road. But the fact that such owner requested an alderman of the city to vote for the ordinance granting the right to the company to locate its road on the street, when it is not shown that such vote was necessary for the passage of the ordinance, will not be sufficient to estop him from maintaining an action for damages to his business. To create an estoppel there must be some affirmative act by the person sought to be estopped, in reliance upon which the other party has acted to his prejudice.

JUDGEMENT FOR DAMAGES—BINDS ONLY PARTIES THERETO—A judgment by default against a railroad company for damage to private property adjacent to its road, is not binding as the amount of damages upon the mortgages of the company and its bond holders secured thereby. And on a contest between the holders of such bonds, and the owners of property damaged by the construction of the road as to priority of payment out of the proceeds of a

sale of the road on foreclosure, it is not error for the court to open such judgement and require a re-assessment of damages by the jury.

FOR FRAUDULENT REPRESENTATIONS.—WHEN PARTY MAY RELY ON SAME.

When a sale is made of property at a distance. so that the purchaser has not the means at hand of ascertaining the truthfulness of the vendor's representations, the vendee may rely upon their truth, and have redress if they are shown to be materially false.

When sale is made through false representations.—Whether knowledge of their falsity need be shown.—On bill to set aside or rescind a sale and purchase on the ground of untrue representations, it is immaterial whether the party making them knew them to be false, or made an assertion of a material fact without knowing it to be true, for the reason that the affirmation of what one does not know to be true is unjustifiable; and if another act upon the faith of it, he who induced the action must suffer and not the other.

Presumption as to knowledge of falsity of representations.—It has been held that where the representations of a vendor relate to facts which must be supposed to be within his knowledge, proof of their falsity if a sufficient showing of his knowledge of their falsity. And so a party selling property is presumed to know whether the representations he affirmatively makes in respect of it is true or false. If he knows them to be false, it is a positive fraud, and if he makes them without knowing them to be true for the purpose of inducing another to act upon them, it in equity amounts to fraud.

Representations to induce an exchange of property, when sufficient to authorize a recission.—In this case the holder of a certificate of deposit of $2,000 in a bank was induced to exchange the same for a worthless note and mortgage held by the defendant, on his representation that the mortgaged premises were worth $2,800, and that one-third of the land was cleared and improved, where in fact there was but eight or nine acres improved, and the entire tract of but little value. He also led the complainant to believe that the bank was insolvent, which was untrue, and urged the latter to act promptly if he wished to save himself from loss, and procured others to tell the complainant that the land was valuable property and a good security for the mortgage debt. At the time of the negotiation and exchange the land was covered with snow so that its quality could not be learned from a personal inspection. Held, that for the untrue representations of the defendant the contract of exchange was properly set aside.

DAMAGES FOR BUILDING VIADUCT.

The law is well settled that recovery can not be had unless the property claimed to be damaged has been depreciated in value by the construction of the public improvement.

The provision of the article in the Constitution of 1870, should not be construed as giving compensation for all temporary obstructions necessary when streets are being repaired, even though thereby access to abutting property is for a time wholly cut off.

LIEN ON PROPERTY FRAUDULENTLY CONVEYED.

A receiver appointed in supplemental proceedings, acquires no special lien over property of the judgment debtor fraudulently conveyed before his appointment, and a judgment creditor first bringing a suit to set aside such fradulent conveyance acquires an equitable lien superior to the claims of the receiver and all other creditors upon the property thus transferred: Metcalf v. Del Valle, New York Supreme Court.

TRUST DEED PROCURED BY FRAUD.

A father induced his son to convey to him for the expressed consideration of $600, all his property, in trust for himself for life, remainder to his personal representatives. There was no actual consideration for the deed. The father subsequently reconveyed the property to the son, and the son at different times sold the property to bona fide purchasers, after which he died: Held, that his legal representatives had no title to the land that equity would enforce, as the trust deed was unconscionable, procured by fraud and was revoked by the reconveyance, Ewing v. Wilson Supreme Court of Indiana.

PHENOMINAL SUCCESS OF A NEW TOWN.

The land on which Velasco, Texas, now stands was bought less than four years ago, for eight dollars an acre. July 1st, 1891 it was surveyed into town lots by the Brazos River Channel & Dock Co., who had just obtained 16 feet of water on the bar at the mouth of the Brazos river.

They put their advertising under the management of Mr. O. W. Crawford. The first lot was sold July 11th, 1891, and the first house started after that date. January 1st, 1892, Velaseo had a population of 2,000 with 303 houses built and occupied. The sales of lots had aggregated over a million dollars. The following is a statement which is absolutely and mathematically correct:

Town site (acres) 1100. No. of lots 9,513; cost ($8 an acre) $8,800; No. of lots sold 2,185; aggregate of sales $1,058,450; amount spent in advertising, $32,615.

In other words, $32,615 in advertising sold 251 acres which cost $8 an acre or $2008 for $1,058,450 in six months' time, on which sales 41 per cent of cash was paid. The advertising also induced 2000 people to locate and build 303 houses at a cost of $251,000 in the same time. This was done at a time of financial depression when real estate investments were the most unpopular.

PLANS BY CHICAGO ARCHITECTS.

Architect Robert C. Berlin has completed designs for a handsome block of residences to be erected on Forty-eighth street, between Drexel boulevard and Cottage Grove avenue, for W. H. Colvin, Jr., consisting of nine houses 162x60 feet, two and three stories in height with basements. The facades are agreeable diversified with flanking tower projections on both sides. The material will be rock-faced with bays of same, pressed brick being introduced in the shape of semi-circular arches to windows, and slate mansard roof. The approaches will be by flights of stone steps leading to recessed and tile paved vestibules. The interiors will be handsomely finished in hardwood. Plate, ornamental and art glass, etc; cost, $50,000.

Architect Gottfried Thiel has prepared designs for block of stores and flats on Central boulevard near Indiana street, for Mr. Valentine Knobloch, 55x120 feet, two story and basement erection. The front will be of St. Louis pressed brick with cut Bedford stone dressings, and composition roof. The stores will be handsomely fitted with modern fronts with iron columns and bressummers. All the latest improvements; cost $22,500. Also pair of flat buildings to be built on Potomac avenue between Leavitt and Hoyne streets for Mr. Martin Andersen. The houses will have an average frontage of 20 feet by a depth of 52 feet, and consist of three stories with basements. The facades will be of Bedford stone with galvanized iron bays and cornices and gravel roofs. Plate glass and modern sanitary appurtenances. Cost, $16,000.

Architects Laban B. Dixon & Brooks have completed plans for a fine block of residences to improve Prairie avenue near Thirty-ninth street, for Mr. Louis Keefer. The facade, which is varied in design, will extend 100 feet, the average depth being 75 feet. The elevation will consist of three stories with basements. The fronts will be of buff Bedford stone with bays of same, and slate mansard roofs. The interiors will be handsomely finished with tile-fireplaces, and all conveniences. The heating will be by furnaces. Cost, the block $40,000.

Architects Detting Bros. have completed drawings for flat building to be erected at 112 Schiller street, for Mr. Charles Callborn. Size 26x50 feet, three story and basement. The front will be of Indiana pressed brick with cut Bedford stone dressings and gravel roof. Plate glass, sanitary plumbing and usual outfit. Cost $8,000.

Architect Edmund Krause has on the boards plans for a fine modern apartment building to improve the corner of Rush street and Walton place for Mr. H. Reubens. The house will have a ground area of 105x64 feet, and consist of eight stories with basement. The building will be carried on a framework of iron and steel, the facade being of selected pressed brick with terra-cotta panels and enrichments. The hall will be laid with mosaics and enriched with Mexican onyx wainscoting. Quick service elevators will give access to all the floors, arrangements will be provided for electric lighting, and the building will be heated by steam throughout. The first floor will be divided into stores. The interior finish will in hardwood, and the partitions will all be of fire proof construction; cost, $125,000. Also flat building at Pullman for Mr. Kneeland, 25x60 feet, three story and basement erection. The front will be of St. Louis pressed brick with cut Bedford stone dressings. Plate glass, sanitary plumbing and all modern arrangements. Cost, $8,000.

Architects Wilson & Marble have completed drawings for temporary hotel to be erected on Madison avenue near Sixty-third street, for Mr. Mullen. The structure will have a superficial area of 93x60 feet and consist of three stories. The building will be of framed work; cost, $16,000. Also pair of fine residences to go up on Diversey street for Mr. A. W. Hetter, 50x75 feet, three story and basement. The fronts will be of stone with bays of same, and slate mansard roof. Plate, ornamental and art glass, wood mantles and hardwood interior finish, steam heat and wires for electric lighting will be inserted. Cost, $40,000. Also residence on Oakdale avenue for Mr. John Ager, 25x65 feet, three story and basement. The front will be of Bedford stone, and gravel roof. All modern improvements; cost, $10,000. Also store and flat building to be erected on Cottage Grove avenue near Sixty-third street, for Mr. Welden. The store will be fitted with modern front with iron columns and girders. A hall for social purposes will be a feature of the building. Cost, $15,000.

Architect W. L. Lesher has completed designs for fine flat building to be erected on Indiana avenue near Eda street, for Mr. George Fairweather, three stories and basement. The facade will be of Indiana pressed brick with cut Bedford stone trimmings, copper cornice and bays and gravel roof. Plate glass and improved modern attachments. Cost $125,000. Also pair of residences to go up on Forty-fifth street near Vincennes avenue, for Mr. J Hallowed, 44x65 feet, three story erections. The houses will be heated by furnaces. Cost, $15,000.

Architect John T. Long has completed arrangements for block of stores and flats to be erected on Cottage Grove avenue near Thirty-third street, for Mr. Tidholm, 40x100 feet, four story erection. The facade will be a handsome arrangement of selected pressed brick and stone, copper cornice and composition roof. Cost, $30,000.

Architects Beers, Clay & Dutton have prepared drawings for fine apartment building to be erected on Frederick court, 30x180 feet, four story and basement erection. The facade will be of St. Louis pressed brick with cut Bedford stone trimmings, and terra cotta panels and enrichments, tile paving in vestibule, hardwood finish. All the latest conveniences; cost $30,000. Also pair of residences to go up at the corner of Madison avenue and Fifty-sixth street, for Mr. Leslie Lewis, 38x55 feet, three story and basement, will be built of selected pressed brick, with stone dressings, and terra-cotta enrichments. The approaches will be by flights of stone steps leading to recessed and tile paved vestibules. Plate and art glass, hardwood finish; cost, $14,500.

Architect William Ruehl has completed arrangements for a flat building to be erected on Emerald avenue near Thirty-eighth street, for Mr. T G. Derwin, 21x50 feet, three stories and basement. The front will be of Indiana pressed brick with Bedford stone trimmings and composition roof. Usual conveniences; cost $6,500.

Architect Wm. J. Van Keuren has prepared drawings for a hotel to be built at the corner of Sixty-fifth street and Hope avenue for Mr. George K. Jones. The hotel will have a frontage on Hope avenue of 125 feet. and on Sixty-fifth street of 70 feet, the elevation comprising three stories and basement. The building will be of corrugated iron work, and fire-proof. There will be a spacious cafe in the basement, and the hotel will contain three hundred rooms. The facades will be improved with metal bay windows, and wires will be laid in for electric lighting; cost, $75,000. Also hotel of similar construction and for the same party to be built on Sixty-sixth place near Stony Island avenue, This hotel will be somewhat larger than the last, covering as it does a ground area of 80x125 feet; cost $80,000. Also residence to be erected at South Dakota for Mr. R C. Crouch, 35x50 feet, two stories and basement. The basement will be of rock-faced stone, the superstructure of framed work with shingle roof, the house will be improved with tower projections, bays, veranda, and gables, hardwood finish; cost, $7,500. Also an imposing apartment building to improve the corner of Rush and Indiana streets, for Mr. Richard Davis, 23x125 feet, and seven stories high. The facades will be of St. Louis pressed brick with cut stone dressings, copper cornice and tiers of bays on two sides, and composition roof. The hall will be laid with mosaic floor and have handsome marble wainscoting. Passenger elevator, steam heat throughout, and electric lighting. The first floor will be arranged for stores, which will be provided with metal fronts. Cost, $50,000.

Architects Furst & Rudolph have completed arrangements for a block of stores and flats to be erected at the corner of West Taylor and Sholto streets, for Miss Fanning, 24x85 feet, three stories and basement. The front will be of stone, plate glass, etc.; cost, $15,000.

Architect Theodore Lewandowski has prepared designs for a flat building to be erected on Wrightwood avenue near Lincoln avenue, for Mr. Henry Best. The structure will consist of two stories and basement, and cover an area of 27x68 feet. The front will be of pressed brick with cut stone trimmings and composition roof. Cost $9,000.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

Western Springs

The Queen Suburb of Chicago

26 MINUTES FROM UNION DEPOT!

ON THE CHICAGO, BURLINGTON & QUINCY R. R.

56 TRAINS DAILY.

WATER, from the CELEBRATED MINERAL SPRINGS will be conveyed to all portions of the village.

A system of Drainage has also been adopted by the Village Board of Trustees, both water and sewer systems have been developed by Engineer Benezette Williams, and will be completed as speedily as possible.

These improvments make this suburb in all particulars, the most desirable about Chicago, as a place for Homes with schools and churches.

The train service is complete.

Rapid transit is a fact.

This location is 96 feet above level of Lake Michigan. The ground high and rolling. The streets are shaded by trees of more than 20 years growth, In fact the entire village is a beautiful Park. Lots can now be secured at prices that insures purchasers large returns for their money in the Near Future. All desiring Homes for their families, should look this property over before purchasing elsewhere.

Call and go out with us any day, and we promise to surprise you with the advantages and beauty of this place.

C. C. COLLINS,

Telephone 2868.

Rooms 60-61, 175 Dearborn Street.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C, M.. & St. Paul R'y, 160 Adams St., Chicago, Ill.

THE SCROLL OF FORTUNE'S FAVORED ONES.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

In FRANKLIN PARK are thus combined

All the Essentials of an Ideal Home-Site.

DO NOT FAIL TO SEE IT.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

—EXECUTIVE COMMITTEE:—

C. H. WACKER. A. T. OTTO. JAMES E. McELROY.

—DIRECTORS:—

CROP CONDITIONS.

The Lake districts and the upper Mississippi region were the centers of rainfall. In the South and Southwest, where the harvesting operations are in various stages of progress, the weather continues favorable. Nebraska has suffered from deficiency of rainfall, but Iowa, Wisconsin and the northern portion of Illinois complain, on the other hand, of excess of moisture. This interferes with the cultivation of corn and assists the growth of weeds, a serious detriment to the young crop. Highly favorable reports are at hand from Kansas, where the wheat yield for the year has been placed as high as 85,000,000 bushels, a great advance even upon the enormous crops of last year. In confirmation of the quality, Charles Counselman & Co., of Chicago have received a car load of new wheat from Anthony, Kansas. It grades No. 2 red, and weighs 61 lbs to the bushel. From Kentucky and Texas satisfactory reports are also at hand. The grain received so far is plump and fully up to average. The weather is scarcely forcing enough for corn, but for wheat leaves little to be desired, recent rains having materially helped to fill out the grain. All talk about rust has ceased, and farmers find particular pleasure in noting an almost entire absence of lice, that made such serious inroads during preceding years. Oats promise to be somewhat uneven, but in Illinois 85 percent of an average crop per acre is what may be expected.

The rains have been highly beneficial to meadows and pasture lands, and districts so benefited note conditions more favorable than have been experienced now for many years. This will assist stock raisers and reduce materially the cost of feed. For the grape vineyards and peach orchards more sunshine would be advantageous, and the crop of potatoes promises to suffer somewhat from the same cause. The agricultural situation as a whole, may, however, be said to be well beyond the average and little, if any, short of last year.

There is always more or less uncertainty at this season of the year in regard to prices. The indications are that corn and oats will rule firm, they being but little dependant upon crops abroad. As to wheat, the situation is one of greater uncertainty. A recent cablegram puts the India shortage at 64,000,000 bushels but a prominent Chicago firm of exporters, with foreign connections, says that 70,000,000 bushels would be nearer the truth. On the other hand, the shortage has been officially announced at 30,000,000 bushels, which is the more probable figure. Last year, India furnished 54,000,000 bushels of wheat to Europe, and for the first three months of the current year 15,000,000 bushels. India is a country of surprises, and bulls would do well not to figure too confidently upon its supposed shortage. Cablegrams from Europe indicate a far better condition there than existed this time last year, the wheat crops of France, alone, promising an increase of some 100,000,000 bushels This is important, for it must be borne in mind that it was the demand from France that gave the chief impetus to prices last Fall. Germany, Austrio-Hungary and Italy send almost equally hopeful reports.

Outside of the provision pit, speculation during the week has been exceedingly dull. At one time, corn and oats looked as if shaping for a sharp upturn, but the Hatch bill has taken all the life out of the bulls. In the absence of speculation, the disposition is to let all products look after themselves. This implies slow markets at drooping prices, consumers being in a position to name their own terms.

The situation in the iron trade is not auspicous and a few hours after this is written 50,000 men may be out on a strike. All the mills at Carnegie's Homestead mills have been banked, and two thousand workmen are out. The firm has made extensive arrangements to carry on the war, and will do its best to introduce outside labor and repel all aggression, even if force be necessary to that end. The North Chicago Rolling mills, located at Bay View, have also decided to shut down in preference to accepting the terms of the Amalgamated Association of Iron and Steel Workers. Two thousand men are interested in this lockout. Several other large concerns in the North are expected to follow the same course. The struggle promises, from all existing signs to be long and is already exercising an adverse influence upon Wall street, which is always prompt to respond in matters affecting the generally prosperity of capital and enterprise.

So far, there has been no special inquiry for gold to export this week, and only one or two insignificant parcels have gone out. The shipment of $2,000,000 gold will be in order Saturday, which will bring the total for the week to about $2,625,000. It would appear that the countries in search of gold have about decided to give the United States a rest while directing their attention elsewhere. Thus Russia has during the past few days been attracting gold from London and Paris. It was thought these centers would fight the demand by raising the rate of discount, but so far this method of defending reserves has not been resorted to, the directors of the Bank of England at their last meeting having resolved to maintain the rate at 2 per cent. The fact is the reserves of gold at London, Paris and Berlin, are ample and might be readily reduced without serious detriment to any interest. As a matter of international financial policy, to say nothing of comity, it is scarcely advisable to continue draining gold so extensively from this side.

Silver is weak, owing to the Treasury having completed its purchases for the month. The friends of the white metal who continue their labors before Congress, will be pleased to learn that bimettalism will be made an issue at the forthcoming election of members to the British House of Commons. The question is specially interesting to the manufacturers and workmen in textile fabrics, which are annually shipped in large quantities to India and the other silver using countries of the East. What is asked the other side is a stable par of exchange beween the monies of gold and silver using countries, by means of an international agreement. This is something, but it must not be magnified into anything like an acceptance of the old ratio of twenty years or more ago.

Business on Wall street has been quiet and the tendency is toward lower prices. The earnings of some of the railways have been disappointing, those of the Burlington, for instance, having for the first five months of the current year fallen $900,000 behind dividend requirements. The refusal of Drexel Morgan & Co. to come to the assistance of the Richmond Terminal has also been a set-back for the street. Threats of further litigation have had an adverse influence upon Chicago Gas, which, on Thursday declined sharply.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 67 leading cities for the week ending June 24, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

CITY.	WEEK ENDING JUNE 24, 1892.	WEEK ENDING JUNE 25, 1891.	PER CENTAGES.
New York	$ 625,685,598	$ 532,859,355	Inc 17.4

Totals, Can.	$11,698,816	$10,294,853	

†Not included in totals.

Of the fifty-seven cities of the United States available for purposes of comparison, no less than forty-six show gains, while lower returns are received from but eleven. The total aggregate gain, over the corresponding week of last year, is $174,250,000, or rather better than 18.5 per cent. Of this amount, the Empire city must be credited with $92,726,000, or 17.4 per cent of its separate returns; leaving the gains for outside points as $81,524,000, or an advance of 20 per cent.

Among leading cities, San Francisco once more furnishes the solitary exception to a long list of gains which bears substantial witness to the improved status of business throughout the country. The bank clearings at Chicago improve over 23 per cent beyond those of last year, though falling short of the high mark of the preceeding week, due largely, no doubt, to the diversion of convention days.

The gains are in almost every instance quite substantial. Minneapolis leads the procession with an advance of 59.1 per cent. The great flour city is experiencing quite a boom in its line. Washburn, Pillsbury and other leading millers have as much as they can do to fill the European demand for their choice brands, and have in several instances succeeded in working large lots at advanced rates.

The activity in the marts of the iron industry is presented in the returns from Philadelphia, Pittsburgh and Cleveland, which cities record gains of 40.9 per cent, 13.8 per cent, and 24.3 per cent, respectively. This activity is in a measure traceable to the desire of purchasers to get their orders filled in view of threatened labor troubles that have been for sometime pending. Later advices appear, however, to indicate a strong probability of these troubles being adjusted without resort to a strike. The foundries located at St. Louis and Cincinnati are fully engaged, mostly on heavy castings. The gains at these points are 14 per cent and 21.2 per cent respectively. Milwaukee, another city largely interested in the iron industry and the center of a large trade in boilers and milling machinery, is well to the front, the improvements there being over 29 per cent. The same growth is not evidenced in the returns from the iron centers of the South and Southwest, which continue to send in declining returns, though there are undoubted evidences of improvement even there. It must be remembered that the ironmasters of the South are somewhat handicapped by large stocks of pig iron which have for some time been accumulating. In the North the reserves are also substantial, but, confronted with the prospects of a strike, owners find no difficulty in sustaining prices, relatively at least.

In Massachusetts, the mills are finding better employment, and manufacturers of woolens in particular are having about all they can do. Boston and the adjacent district reports a better condition of the boot and shoe trade, and there is a notable demand for all kinds of rubber goods. The New England States taken as a whole are, however, not much more than holding their own, their aggregate gain being, as will be seen by the table below, but 4.6 per cent over the returns of the corresponding week of last year.

The South still suffers somewhat from the low price of cotton, and matters have not been improved by the recent heavy rains and the consequent flood. Despite these adverse conditions, Baltimore gains 3.8 per cent, and New Orleans almost as much again, viz: 7 per cent.

All points of the Northwest—with the solitary exception of Duluth, which suffers temporary eclipse,

and no more—reflects a condition of considerable prosperity. Much the same remarks hold good as to the Western States, where the record is once more wholly one of improvement, with the solitary exception of Lexington, at which point the decline is somewhat heavy. For those groups the gains are 24.5 per cent and 25.5 per cent, respectively.

Canada improves at Montreal and declines at Halifax. On balance, the gain is $1,404,000, or rather better than 13.6 per cent.

Continuing our analysis for the same weeks, but by groups of states we have:

	WEEK ENDING JUNE 24, 1892.	WEEK ENDING JUNE 25, 1891.	PERCENTAGE.
New Engl'd States.	$101,054,550	$ 96,587,398	Inc 4.6
Middle "	743,229,530	614,684,307	" 20.8
Southern "	32,614,443	31,866,285	" 2.3
Western "	44,777,087	35,637,952	" 25.5
Northwestern "	128,870,236	103,474,951	" 24.5
Southwestern "	38,175,810	32,568,312	" 17.2
Far Western "	24,177,812	23,830,335	" 1.4
Totals,.....	$ 1,112,899,468	$ 938,649,540	

All of the seven groups establish gains, which in four of them are quite marked.

In the Farwestern States the situation is somewhat mixed. And as California has, in its character of leader, been making its complaints somewhat audible of late, a brief glance will be here in place. The returns for this group come from five states or territories, viz: California, Washington, Oregon, Utah and Colorado. As to California: San Francisco continues to decline, in this instance the shrinkage being a trifle over 8 per cent; against this Los Angeles improves. In Washington, which may be regarded as the immediate dependency of California the once fast booming cities of Seattle and Tacoma alike return lower figures. On the other hand, Portland, Oregon, gains 21.5 per cent; Salt Lake City, Utah, gains 37,2 per cent and Denver, Colorado, gains 21.5 per cent. These sharp contrasts may have a meaning not as yet apparent to us who are so far removed. Certain it is, California is not flourishing just now.

PRESERVATION OF NATIONAL BANKING.

The Comptroller of the Currency, in an interview, giyes a strong indorsement of the National banking system. He says:

"In my judgment, the value of the National banking system to the Government has been largely overlooked. While the issue of circulating notes is now reduced to a comparatively small amount, the machinery for issuing them is still in operation, and there is no reason why it should not remain so long as the existing issues of Government bonds are unredeemed. They insure, in my opinion, the continuance of the system, for at least fifteen years, and it may be regarded as in the highest degree probable that during these fifteen years the Government will again become a borrower. If, for instanee, our recent difficulties with Chili or Italy had resulted in extensive war preparations, the Government would of necessity become a borrower. In such an event the Government could have placed $100,000,000 or even a greater amount of 2½ perecnt bonds at par within thirty days without withdrawing any money from the commercial centers. Such an issue would have been immediately taken by the 3,700 National banks of the system and made the basis of note issues, thus increasing the circulating medium without withdrawing any loanable funds needed by the industrial and commecial interests of the country. A loan of $500,000,000 can be placed in this manner with the National banks at any time when the necessity arises, and it can be done in ninety days without disturbing the commercial interests of the country in any way."

This is all well enough, and the past is a complete indorsement of the Comptroller's opinion of the usefulness of the National banks to the Government. But if the system is to depend alone upon the Government bonds, the extinguishing of the bonds means the demise of the system. If the Government would have the banks when it needs them, it should preserve them when it does not need them. By permitting the issue of circultation upon first-class mortgage railroad bonds, as well as Government bonds the banks would always be on hand to help the Government when their help should be needed.

ALABAMA BANKER'S CONVENTION.

The third annual convention of the Banker's Association of Alabama met at Montgomery, June 14, and discussed the following subjects: "Gambling in Futures," "Usury Legislation," "Grace," alleged "Depressed Condition of the South," "The Currency of the Future," "Silver," "Reciprocal Accounts," and a good deal about finances in general.

On the subject of "Futures" a speaker expressed himself as follows:

"I have a powerfully poor opinion of the judgment of any man or woman who gambles either at poker or futures, but of the two forms I prefer poker, as the lesser evil. Only so long as the other fellow can see your pile will he risk his, and when your portable and personal belongings cease to be visible to the naked eye he quits, and so do you. At futures, it being generally based on a sale of something one has not, and never expects to have, to a buyer, who never expects to get what really does not exist, and isn't expected to exist, it's mighty easy to lose all in sight and in futures, thus securing present ruin and future damnation. I have diligently searched the Scripture without finding where it is forbidden to lose or gain by wager or lot; so that my opinions on this subject are not based on Scriptural prohibition. Yet it is strange the only difference between poker and futures is that in the latter you maintain your church relations, but in the former you cannot. As a banker, I will not knowingly credit a man who plays either, so that I can not consistently antagonize the proposed legislation to defeat which you ask my co-operation. I have never enjoyed getting another man's money for nothing, and still less do I enjoy another fellow getting mine without a quid pro quo; although, before I became a banker, thus a trustee having control of other people's money, I had experienee, both in losing and winning at small games of 'draw;' and as a boy I was somewhat remarkable at marbles in playing for keeps. I am what may be called 'a man of the world,' so far as temperate and acute enjoyment of the many beautiful things this world contains, may describe that kind of man; but I have a horror of speculation and gambling, simply on business principles, and the strong faith I have of the harm they do and the ruin they work. Entertaining these principles, you must pardon me for not assisting you in this matter. As to the propriety of this or any other 'paternal' legislation like the Inter-State Commerce, Oleomargarine, Pure Food and other laws, I am very doubtful, but that something should be done to regulate and control future sales so as to eliminate, as far as possible, the many evil features thereof, I think all men will agree."

The same speaker has the following to say about "Reciprocal Accounts."

"Every bank has some dealer who rides it. Instead of throwing the dealer, the bank unloads him on its neighbors, and thinks it all right. The scriptural injunction to 'bear each other's burdens,' has no place where pure unadulterated selfishness is the controlling principle. If any bank desires to work for nothing, let not that desire be balked; but for dencency's sake—don't reach out among the brethern and force them to share the loss. How many of us have felt a desire to throw a brick when asked to 'remit exchange at par, or send curreney by express?' I for one think 'reciproeal accounts' a delusion and snare. Those who favor them are generally the fellows who accumulate a thousand or so and then send a check to Louisville, Nashville or Montgomery, which invariably comes through the 'other bank,' and the reciprocity of the thing you can't find with a mieroseope. I do not believe the banks of our association should ever call, directly or indirectly, for service from each other without compensation; hence, I suggest that our balances with each other be always called for in exchange, never by express, and that it be regarded as unprofessional for anything to be said about rates. When we learn how to treat each other then it will be much easier to teach our dealers how to treat us; and the day will come, which I have devoutly prayed for, when there are no additions to the number of those banks who do business for glory, pay interest on deposits and have an infinite number of 'par points.'"

Under the head of "Delights and Disgusts of Banking," a speaker remarked as follows:

"In allotting this subject to me, the Executive Committe made a terrible blunder, for to do justice to such a theme would require the wit and humor of a Mark Twain, a Bill Nye or an M. Quad, while I have never been accused, even by my most intimate friends of having in me a single vein of of humor. There are so many disgusts and so few delights in banking that this paper will in the main, treat of the disgusts, leaving it to our friend, Mr. Rison, of Huntsville, to enlarge upon the delights. He has had so many years experience as a banker, that I have no doubt it will be a comparatively easy task for him to enumerate many of its pleasures, which have come to him in the course of a long and prosperous career.

"To the average observer, the banker appears to have as much of a sinecure as the Irishman who came to this country, and on his return informed his inquiring friends that he had found a delightfully easy place in America, where he had nothing to do but take brick and mortar to the top of a three-story building, where there were plenty of other men who did all the work. The average citizen has never endured any of the agonies which the poor banker experiences in his disturbed slumbers, when he rolls and tosses during the long nights on his virtuous couch, and sees in his dreams, bills payable, bills receivable, protested drafts, dishonored papers, depreciated bonds; frozen out stocks, past due mortgages, all assuming the shapes of so many fiends incarnate with blazing eyes and tiger claws, ready to pounce upon him and tear him to atoms and then devour him. Nor has the majority of mankind experienced the feelings which comes to him, when after a restless night, the poor banker wends his weary way to the banking house and there finds more disgusts in the shape of protested items, returned drafts par point collection items, complaints for non-reporting, miscarried mail and other complaints too numerous to mention. Nor has the average mortal experienced the disgust of the banker who endeavors to find plausible excuses for the refusal to comply with the vaious requests, demands, and applications made upon him.

"First, there is a man with a most captivating tale, who wants his paper discounted and if you refuse him, he wants you to give a reason or explanation, and sometimes you are placed in the position of a friend of mine from Tennesseee. One day an old neighbor of his, old Bill Jones, called and wanted to get his $500 paper discounted. The banker told him he would refer it to the directors, and to call again tomorrow. Bill called on each one of the directors personally, and each assured him he should have the accommodation. The paper was referred to the directors, who concluded after they come together, that they would refuse the loan. So when Bill called the next day the banker informed him, that while all the directors respected him and thought very highly of him personally, still as a bank, they could not see their way clear to grant his request. To this Bill replied saying to the banker, that he could tell the directors for him, that while he respected them all, and thought very highly of them personally, as a bank, he thought they were a set of damn liars."

FREE COINAGE OF SILVER.

Mr. J. H. Fitts read the following on the subject of "Free Coinage of Silver":

"The silver question has been a subject of discussion for the last twenty years. It has been continuously agitated and discussed by our statemen and politicians for the past ten years, theorized upon and phophesied about. Every possible measure has been proposed and every sort of solution suggested; so that it would hardly be an over statement to assert that it would be impossible for any one to present any valuable original ideas upon the subject. Firmly impressed with this belief, I shall attempt nothing original, but content myself with the presentation of the views which others have expressed, in some instances, even adopting the language used. Regarding the satisfactory solution of the silver question as the great practical problem of the age, I shall not undertake, to entertain you with a learned disquisition on the history of silver, nor discuss the antiquity of its use as money extending back 2000 years B. C., but shall content myself with a few practical suggestions on the present unfortunate financial situation, and then present to you the only remedy in my opinion, which ean prevent untold financial troubles, or restore confidence in trade throughout the commercial world. It is claimed by the advocates of free and unlimited coinage that our government is sufficiently powerful and rich enough to do whatever we please in this matter; that we can open our mints to silver and defy the world. I have a high appreciation of the power and wealth of the United States, and in the full realization of all her strenght and riches, I boldly maintain that she could not long retain her present aseendency among the nations of the earth after the adoption by her of free and unlimited silver coinage, at the ratio of 16 to 1, in defiance of the rest of the world. That the United States has the ability to open her mints to the free coinage of silver, if she is sufficiently reckless of results to do so, will be made perfectly apparent from a consideration of the following facts:

"On the first day of October last, the United States had stored in the Treasury vaults at Washington, 327,000,000 ounnces of coin and bar silver, with 188,000,000 in circulation, making a total of 515,000,000 ounces of potential silver coin, full legal tender at 16 to 1, $1.29 per ounce. All other nations combined had 2,300,000,000 ounces stored in eoinage as full legal tenders at 15 to 15½ to 1, being $1.33 per ounee. Now the highest estimate of the balance of the uncoined silver in the world at the time was $70,000,000 while the silver dollars in the Treasury at the same date, amounted to $348,341,193—enough to have redeemed all the uncoined silver in the world, four times over, at $1.29 per ounce. Had this been done

it would have brought the value of uncoined or bar silver, the world over to $1.29 per ounce. The coined silver of the other nations being stored at $1.33 per ounce, our stock of silver would continually increase by the amount to be stored or coined yearly, for no other country would offer to redeem any at $1.33. Free coinage by the United States at 16 to 1 would have been established, but it would have been simply postponing the day when the United States must fight the rest of the world. The time is near at hand—and free coinage at 16 to 1 merely delays it—when either the other nations of the world must coin their silver at 16 to 1, or the United States must recoin our silver at 15½ to 1. Can any one imagine all the the nations of the earth, at the dictation of the United States, will remodel their financial system by recoining their silver, and thus paralyze their business relations for several years."

After discussing everything appertaining to conservative banking and some of the political issues of the day during a two days session, the convention adjourned sine die.

IOWA BANKERS' ASSOCIATION.

The sixth annual convention of the Iowa Bankers' Association was held at Davenport on June 14 and 15. The Hon. Jno. C Bills, mayor of Davenport supplemented his address of welcome with the following criticism of our system of banking:

"Whatever criticisms may be made upon our present system of banking, I think it must be admitted that, so far, it has served us most admirably. But eventually the time is near when there must be a change, when the Federal Government will retire from the banking business. The $2,900,000,000 of government bonds, outstanding at the close of the war, are nearly paid off, and the people will not consent to a new debt being contracted for the purpose of furnishing a basis for the issue of a National currency. The discriminating Federal tax on the issues of State banks, will be repealed; and every State in the Union will be struggling with the problem of a circulating medium. I hope the bankers of Iowa may be equal to the emergency. You have made this subject the study of your lives, and constitute the most competent class to deal with it. My observation is, that those who are the most anxious to tinker with the financial affairs of the country, are those who know the least about them. The subject is a deep and intricate one, and requires for its solution the very best ability and the broadest study and experience. This is why the able and honest banker is conservative. He knows something of the subject, and is the best friend of the people. The banker who flies financial kites and gambles with the money of his depositor, may catch more of the popular applause but he is the dangerous enemy of those who flatter him."

Mr. J. K. Deming of Dubuque followed the mayor with the following remarks on

MODERN METHODS OF DOING BUSINESS.

"The old Utopian theory that depositors were under obligations to their bankers for taking care of their money, has long ago been consigned to the companionship of bagwigs, knickerbockers and snuff, and competition has stepped in to remove the glamour from the profession and to expose to the world its possibilities or profit. And so a class of business which at one time drifted along in established channels, is now being manœuvered by enterprising and shrewd solicitors, and banking has become a mercantile pursuit, side by side with jobbing and trading, subject to the same vicissitudes of business and dependent upon similar means for support. Banks no longer obtain deposits by inheritance of preferment only, but by a certain amount of urging and solicitation which custom has at last determined to be a legitimate factor of business; and this is especially noticeable in the West, where bankers young and old, in the struggle for patronage and custom, make use of every means in their power to attract the attention of the public and win the deposit of those who, from recent settlement or from sudden aquisition of wealth, have not established their banking connections.

It is of the means used in soliciting business that I wish to speak; the very questionable encroachments upon old, conservative, dignified banking; the very doubtful future of a constantly increasing effort to obtain new business at a sacrifice of profit; in fact, the excesses which have crept into this modern spirit of progressive banking. And to begin with, let us look at our methods of advertising. First, the local papers must have the regulation cards stuck away in some corner of an inside page, all of the banks of the town bunched together, with the invariable reiteration of capital, surplus, officers and directors, and perhaps some stereotyped phrase, "banking business transacted," or "accounts a specialty." Next a hit-or-miss distribution is made of prominent type-lines, display cards, marginal pointers, etc., among more or less of the innumerable bank directories, journals and magazines, many of which are issued for no other purpose than for the revenue obtainable from advertising. Then come statement cards, circulars, par lists, calendars, memorandum books, blotters, pencils, purses and the various other articles used as means of advertising. Among all these, the enterprising banker must select such as will best serve his purpose, and how injudicious many of these selections are made is shown in the overloaded advertising columns of some of our banking journals and the overloaded waste-baskets filled with circulars, calendars, etc. The opportunity for self-glorification is often the temptation which leads the young bank manager to spread in bold-faced type the name of his bank, himself and his brother officers; and the heavier the type and the more journals he can appear in, the more confident he is that an admiring public will appreciate his ability as a financier and banker. This man is the best friend of the advertising solicitor, and his career culminates in a wood-cut portrait of himself with a biographical sketch, all at an expense to his institution of four or five hundred dollars.

The successful angler is not he who makes the most noise nor is it he who has the largest hook, but he who makes a judicious selection of a spot in which to drop an attractive bait. The Kansas banker who sows circulars among the banks of Maine, urging them to "send collections on Spillville Way Station to the Spillville Importers and Farmers' Bank," will hardly get his seed back, for long before a Spillville collection will have found its way into a Maine bank, the Kansas circular will have gone to feed the ever-hungry waste-basket, and even the memory thereof will have passed into oblivion. I will venture the assertion that four-fifths of the Western items of New England banks are passed over to Boston or New York banks without reference to any directory or other advertising medium, while the metropolitan banks in turn, distribute the paper among their agencies already established by regular or reciprocal correspondence.

ADVERTISING A NECESSITY OF BANKING.

Advertising has become almost a necessity of banking, as well as of other branches of business, and the term is synonymous with enterprise; but the indiscriminate methods adopted by some bank advertisers seem to be without definite purpose and certainly without prospect of sufficient return. As a warrior hangs out his banner on his walls a merchant hangs out his sign, and offers to the world the wares which he has in stock; and so, with the same end in view, the banker coming before the public for its patronage must make himself known through a judicious distribution of printers' ink; not in journals of large circulation only, but in those which will reach the territory most naturally tributary to him. There are a few bank directories and a few bank magazines which have a national circulation and in which it is well for any bank to be represented by an advertisement proportionate in space and prominence to importance of the locality in which it (the bank) is situated; but alongside of these there are numerous so-called magazines and periodicals, ostensibly devoted to financial news and information, but really published for no other purpose than to entrap the uninitiated advertiser, and whose circulation is for the most part stamped "sample copy." Contributions to this last class of publications are sure to fail of adequate returns.

In all advertising, much depends upon the attractiveness of the reading matter offered, and this is particularly true in the composition of the numerous circulars issued periodically by banks. It is a foregone conclusion that in a majority of cases the circular will go into the waste basket before night; but if it can only be kept in sight long enough to win the attentive perusal of some one, then there is a chance that it will do some good; and to obtain this taxes all the inventive genius of the solicitous bank manager.

The step from one form of advertising to another is so easy that before one knows it he is launched into all sorts of unnatural, foolish and extravagant schemes. The easy grade from doorplates to signboards, from newspaper "ads" to mail circulars, from calendars to purses and pocketbooks, from par lists to free exchange, will bring us what? Office furniture with embossed advertisements? Burglar-proof safes with "compliments of yours, truly?" Shades of Alexander Hamilton! What is to become of our once exclusive and dignified profession?

But of all the evils of bank soliciting, the greatest yet remains to be told. It is no prophetic image of the future; it is here now. Its ghastly features are met in every bank examination; its deadly effects are seen in every bank failure. When I approach the subject of interest on deposits, I feel that I have taken up too much time in discussing the more trivial matter of advertising, and that the limits of this article will not afford room for adequate discussion of this, the most vexing feature of modern American banking. As I stated in the beginning of this paper, we have long ago given up the old vantage ground of our profession and have yielded to the demand of our depositors that they share in the profits which we make out of the funds which they leave with us; but this concession has been forced out of us by competition and not upon any well-considered or well-defined basis. To a certain extent the rate paid bears a close relation to the rate charged, and the natural inference of the public is that the margin of profit is positive. But this is not so; for, whereas the demand for money by borrowers fluctuates with the necessities of trade and the seasons, and there is a consequent variation in discount rates; the rate paid in deposits is, under our American system, practically a fixture the year round. Until recently, Western bankers were able to maintain their loaning rates regardless of the depression of the Eastern markets, but now there has arisen an element which wages constant war on established rates. It is the festive note-broker who, with his eastern capital, steps in to disturb the harmonious relations between banker and borrower, and just at a time when there seems to be an opportunity to dispose of idle funds at a profitable rate, the banker is confronted with the alternative of cutting his rate or seeing his loans go to outside dealers. If, as it appears, the payment of interest on deposits is an established factor of business, then is it not time that it should be regulated by the same law which regulates the rate of interest charged on loans, viz: the law of supply and demand? The recent controversy among the banks in Philadelphia, over the rate of interest that should be allowed upon the balances of the city treasury, brought forth the statement from one bank that, after careful computation, they had demonstrated to their satisfaction that the payment of 2 per cent on these balances would result in a positive loss to the bank. In the face of this, reputable banks in Boston and Chicago have been openly offering 2½ per cent on daily balances without reserve. In the struggle for supremacy in deposits or in statement footings, bankers are shutting their eyes to the real object of business, viz.: the legitimate accumulation of profit on capital. I will not take time to refer to the dangers which are bound to result from these methods—the subordination of security to rate, the forcing of loans upon insecure lines in order to dispose of the large amount of interest-bearing deposits which inevitably accumulate during periods of stagnation. The experience of the past three months of depression in the loan market is fresh in our minds; the inevitable results of it will appear later on in the final settlement of weak loans. But before hanging out a signal of distress, let us first see if there is not a way to prevent this undermining of our citadel of trust. Some banks in Germany and in other European countries have tried to meet this difficulty by a periodical bulletin giving the rate of interest paid on balances and the rate of interest charged on loans, and these two rates follow a rising or falling scale, keeping side by side with but a slight variation from an absolute parallel. The operation of this system would seem to give a positive basis of profit. The directors of a bank at a time of active demand, advance the rate of interest to be charged on loans and at the same time increase in proportion the rate paid on balances, thereby retaining old deposits and adding new at a time of possible stringency. As long as the market will stand the rate on loans, the depositors will share in the advanced profit. On the other hand, during a slack market there is a depression in the rate obtainable and a consequent reduction in the rate paid on balances. This may result in a withdrawal of deposits, but obviously the situation is improved thereby, and the conditions would seem to be so nicely adjusted that but little change is made in balances, depositors submitting to the reduction, knowing the condition of the loan market and aware that the action of the bank is an indication of strength rather than weakness. But it is clear that such a system as this can be carried out only through the united policy of all competing banks of the particular locality.

The modern practice of free collection and the passing of country items at par, which has lately grown to be such an incubus, have been discussed at every meeting of this Association and with good reasons too, and it is not necessary for me at this time to condemn it. It is a curse that has come upon us as a result of too zealous efforts to increase our lines of deposits, and is one of the brood born of competition. In some localities banks have taken the matter in hand and have established inflexible charges, but in this case as in the other it will take the united action of the leading banks of the country to effect a permanent cure. While other lines of trade are combining and uniting, froming trusts and pooling gains, banking is staggering along under a load of incongruous difficulties. Subjected to the most inquisitive censorship, and governed by stringent laws for the protection of her customers, she deliberately cheats herself, and stands in a false position before the public.

A number of able and fluent speakers discussed the various questions now agitating the minds of the bankers of the country and the politico-economic aspect of the situation. Mr. B. H. Kaufmann of Des Moines, Ia, read an extensive and able paper on "Modern Legislative Tendencies," which is omitted here.

A lengthy paper was also read by Mr. W. T. Fenton of Chicago, on "Iowa—Her Reserve," at the conclusion of which the nominating committees made their reports and officers were elected for the ensuing year. At the close a banquet was given in which many of the leading men of Iowa and other invited guests participated
